31-1-102. Application - legislative intent. Except for those provisions which expressly apply only to limited categories of municipalities, it is the intent of the general assembly that the provisions of this title shall apply to home rule municipalities except insofar as superseded by charter or ordinance passed pursuant to such charter and to all statutory cities and towns and shall be available to special territorial charter cities and towns unless in conflict with the charters thereof. The general assembly further declares that in the recodification of this title and in the use of the term "municipality" in this title there is no legislative intent to affect or modify the application of the provisions of this title with respect to preemption of home rule or special territorial charter powers, which preemption may or may not have existed on the effective date of this recodification (July 1, 1975). The use of the term "municipality" in future additions or amendments to this title shall not in and of itself create a presumption for or against preemption of home rule or special territorial charter powers.

(2) Where any power is granted in this title to a specific municipal official or group of officials, that power may be exercised within any home rule municipality by the officials, to the extent and in the manner, designated in the particular home rule charter or ordinance passed pursuant to such charter.

31-1-204. Change of classification - towns - notice - effect on officeholders - options prior to reorganization - terms of office - election dates. (1) The governor and secretary of state, within six months after the returns of any United States census have been filed in the office of the secretary of state, or within thirty days after the returns of the enumeration of the inhabitants of any town taken under and by authority of any town ordinance or resolution adopted by the board of trustees of such town have been filed in the office of the secretary of state, shall ascertain which towns are entitled to become cities. The governor shall cause a statement thereof to be prepared by the secretary of state, which statement shall be published in some newspaper published at the state capital and also in some newspaper, if there is one, printed in each of the towns entitled to such change in classification. A copy of such statement shall be transmitted by the secretary of state to the mayors of said towns and to the next general assembly.

(2) Every such town may proceed at any subsequent regular town election held not sooner than ninety days after the date of the statement's receipt by the mayor, to organize according to the new classification available to it by the election of officers properly belonging thereto. No change of classification, nor the organization of the town into a city in accordance with this section, shall cause the removal from office of any member of the governing body of such town whose term of office has not expired.

(3) Notwithstanding the provisions of sections 31-4-105 and 31-4-107 (4), prior to any election to reorganize to a statutory city under part 1 of article 4 of this title, the governing body of the town may adopt an ordinance providing for the continued appointment of the clerk and treasurer by the governing body. If such an ordinance is repealed, the clerk and treasurer positions shall then be elective offices until changed pursuant to section 31-4-107 (4).

(4) Notwithstanding the provisions of part 2 of article 4 of this title, prior to any election to reorganize, the governing body may conduct an election under the provisions of part 2 of article 4 of this title to determine whether the town should reorganize directly into a city council-city manager form of government. If the voters vote to reorganize in such a manner, the town's form of government shall remain unchanged until the reorganization election at which time the town shall reorganize into a city council-city manager form of government. For the purpose of section 31-4-204 (1), laws of the state applicable to cities and not inconsistent with this part 2 or with part 2 of article 4 of this title shall apply to and govern the town after its reorganization into a city council-city manager form of government.

(5) Notwithstanding the provisions of sections 31-4-104, 31-4-105, 31-4-106, and 31-4-205, prior to any reorganization election, the governing body of the town may adopt an ordinance establishing the number of members to be on the city council after reorganization, which number shall not be less than six, and providing that all members shall be elected from the city at large. If such an ordinance is repealed, the members of the council shall be elected according to the provisions of part 1 or part 2 of article 4 of this title, whichever is applicable.

(6) Notwithstanding the provisions of sections 31-4-105 and 31-4-205 (1), if four-year overlapping terms for the mayor and trustees or any other elective officer were established prior to the reorganization election, such terms shall continue after reorganization for the mayor and council members and any other elective city office until changed pursuant to section 31-4-107 (3) or 31-4-205 (3).

(7) In conformity with the provisions of section 31-1-101 (10), the regular election date for towns reorganizing into cities shall remain, after reorganization, the first Tuesday of April in each even-numbered year unless a majority of the registered electors of the city voting on the question have voted to hold the regular election of the city on a different date pursuant to section 31-10-109 (1), in which case the regular election date of the city shall mean, for such city, the date on which the regular election of officers takes place as determined by the registered electors of the city. Notwithstanding the provisions of section 31-10-109 (1), after reorganization, the governing body of the city may by ordinance establish its regular election date on the Tuesday succeeding the first Monday of November in each odd-numbered year, and may include in such ordinance any alteration in the term of office of officials subsequently elected which may be necessary to accomplish the change in election dates in an orderly manner. In no event shall such ordinance shorten the term of any elected official in office at the time of its adoption.

31-1-205. Organization after change. As soon as the statement is published, as provided in section 31-1-204, showing that any town is entitled to be organized into a city, the proper authorities of such town may adopt and publish such ordinances as may be necessary to perfect such organization with respect to the election, duties, and compensation of officers and with respect to all other necessary matters. If it appears that a city is entitled to change its classification to that of a town, the governor shall cause a statement thereof to be prepared by the secretary of state, which

statement shall be published in some newspaper published at the state capital and also in some newspaper, if there is one, printed in the city involved.

(2) A copy of such statement shall be transmitted by the secretary of state to the mayor of said city and to the next general assembly; and every such city, at any subsequent city regular election held not sooner than ninety days after the date of the statement's receipt by the mayor, may proceed to organize according to the new classification available to it by the election of officers properly belonging thereto. No change of classification, nor the organization of the city into a town in accordance with this section and section 31-1-207, shall cause the removal from office of any member of the governing body of such city whose term of office has not expired; all such members shall continue to be members of the governing body of the newly classified town for their respective terms of office.

(3) Notwithstanding the provisions of section 31-4-301 (2) and (5), if four-year overlapping terms for the mayor and council members or any other elective officer were established prior to the reorganization election, such terms shall continue after reorganization for the mayor and trustees and any other elective town office until changed pursuant to section 31-4-301 (5).

(4) In conformity with the provisions of section 31-1-101 (10), the regular election date for cities reorganizing into towns shall remain, after reorganization as a town, the Tuesday succeeding the first Monday of November in each odd-numbered year unless a majority of the registered electors of the town voting on the question have voted to hold the regular election of the town on a different date pursuant to section 31-10-109 (1), in which case the regular election date of the city shall mean, for any particular municipality, the date on which the regular election of officers takes place as determined by the registered electors of the municipality.

At the time of the filing of said petition, the petitioners shall file a bond, in an amount to be determined and approved by the court, to cover the expenses connected with the proceedings in case the incorporation is not effected. In no case shall there be incorporated in such city or town any undivided tract of land consisting of forty or more acres lying within the proposed limits of such city or town without the consent of the owners thereof.

(1.5) The petition may include a request for submission to the electors of the proposed municipality at the incorporation election of any matter permitted to be submitted at the election pursuant to section 31-2-102 (1.5).

(2) No such petition shall be filed where any portion of the boundaries of the proposed city or town is within one mile from the boundaries of any existing municipality, unless the territory proposed to be included within such city or town is composed of three hundred twenty acres or more.

(2.5) (a) In addition to any other notice that may be required under this part 1, whenever the number of registered electors within the area that is the subject of a petition filed pursuant to subsection (1) of this section is less than two thousand five hundred persons, notice of the filing of the petition shall be sent by first-class mail to each person owning real property within the area at the address shown for such owner in the records of the county assessor's office. The cost of mailing the notice required by this paragraph (a) shall be borne by the petitioners.

(b) The notice required by paragraph (a) of this subsection (2.5) shall include the name, address, and telephone number of a contact person who is able to provide information on the petition to the public, the case number of the civil action concerning the petition, and the district court in which the petition is filed. The notice shall also inform the property owner that, if he or she would like to obtain a copy of the petition, the property owner shall submit to the contact person a request for a copy of the petition along with the payment of a fee. (I) The proposed area of incorporation has an average of at least fifty registered electors residing within the boundaries of the proposed area of incorporation for each square mile of area.

(II) Repealed.

(III) (Repeal provision deleted by revision.)

(b) (I) If the proposed area of incorporation has fewer than five hundred registered electors residing therein, a public hearing shall be held before the board of county commissioners to consider whether the petitioners may hold an incorporation election. Thirty days' notice of the time and place of such hearing shall be given by one publication thereof in a newspaper of general circulation in the county.

(II) After public hearing, the board of county commissioners may refuse to permit the incorporation election to be held if the board finds upon satisfactory evidence that:

(A) Any of the criteria set forth for special districts in section 32-1-203 (2), C.R.S., exist with respect to the area proposed for incorporation;

(B) Annexation to a nearby municipality would avoid unnecessary duplication of the services referred to in sub-subparagraph (A) of this subparagraph (II); and

(C) The proposed incorporation is inconsistent with any applicable county or regional comprehensive plan.

(III) If the proposed area of incorporation includes more than one county, the board of county commissioners of each county included may meet and devise a procedure for a joint hearing to determine whether the petitioners may hold an incorporation election.

(4) If, at any time between the filing of a petition pursuant to this section and not less than ten days prior to the date of the election thereon, there is filed with the court any subsequent petition which meets the requirements of this part 1 and which embraces any of the territory embraced in the initial petition calling for such election, the court may order that all such proposals contained in the said petitions filed with the court be submitted to the registered electors of the territories embraced by such petitions, to be voted on at one election, in the alternative. The court may order the rescission of any prior call of an election, discharge any commissioners previously appointed, and order the appointment of a new commission to call the election on all such proposals, or the court may order the inclusion of the subsequent proposals in the call of an election by the originally appointed commissioners.

(1) If the district court finds and determines that the territory described in the petition and the petition itself meet the requirements of this part 1, it shall appoint not less than five nor more than nine commissioners, who shall be registered electors residing within the territory described in the petition. Each commissioner, within ten days after his appointment, shall signify by affidavit to the court his intent to serve as commissioner. The commissioners shall hold a meeting within ten days after their acceptance and shall elect a chairman and such other officers as they may determine advisable to assist them in the performance of their duties. A majority of the commissioners appointed shall constitute a quorum at any meeting for the purpose of carrying out their legal duties. Such commissioners, within ten days following their acceptance, by resolution setting the date and time therefor, shall call an election of all the registered electors residing within the territory embraced within said territory, such election to be held not later than ninety days after the date of the call thereof, except as provided in this section. The chairman or other officer of the commissioners shall promptly report to the court, by affidavit, the provisions of the call for election.

(1.5) At any election for the incorporation of a new municipality, the commissioners shall also place upon the ballot any local government matters arising under section 20 of article X of the state constitution, as defined in section 1-41-103 (4), C.R.S., as applied to the new municipality, if the petition filed pursuant to section 31-2-101 requests that such matters be submitted at the incorporation election. Notwithstanding the provisions of subsection (5) of this section, any incorporation election at which a local government matter arising under section 20 of article X of the state constitution is submitted shall be conducted at the time and in the manner required by section 20 of article X of the state constitution.

(2) The commissioners shall establish one or more precincts within said limits and shall designate one polling place for each precinct. The precincts shall consist of one or more whole general election precincts wherever practicable. The chairman shall forthwith certify the precinct boundaries to the county clerk and recorder of the county in which such territory is located. The county clerk and recorder shall prepare a registration list for each precinct in the manner provided in the "Colorado Municipal Election Code of 1965".

territory for the time prescribed in this subsection (1) shall be deemed to have met the residence requirements for the town to which the territory was annexed.

(2) At the regular election, there shall be elected a mayor for a term of two years and six trustees for terms of two years. Such election shall be conducted in accordance with the provisions of the "Colorado Municipal Election Code of 1965".

(3) All officers elected under this section shall hold their offices until their successors are elected and have complied with section 31-4-401, and four members of said board of trustees shall constitute a quorum for the transaction of business.

(4) The mayor and members of the board of trustees shall receive such compensation as fixed by ordinance.

(5) The board of trustees may provide by ordinance for four-year overlapping terms of office for trustees. The ordinance may also provide for four-year terms for the mayor and any officers elected pursuant to section 31-4-304. The board of trustees may reinstate the two-year terms provided for in subsection (2) of this section by ordinance. Any ordinance passed pursuant to this subsection (5) shall be enacted at least one hundred eighty days before the next regular election and is subject, notwithstanding an emergency declaration, to referendum if the referendum is brought pursuant to section 31-11-105 or pursuant to an applicable municipal ordinance enacted in accordance with section 1 of article V of the state constitution. (3) Such election may be held in connection with any regular or special election. In the event that the issue is approved at the election, three members of the board of trustees shall constitute a quorum for the transaction of business, and the legislative and corporate authority of the town shall be vested in the board of trustees consisting of one mayor and four trustees. 31-4-502. Procedure - petition - signatures. (1) The procedure to effect the recall of an elective officer of a municipality shall be as follows:

(a) (I) A petition containing the requisite number of signatures under paragraph (d) of this subsection (1) shall be filed in the office of the municipal clerk, demanding an election of a successor to the officer named in the petition. Each petition shall designate by name and address not less than three nor more than five persons, referred to in this section as the "committee", who shall represent the signers thereof in all matters affecting the same. The petition shall clearly indicate the name of the municipality and the name of the officer sought to be recalled. The petition shall include the name of only one person to be recalled. The petition shall contain a general statement, in not more than two hundred words, of the grounds on which the recall is sought, which statement shall be intended for the information of the electors of the municipality. Such electors shall be the sole and exclusive judges of the legality, reasonableness, and sufficiency of the grounds assigned for recall, and said grounds shall not be open to review.

(II) The signatures to a recall petition need not all be on one sheet of paper. At the top of each page shall be printed, in bold-faced type, the following:

WARNING:

IT IS AGAINST THE LAW:

For anyone to sign this petition with any name other than one's own or to knowingly sign one's name more than once for the same measure or to sign such petition when not a registered elector.

Do not sign this petition unless you are a registered elector. To be a registered elector, you must be a citizen of Colorado and registered to vote in (name of municipality).

Do not sign this petition unless you have read or have had read to you the proposed measure in its entirety and understand its meaning.

(b) Directly following the warning in paragraph (a) of this subsection (1) shall be printed in bold-faced type the following:

Petition to recall (name of person sought to be recalled) from the office of (title of office).

(c) No recall petition shall be circulated until it has been approved as meeting the requirements of this section as to form. The clerk shall approve or disapprove a petition as to form by the close of the second business day following submission of the proposed petition. The clerk shall mail written notice of such clerk's action to the officer sought to be recalled on the day that any such petition is approved.

(d) The petition shall be signed by registered electors entitled to vote for a successor of the incumbent sought to be recalled equal in number to twenty-five percent of the entire vote cast for all the candidates for that particular office at the last preceding regular election held in the municipality. If more than one person is required by law to be elected to fill the office of which the person sought to be recalled is an incumbent, then the recall petition shall be signed by registered electors entitled to vote for a successor to the incumbent sought to be recalled equal in number to twenty-five percent of the entire vote cast at the last preceding regular election held in the municipality for all candidates for the office to which the incumbent sought to be recalled was elected as one of the officers thereof, such entire vote being divided by the number of all officers elected to such office at the last preceding regular election held in the municipality.

31-4-503. Petition in sections - signing - affidavit - review - tampering with petition.

(1) Any recall petition may be circulated and signed in sections, but each section shall contain a full and accurate copy of the title and text of the petition.

(2) (a) The signatures need not all be on one sheet of paper. All such recall petitions shall be filed in the office of the municipal clerk within sixty days from the date on which the municipal clerk approves the petition as to form.

(b) Any recall petition shall be signed only by registered electors using their own signatures, after which each such elector shall print or, if such elector is unable to do so, shall cause to be printed such elector's legal name; the residence address of such person, including the street and number, if any; and the date of signing the same.

(c) To each such petition or section thereof shall be attached an affidavit of the person who circulated the petition stating the affiant's address, that the affiant is eighteen years of age or older, that the affiant circulated the said petition, that the affiant made no misrepresentation of the purpose of such petition to any signer of the petition, that each signature on the petition was affixed in the affiant's presence, that each signature on the petition is the signature of the person

whose name it purports to be, that to the best of the knowledge and belief of the affiant each of the persons signing said petition was at the time of signing a registered elector, and that the affiant neither has paid nor shall pay and that the affiant believes that no other person has so paid or shall pay, directly or indirectly, any money or other thing of value to any signer for the purpose of inducing or causing such signer to sign such petition.

(d) Any disassembly of the petition which has the effect of separating the affidavits from the signatures shall render the petition invalid and of no force and effect.

(3) (a) The municipal clerk shall issue a written determination that a recall petition is sufficient or not sufficient by the close of business on the fifth business day after such petition is filed or, if such day is not a regular business day, on the first regular business day thereafter, unless a protest has been filed prior to that date. The clerk shall forthwith mail a copy of such written determination to the officer sought to be recalled and to the committee. Any such petition shall be deemed sufficient if the municipal clerk determines that it was timely filed, has attached thereto the required affidavits, and was signed by the requisite number of registered electors of the municipality within sixty days following the date upon which the clerk approved the form of the petition. The clerk shall not remove the signature of an elector from the petition after such petition is filed. If a petition is determined by the clerk to be not sufficient, the clerk shall identify those portions of the petition that are not sufficient and the reasons therefor.

(b) A protest in writing under oath may be filed in the office of the municipal clerk by some registered elector who resides in the municipality within fifteen days after such petition is filed setting forth specifically the grounds of such protest. Grounds for protest may include, but shall not be limited to, the failure of any portion of a petition or circulator affidavit or petition circulator to meet the requirements of this section. The municipal clerk shall mail a copy of such protest to the officer named in the petition, to the committee named in the petition as representing the signers of the petition, and to the county clerk and recorder, together with a notice fixing a time for hearing such protest not less than five nor more than ten days after such notice is mailed. The county clerk and recorder shall, upon receipt of such notice, prepare a registration list pursuant to section 31-10-205 to be utilized in determining whether such petition is sufficient. Every hearing shall be before the municipal clerk with whom such protest is filed, who shall serve as hearing officer unless some other person is designated by the governing body as the hearing officer, and the testimony in every such hearing shall be under oath. The hearing officer shall have the power to issue subpoenas and compel the attendance of witnesses. Such a hearing shall be summary and not subject to delay and shall be concluded within thirty days after such petition is filed. No later than five days after the conclusion of the hearing, the hearing officer shall issue a written determination of whether the petition is sufficient or not sufficient. If the hearing officer determines that a petition is not sufficient, the hearing officer shall identify those portions of the petition that are not sufficient and the reasons for the insufficiency. The result of such a hearing shall be forthwith certified to the committee and the officer sought to be recalled.

(c) In case the recall petition is not sufficient, it may be withdrawn by a majority of the committee and, within fifteen days after the municipal clerk or hearing officer issues a written determination that the petition is not sufficient, may be amended by the addition of any required information relating to the signers thereof or the attachment of proper circulator affidavits and refiled as an original petition; except that any petition amended and refiled as provided in this paragraph (c) may not again be withdrawn and refiled. The municipal clerk shall issue a written

determination that such refiled petition is sufficient or not sufficient within four business days after said petition is filed. Any protest concerning the refiled petition shall be filed within five business days of the date on which such petition was refiled, and any hearing shall be conducted as provided in paragraph (b) of this subsection (3).

(d) The finding as to the sufficiency of any petition may be reviewed by the district court for the county in which such municipality or portion thereof is located upon application of either the officer sought to be recalled or the officer's representative or a majority of the committee, but such review shall be had and determined forthwith. The sufficiency or the determination of the sufficiency of the petition referred to in this section shall not be held or construed to refer to the grounds assigned in such petition for the recall of the incumbent sought to be recalled from the office thereby.

(4) When such recall petition is determined sufficient, the municipal clerk shall submit said petition, together with a certificate of its sufficiency, to the governing body of such municipality at the first meeting of such body following expiration of the period within which a protest may be filed or at the first meeting of such body following the determination of a hearing officer that a petition is sufficient, whichever is later. The governing body shall thereupon order and fix a date for the recall election to be held not less than thirty days nor more than ninety days from the date of submission of the petition to the governing body by the municipal clerk and determine whether voting in the recall election is to take place at the polling place or by mail ballot; but, if a regular election is to be held within one hundred eighty days after the date of submission of said petition, the recall election shall be held as a part of said regular election; except that, if the officer sought to be recalled is seeking reelection at said regular election, only the question of such officer's reelection shall appear on the ballot. If a successor to the officer sought to be recalled is to be selected at such regular election and the officer sought to be recalled is not seeking reelection, the question of such officer's recall shall not appear on the ballot of such regular election.

(4.5) A recall election pursuant to this part 5 may only be conducted as part of a coordinated election if the content of the recall election ballot is finally determined by the date for certification of the ballot content for the coordinated election to the county clerk pursuant to section 1-5-203 (3), C.R.S.

(5) Any person who willfully destroys, defaces, mutilates, or suppresses any recall petition or who willfully neglects to file or delays the delivery of the recall petition or who conceals or removes any recall petition from the possession of the person authorized by law to have the custody thereof, or who aids, counsels, procures, or assists any person in doing any of said acts commits a misdemeanor and, upon conviction thereof, shall be punished as provided in section 31-10-1504.

31-4-504. Resignation - vacancy filled - election - ballot - nomination. (1) If any officer resigns by submitting a written letter of resignation to the clerk at any time prior to the recall election, all recall proceedings shall be terminated, and the vacancy caused by such resignation shall be filled as provided by law. If the resignation occurs after the ballots have been prepared or at a time when it would otherwise be impracticable to remove the recall question from the ballot, no votes cast on the recall question shall be counted.

(2) At least ten days before the recall election, the clerk shall give notice of the election in accordance with section 31-10-501. Except as otherwise provided in this part 5, the recall election shall be conducted and returned and the result of such election declared in all respects as in the case of regular elections.

(3) (a) On the official ballot at such elections shall be printed, in not more than two hundred words, the reasons set forth in the petition for demanding his recall, and, in not more than three hundred words, there shall also be printed, if desired by him, the officer's justification of his course in office. Any such reasons or justification shall be submitted to the municipal clerk by the date on which a nominating petition must be filed pursuant to subsection (4) of this section. If such officer resigns at any time subsequent to the calling of the recall election, the recall election shall be held, notwithstanding such resignation.

(b) There shall be printed on the official ballot, as to every officer whose recall is to be voted on, the words, "Shall (name of person against whom recall petition is filed) be recalled from the office of (title of office)?" Following such question shall be the words "yes" and "no" on separate lines with a blank space at the right of each in which the voter shall indicate, by marking a cross mark (X), his vote for or against such recall.

(c) On such ballots, under each question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person sought to be recalled, but no vote cast shall be counted for any candidate for such office unless the voter also voted for or against the recall of such person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. All candidates on the ballot shall be listed in alphabetical order.

(4) (a) Except as otherwise provided in paragraph (b) of this subsection (4), candidates for the office at a recall election may be nominated by petition as provided in section 31-10-302; except that nominating petitions may be circulated beginning on the first business day after the governing body sets the date for the recall election and shall be filed no later than twenty days prior to such recall election.

(b) Where the governing body of the municipality chooses to conduct the recall election by mail ballot in accordance with the requirements of section 31-4-503 (4), candidates shall have not less than ten calendar days beginning on the first calendar day after the governing body sets the date for the recall election within which to circulate nominating petitions, and such petitions shall be filed no later than forty-five days prior to such recall election.

(5) (a) Applications for absentee ballots shall be made available by the municipal clerk no later than twenty-four hours after the governing body fixes the date for the holding of the recall election through the close of business on the fifth day before the recall election.

(b) Absentee ballots shall be available no later than ten days before the recall election.

(c) The absentee polling place in the office of the municipal clerk shall be open during regular business hours between the tenth and fifth day preceding the recall election.

(6) If a majority of those voting on said question of the recall of any incumbent from office vote "no", said incumbent shall continue in said office. If a majority vote "yes", such incumbent shall be removed from such office upon compliance with section 31-4-401 by his successor.

PART 3

NOMINATIONS

31-10-301. Electors eligible to hold municipal office. Every registered elector eighteen years of age or older on the date of the election may circulate a nominating petition and hold office in any municipality, unless another age is required by local charter or ordinance, if he or she has resided in the municipality or municipality and ward, as the case may be, from which he or she is to be elected for a period of at least twelve consecutive months immediately preceding the date of the election. In case of an annexation, any person who has resided within the territory annexed for the prescribed time shall be deemed to have met the residence requirements for the municipality and precinct to which the territory was annexed. No person may be a candidate for two municipal offices at the same election nor hold two elective municipal offices simultaneously; except that, in statutory cities, the offices of clerk and treasurer may be sought and held by the same person.

Cross references: For the legislative declaration in HB 14-1164, see section 1 of chapter 2, Session Laws of Colorado 2014.

31-10-302. Nomination of municipal officers. (1) Candidates for municipal offices shall be nominated, without regard to affiliation, by petition on forms supplied by the clerk. A petition of nomination may consist of one or more sheets, but it shall contain the name and address of only one candidate and shall indicate the office to which the candidate is seeking election.

(2) Nomination petitions may be circulated and signed beginning on the ninety-first day and ending on the seventy-first day prior to the day of election. Each petition must be signed by registered electors in the following numbers:

(a) For a candidate in a city, at least twenty-five registered electors residing within the city;

(b) For a candidate from a ward within a city, at least twenty-five registered electors residing in the candidate's ward;

(c) For a candidate in a town, at least ten registered electors residing within the town; and

(d) For a candidate from a ward within a town, at least ten registered electors residing in the candidate's ward.

(3) Each registered elector signing a petition shall sign such registered elector's own signature and shall print or, if such elector is unable to do so, shall cause to be printed such elector's legal name, the address at which such registered elector resides, including the street name and number, the city or town, the county, and the date of the signing. The registered elector, or the person printing on behalf of the registered elector, may use any abbreviations that reasonably identify the residence of the registered elector, and the date the registered elector signed the petition. The circulator of each nomination petition shall make an affidavit that each signature thereon is the signature of the person whose name it purports to be and that each signer has stated to the circulator that the signer is a registered elector of the municipality or municipality and ward, as the case may be, for which the nomination is made. The signature of each signer of a petition shall constitute prima facie evidence of his qualifications without the requirement that each signer make an affidavit as to his qualifications.

(4) No petition is valid that does not contain the requisite number of signatures of registered electors. The clerk shall inspect timely filed petitions of nomination to ensure compliance with this section. Such inspection may consist of an examination of the information on the signature lines for patent defects, a comparison of the information on the signature lines with a list of registered electors provided by the county, or any other method of inspection reasonably expected to ensure compliance with this section. Any petition may be amended to correct or replace those signatures that the clerk finds are not in apparent conformity with the requirements of this section at any time prior to sixty-three days before the day of election.

(5) No registered elector shall sign more than one nomination petition for each separate office to be filled in his municipality or municipality and ward, as the case may be. Each office of the governing body that is to be filled by the electorate shall be considered a separate office for the purpose of nomination. In municipalities in which offices of the governing body are filled both by election from wards and election at large, an elector may sign a nomination petition for each office to be filled from his ward and also for each office to be filled by election at large. If a

registered elector's signature appears on more than one nomination petition for a particular office, the clerk may utilize the date of signing indicated on the nomination petitions to determine which signature was valid when affixed to the nomination petitions. If the date of signing does not clarify which signature was valid, all signatures of such registered elector shall be rejected.

(6) Each nomination petition shall be filed with the clerk no later than the seventy-first day prior to the day of election. Every petition shall have endorsed thereon or appended thereto the written affidavit of the candidate accepting the nomination and swearing that the candidate satisfies the requirements set forth in section 31-10-301 to be a candidate and hold office in the municipality. The acceptance of nomination shall contain the place of residence of the candidate and the name of the candidate in the form that the candidate wishes it to appear on the ballot. The candidate's name may be a nickname or include a nickname but shall not contain any title or degree designating the business or profession of the candidate.

(7) The clerk shall cause all nomination petitions to be preserved for a period of two years. All such petitions shall be open to public inspection under proper regulation by the clerk with whom they are filed.

In case objection is made, notice thereof shall be forthwith mailed to any candidate who may be affected thereby. The clerk shall decide objections within at least forty-eight hours after the same are filed, and any objections sustained may be remedied or defect cured upon the original petition, by an amendment thereto, or by filing a new petition within three days after the objection is sustained, but in no event later than the sixty-fourth day before the day of election. Each candidate for office, or interested party in case of an issue, at a municipal election is entitled to appoint some person to act in his behalf in every precinct in which he is a candidate or in which the issue is on the ballot. Such candidate or interested party shall certify the names of the persons so appointed to the clerk on forms provided by the clerk. In case a watcher must leave the polling place, he may designate an alternate to act in his behalf while he is absent, if such alternate is made known to the election judges by an affidavit of the person first named as a watcher.

31-10-603. Employee entitled to vote. (1) Any registered elector entitled to vote at any municipal election held within this state is entitled to absent himself from any service or employment in which he is then engaged or employed on the day of such election for a period of two hours between the time of opening and time of closing the polls. Any such absence shall not be sufficient reason for the discharge of any such person from such service or employment. Such elector, because of so absenting himself, shall not be liable to any penalty, nor shall any deduction be made from his usual salary or wages on account of such absence. Registered electors who are employed and paid by the hour shall receive their regular hourly wage for the period of such absence, not to exceed two hours. Application shall be made for such leave of absence prior to the day of election. The employer may specify the hours during which such employee may absent himself, but such hours shall be at the beginning or ending of the work shift if the employee so requests.

31-10-604. Judges open ballot box first. In precincts which use an electronic voting system or paper ballots, it is the duty of the judges of the election, immediately before the opening of the polls, to open the ballot box in the presence of the people there assembled and turn it upside down so as to empty it of everything that may be in it and then lock it securely. It shall not be reopened until the time for counting the ballots therein.

31-10-606. Preparing to vote. (1) Any registered elector desiring to vote shall write his name and address on a form available at the polling place and shall give the form to one of the judges of election, who shall thereupon announce the same clearly and audibly. If said elector is unable to write, he may request assistance from one of the judges of election, and such judge must sign the form and witness the elector's mark. The form to be available shall be in substance: "I, ..., who reside at ..., am a registered elector of this precinct and desire to vote at this ... election. Date". If the name is found on the registration book or the registration list by the election judge having charge thereof, he shall likewise repeat the name, and said elector shall be allowed to enter the immediate voting area. If the name is not found on the registration book or the registration list by the election judge, such election judge, if practicable and not unduly disruptive to the election process, shall attempt to contact the county clerk and recorder's office, by telephone or otherwise, to request oral verification of the elector's registration in that precinct; and, if such oral verification is received by such election judge from the county clerk and recorder's office, such election judge shall record such verification on a form to be provided by the clerk and shall likewise repeat the elector's name, and said elector shall be allowed to enter the immediate voting area. After it is determined that the elector is duly registered, the election official in charge of the pollbook shall write upon the pollbook the name of such elector and, in precincts using paper ballots, the number of the ballot given to such elector.

(2) Besides the election officials, not more than four voters in excess of the number of voting booths or voting machines shall be allowed within the immediate voting area at one time.

(3) The completed signature forms shall be returned with other election materials to the clerk. If no challenges have been made, the forms may be destroyed after forty-five days.

(4) If the judges are using the registration book and the registered elector's signature does not appear on his or her registration record, said elector shall show documentation of his or her registration and sign his or her registration record before being allowed to vote. If said elector is unable to write, he or she may request assistance from one of the judges of election, and such judge shall sign the registration record and witness said elector's mark.

(5) In precincts using paper ballots, an election judge shall give the registered elector one, and only one, ballot, which shall be removed from the package of ballots by tearing the same along the perforated line between the stub and duplicate stub. Before delivering such ballot to said elector, the judge of election having charge of the ballots shall endorse his initials on the duplicate stub, and said judge shall enter the date and the number of said ballot on the registration book or registration list opposite the name of said elector.

31-10-607. Manner of voting in precincts which use paper ballots. (1) In precincts which use paper ballots, upon receiving his ballot, the registered elector shall immediately retire alone to one of the voting booths provided and shall prepare his ballot by marking or stamping in ink or indelible pencil, in the appropriate margin or place, a cross mark (X) opposite the name of the candidate of his choice for each office to be filled; except that no cross mark (X) shall be required opposite the name of a write-in candidate. In case of a question submitted to a vote of the people, said elector shall mark or stamp, in the appropriate margin or place, a cross mark (X) opposite the answer which he desires to give. Before leaving the voting booth, said elector shall fold his ballot without displaying the marks thereon, so that the contents of the ballot are concealed and the stub can be removed without exposing any of the contents of the ballot, and he shall keep the same so folded until he has deposited his ballot in the ballot box.

(2) Each registered elector who has prepared his ballot and is ready to cast his vote shall then leave the voting booth and approach the judge of election having charge of the ballot box. He shall give his name to that judge, who shall announce the name of such elector and the number upon the duplicate stub of his ballot, which number must correspond with the stub number previously placed on the registration book or registration list. If the stub number of the ballot corresponds and is identified by the initials of the judge of election placed thereupon, the judge of election shall then remove the duplicate stub from such ballot. Such ballot shall then be returned to the registered elector, who shall thereupon, in full view of the judges of election, cast his vote by depositing the ballot in the ballot box, with the official endorsement on said ballot uppermost.

(3) Each registered elector shall mark and deposit his ballot without undue delay and shall leave the immediate voting area as soon as he has voted. No such elector shall occupy a voting booth already occupied by another, nor remain within the immediate voting area more than ten minutes, nor occupy a voting booth for more than five minutes if all such booths are in use and other voters are waiting to occupy the same. No registered elector whose name has been entered on the pollbook shall be allowed to reenter the immediate voting area during the election except a judge of election.

31-10-608. Disabled voter - assistance. (1) If, at any regular or special election, any voter declares under oath to the judges of election of the precinct where he is entitled to vote that, by reason of blindness or other physical disability or inability to read or write, he is unable to prepare his ballot or operate the voting machine without assistance, he is entitled, upon his request, to receive the assistance of any one of the judges of election or, at his option, of any qualified elector of the precinct selected by the disabled voter. No person other than a judge of election in the precinct is permitted to enter the polling booth as an assistant to more than one voter.

(2) A notation shall be made in the pollbook opposite the name of each voter thus assisted stating that the voter has been assisted.

31-10-609. Spoiled ballots. In precincts which use an electronic voting system or paper ballots, no person shall take or remove any ballot from the polling place before the close of the polls. If any voter spoils a ballot, he may successively obtain others, one at a time, not exceeding three in all, upon returning each spoiled one. The spoiled ballots thus returned shall be immediately cancelled and shall be preserved and returned to the clerk along with other election records and supplies.

31-10-610. Counting paper ballots. (1) In precincts which use paper ballots, as soon as the polls at any election have finally closed, the judges shall immediately open the ballot box and proceed to count the votes polled, and the counting thereof shall be continued until finished before the judges of election adjourn. They shall first count the number of ballots in the box. If the ballots are found to exceed the number of names entered on the pollbook, the judges of election shall then examine the official endorsements upon the outside of the ballots without opening the same, and if, in the unanimous opinion of the judges, any of the ballots in excess of the number on the pollbook do not bear the proper official endorsement, they shall be put into a separate pile by themselves, and a separate record and return of the votes in such ballots shall be made under the head of "excess ballots". When the ballots and the pollbook agree, the judges of election shall proceed to count the votes. Each ballot shall be read and counted separately, and every name separately marked as voted for on such ballot, where there is no conflict to obscure the intention of the voter, shall be read and marked upon the tally sheets before any other ballot is proceeded with. The entire number of ballots, excepting "excess ballots", shall be read and counted and placed upon the tally sheets in like manner. When all of the ballots, excepting "excess ballots", have been counted, the judges of election shall estimate and publish the votes.

(2) When all the votes have been read and counted, the ballots, together with one of the tally lists, shall be returned to the ballot box, and the opening shall be carefully sealed, and each

of the judges shall place his initials on said seal. The cover shall then be locked and the ballot box delivered to the clerk as provided in section 31-10-614.

(3) All persons, except judges of election and watchers, shall be excluded from the place where the counting is being carried on until the count has been completed.

31-10-612. Defective ballots. If a voter marks in ink or indelible pencil more names than there are persons to be elected to an office or if, for any reason, it is impossible to determine the choice of any voter for any office to be filled, his ballot shall not be counted for such office. A defective or an incomplete cross marked on any ballot in ink in a proper place shall be counted if there is no other mark or cross in ink or indelible pencil on such ballot indicating an intention to vote for some person other than those indicated by the first mentioned defective cross or mark. No ballot without the official endorsement, except as provided in section 31-10-805, shall be deposited in the ballot box, and none but ballots provided in accordance with the provisions of this article shall be counted. When the judges of election in any precinct discover in the counting of votes that the name of any candidate voted for is misspelled or the initial letters of his given name are transposed or omitted in part or altogether on the ballot, the vote for such candidate shall be counted for him if the intention of the elector to vote for him is apparent. Ballots not counted shall be marked "defective" on the back thereof and shall be preserved for such time as is provided in section 31-10-616 for ballots and destroyed as therein directed.

31-10-613. Judges' certificate. (1) As soon as all the votes have been read and counted, the judges of election shall make a certificate, stating the name of each candidate, designating the office for which such person received votes, and stating the number of votes he received, the number being expressed in words at full length and in numerical figures, such entry to be made as nearly as circumstances will admit, in the following form:

31-10-614. Delivery of election returns, ballot boxes, and other election papers. Said abstract shall be posted in a conspicuous place upon the outside of the polling place

If the ballot boxes are needed for a special election before the legal time for commencing any proceedings in the way of contests has elapsed or in case such clerk, at the time of holding such special election, has knowledge of the pendency of any contest in which the ballots would be needed, the clerk shall preserve the ballots in some secure manner and provide for their being kept so that no one can ascertain how any voter may have voted.

electronic vote counting equipment, and may be printed on a number of separate pages which are placed on the voting device or on one or more ballot cards.

who received them. The receipt shall be filed with the clerk, who shall also keep a record of the time when and the manner in which each of said packages was sent and delivered.

The election judges shall post at least one card in each polling place on the day of election. Such cards shall be printed in large, clear type and shall contain full instructions to the voter as to what should be done:

- (a) To obtain a ballot for voting;

31-10-809. Close of polls - count and seals in electronic voting. After the polls have been closed, the election judges shall secure the vote recorders or the voting devices, or both the vote recorders and the voting devices, against further use and prepare a ballot return in duplicate showing the number of voters as indicated by the pollbook who have voted in the precinct, the number of official ballot cards received, and the number of spoiled and unused ballot cards returned. The original copy of said ballot return shall be deposited in a metal or durable plastic transfer box, along with all voted and spoiled ballots. The transfer box shall then be sealed in such a way as to prevent tampering with the box or its contents. The clerk shall provide such a numbered seal. The duplicate copy of said ballot return shall be mailed at the nearest post office or post box to the clerk by a judge other than the one who delivers the transfer box to the counting center. One judge shall deliver the sealed transfer box to the counting center or other place designated by the clerk.

31-10-810. Electronic vote counting - test. (1) The clerk shall have the electronic ballot counting equipment tested in the manner prescribed in this section to ascertain that it will accurately count the votes cast for all offices and all measures. The electronic equipment shall be tested at least three times, once on the day before the election, again just prior to the start of the count on election day, and finally at the conclusion of the counting. The clerk may make any additional tests he deems necessary.

(2) The clerk shall vote and retain at least one hundred test ballots, and shall observe the tabulation of all test ballots by means of the electronic counting equipment, and shall compare such tabulation with the previously retained records of the test vote count. The cause of any discrepancies shall be corrected prior to the actual vote tabulation.

(3) All test materials, when not in use, shall be kept in a metal box, and the clerk shall be the custodian of the box.

31-10-811. Electronic vote counting - procedure. (1) All proceedings at the counting center shall be under the direction of the clerk and shall be conducted under the observation of watchers, so far as practicable, in accordance with the provisions of part 6 of this article; but no persons except those authorized for the purpose shall touch any ballot or ballot card or return. All persons who are engaged in the processing and counting of the ballots shall be deputized in writing and take an oath that they will faithfully perform their assigned duties. If any ballot is damaged or defective so that it cannot properly be counted by the electronic vote counting equipment, a true duplicate copy shall be made of the damaged ballot in the presence of two witnesses. The duplicate ballot shall be substituted for the damaged ballot. All duplicate ballots shall be clearly labeled as such and shall bear a serial number which shall be recorded on the damaged ballot.

(2) The return printed by the electronic vote tabulating equipment, to which have been added write-in votes, shall constitute, when certified by the clerk, the official return of each precinct. The clerk may from time to time release unofficial returns. Upon completion of the count, the official returns shall be open to the public.

(3) Absentee ballots shall be counted at the counting center in the same manner as precinct ballots. Write-in ballots may be counted in their precincts by the precinct judges of election or at the counting center, but, before any write-in vote is counted, it shall be compared with votes cast for the same office on the ballot card to ascertain whether the write-in vote is valid. If the voter has cast more votes for the office than he is lawfully entitled to vote, the word "void" shall be written across the write-in vote, and it shall not be counted. Votes cast for a nominated candidate whose name appears on the ballot shall not be voided because of an invalid write-in vote for the same office.

(4) If for any reason it becomes impracticable to count all or a part of the ballots with electronic vote tabulating equipment, the clerk may direct that they be counted manually, following as far as practicable the provisions governing the counting of paper ballots.

(5) The receiving, opening, and preservation of the transfer boxes and their contents shall be the responsibility of the clerk, who shall provide adequate personnel and facilities to assure accurate and complete election results. Any indication of tampering with the ballots or ballot cards or other fraudulent action shall be immediately reported to the municipal attorney who shall immediately investigate such action and report in writing within ten days his findings to the clerk and shall prosecute to the full extent of the law any person responsible for such fraudulent action. The conduct of municipal elections when electronic voting systems are used shall follow, as nearly as practicable, the conduct of general and primary elections when such systems are used.

31-10-901. Ballot boxes. The governing body of each municipality using paper ballots shall provide one ballot box for each polling place. Each ballot box shall be strongly constructed so as to prevent tampering, with a small opening at the top thereof and with a lid to be locked. The ballot boxes and keys shall be kept by the clerk and delivered to the judges of election within one day immediately preceding any municipal election, to be returned as provided in section 31-10-614. Nothing in this section shall prevent the governing body from obtaining ballot boxes from the office of the county clerk and recorder.

Editor's note: This section is similar to former § 31-10-507 as it existed prior to 1975.

31-10-902. Ballots. (1) The clerk of each municipality using paper ballots shall provide printed ballots for every municipal election. The official ballots shall be printed and in the possession of the clerk at least ten days before the election. In addition, sample ballots shall be printed and in the possession of the clerk ten days before the election and shall be subject to public inspection. The sample ballots shall be printed in the form of the official ballots but upon paper of a different color from the official ballots. Sample ballots shall be delivered to the judges of election and posted with the cards of instruction provided in section 31-10-906.

(2) Every ballot shall contain the names of all duly nominated candidates for offices to be voted for at that election, except those who have died or withdrawn, and the ballot shall contain no other names. The names of the candidates for each office shall be printed upon the ballot without political party designation and without any title or degree designating the business or profession of the candidate. The names shall be arranged by lot as prescribed by the municipal clerk under the designation of the office.

(3) (a) The ballots shall be printed to give each voter a clear opportunity to designate his choice of candidates by a cross mark (X) in the square at the right of the name. On the ballot may be printed such words as will aid the voter, such as "vote for not more than one".

(b) At the end of the list of candidates for each different office shall be as many blank spaces as there are persons to be elected to such office in which the voter may write the name of any eligible person not printed on the ballot for whom he desires to vote as a candidate for such office; but no cross mark (X) shall be required at the right of the name so written in.

(c) When the approval of any question is submitted at a municipal election, such question shall be printed upon the ballot after the lists of candidates for all offices. The ballots

shall be printed to give each voter a clear opportunity to designate his answer by a cross mark (X) in the appropriate square at the right of the question.

(4) The extreme top part of each ballot shall be divided by two perforated lines into two spaces, each of which shall be not less than an inch in width, the top portion being known as the stub and the next portion as the duplicate stub. Upon each of said stubs nothing shall be printed except the number of the ballot, and the same number shall be printed upon both stubs. Stubs and duplicate stubs of ballots shall both be numbered consecutively. All ballots shall be uniform and of sufficient length and width to allow for the names of candidates and the proposed questions to be printed in clear, plain type with a space of at least one-half inch between the different columns on said ballot. On the back of each ballot shall be printed the endorsement "Official ballot for....", and after the word "for" shall follow the designation of the precinct, ward, and municipality for which the ballot is prepared, the date of the election, and a facsimile of the signature of the clerk who has caused the ballot to be printed. The ballot shall contain no caption or other endorsement or number. Each clerk shall use precisely the same quality and tint of paper, the same kind of type, and the same quality and tint of plain black ink for all ballots furnished by him at one election. When candidates are to be voted for only by the registered electors of a particular ward, the names of such candidates shall not be printed on any other ballots than those provided for use in such ward. The ballots shall be of such form that when folded the whole endorsement is visible and the contents of the ballot are not exposed.

31-10-903. Ballots changed if candidate dies or withdraws. If any person duly nominated dies before the day fixed for the election and the fact of such death becomes known to the clerk or withdraws by filing an affidavit of withdrawal with the clerk before the date fixed for election, the name of the deceased or withdrawn candidate shall not be printed upon the ballots for the election. If the ballots are already printed, the name of the deceased candidate or withdrawn candidate shall be erased or cancelled, if possible, before the ballots are delivered to the voters.

31-10-904. Printing and distribution of ballots. In municipalities using paper ballots, the clerk shall cause to be printed and distributed to the election judges in the respective precincts a sufficient number of ballots. The ballots shall be sent in one or more sealed packages for each precinct with marks on the outside of each clearly stating the precinct and polling place for which it is intended, together with the number of ballots enclosed. Such packages shall be delivered to one of the judges of election of such precinct between the close of business on the

Friday preceding election day or during any earlier day in which a judges' school of instruction is held, and 8 p.m. on the Monday before election day. A receipt for the ballots thus delivered shall be given by the election judge who receives them. The receipt shall be filed with the clerk, who shall also keep a record of the time when and the manner in which each of said packages was sent and delivered. The election judge receiving such package shall produce the same, with the seal unbroken, in the proper polling place at the opening of the polls on election day and, in the presence of all election judges for the precinct, shall open the package.

31-10-905. Substitute ballots. If the ballots to be furnished to any election judge are not delivered by 8 p.m. on the Monday before election day or if after delivery they are destroyed or stolen, the clerk shall cause other ballots to be prepared, as nearly in the form prescribed as practicable, with the word "substitute" printed in brackets immediately under the facsimile signature of the clerk. Upon receipt of ballots thus prepared, accompanied by a written and sworn statement of the clerk that the same have been so prepared and furnished by him and that the original ballots have so failed to be received or have been destroyed or stolen, the election judges shall cause the ballots so substituted to be used at the election. If from any cause none of the official ballots or substitute ballots prepared by the clerk are ready for distribution at any polling place or if the supply of ballots is exhausted before the polls are closed, unofficial ballots, printed or written, made as nearly as possible in the form of the official ballots, may be used until substitutes prepared by the clerk are printed and delivered.

I realize that if any false statements are contained herein that I shall be subject to prosecution for criminal action.

.....
DateSignature of voter

(II) The signing of the self-affirmation on the return envelope described in subparagraph (I) of this paragraph (c) constitutes an affirmation by the eligible elector, under penalty of perjury, that the facts stated in the self-affirmation are true. If the eligible elector is unable to sign, the eligible elector may affirm by making a mark on the self-affirmation, with or without assistance, witnessed by another person.

(III) A return envelope is not required to have a flap covering the signature.

(d) No sooner than twenty-two days prior to election day, and until 7 p.m. on election day, mail ballots must be made available at the clerk's office for eligible electors who request a ballot.

(e) (I) An eligible elector may obtain a replacement ballot if the ballot was destroyed, spoiled, lost, or for some other reason not received by the eligible elector. An eligible elector may obtain a ballot if a mail ballot packet was not sent to the elector because the eligibility of the elector could not be determined at the time the mail ballot packets were mailed. In order to obtain a ballot in such cases, the eligible elector must sign a sworn statement specifying the reason for requesting the ballot. The statement must be presented to the clerk no later than 7 p.m. on election day. The clerk shall keep a record of each ballot issued in accordance with this paragraph (e) together with a list of each ballot obtained pursuant to paragraph (d) of this subsection (2).

Ballots may be cast no later than 7 p.m. on election day.

(3) (a) Upon receipt of a ballot, the eligible elector shall mark the ballot, sign and complete the self-affirmation on the return envelope, and comply with the instructions provided with the ballot.

The ballot must be returned in the return envelope. If an eligible elector returns the ballot by mail, the elector must provide postage. The ballot must be received at the clerk's office or a designated depository, which must remain open until 7 p.m. on election day. The depository must be designated by the clerk and located in a secure place under the supervision of the clerk, an election judge, or another person designated by the clerk.

(4) Once the ballot is returned, an election judge shall first qualify the submitted ballot by comparing the information on the return envelope with the registration records to determine whether the ballot was submitted by an eligible elector who has not previously voted in the

election. If the ballot so qualifies and is otherwise valid, the election judge shall indicate in the pollbook that the eligible elector cast a ballot and deposit the ballot in an official ballot box.

(4.5) The signature of the eligible elector on the self-affirmation on the return envelope must be compared with the signature of the eligible elector on file in the statewide voter registration system, created in section 1-2-301, C.R.S., in accordance with section 31-10-910.3.

(5) All deposited ballots must be counted as provided in this article. A mail ballot is valid and counted only if it is returned in the return envelope, the self-affirmation on the return envelope is signed and completed by the eligible elector to whom the ballot was issued, and the information on the return envelope is verified in accordance with subsection (4) of this section. Mail ballots must be counted in the same manner provided by section 31-10-610 for counting paper ballots or section 31-10-811 for counting electronic ballots. If the election official determines that an eligible elector to whom a replacement ballot has been issued has voted more than once, the first ballot returned by the elector is considered the elector's official ballot. Rejected ballots are handled in the same manner as provided in section 31-10-612.

31-10-910.3. Verification of signatures - signature verification devices - procedures - training - definitions. (1) (a) In every mail ballot election conducted after March 30, 2018, an election judge shall, except as provided in paragraph (b) of this subsection (1), compare the signature on the self-affirmation on each return envelope with the signature of the eligible elector stored in the statewide voter registration system in accordance with this section.

(b) A clerk may allow an election judge to use a signature verification device to compare the signature on the self-affirmation on a return envelope of an eligible elector's ballot with the signature of the elector stored in the statewide voter registration system in accordance with this section.

(2) (a) The election judges must compare the signature on the self-affirmation on each return envelope with the signature provided by the secretary of state pursuant to section 1-2-301, C.R.S. The election judges must research the signature further if there is:

- (I) An obvious change in the signature's slant;
- (II) A printed signature on one document and a cursive signature on the other document;
- (III) A difference in the signature's size or scale;
- (IV) A difference in the signature's individual characteristics, such as how the "t's" are crossed, "i's" are dotted, or loops are made on "y's" or "j's";
- (V) A difference in the elector's signature style, such as how the letters are connected at the top and bottom;
- (VI) Evidence that ballots or envelopes from the same household have been switched; or
- (VII) Any other noticeable discrepancy such as misspelled names.

(b) (I) If an election judge must conduct further research on an elector's signature, he or she must check the additional signatures provided by the secretary of state pursuant to section 1-2-301, C.R.S., if available.

(II) An election judge may compare additional information written by the elector on the return envelope, such as the elector's address and date of signing. Any similarities noted when comparing other information may be used as part of the signature verification decision process.

(III) If an election judge determines that an elector inadvertently returned his or her ballot in another household member's ballot return envelope, the election judge must process and prepare the ballot of the elector who signed the self-affirmation for counting if it is otherwise valid. The election judge need not send a signature verification discrepancy letter to the elector.

(c) If the election judges dispute the signature, they must document the discrepancy and the research steps taken in a log that identifies the elector only by name and elector identification number, does not contain the elector's signature, notes the final resolution and ballot disposition, and identifies the election judges responsible for the final resolution and ballot disposition.

(3) (a) If the election judge determines that the signature of an eligible elector on the self-affirmation matches the elector's signature stored in the statewide voter registration system, the election judge shall follow the procedures specified in section 31-10-910 (5) concerning the qualification and counting of mail ballots.

(b) If a signature verification device used pursuant to paragraph (b) of subsection (1) of this section determines that the signature on the self-affirmation on a return envelope of an eligible elector's ballot matches the signature of the elector stored in the statewide voter registration system, the signature on the self-affirmation is deemed verified, and the election judge shall follow the procedures specified in section 31-10-910 (5) concerning the qualification and counting of mail ballots.

(4) If, upon comparing the signature of an eligible elector on the self-affirmation on the return envelope with the signature of the eligible elector stored in the statewide voter registration system, the election judge determines that the signatures do not match, or if a signature verification device used pursuant to paragraph (b) of subsection (1) of this section is unable to determine that the signatures match, two other election judges shall simultaneously compare the signatures and proceed according to subsection (5) of this section.

(5) (a) If the two other election judges specified in subsection (4) of this section agree that the signature of an eligible elector on the self-affirmation matches the elector's signature stored in the statewide voter registration system, the initial election judge shall follow the procedures specified in section 31-10-910 (5) concerning the qualification and counting of mail ballots.

(b) In the case of a disagreement between the two other election judges as to whether the signature of an eligible elector on the self-affirmation on the return envelope matches the signature of the eligible elector stored in the statewide voter registration system pursuant to the procedures specified in subsection (4) of this section, the signatures are deemed to match, and the initial election judge shall follow the procedures specified in section 31-10-910 (5) concerning the qualification and counting of mail ballots.

(c) (I) If both other election judges agree that the signatures do not match, the clerk shall, within three days after the signature deficiency has been confirmed, but in no event later than two days after election day, send to the eligible elector at the address indicated in the registration records a letter explaining the discrepancy in signatures and a form for the eligible elector to confirm that the elector returned a ballot to the clerk.

(II) (A) If the clerk receives the form within eight days after election day confirming that the elector returned a ballot to the clerk, and if the ballot is otherwise valid, the ballot must be counted.

(B) If the eligible elector returns the form indicating that the elector did not return a ballot to the clerk, or if the eligible elector does not return the form within eight days after election day, the self-affirmation on the return envelope must be categorized as incorrect, and the ballot shall not be counted. An original return envelope with an enclosed secrecy envelope containing a voted ballot that is not counted in accordance with this sub-subparagraph (B) must be stored in the office of the clerk in a secure location separate from valid return envelopes and may be removed only by order of a court having jurisdiction.

(6) An election judge shall not determine that the signature of an eligible elector on the self-affirmation does not match the signature of that eligible elector stored in the statewide voter registration system solely on the basis of substitution of initials or use of a common nickname.

(7) The clerk shall provide training in the techniques and standards of signature comparison to election judges who compare signatures pursuant to this section.

(8) As used in this section, "statewide voter registration system" means the statewide voter registration system created pursuant to section 1-2-301, C.R.S.

31-10-911. Counting mail ballots. The election officials at the mail ballot counting center may receive and prepare mail ballots delivered and turned over to them by the clerk for counting. Counting of the mail ballots may begin fifteen days prior to the election and continue until counting is completed. The election official in charge of the mail ballot counting center shall take all precautions necessary to ensure the secrecy of the counting procedures, and the election officials or watchers shall not release any information concerning the count until after 7 p.m. on election day.

The application may be in the form of a letter.

(2) Upon receipt of an application for an absentee voter's ballot within the proper time, the clerk receiving it shall examine the records of the county clerk and recorder to ascertain whether or not the applicant is registered and lawfully entitled to vote as requested, and, if found to be so, the clerk shall deliver, as soon as practicable, but not more than seventy-two hours after the ballots have been received, to the applicant personally in the clerk's office or by mail to the mailing address given in the application for an official absentee voter's ballot, an identification

If an absentee voter's ballot is not returned, or if it is rejected and not counted, that fact will be noted on the list. The list is open to public inspection under proper regulations.

(2.5) (a) The clerk may permit an eligible elector to request permanent absentee voter status.

(b) Upon receipt of an application for permanent absentee voter status, the clerk shall process the application in the same manner as an application for an absentee voter's ballot. This information must be recorded on the registration record or registration list before the registration book or list is delivered to the judges of election. 31-10-1008. Challenge of absentee ballots - rejection - record. (1) The vote of any absentee voter may be challenged in the same manner as other votes are challenged, and the judges of election shall have power to determine the legality of such ballot. If the challenge is sustained or if the judges determine that the self-affirmation accompanying the absentee voter's ballot is insufficient or that the voter is not a registered elector, the envelope containing the ballot of such voter shall not be opened, and the judges shall endorse on the back of the envelope the reason therefor. When it is made to appear to the judges of election by sufficient proof that any absentee voter who has marked and forwarded his or her ballot has died, the envelope containing the ballot of such deceased voter shall not be opened, and the judges shall make proper notation on the back of such envelope. If an absentee voter's envelope contains more than one marked ballot of any one kind, none of such ballots shall be counted, and the judges shall make notation on the back of the ballots the reason therefor. Judges of election shall certify in

their returns the number of absentee voters' ballots cast and counted and the number of such ballots rejected.

(2) All absentee voters' identification envelopes, ballot stubs, and absentee voters' ballots rejected by the judges of election in accordance with the provisions of this section shall be returned to the clerk. All absentee voters' ballots received by the clerk after 7 p.m. the day of the election, together with those rejected and returned by the judges of election, as provided in this section, shall remain in the sealed identification envelopes and be destroyed later, as provided in section 31-10-616.

The clerk shall deliver the emergency absent voter's ballot at his or her office, during the regular hours of business, to any authorized representative of the voter possessing a written statement from the voter's physician, physician assistant authorized under section 12-240-107 (6), advanced practice nurse, or practitioner that the voter will be confined in a hospital or his or her place of residence on election day. The ordinance shall not take effect unless a majority of the registered electors voting on the measure at the election vote in favor of the measure.

preservation of the public peace, health, or safety, and not then unless the ordinance states in a separate section the reasons why it is necessary and unless it receives the affirmative vote of three-fourths of all the members elected to the legislative body taken by ayes and noes.

(2) Within thirty days after final publication of the ordinance, a referendum petition protesting against the effect of the ordinance or any part thereof may be filed with the clerk. The petition must be signed during the thirty-day period by at least five percent of the registered electors of the municipality registered on the date of final publication.

(3) If a referendum petition is filed, the ordinance or part thereof protested against shall not take effect, and, upon a final determination of petition sufficiency, the legislative body shall promptly reconsider the ordinance. 31-11-106. Form of petition sections. (1) Each petition section shall be printed in a form consistent with the requirements of this article. No petition section shall be printed or circulated unless the form and the first printer's proof of the petition section have first been approved by the clerk. The clerk shall approve or reject the form and the first printer's proof of the petition no later than five business days following the date on which the clerk received such material. The clerk shall assure that the petition section contains only those elements required by this article and contains no extraneous material. The clerk may reject a petition or a section of a petition on the grounds that the petition or a section of the petition does not propose municipal legislation pursuant to section 1 (9) of article V of the state constitution.

(2) Each petition section shall designate by name and mailing address two persons who shall represent the proponents thereof in all matters affecting the petition and to whom all notices or information concerning the petition shall be mailed.

(3) (a) At the top of each page of every initiative or referendum petition section, the following shall be printed, in a form as prescribed by the clerk:

**WARNING:
IT IS AGAINST THE LAW:**

For anyone to sign any initiative or referendum petition with any name other than his or her own or to knowingly sign his or her name more than once for the same measure or to knowingly sign a petition when not a registered elector who is eligible to vote on the measure.

**DO NOT SIGN THIS PETITION UNLESS YOU ARE A
REGISTERED ELECTOR**

**AND ELIGIBLE TO VOTE ON THIS MEASURE.
TO BE A REGISTERED ELECTOR,
YOU MUST BE A CITIZEN OF COLORADO
AND REGISTERED TO VOTE.**

Do not sign this petition unless you have read or have had read to you the proposed initiative or referred measure or the summary in its entirety and understand its meaning.

(b) A summary of the proposed initiative or ordinance that is the subject of a referendum petition shall be printed following the warning on each page of a petition section. The summary shall be true and impartial and shall not be an argument, or likely to create prejudice, either for or against the measure. The summary shall be prepared by the clerk.

(c) The full text of the proposed initiated measure or ordinance that is the subject of a referendum petition shall be printed following the summary on the first page or pages of the petition section that precede the signature page. Notwithstanding the requirement of paragraph (a) of this subsection (3), if the text of the proposed initiated measure or ordinance requires more than one page of a petition section, the warning and summary need not appear at the top of other than the initial text page.

(d) The signature pages shall consist of the warning and the summary, followed by ruled lines numbered consecutively for registered electors' signatures. If a petition section contains multiple signature pages, all signature lines shall be numbered consecutively, from the first signature page through the last. The signature pages shall follow the page or pages on which the full text of the proposed initiated measure or ordinance that is the subject of the referendum petition is printed.

(e) (I) Following the signature pages of each petition section, there shall be attached a signed, notarized, and dated affidavit executed by the person who circulated the petition section, which shall include the following:

(A) The affiant's printed name, the address at which the affiant resides, including the street name and number, the municipality, the county, and the date the affiant signed the affidavit;

(B) That the affiant has read and understands the laws governing the circulation of petition;

(C) That the affiant was eighteen years of age or older at the time the section of the petition was circulated and signed by the listed electors;

(D) That the affiant circulated the section of the petition;

(E) That each signature thereon was affixed in the affiant's presence;

(F) That each signature thereon is the signature of the person whose name it purports to be;

(G) That, to the best of the affiant's knowledge and belief, each of the persons signing the petition section was, at the time of signing, a registered elector; and

(H) That the affiant has not paid or will not in the future pay and that the affiant believes that no other person has paid or will pay, directly or indirectly, any money or other thing of value to any signer for the purpose of inducing or causing such signer to affix the signer's signature to the petition.

(II) The clerk shall not accept for filing any section of a petition that does not have attached thereto the notarized affidavit required by subparagraph (I) of this paragraph (e). Any

disassembly of a section of the petition that has the effect of separating the affidavit from the signature page or pages shall render that section of the petition invalid and of no force and effect.

(III) Any signature added to a section of a petition after the affidavit has been executed shall be invalid.

(4) All sections of any petition shall be prenumbered serially.

(5) Any petition section that fails to conform to the requirements of this article or that is circulated in a manner other than that permitted by this article shall be invalid.

Each registered elector shall sign his or her own signature and shall print his or her name, the address at which he or she resides, including the street number and name, the city or town, the county, and the date of signing. Each registered elector signing a petition shall be encouraged by the circulator of the petition to sign the petition in ink. In the event a registered elector is physically disabled or is illiterate and wishes to sign the petition, the elector shall sign or make his or her mark in the space so provided. Any person, but not a circulator, may assist the disabled or illiterate elector in completing the remaining information required by this section. The person providing assistance shall sign his or her name and address and shall state that such assistance was given to the disabled or illiterate elector.

31-11-109. Signature verification - statement of sufficiency. (1) The clerk shall inspect timely filed initiative or referendum petitions and the attached affidavits, and may do so by examining the information on signature lines for patent defects, by comparing the information on signature lines against a list of registered electors provided by the county, or by other reasonable means.

(2) After examining the petition, the clerk shall issue a statement as to whether a sufficient number of valid signatures have been submitted. A copy of the statement shall be mailed to the persons designated as representing the petition proponents pursuant to section 31-11-106 (2).

(3) The statement of sufficiency or insufficiency shall be issued no later than thirty calendar days after the petition has been filed. If the clerk fails to issue a statement within thirty calendar days, the petition shall be deemed sufficient.

31-11-110. Protest. (1) Within forty days after an initiative or referendum petition is filed, a protest in writing under oath may be filed in the office of the clerk by any registered elector who resides in the municipality, setting forth specifically the grounds for such protest. The grounds for protest may include, but shall not be limited to, the failure of any portion of a petition or circulator affidavit to meet the requirements of this article. No signature may be challenged that is not identified in the protest by section and line number. The clerk shall forthwith mail a copy of such protest to the persons designated as representing the petition proponents pursuant to section 31-11-106 (2) and to the protester, together with a notice fixing a time for hearing such protest that is not less than five or more than ten days after such notice is mailed.

(2) The county clerk shall furnish a requesting protester with a list of the registered electors in the municipality and shall charge a fee to cover the cost of furnishing the list.

(3) Every hearing shall be held before the clerk with whom such protest is filed. The clerk shall serve as hearing officer unless some other person is designated by the legislative body as the hearing officer, and the testimony in every such hearing shall be under oath. The hearing officer shall have the power to issue subpoenas and compel the attendance of witnesses. The hearing shall be summary and not subject to delay and shall be concluded within sixty days after the petition is filed. No later than five days after the conclusion of the hearing, the hearing officer shall issue a written determination of whether the petition is sufficient or not sufficient. If the hearing officer determines that a petition is not sufficient, the officer shall identify those portions of the petition that are not sufficient and the reasons therefor. The result of the hearing shall be forthwith certified to the protester and to the persons designated as representing the petition proponents pursuant to section 31-11-106 (2). The determination as to petition sufficiency may be reviewed by the district court for the county in which such municipality or portion thereof is located upon application of the protester, the persons designated as representing the petition proponents pursuant to section 31-11-106 (2), or the municipality, but such review shall be had and determined forthwith.

31-11-111. Initiatives, referenda, and referred measures - ballot titles. (1) After an election has been ordered pursuant to section 31-11-104 or 31-11-105, the legislative body of the municipality or its designee shall promptly fix a ballot title for each initiative or referendum.

(2) The legislative body of any municipality may, without receipt of any petition, submit any proposed or adopted ordinance or resolution or any question to a vote of the registered electors of the municipality. The legislative body of the municipality or its designee shall fix a ballot title for the referred measure.

(3) In fixing the ballot title, the legislative body or its designee shall consider the public confusion that might be caused by misleading titles and shall, whenever practicable, avoid titles for which the general understanding of the effect of a "yes" or "no" vote would be unclear. The ballot title shall not conflict with those titles selected for any other measure that will appear on

the municipal ballot in the same election. The ballot title shall correctly and fairly express the true intent and meaning of the measure.

(4) Any protest concerning a ballot title shall be conducted as provided by local charter, ordinance, or resolution.

31-12-104. Eligibility for annexation. (1) No unincorporated area may be annexed to a municipality unless one of the conditions set forth in section 30 (1) of article II of the state constitution first has been met. An area is eligible for annexation if the provisions of section 30 of article II of the state constitution have been complied with and the governing body, at a hearing as provided in section 31-12-109, finds and determines:

(a) That not less than one-sixth of the perimeter of the area proposed to be annexed is contiguous with the annexing municipality. Contiguity shall not be affected by the existence of a platted street or alley, a public or private right-of-way, a public or private transportation right-of-way or area, public lands, whether owned by the state, the United States, or an agency thereof, except county-owned open space, or a lake, reservoir, stream, or other natural or artificial waterway between the annexing municipality and the land proposed to be annexed. Subject to the requirements imposed by section 31-12-105 (1)(e), contiguity may be established by the annexation of one or more parcels in a series, which annexations may be completed simultaneously and considered together for the purposes of the public hearing required by sections 31-12-108 and 31-12-109 and the annexation impact report required by section 31-12-108.5.

(b) That a community of interest exists between the area proposed to be annexed and the annexing municipality; that said area is urban or will be urbanized in the near future; and that said area is integrated with or is capable of being integrated with the annexing municipality. The fact that the area proposed to be annexed has the contiguity with the annexing municipality required by paragraph (a) of this subsection (1) shall be a basis for a finding of compliance with these requirements unless the governing body, upon the basis of competent evidence presented at the hearing provided for in section 31-12-109, finds that at least two of the following are shown to exist:

(I) Less than fifty percent of the adult residents of the area proposed to be annexed make use of part or all of the following types of facilities of the annexing municipality: Recreational, civic, social, religious, industrial, or commercial; and less than twenty-five percent of said area's

adult residents are employed in the annexing municipality. If there are no adult residents at the time of the hearing, this standard shall not apply.

(II) One-half or more of the land in the area proposed to be annexed (including streets) is agricultural, and the landowners of such agricultural land, under oath, express an intention to devote the land to such agricultural use for a period of not less than five years.

(III) It is not physically practicable to extend to the area proposed to be annexed those urban services which the annexing municipality provides in common to all of its citizens on the same terms and conditions as such services are made available to such citizens. This standard shall not apply to the extent that any portion of an area proposed to be annexed is provided or will within the reasonably near future be provided with any service by or through a quasi-municipal corporation.

(2) (a) The contiguity required by paragraph (a) of subsection (1) of this section may not be established by use of any boundary of an area which was previously annexed to the annexing municipality if the area, at the time of its annexation, was not contiguous at any point with the boundary of the annexing municipality, was not otherwise in compliance with paragraph (a) of subsection (1) of this section, and was located more than three miles from the nearest boundary of the annexing municipality, nor may such contiguity be established by use of any boundary of territory which is subsequently annexed directly to, or which is indirectly connected through subsequent annexations to, such an area.

(b) Because the creation or expansion of disconnected municipal satellites, which are sought to be prohibited by this subsection (2), violates both the purposes of this article as expressed in section 31-12-102 and the limitations of this article, any annexation which uses any boundary in violation of this subsection (2) may be declared by a court of competent jurisdiction to be void ab initio in addition to other remedies which may be provided. The provisions of section 31-12-116 (2) and (4) and section 31-12-117 shall not apply to such an annexation. Judicial review of such an annexation may be sought by any municipality having a plan in place pursuant to section 31-12-105 (1)(e) directly affected by such annexation, in addition to those described in section 31-12-116 (1). Such review may be, but need not be, instituted prior to the effective date of the annexing ordinance and may include injunctive relief. Such review shall be brought no later than sixty days after the effective date of the annexing ordinance or shall forever be barred.

(c) Contiguity is hereby declared to be a fundamental element in any annexation, and this subsection (2) shall not in any way be construed as having the effect of legitimizing in any way any noncontiguous annexation.

31-12-105. Limitations. (1) Notwithstanding any provisions of this part 1 to the contrary, the following limitations shall apply to all annexations:

(a) In establishing the boundaries of any territory to be annexed, no land held in identical ownership, whether consisting of one tract or parcel of real estate or two or more contiguous tracts or parcels of real estate, shall be divided into separate parts or parcels without the written consent of the landowners thereof unless such tracts or parcels are separated by a dedicated street, road, or other public way.

(b) In establishing the boundaries of any area proposed to be annexed, no land held in identical ownership, whether consisting of one tract or parcel of real estate or two or more contiguous tracts or parcels of real estate, comprising twenty acres or more (which, together with the buildings and improvements situated thereon has a valuation for assessment in excess of two hundred thousand dollars for ad valorem tax purposes for the year next preceding the annexation) shall be included under this part 1 without the written consent of the landowners unless such tract of land is situated entirely within the outer boundaries of the annexing municipality as they exist at the time of annexation. In the application of this paragraph (b), contiguity shall not be affected by a dedicated street, road, or other public way.

(c) No annexation pursuant to section 31-12-106 and no annexation petition or petition for an annexation election pursuant to section 31-12-107 shall be valid when annexation proceedings have been commenced for the annexation of part or all of such territory to another municipality, except in accordance with the provisions of section 31-12-114. For the purpose of this section, proceedings are commenced when the petition is filed with the clerk of the annexing municipality or when the resolution of intent is adopted by the governing body of the annexing municipality if action on the acceptance of such petition or on the resolution of intent by the setting of the hearing in accordance with section 31-12-108 is taken within ninety days after the said filings if an annexation procedure initiated by petition for annexation is then completed within the one hundred fifty days next following the effective date of the resolution accepting the petition and setting the hearing date and if an annexation procedure initiated by resolution of intent or by petition for an annexation election is prosecuted without unreasonable delay after the effective date of the resolution setting the hearing date.

(d) As to any annexation which will result in the detachment of area from any school district and the attachment of the same to another school district, no annexation pursuant to section 31-12-106 or annexation petition or petition for an annexation election pursuant to section 31-12-107 is valid unless accompanied by a resolution of the board of directors of the school district to which such area will be attached approving such annexation.

(e) (I) Except as otherwise provided in this paragraph (e), no annexation may take place that would have the effect of extending a municipal boundary more than three miles in any direction from any point of such municipal boundary in any one year. Within said three-mile area, the contiguity required by section 31-12-104 (1)(a) may be achieved by annexing a platted street or alley, a public or private right-of-way, a public or private transportation right-of-way or area, or a lake, reservoir, stream, or other natural or artificial waterway. Prior to completion of any annexation within the three-mile area, the municipality shall have in place a plan for that area that generally describes the proposed location, character, and extent of streets, subways, bridges, waterways, waterfronts, parkways, playgrounds, squares, parks, aviation fields, other public ways, grounds, open spaces, public utilities, and terminals for water, light, sanitation, transportation, and power to be provided by the municipality and the proposed land uses for the

area. Such plan shall be updated at least once annually. Such three-mile limit may be exceeded if such limit would have the effect of dividing a parcel of property held in identical ownership if at least fifty percent of the property is within the three-mile limit. In such event, the entire property held in identical ownership may be annexed in any one year without regard to such mileage limitation. Such three-mile limit may also be exceeded for the annexation of an enterprise zone.

(II) Prior to completion of an annexation in which the contiguity required by section 31-12-104 (1)(a) is achieved pursuant to subparagraph (I) of this paragraph (e), the municipality shall annex any of the following parcels that abut a platted street or alley, a public or private right-of-way, a public or private transportation right-of-way or area, or a lake, reservoir, stream, or other natural or artificial waterway, where the parcel satisfies all of the eligibility requirements pursuant to section 31-12-104 and for which an annexation petition has been received by the municipality no later than forty-five days prior to the date of the hearing set pursuant to section 31-12-108 (1):

(A) Any parcel of property that has an individual schedule number for county tax filing purposes upon the petition of the owner of such parcel;

(B) Any subdivision that consists of only one subdivision filing upon the petition of the requisite number of property owners within the subdivision as determined pursuant to section 31-12-107; and

(C) Any subdivision filing within a subdivision that consists of more than one subdivision filing upon the petition of the requisite number of property owners within the subdivision filing as determined pursuant to section 31-12-107.

(e.1) The parcels described in subparagraph (II) of paragraph (e) of this subsection (1) shall be annexed under the same or substantially similar terms and conditions and considered at the same hearing and in the same impact report as the initial annexation in which the contiguity required by section 31-12-104 (1)(a) is achieved by annexing a platted street or alley, a public or private right-of-way, a public or private transportation right-of-way or area, or a lake, reservoir, stream, or other natural or artificial waterway. Impacts of the annexation upon the parcels described in subparagraph (II) of paragraph (e) of this subsection (1) that abut such platted street or alley, public or private right-of-way, public or private transportation right-of-way or area, or lake, reservoir, stream, or other natural or artificial waterway shall be considered in the impact report required by section 31-12-108.5. As part of the same hearing, the municipality shall consider and decide upon any petition for annexation of any parcel of property having an individual schedule number for county tax filing purposes, which petition was received not later than forty-five days prior to the hearing date, where the parcel abuts any parcel described in subparagraph (II) of paragraph (e) of this subsection (1) and where the parcel otherwise satisfies all of the eligibility requirements of section 31-12-104.

(e.3) In connection with any annexation in which the contiguity required by section 31-12-104 (1)(a) is achieved by annexing a platted street or alley, a public or private right-of-way, a public or private transportation right-of-way or area, or a lake, reservoir, stream, or other natural or artificial waterway, upon the latter of ninety days prior to the date of the hearing set pursuant to section 31-12-108 or upon the filing of the annexation petition, the municipality shall provide, by regular mail to the owner of any abutting parcel as reflected in the records of the county assessor, written notice of the annexation and of the landowner's right to petition for annexation pursuant to section 31-12-107. Inadvertent failure to provide such notice shall neither create a cause of action in favor of any landowner nor invalidate any annexation proceeding.

(f) In establishing the boundaries of any area proposed to be annexed, if a portion of a platted street or alley is annexed, the entire width of said street or alley shall be included within the area annexed.

(g) Notwithstanding the provisions of paragraph (f) of this subsection (1), a municipality shall not deny reasonable access to landowners, owner of an easement, or the owner of a franchise adjoining a platted street or alley which has been annexed by the municipality but is not bounded on both sides by the municipality.

(h) The execution by any municipality of a power of attorney for real estate located within an unincorporated area shall not be construed to comply with the election provisions of this article for purposes of annexing such unincorporated area. Such annexation shall be valid only upon compliance with the procedures set forth in this article.

31-12-106. Annexation of enclaves, partly surrounded land, and municipally owned land. (1) **Annexation of enclaves.** When any unincorporated area is entirely contained within the boundaries of a municipality, the governing body may by ordinance annex such territory to the municipality in accordance with section 30 (1)(c) of article II of the state constitution, but without complying with section 31-12-104, 31-12-105, 31-12-108, or 31-12-109, if said area has been so surrounded for a period of not less than three years; except that notice of the proposed annexation ordinance shall be given by publication as provided by section 31-12-108 (2) for notices of annexation petitions, and resolutions initiating annexation proceedings, but no public hearing on the proposed annexation ordinance shall be required, and the first publication of notice shall be at least thirty days prior to the adoption of the ordinance.

(1.1) **Exception to annexation of enclaves.** (a) No enclave may be annexed pursuant to subsection (1) of this section if:

(I) Any part of the municipal boundary or territory surrounding such enclave consists at the time of the annexation of the enclave of public rights-of-way, including streets and alleys, that are not immediately adjacent to the municipality on the side of the right-of-way opposite to the enclave; or

(II) Any part of the territory surrounding the enclave was annexed to the municipality since December 19, 1980, without compliance with section 30 of article II of the state constitution.

(b) In the case of an enclave the population of which exceeds one hundred persons according to the most recent United States census and that contains more than fifty acres, the enclave shall not be annexed pursuant to subsection (1) of this section unless the governing body of the annexing municipality has:

(I) Created an annexation transition committee composed of nine members, five of whom shall reside, operate a business, or own real property within the enclave, two of whom

shall represent the annexing municipality, and two of whom shall represent one or more counties in which the enclave is situated; and

(II) Published notice of the creation and existence of the committee, together with its regular mail, electronic mail, or telephonic contact information, in the same manner as provided by section 31-12-108 (2) for notices of annexation petitions and resolutions initiating annexation proceedings.

(c) The duties of the annexation transition committee required by paragraph (b) of this subsection (1.1) shall be to:

(I) Serve as a means of communication between or among the annexing municipality, one or more counties within which the enclave is situated, and the persons who reside, operate a business, or own real property within the enclave regarding any public meetings on the proposed annexation; and

(II) Provide a mechanism by which persons who reside, operate a business, or own real property within the enclave may communicate, whether by electronic mail, telephonic communication, regular mail, or public meetings, with the annexing municipality or any counties within which the enclave is situated regarding the proposed annexation.

(2) (Deleted by amendment, L. 97, p. 995, § 2, effective May 27, 1997.)

(3) **Annexation of unincorporated municipally owned land.** When the municipality is the sole owner of the area that it desires to annex, which area is eligible for annexation in accordance with section 30 (1)(c) of article II of the state constitution and sections 31-12-104 (1)(a) and 31-12-105, the governing body may by ordinance annex said area to the municipality without notice and hearing as provided in sections 31-12-108 and 31-12-109. The annexing ordinance shall state that the area proposed to be annexed is owned by the annexing municipality and is not solely a public street or right-of-way.

(4) **Additional terms and conditions on the annexation.** Additional terms or conditions may be imposed by the governing body in accordance with section 31-12-112.

(5) Any municipality that has entered into an intergovernmental agreement, any portion of which addresses issues pertaining to the annexation of enclaves shall, promptly upon execution of the agreement, record the agreement with the clerk and recorder of any county within which any land area addressed in the agreement is situated.

31-12-107. Petitions for annexation and for annexation elections. (1) Petition for annexation in accordance with section 30 (1)(b) of article II of the state constitution:

(a) Persons comprising more than fifty percent of the landowners in the area and owning more than fifty percent of the area, excluding public streets and alleys and any land owned by

the annexing municipality, meeting the requirements of sections 31-12-104 and 31-12-105 may petition the governing body of any municipality for the annexation of such territory.

(b) The petition shall be filed with the clerk.

(c) The petition shall contain the following:

(I) An allegation that it is desirable and necessary that such area be annexed to the municipality;

(II) An allegation that the requirements of sections 31-12-104 and 31-12-105 exist or have been met;

(III) An allegation that the signers of the petition comprise more than fifty percent of the landowners in the area and own more than fifty percent of the area proposed to be annexed, excluding public streets and alleys and any land owned by the annexing municipality;

(IV) A request that the annexing municipality approve the annexation of the area proposed to be annexed;

(V) The signatures of such landowners;

(VI) The mailing address of each such signer;

(VII) The legal description of the land owned by such signer;

(VIII) The date of signing of each signature; and

(IX) The affidavit of each circulator of such petition, whether consisting of one or more sheets, that each signature therein is the signature of the person whose name it purports to be.

(d) Accompanying the petition shall be four copies of an annexation map containing the following information:

(I) A written legal description of the boundaries of the area proposed to be annexed;

(II) A map showing the boundary of the area proposed to be annexed;

(III) Within the annexation boundary map, a showing of the location of each ownership tract in unplatted land and, if part or all of the area is platted, the boundaries and the plat numbers of plots or of lots and blocks;

(IV) Next to the boundary of the area proposed to be annexed, a drawing of the contiguous boundary of the annexing municipality and the contiguous boundary of any other municipality abutting the area proposed to be annexed.

(e) No signature on the petition is valid if it is dated more than one hundred eighty days prior to the date of filing the petition for annexation with the clerk. All petitions which substantially comply with the requirements set forth in paragraphs (b) to (d) of this subsection (1) shall be deemed sufficient. No person signing a petition for annexation shall be permitted to withdraw his signature from the petition after the petition has been filed with the clerk, except as such right of withdrawal is otherwise set forth in the petition.

(f) The clerk shall refer the petition to the governing body as a communication. The governing body, without undue delay, shall then take appropriate steps to determine if the petition so filed is substantially in compliance with this subsection (1).

(g) If the petition is found to be in substantial compliance with this subsection (1), the procedure outlined in sections 31-12-108 to 31-12-110 shall then be followed. If it is not in substantial compliance, no further action shall be taken.

(2) Petition for annexation election in accordance with section 30 (1)(a) of article II of the state constitution:

(a) The registered electors may petition the governing body of any municipality to commence proceedings for the holding of an annexation election in the area proposed to be

annexed. This petition shall meet the standards described in paragraphs (c) and (d) of this subsection (2) and either:

(I) Shall be signed by at least seventy-five registered electors or ten percent of said electors, whichever is less, if such area is located in a county of more than twenty-five thousand inhabitants; or

(II) Shall be signed by at least forty registered electors or ten percent of said electors, whichever is less, if such area is located in a county of twenty-five thousand inhabitants or less.

(b) The petition shall be filed with the clerk.

(c) The petition for annexation election shall comply with the provisions of paragraph (c) of subsection (1) of this section; except that:

(I) Rather than an allegation of any certain percentage of land owned, it shall contain an allegation that the signers of the petition are qualified electors resident in and landowners of the area proposed to be annexed; and

(II) The petition shall request the annexing municipality to commence proceedings for the holding of an annexation election in accordance with section 30 (1)(a) of article II of the state constitution.

(d) The requirements and procedures provided for in paragraphs (e) and (f) of subsection (1) of this section shall be met and followed in a proceeding under this subsection (2).

(e) If the petition is found to be in substantial compliance with this subsection (2), the procedure outlined in sections 31-12-108 to 31-12-110 shall then be followed, subject thereafter to an annexation election to be held in accordance with section 31-12-112. If the petition for an annexation election is not found to be in substantial compliance, no further action shall be taken; except that the governing body shall make such determination by resolution.

(3) Procedures alternative: The procedures set forth in subsections (1) and (2) of this section are alternative to each other and to any procedure set forth in section 31-12-106; except that a petition for annexation election filed pursuant to subsection (2) of this section shall take precedence over an annexation petition involving the same territory and filed pursuant to subsection (1) of this section if such petition for annexation election is filed at least ten days prior to the hearing date set for the annexation petition filed pursuant to subsection (1) of this section.

(4) Additional terms and conditions on the annexation: Additional terms and conditions may be imposed by the governing body in accordance with section 31-12-112.

(5) If a petition is filed pursuant to subsection (1) or (2) of this section and the territory sought to be annexed meets the specifications of section 31-12-106 (1), the governing body of the municipality with which the petition is filed shall thereupon initiate annexation proceedings pursuant to the appropriate provisions of section 31-12-106 (1). In the event that any governing body fails to initiate such annexation proceedings within a period of one year from the time that such petition is filed, annexation may be effected by an action in the nature of mandamus to the district court of the county where the land to be annexed is located, and the petitioner's court costs and attorney fees incident to such action shall be borne by the municipality.

(6) No proceedings for annexation to a municipality may be initiated in any area which is the same or substantially the same area in which an election for annexation to the same municipality has been held within the preceding twelve months.

(7) For the purpose of determining the compliance with the petition requirements in this section, a signature by any landowner shall be sufficient so long as any other owner in fee of an

undivided interest in the same area of land does not object in writing to the governing body of the annexing municipality within fourteen days after the filing of the petition for annexation or annexation election. The entire area of the land signed for shall be computed as petitioning for annexation if such signing landowner has become liable for taxes in the last preceding calendar year or is exempt by law from payment of taxes. One who is purchasing land under a written contract duly recorded shall be deemed the owner of the land which is subject to the contract if he has paid the taxes thereon for the next preceding tax year. The signers for an area owned by a corporation, whether profit or nonprofit, shall be the same persons as those authorized to convey land for such corporation.

(8) No power of attorney providing the consent of a landowner to be annexed by a municipality pursuant to this section shall be valid for a term of more than five years, and no such power of attorney executed before May 27, 1997, shall be valid for a term of more than five years after May 27, 1997.

31-12-108. Setting hearing date - notice given. (1) As a part of the resolution initiating annexation proceedings by the municipality or of a resolution finding substantial compliance of an annexation petition or of a petition for an annexation election, the governing body of the annexing municipality shall establish a date, time, and place that the governing body will hold a hearing to determine if the proposed annexation complies with section 30 of article II of the state constitution and sections 31-12-104 and 31-12-105 or such provisions thereof as may be required to establish eligibility under the terms of this part 1. The hearing shall be held not less than thirty days nor more than sixty days after the effective date of the resolution setting the hearing. This hearing need not be held if the municipality has determined conclusively that the requirements of section 30 of article II of the state constitution and sections 31-12-104 and 31-12-105 have not been met.

(2) The clerk shall give notice as follows: A copy of the resolution or the petition as filed (exclusive of the signatures) together with a notice that, on the given date and at the given time and place set by the governing body, the governing body shall hold a hearing upon said resolution of the annexing municipality or upon the petition for the purpose of determining and finding whether the area proposed to be annexed meets the applicable requirements of section 30 of article II of the state constitution and sections 31-12-104 and 31-12-105 and is considered eligible for annexation. Said notice shall be published once a week for four successive weeks in some newspaper of general circulation in the area proposed to be annexed. The first publication of such notice shall be at least thirty days prior to the date of the hearing. The proof of publication of the notice and resolution or petition, or the summary thereof, shall be returned when the publication is completed, the certificate of the owner, editor, or manager of the

newspaper in which said notice is published shall be proof thereof, and a hearing shall then be held as provided in said notice. A copy of the published notice, together with a copy of the resolution and petition as filed, shall also be sent by registered mail by the clerk to the board of county commissioners and to the county attorney of the county wherein the territory is located and to any special district or school district having territory within the area to be annexed at least twenty-five days prior to the date fixed for such hearing. The notice required to be sent to the special district or school district by this subsection (2) shall not confer any right of review in addition to those rights provided for in section 31-12-116.

(3) The governing body of the annexing municipality, from time to time, may continue the hearing to another date without additional notice if the volume of material to be received cannot be presented within the available time for any given session; except that no session of a hearing shall be so continued unless at least one hour of testimony has been heard.

(1) The municipality shall prepare an impact report concerning the proposed annexation at least twenty-five days before the date of the hearing established pursuant to section 31-12-108 and shall file one copy with the board of county commissioners governing the area proposed to be annexed within five days thereafter. Such report shall not be required for annexations of ten acres or less in total area or when the municipality and the board of county commissioners governing the area proposed to be annexed agree that the report may be waived. Such report shall include, as a minimum:

(a) A map or maps of the municipality and adjacent territory to show the following information:

(I) The present and proposed boundaries of the municipality in the vicinity of the proposed annexation;

(II) The present streets, major trunk water mains, sewer interceptors and outfalls, other utility lines and ditches, and the proposed extension of such streets and utility lines in the vicinity of the proposed annexation; and

(2) All proceedings at the hearing and any continuances thereof shall be recorded, but the recorder's notes need not be transcribed unless proceedings for judicial review are initiated as provided in section 31-12-116.

(3) The board of trustees of a town may dispense with the reporting of the hearing as provided in this section and substitute in lieu thereof minutes summarizing the presentation of each speaker and describing the proceedings of the hearing. 31-12-110. Findings. (1) Upon the completion of the hearing, the governing body of the annexing municipality, by resolution, shall set forth its findings of fact and its conclusion based thereon with reference to the following matters:

(a) Whether or not the requirements of the applicable provisions of section 30 of article II of the state constitution and sections 31-12-104 and 31-12-105 have been met;

31-12-112. Election - annexation pursuant to election. (1) If the governing body determines that an annexation election is required under the provisions of section 30 (1)(a) of article II of the state constitution and section 31-12-107 (2) or that additional terms and conditions should be imposed upon the area proposed to be annexed, an election shall be called, as provided in this section, to determine whether a majority of the landowners and the registered electors in the area proposed to be annexed approve such annexation, with such terms and conditions, if any, as may attach thereto.

(2) Any landowner owning land in the area proposed to be annexed may vote, irrespective of whether he or she is a registered elector. Any corporate landowner may by resolution designate one of its officers to cast its vote; except that nothing in this part 1 shall invalidate any memorandum of agreement or escrow arrangement voluntarily made by and between the annexing municipality and one or more landowners within the area proposed to be annexed nor require an election for the approval of any terms and conditions to be accomplished or assured in this manner.

(3) The municipality shall forthwith petition the district court of the county in which the area proposed to be annexed or a part thereof is located to hold such election.

(4) Upon receipt of such petition, the court shall appoint three commissioners, one of whom shall be nominated by the municipality, one of whom shall be a landowner of land in the area proposed to be annexed or such landowner's nominee, and the third shall be acceptable to the other two. All of the commissioners shall be residents of the state of Colorado and willing to serve as such commissioners. The appointees, within three days after the date of their appointment, shall take an oath before the court faithfully to perform their duties. In case of disability or failure of any commissioner to act, the court shall forthwith fill his place with some person competent, willing, and able to act.

(5) Such commissioners shall forthwith call an election of all the landowners and the registered electors in the area proposed to be annexed, to be held at some convenient place within the area proposed to be annexed. The commissioners shall establish such polling places within the area proposed to be annexed, or immediately adjacent thereto if such area is vacant and unoccupied, as in their judgment are necessary to afford all of the landowners and the registered electors the opportunity to cast their votes. If more than one polling place is found to be necessary, the court may appoint three additional persons to act as judges or clerks for each additional polling place. Such additional judges and clerks shall meet the same requirements as the original appointees.

(6) Notice of such election shall be given by publication once a week for four weeks in some newspaper of general circulation in the area and published in the county in which such area is located or, if there is no such newspaper in the county, in some newspaper of general circulation published in an adjacent county. Additional notice shall be given by posting a notice at each polling place. The said posting and first newspaper publication shall be not less than four weeks preceding such election. Such notice shall specify the time and place of such election, shall contain a description of the boundaries of the area proposed to be annexed, and shall state that a map or plat thereof is on file in the office of the clerk of the district court in which such area, or a part thereof, is located. Such notice shall also set forth the conditions and requirements proposed by the governing body for annexation of the area, and it shall inform the public that an

issue committee is required by law to register with the appropriate officer pursuant to section 1-45-108, C.R.S., within ten calendar days of accepting or making contributions or expenditures in excess of two hundred dollars to support or oppose the annexation question.

(7) Such commissioners and additional appointees provided for in subsection (5) of this section shall act as judges or clerks of the election, shall take the oath required by law for judges of general elections, and shall report the result of the voting in their respective polling places to the court within three days after such election. The court shall allow each judge and clerk a reasonable compensation for his services as such, not exceeding two dollars for each hour necessarily employed in the performance of his duties.

(8) The ballot used in such election shall contain the words "For Annexation" and "Against Annexation". At the time of voting, each voter shall indicate his choice by placing a cross mark (X) opposite one or the other of said groups of words. Voting machines may be used in the same manner as in municipal elections.

(9) If a majority of the votes cast at such election are against annexation or the vote is tied, the court shall order that all annexation proceedings to date are void and of no effect and that the governing body shall proceed no further with the instant annexation proceedings. If a majority of the votes cast at the election are for annexation, the court shall order, adjudge, and decree that such area may be annexed to the municipality upon the terms and conditions, if any, set forth by the governing body, and the municipality, by ordinance, may thereafter annex said area and impose the terms and conditions, if any, as approved by the landowners and the registered electors.

(10) All costs and expenses connected with such annexation election, including commissioner fees and all election expenses when incurred, shall be paid by the municipality to which the annexation is proposed.

31-12-113. Effective date of annexation - required filings. (1) If the conditions of subsection (2) of this section are met, area annexed to a municipality, as provided in this part 1, shall be annexed upon the effective date of the annexing ordinance, except as otherwise provided in sections 31-12-118 and 31-12-118.5 and for tax purposes as provided in subsection (3) of this section.

(2) (a) The annexing municipality shall:

(I) File one copy of the annexation map with the original of the annexation ordinance in the office of the clerk of the annexing municipality;

(II) (A) File for recording three certified copies of the annexation ordinance and map of the area annexed containing a legal description of such area with the county clerk and recorder of each county affected.

(B) The county clerk and recorder of each county involved shall file one certified copy of such annexation ordinance and map with the division of local government of the department of local affairs and one certified copy of such annexation ordinance and map with the department of revenue.

(a.5) Upon receiving an annexation ordinance and map pursuant to sub-subparagraph (B) of subparagraph (II) of paragraph (a) of this subsection (2), the department of revenue shall communicate with any taxing entities affected by the annexation in order to facilitate the administration and collection of taxes within the annexed areas and to identify all retailers affected by the annexation. The department of revenue shall make copies of any such ordinances and maps available to all taxing entities in the state, including any special districts that impose a sales tax.

(b) No annexation shall be effective until the requirements of sub-subparagraph (A) of subparagraph (II) of paragraph (a) of this subsection (2) are met.

(c) In any action attacking the validity of an annexation proceeding, failure of the annexing municipality to have made the filings required by this subsection (2) shall not be deemed to invalidate the annexation where good cause for such failure is shown.

(3) An annexation shall be effective for the purpose of general taxation on and after the January 1 next ensuing.

(4) In the event that an annexation which has the effect of changing county lines occurs before January 1, the assessor of the county from which such area was detached shall provide to the assessor of the county to which such area has been added, on or before the February 1 next ensuing, the following:

(a) An abstract of the total valuation for assessment of all taxable property so transferred;

(b) A certified copy of the assessment records of the individual properties in the annexed area as of the effective date of annexation containing the legal description, the name and address of the owner, and the valuation for assessment of all taxable property, together with such supporting records as are required by the regulations of the property tax administrator.

31-12-114. Conflicting annexation claims of two or more municipalities. (1) At any time during a period of notice given by a municipality pursuant to section 31-12-108, any other municipality may, subject to compliance with section 30 of article II of the state constitution, receive a petition for annexation or a petition for an annexation election pursuant to section 31-12-107 with the area partly or wholly overlapping the area proposed for annexation by the first municipality. If this occurs, the respective rights of the several municipalities shall be determined in accordance with an election as provided in this section.

(2) All further proceedings for the annexation of the area claimed by both municipalities shall be held in abeyance pending the holding of an election of the landowners and the registered electors within such area as described in subsection (4) of this section for the purpose of

determining to which municipality such electors prefer to annex. This election shall be held pursuant to the provisions of section 31-12-112, except as provided in this section.

(3) The second municipality indicating its intent to annex shall petition the district court of the county in which the area proposed to be annexed is located for the election provided for in subsection (2) of this section. Such petition shall be filed within thirty days after the effective date of the resolution of intent or the date of the filing of the petition described in subsection (1) of this section.

(4) All of the landowners and the registered electors in the area claimed by both municipalities shall be entitled to vote at said election. Any corporate landowner may by resolution designate one of its officers to cast its vote.

(5) (a) If the disputed area has less than two-thirds boundary contiguity with either municipality, the ballot shall contain two questions:

(I) "For Annexation" and "Against Annexation"; and

(II) "For annexation to "

(name of municipality first starting proceedings)

and "For annexation to "

(name of municipality second starting proceedings).

(b) If more than two municipalities dispute the same area, the ballot shall list each municipality in order of the date when it started proceedings under this part 1 and in the same form as specified in this section. If the disputed area does have more than two-thirds boundary contiguity with one of the municipalities, only the question in subparagraph (II) of paragraph (a) of this subsection (5) shall appear on the ballot. If both questions are to appear on the ballot, the notice of the election shall contain a statement that all of the landowners and the registered electors may vote on the second question irrespective of their votes on the first question.

(6) If, upon a canvass of the votes, it is found that a majority of the votes cast were against annexation, or that the vote on the issue of annexation is tied, or that the vote on which municipality should annex is tied, the court shall declare all annexation proceedings of both municipalities insofar as they relate to the disputed area to be void and of no effect, and both municipalities shall be barred from continuing with the current annexation proceedings insofar as they relate to such disputed area.

(7) If the vote is in favor of annexation, the municipality to which the landowners and the registered electors indicate their intention to annex may proceed to hold a hearing as provided in this part 1 and to comply with the other provisions of this part 1 with respect to the area claimed by both municipalities; if such area is found to comply with the applicable provisions of sections 31-12-104 and 31-12-105 and if the entire area proposed to be annexed has been in dispute, the subject election shall be deemed to comply with the provisions of sections 31-12-107 and 31-12-112 relative to an election of the landowners and the registered electors for areas having less than two-thirds boundary contiguity with the annexing municipality.

(8) If more than two municipalities claim a disputed area and a majority of the votes are cast in favor of one municipality, that municipality may proceed to hold a hearing as provided in this part 1 and to comply with the other provisions of this part 1 with respect to the area claimed by the several municipalities; but the subject election shall be deemed to comply with the provisions of sections 31-12-107 and 31-12-112 relative to an election of the landowners and the registered electors for areas having less than two-thirds boundary contiguity with the annexing

municipality. If no municipality receives a majority, a runoff election between the two municipalities receiving the largest pluralities shall be held no sooner than four weeks and no longer than seven weeks after the date of the initial election to determine to which municipality the landowners and the registered electors desire to annex. Notice of such second election shall be given in the manner directed by the court. This election shall have the same effect as if it were the original election between the two municipalities involved.

(9) Notwithstanding any provision in this part 1 to the contrary, if the total area proposed for annexation or the disputed part thereof has more than two-thirds boundary contiguity with one of the municipalities, that municipality shall have the right to annex the disputed area unless three-fourths of the total votes cast at the election favor annexation to another municipality.

(10) Unless the area claimed by more than one municipality constitutes more than one-third of the area proposed for annexation, inclusive of streets, to the first annexing municipality, nothing in this part 1 shall prevent a municipality from proceeding with the annexation of that part of the area described in its resolution which is not claimed by another municipality without waiting for the holding of the election described in this section. In the hearing required by sections 31-12-108 and 31-12-109 and the findings required by section 31-12-110, the issue shall be the compliance of the undisputed portion of the area proposed for annexation with the requirements and limitations of sections 31-12-104 and 31-12-105. If the annexation was initiated by petition under section 31-12-107 and if the requirements of said sections 31-12-104 and 31-12-105 are met, the annexing municipality shall submit the issue of annexation with the changed boundaries to an election of the landowners and the registered electors to be held in accordance with section 31-12-112.

(11) The costs of the election shall be paid by the municipalities which are disputing the annexation by the first annexing municipality. If more than one municipality is disputing such annexation, the costs shall be apportioned among such disputing municipalities on a just and equitable basis by the court supervising the election.

(2) Amendments to subsection (1) by House Bill 10-1259 and House Bill 10-1422 were harmonized.

31-12-115. Zoning of land while annexation is under way - zoning of newly annexed land - subdivision of land while annexation is under way - regulatory impairments affecting newly annexed land used for agricultural purposes - notice - definitions. (1) An annexing municipality may institute the procedure outlined in state statutes or municipal charter to make land subject to zoning at any time after a petition for annexation or a petition for an annexation election has been found to be valid in accordance with the provisions of section 31-12-107. The proposed zoning ordinance shall not be passed on final reading prior to the date when the annexation ordinance is passed on final reading. If the zoning process is commenced prior to the effective date of the annexation ordinance, the legal protest area for zoning shall be

determined solely on geographic location, irrespective of whether the land in such legal protest area is within or without or partly within and partly without the annexing municipality.

(2) If the municipality has a zoning ordinance, any area annexed on or after January 1, 1966, shall be brought under such zoning ordinance and map within ninety days after the effective date of the annexation ordinance, irrespective of any legal review which may be instituted pursuant to section 31-12-116.

(3) During such ninety-day period or such portion thereof required to comply with subsection (2) of this section, the annexing municipality may refuse to issue any building or occupancy permit for any portion or all of the newly annexed area.

(4) Any provision in a zoning ordinance automatically applying a uniform zoning classification to all land which may be annexed in the future is void and of no effect as to any annexation completed on or after January 1, 1966.

(5) Any annexing municipality may institute the procedure outlined in its subdivision regulations to subdivide land in the area proposed to be annexed at any time after a petition for annexation or a petition for an annexation election has been found to be valid in accordance with the provisions of section 31-12-107. The ordinance accepting the proposed subdivision shall not be passed on final reading prior to the date when the annexation is passed on final reading.

(6) (a) Notwithstanding any other provision of law, whenever a municipality annexes an area that contains any portion of a public transportation right-of-way, a customary or regular use of which involves the movement of any agricultural vehicles and equipment, for the period during which land use within the annexed area is devoted to agricultural use and regardless of whether the annexed area has been zoned for agricultural uses, the municipality shall not adopt or enforce any ordinance or regulation affecting the right-of-way, whether arising in connection with zoning, rezoning, the regulation of traffic, or otherwise, so as to restrict such customary or regular use of the right-of-way that is in existence as of the time of the annexation. Nothing in this subsection (6) shall be construed as in any way restricting the municipality from adopting or enforcing traffic regulations that are either consistent with the customary or regular use of the right-of-way or are necessary for the safety of vehicular and pedestrian traffic using the right-of-way.

(b) In addition to any other applicable notice requirements provided by law, not less than thirty days prior to final adoption of an ordinance or regulation affecting the right-of-way in an annexed area that is devoted to agricultural use and regardless of whether the annexed area has been zoned for agricultural uses, the municipality shall send notice of the proposed ordinance or regulation to the following persons by means of the following methods:

(I) To any person who owns property in the annexed area that is contiguous to the right-of-way, by certified mail; and

(II) To such persons as appear on a list maintained by the municipality of interested persons who are to receive such notice by first-class mail. The name of any such person shall remain on the list until such time as the person requests removal of the person's name from the list.

(c) For purposes of this subsection (6), "agricultural vehicles and equipment" means any vehicle or equipment that is designed, adapted, or used for agricultural purposes.

31-12-116. Review. (1) (a) If any landowner or any registered elector in the area proposed to be annexed, the board of county commissioners of any county governing the area proposed to be annexed, or any municipality within one mile of the area proposed to be annexed believes itself to be aggrieved by the acts of the governing body of the annexing municipality in annexing said area to said municipality, such acts or findings of the governing body may be reviewed by certiorari in accordance with the Colorado rules of civil procedure. Such review proceedings shall be instituted in any district court having jurisdiction of the county in which the annexed area is located. In no event shall such a proceeding be instituted prior to the effective date of the annexing ordinance by the annexing municipality.

(b) If the annexed area is located within two or more counties, review proceedings may be brought in any district court having jurisdiction of any one of such counties. In all such certiorari proceedings under this part 1, the district court shall be presided over by a judge appointed by the chief justice of the supreme court of the state of Colorado, which judge shall not be from the judicial district in which the area proposed to be annexed is located nor from a judicial district contiguous thereto.

(2) (a) (I) All such actions to review the findings and the decision of the governing body shall be brought within sixty days after the effective date of the ordinance, and, if such action is not brought within such time, such action shall forever be barred.

(II) All such actions to review the findings and the decision of the governing body shall be subject to the following requirement, which is a condition precedent to the right to obtain judicial review under this section: Any party bringing such action shall first have filed a motion for reconsideration within ten days of the effective date of the ordinance finalizing the challenged annexation, which motion shall state with particularity the grounds upon which judicial review is sought.

(III) The district court shall schedule such actions for expedited hearing.

(IV) In the event that the person bringing an action pursuant to this section fails to substantially prevail, the court may award the municipality its reasonable attorney fees and costs of defense.

(b) In any action brought within the sixty-day limitation of paragraph (a) of this subsection (2) to review the annexation of an enclave pursuant to section 31-12-106 (1), the court may review the findings and determinations of the governing body in annexing any territory which, in whole or in part, resulted in the creation of the enclave. If the court finds that any such prior annexation resulted in the creation of a municipal boundary that consists of public rights-of-way as set forth in section 31-12-106 (1.1)(a)(I) or occurred without compliance with section 30 of article II of the state constitution as set forth in section 31-12-106 (1.1)(a)(II), it shall declare the annexation of the enclave to be void, but no such finding or decision shall affect the validity of the prior annexation.

(3) Review proceedings instituted under this section shall not be extended further than to determine whether the governing body has exceeded its jurisdiction or abused its discretion under the provisions of this part 1.

(4) Any annexation accomplished in accordance with the provisions of this part 1 shall not be directly or collaterally questioned in any suit, action, or proceeding, except as expressly authorized in this section.

(5) If the hearing has not been stenographically reported as provided in section 31-12-109 (2) and if the court determines, after proper investigation, that the minutes of the hearing are not adequate to form the basis for a determination of the issue in the certiorari proceedings, the court may proceed to try the issue de novo.

(6) All proceedings for judicial review of any annexation proceeding under this part 1 shall be advanced as a matter of immediate public interest and concern and heard at the earliest practical moment. The courts shall be open at all times for the purposes of this part 1.

31-12-117. Effect of review and of voiding of annexation ordinance by court order.

(1) After the effective date of an annexation ordinance, the annexing municipality shall apply all pertinent ordinances to the annexed area, irrespective of any proceedings for judicial review.

(2) In the event that the district court enters a final judgment, as defined in rule 54 (a), Colorado rules of civil procedure, declaring the annexation proceedings void, no acts taken in compliance with or pursuant to the charter, ordinances, or regulations of the annexing municipality shall be voided thereby, even though such acts are not in compliance with applicable county requirements or the requirements of other municipal or quasi-municipal corporations having jurisdiction over the area affected by such judicial proceedings. Such acts shall include, among others, subdivision platting and the construction and occupancy of improvements. A judicial declaration voiding an annexation shall not invalidate the levy and collection of any taxes, license fees, or charges collected or imposed by the annexing municipality prior to such final judgment.

(3) The provisions of subsection (2) of this section shall apply with equal force and validity to judicial review of any annexation proceedings which have affected the boundaries of any county or city and county; except that, within ninety days after the effective date of such a final judgment, the county clerk and recorder of the county or city and county to which the area was attempted to be annexed shall transmit to the county clerk and recorder of the county to which the territory was returned as a result of the judicial determination of the invalidity of the annexation proceedings a copy of each approved subdivision plat, which copy shall then be recorded without charge in the records of the county to which the territory was so returned.

(4) The execution of any final judgment by the district court in any judicial review of an annexation proceeding shall automatically be stayed upon the filing of the record on appeal as provided by law and the Colorado appellate rules, and no application for supersedeas shall be necessary. Such stay shall continue in full force and effect pending final disposition of the proceedings on appeal.

31-12-118. Priority of annexation proceedings. (1) The purpose of this section is to give a first priority to annexation proceedings unless certain incorporation proceedings described in this section are commenced for all or part of the area subject to such annexation proceedings.

(2) (a) Except as otherwise provided in paragraph (b) of this subsection (2), when a governing body receives a petition for annexation pursuant to section 31-12-107 (1) or a petition for an election on the question of annexation pursuant to section 31-12-107 (2), no other proceedings shall be commenced or prosecuted for the annexation or incorporation of the same area or any part thereof and no other proceedings shall be commenced or prosecuted for the creation of any quasi-municipal corporation in the same area or any part thereof until the question of annexing such area pursuant to any such petition has been finally determined. Nothing in this subsection (2) shall prevent a duly established special service district lawfully organized under part 5 or 6 of article 25 of this title, article 8 of title 29, C.R.S., part 2 of article 20 of title 30, C.R.S., or title 32 (except article 8), C.R.S., from receiving and prosecuting a petition for the inclusion of the same area or any part thereof within the boundaries of any such special service district during any pending annexation proceeding.

(b) A governing body shall hold annexation proceedings in abeyance if, on or after the date a petition for annexation pursuant to section 31-12-107 (1) or a petition for an election on the question of annexation pursuant to section 31-12-107 (2) is filed, a petition for incorporation of the same area or any part thereof is filed pursuant to part 1 of article 2 of this title and such area contains more than seventy-five thousand inhabitants.

(3) The fact that proceedings for the incorporation of an area have been commenced prior to the filing of a petition for annexation under section 31-12-107 (1) or prior to the filing of a petition for an election on the question of annexation under section 31-12-107 (2) shall in no way affect such proceedings for the annexation of all or part of the same area, and any such incorporation proceedings shall be held in abeyance until the question of annexation has been finally determined. Similarly the fact that proceedings for the creation of a quasi-municipal corporation have been commenced prior to the filing of a petition for annexation under section 31-12-107 (1) or the filing of a petition for an election on the question of annexation under section 31-12-107 (2) shall in no way affect such proceedings for the annexation of all or part of the same area, and any such proceedings for the creation of quasi-municipal corporations shall be held in abeyance until the question of annexation has been finally determined.

(4) This section shall not apply if the petition for annexation under said section 31-12-107 (1) or the petition for an election on the question of annexation under said section 31-12-107 (2) is first filed with the governing body within the ten days next preceding the date set for an election on the question of incorporation or an election on the question of the creation of a quasi-municipal corporation in part or all of the same area, nor shall this section apply to any incorporation petition involving an area which contains more than ten thousand inhabitants.

(5) In the event of any lawsuit challenging the provisions of this section or their applicability to any situation, such legal proceedings shall be advanced on the docket as a matter of immediate public interest and concern and shall be heard at the earliest practical moment.

31-12-118.5. Effect of incorporation proceedings in an area of more than seventy-five thousand inhabitants - annexation ordinance - legislative declaration. (1) The general assembly hereby finds and declares that:

(a) Incorporation of areas containing more than seventy-five thousand inhabitants into new municipalities furthers the goal of orderly growth of urban communities and achieves the purposes stated in section 31-12-102;

(b) Municipal incorporations of areas containing such population present viable municipal communities and are favored over municipal annexations that may fragment affected communities and reduce or eliminate the ability to provide municipal government, services, and facilities to those communities;

(c) The current municipal annexation and incorporation laws do not adequately expressly address the priority to be given municipal incorporation of areas containing such population;

(d) This section and section 31-12-118 (2)(b) are necessary to provide remedial direction regarding the jurisdiction of municipalities to subject areas containing such population to municipal annexation and, therefore, that each section shall apply on and after February 1, 1999, to all annexation proceedings that are pending or subject to judicial review or appeal commenced pursuant to sections 31-12-116 and 31-12-117 whether or not such review or appeal is sought;

(e) The enactment of this section and section 31-12-118 (2)(b) is not violative of section 11 of article II of the Colorado constitution with respect to annexation proceedings that are pending or subject to judicial review or appeal on February 1, 1999, since:

(I) Section 11 of article II of the Colorado constitution applies solely to statutes that take away or impair a vested right acquired under existing laws or that impose a new duty or create a new obligation with respect to completed transactions or considerations;

(II) No person has a vested right in any annexation proceedings that are pending or subject to judicial review or appeal on February 1, 1999, that will be impaired by this section or section 31-12-118 (2)(b); and

(III) This section and section 31-12-118 (2)(b) do not impose a new duty or create a new obligation with respect to any municipal annexation that is completed and that is final and no longer subject to judicial review or appeal.

(2) (a) If a petition for an incorporation election is filed pursuant to part 1 of article 2 of this title, then no annexation ordinance that annexes all or any part of the area included in such petition shall be deemed final. This subsection (2) shall apply only if such area proposed for incorporation contains more than seventy-five thousand inhabitants and such petition is filed:

(I) Prior to the expiration of the sixty-day limitation on review proceedings contained in section 31-12-116 (2)(a); or

(II) After a review proceeding on such annexation ordinance has been commenced pursuant to section 31-12-116 and prior to the date of a judicial declaration or final judgment, including an appellate judgment, on such review proceeding.

The procedure for such disconnection shall be as set forth in parts 6 and 7 of this article, insofar as consistent with this section. To the extent that such parts are inconsistent with this section, the provisions of this section shall prevail when the action is based on failure of the municipality to serve an annexed area.

31-12-120. Court approval required for certain annexations. (1) Any annexation which would have the effect of detaching part of the area of an existing school district shall not become effective prior to court approval as specified in this section; except that this subsection (1) shall not apply to an enclave area which has five hundred or less inhabitants nor to any annexation the petition for which is signed by one hundred percent of the landowners in the area proposed to be annexed.

(2) In the event of an annexation as set forth in subsection (1) of this section, the annexing municipality, within ten days following the election as provided in section 31-12-107 or the adoption of the ordinance as provided in section 31-12-106, shall give written notice of intention to annex, pursuant to this part 1, to the board of education of the school district from which it is proposed that the area will be detached.

(3) Within thirty days after the notice of annexation proceedings specified in subsection (2) of this section is delivered to the board of education, the annexing municipality shall petition the district court in accordance with the jurisdictional requirements set forth for review of the governing body's actions in section 31-12-116 (1) for the granting or denial of the requisite court approval to consummate annexation. The petition shall name the board of education as party defendant.

(4) The court shall determine:

(a) On the basis of the most recent assessment, the aggregate valuation for assessment of all property in the school district and the aggregate valuation for assessment of all property in the territory proposed to be annexed; and

(b) On the basis of the most recent enrollment records of the school district, the aggregate number of pupils enrolled in the school district and the aggregate number of pupils so enrolled who live in the area proposed to be annexed.

(5) If the pupil percentage (the percentage of all enrolled pupils that is reflected by all enrolled pupils living in the area proposed to be annexed, carried to four decimal places) is less than three-fifths of the property percentage (the percentage of aggregate valuation for assessment of all property that is reflected by property lying within the area proposed to be annexed), the court shall disapprove the proposed annexation, and such annexation shall not become effective; except that the court shall not be required to disapprove a proposed annexation if it finds that ninety percent of the aggregate valuation for assessment of property in the area to be annexed

consists of unimproved land. In no event shall the court approve a proposed annexation which, together with the valuation for assessment of all other property detached from a school district in any one calendar year, exceeds five percent of the aggregate valuation for assessment of all property in the school district.

The agreement to annex shall be enforceable by an action for specific performance filed in the district court of the judicial district containing all or part of the supplying municipality. A memorandum of such agreement, setting forth the names of the owners in fee of real property supplied and the legal description of such area, shall be recorded in the office of the county clerk and recorder of the county in which such area is located and shall constitute constructive notice of such agreement to all persons not parties thereto. (2) The court shall examine the report and hear any objections and evidence that may be offered concerning the regularity or irregularity of the proceedings. If a majority of the votes cast are against annexation, the question shall not again be submitted at any election held within twelve months thereafter. 31-12-401. Consolidation of contiguous cities or towns. (1) When two or more contiguous cities or towns desire to consolidate with each other, the governing body of each such city or town shall appoint from the officers or citizens thereof a total of three commissioners. The commissioners shall confer together and thereafter report to each governing body the terms and conditions of the proposed consolidation. Such report shall contain, in addition to any other matters which the commissioners may desire to insert therein, the following:

If a majority of the votes cast at such election in any of the cities or towns proposed to be consolidated are against consolidation, the proposition shall be defeated, and such question shall not be submitted again for one year.

31-12-408. Bonded and floating indebtedness. All bonded indebtedness due or owing by any city or town prior to consolidation shall remain, after consolidation, the debt of that portion of the consolidated city or town comprised within the former limits of the city or town which owed such indebtedness prior to consolidation. No tax shall be levied or collected for the payment of the principal and interest of such indebtedness, except upon and from persons or property residing or situated within the former limits of the town or city owing such indebtedness. The governing body of the consolidated city or town shall make such levies and take such other measures for the payment of the principal and interest out of the property within such limits as it would have been the duty or within the power of the governing body of the city or town owing such indebtedness to do had no such consolidation taken place. The same shall thenceforth proceed as if the claim, right, debt, or demand upon which said action, suit, or proceeding was founded had originally existed in favor of or against such consolidated town or

In like manner, any person who, at the date of consolidation, has any claim, demand, or right of action against any one or more of the cities or towns so consolidating may bring any action, suit, or proceeding necessary for the collection or enforcement thereof after such consolidation against the consolidated city or town in the same manner as though the claim, demand, or right of action had originally existed against such consolidated city or town. 31-12-501. Application - enactment - filing - definition. (1) When the owner of a tract of land within and adjacent to the boundary of a municipality desires to have said tract disconnected from such municipality, such owner may apply to the governing body of such municipality for the enactment of an ordinance disconnecting such tract of land from such municipality. The owner shall also provide notice and a copy of the application to the board of county commissioners of the county in which the tract of land that is the subject of the application is located and to the board of directors of any affected special district.

(2) (a) Not more than thirty days after receiving the notice required by subsection (1) of this section, either the board of county commissioners or the board of directors of any affected special district may request a meeting with the owner and the governing body of the municipality, or its appointee, to discuss and address any negative impacts on the county that would result from the disconnection. If such meeting is requested, the owner and the governing body or its appointee shall meet with either the board of county commissioners, or its appointee, or the board of any affected special district, or its appointee, not more than thirty days after the meeting was requested. Failure by either the board of county commissioners or the board of any affected special district to request a meeting constitutes an acknowledgment by the particular board that the disconnection will not adversely affect the county or an affected special district, as applicable.

(b) As used in paragraph (a) of this subsection (2), "affected special district" means any special district that by its service plan or pursuant to an intergovernmental agreement is or will be expected to provide service to the tract of land that is the subject of the disconnection application. For purposes of paragraph (a) of this subsection (2), "negative impact" includes any change in the level or extent of services being provided to the tract of land by any special district.

(3) On receipt of such application, the governing body of the municipality shall give due consideration to the disconnection application, and, if such governing body is of the opinion that the best interests of the municipality will not be prejudiced by the disconnection of such tract, it shall enact an ordinance effecting such disconnection.

(4) If such an ordinance is enacted, it is immediately effective upon the required filing with the county clerk and recorder to accomplish the disconnection, and two certified copies thereof shall be filed by the clerk in the office of the county clerk and recorder of the county in which such tract lies. The county clerk and recorder shall file the second certified copy with the division of local government in the department of local affairs, as provided by section 24-32-109, C.R.S.

The county treasurer shall pay over to such municipality all moneys collected by the treasurer on account of such tax, to be applied only to the payment of such indebtedness. In case the owner of any land so disconnected pays off and discharges a portion of such indebtedness equal in amount to the same proportion of the indebtedness which the valuation for assessment of the land bears to the entire valuation for assessment of all the property subject to taxation for the payment of such indebtedness, calculated according to the last assessment previous to such payment, said land is exempted from further taxation to pay such indebtedness. Upon such payment being made, the canceled bonds or other evidences of payment of such portion of said indebtedness must be deposited with the treasurer of such municipality, and a certificate shall be given by the treasurer stating that such payment has been made.

(d) (I) To contract indebtedness on behalf of the municipality and upon the credit thereof by borrowing money or issuing the bonds of the municipality for any public purpose of the municipality, including but not limited to the following purposes: Supplying water, gas, heating and cooling, and electricity; purchasing land; and purchasing, constructing, extending, and improving public streets, buildings, facilities, and equipment; and for the purpose of supplying a temporary deficiency in the revenue for defraying the current expenses of the municipality.

(II) The total amount of indebtedness for all such purposes shall not at any time exceed three percent of the actual value, as determined by the assessor, of the taxable property in the municipality except such debt as may be incurred in supplying water. No loan for any purpose shall be made except by ordinance, which shall be irrevocable until the indebtedness provided for is fully paid or discharged, specifying the purposes to which the funds to be raised shall be applied and providing for the levying of a tax which, together with such other revenue, assets, or funds as may be pledged, is sufficient to pay the annual interest and extinguish the principal of said debt within the time limited for the debt to run, which, except such debt as may be incurred in supplying water, shall not be more than thirty years, and further providing that said tax, when collected, shall only be applied for the purposes specified in said ordinance until the indebtedness is paid and discharged. No debt shall be created, except in supplying water, unless the question of incurring the same is submitted, at a regular or special election of the municipality, to the registered electors thereof as defined by the "Colorado Municipal Election Code of 1965" and a majority of the registered electors voting upon the question vote in favor of creating such debt.

(III) No statutory provisions of any other law limiting or fixing tax rates shall limit the provisions of this paragraph (d).

(IV) Bonds issued under this paragraph (d) may mature serially during a period of not more than thirty years from the date thereof, in which event the amounts of such annual maturities shall be fixed by the governing body; except that bonds issued to supply water may mature over a longer period. If the governing body so determines, said bonds may be redeemable prior to maturity with or without payment of a premium, not exceeding three percent of the principal thereof. In any event said bonds shall be subject to call commencing not later than fifteen years after the date thereof. The right to redeem all or part of said bonds prior to their maturity and the order of any such redemption shall be reserved in the ordinance authorizing the issuance of bonds and shall be set forth on the face of said bonds.

(V) The ordinance or resolution submitting the question of contracting an indebtedness shall contain a statement of the maximum net effective interest rate at which said indebtedness may be incurred.

(VI) (A) The governing body of any municipality, having received approval at an election to issue bonds and having determined that the limitations of the original election question are too restrictive to permit the advantageous sale of the bonds so authorized, may submit at another regular or special election the question of issuing the bonds or any portion thereof at a higher maximum net effective interest rate than the maximum interest rate or maximum net effective interest rate approved at the original election; the question of issuing the bonds or any portion thereof to mature over a longer period of time than the maximum period of maturity approved at the original election; or both such questions.

(B) An election held pursuant to this subparagraph (VI) shall be held in substantially the same manner as an election to authorize bonds initially except as may be required for the submission of the limited question permitted under this subparagraph (VI).

(C) At an election held pursuant to this subparagraph (VI), if the changes submitted are not approved, such result shall not impair the authority of the governing body at a later time to issue the bonds originally approved within the limitations established at the first election.

(e) To prescribe, by general ordinance, the manner in which the charge on the respective owners of lots or lands, and on the lots or lands, shall be assessed and determined for the purposes so authorized by law. Such charge, when assessed, shall be payable by the owners at the time of the assessment, personally, and also shall be a lien upon the respective lots or parcels of land from the time of the assessment. Such charge may be collected and such lien enforced by a proceeding at law or in equity, either in the name of such municipality or of any person to whom it has directed payment be made. In any such proceedings, where pleadings are required, it shall be sufficient to declare generally for work and labor done and materials furnished on the particular street, alley, or highway or for water rent or gas used. Proceedings may be instituted against all the owners, or any of them, to enforce the lien against all the lots or land, or each lot or parcel, or any number of them embraced in any one assessment; but the judgment or decree shall be entered separately for the amount properly chargeable to each. Any proceedings may be severed in the discretion of the court for the purpose of trial, review, or appeal.

(f) (I) For the purpose of providing and accumulating funds for the construction, acquisition, or improvement of public buildings, water facilities, sewer facilities, heating and cooling works, or other public works or to supplement bond issues for the same purpose, the governing body of each municipality is authorized to create, by resolution, a public works fund, setting forth in such resolution the description and location of the buildings, water facilities, sewer facilities, heating and cooling works, or other public works to be constructed, acquired, or improved; the estimated cost of the same; the annual tax levy required; and the number of years such a levy should be made; and the time of a public hearing. In lieu of an ad valorem levy, the governing body of the municipality may provide for other taxes or revenues authorized by law which will produce equivalent funds.

(II) If the amount needed does not require a tax levy in excess of two mills, the governing body is authorized, after a public hearing, to make such a levy without putting the proposition to a vote of the qualified electors. If a special levy in excess of two mills for any one fiscal year is required, the governing body, by resolution, in their discretion may submit to the registered electors of such municipality the question of making such a special levy. The special election may be held on the same day as any other special or general election.

(III) In submitting the question to said electors, a ballot shall be printed giving the description and location of the public buildings, water facilities, sewer facilities, or other public works to be constructed, acquired, or improved; the estimated maximum amount to be expended for each single purpose; and the maximum mill levy, if any, required for each specified year. Each project shall be printed separately on the ballot.

(IV) The money derived from the special levy authorized shall be credited by the treasurer of the respective municipality to a special fund to be known as the public works fund. Such funds may be accumulated and held over for expenditure in subsequent years, but they shall be used only for the public works authorized. The governing body may change the purpose for which the fund may be expended after holding a public hearing. When the public works have

been constructed, acquired, or improved and paid for, any unexpended balance in the public works fund shall be transferred to the general fund of the municipality.

(g) To deposit any moneys of general or special funds in any depository authorized in section 24-75-603, C.R.S. For the purpose of making such deposits, the governing body of a municipality may appoint, by written resolution, one or more persons to act as custodians of the moneys of the municipality. Such persons shall give surety bonds in such amounts and form and for such purposes as the governing body requires.

(h) To enter into installment purchase contracts or shared-savings contracts or otherwise incur indebtedness under section 29-12.5-103, C.R.S., to finance energy conservation and energy saving measures and enter into contracts for an analysis and recommendations pertaining to such measures under section 29-12.5-102, C.R.S.;

(i) (I) For a municipality that has a population of twenty thousand or fewer residents, to enter into contracts with a health care provider, who is licensed in this state, to provide health care services to such municipality. Such health care providers shall be known as "community contracted health care providers".

(II) The general assembly hereby finds, determines, and declares that access to health care services in rural areas is an increasing problem in Colorado. Some rural Coloradans do not have access to a primary care provider in their town and are forced to travel. It is the intent of the general assembly to ease the strain on rural Coloradans' health care needs by allowing a municipality with twenty thousand or fewer residents to contract with a health care provider to provide health care services to rural areas.

(b) To do all acts and make all regulations which may be necessary or expedient for the promotion of health or the suppression of disease;

(c) To declare what is a nuisance and abate the same and to impose fines upon parties who may create or continue nuisances or suffer nuisances to exist; except that a municipal ordinance may impose liability on the owner of real property for a nuisance committed on the property by a tenant in lawful possession of the property only if the municipality notifies the property owner and tenant of the nuisance before a fine or other liability is imposed;

(d) (I) To provide for and compel the removal of weeds, brush, and rubbish of all kinds from lots and tracts of land within such municipalities and from the alleys behind and from the sidewalk areas in front of such property at such time, upon such notice, and in such manner as such municipalities prescribe by ordinance, and to assess the whole cost thereof, including five percent for inspection and other incidental costs in connection therewith, upon the lots and tracts of land from which the weeds, brush, and rubbish are removed. The assessment shall be a lien against each lot or tract of land until paid and shall have priority over all other liens except general taxes and prior special assessments.

(II) In case such assessment is not paid within a reasonable time specified by ordinance, it may be certified by the clerk to the county treasurer who shall collect the assessment, together with a ten percent penalty for cost of collection, in the same manner as other taxes are collected. The laws of this state for assessment and collection of general taxes, including the laws for the sale and redemption of property for taxes, shall apply to the collection of such assessments.

(k) To use the county jail for the confinement or punishment of offenders, subject to such conditions as are imposed by law, and with the consent of the board of county commissioners;

(l) To authorize the acceptance of a bail bond when any person has been arrested for the violation of any ordinance and a continuance or postponement of trial is granted. When such bond is accepted, it shall have the same validity and effect as bail bonds provided for under the criminal statutes of this state.

(m) (I) To regulate and to prohibit the running at large and keeping of animals, including fowl, within the municipality and to otherwise provide for the regulation and control of such animals including, but not limited to, licensing, impoundment, and disposition of impounded animals.

Nothing in this subsection (1)(o) shall be construed as prohibiting pari-mutuel betting or wagering under article 32 of title 44.

(p) (I) To adopt reasonable regulations for the operation of establishments open to the public in which persons appear in a state of nudity for the purpose of entertaining the patrons of such establishment; except that such regulations shall not be tantamount to a complete prohibition of such operation. Such regulations may include the following:

(A) Minimum age requirements for admittance to such establishments;

(B) Limitations on the hours during which such establishments may be open for business; and

(C) Restrictions on the location of such establishments with regard to schools, churches, and residential areas.

(II) The governing body of the municipality may enact ordinances which provide that any establishment which engages in repeated or continuing violations of regulations adopted by the governing body shall constitute a public nuisance. In addition to the power provided for in paragraph (c) of this subsection (1) the governing body of the municipality may bring an action for an injunction against the operation of such establishment in a manner which violates such regulations.

(III) Nothing in the regulations adopted by the governing body of the municipality pursuant to this paragraph (p) shall be construed to apply to the presentation, showing, or performance of any play, drama, ballet, or motion picture in any theater, concert hall, museum of fine arts, school, institution of higher education, or other similar establishment as a form of expression of opinion or communication of ideas or information, as differentiated from the promotion or exploitation of nudity for the purpose of advancing the economic welfare of a commercial or business enterprise.

If the tenant does not abate the nuisance within five days after delivery of the notice, the owner may enter the exterior area of the property and abate the nuisance.

(2) This section shall not be construed to prohibit a property owner from entering any area of the property under the terms of the lease with the tenant.

(3) If the abatement of a nuisance pursuant to this section requires the removal of a motor vehicle from the property, the property owner may abate the nuisance only by hiring a towing carrier, as defined in section 40-10.1-101, C.R.S., to take the vehicle to a lot for storage under appropriate protection.

(l) To erect engine houses and provide fire engines, hose, hose carts, hooks and ladders, and other implements for the extinguishing of fires and provide for the use and management of the same by volunteer fire companies or otherwise; to determine the powers and duties of the

members of the fire department in taking charge of property to the extent necessary to bring under control and extinguish any fire; to preserve and protect property not destroyed by fire; and to restrain persons from interfering with the discharge of the duties of the members of the fire department in connection with the fighting of any fire;

(m) (I) To adopt an ordinance to authorize, in consultation with the local board of health, local public health agencies, and any water and wastewater service providers serving the municipality, the use of graywater, as defined in section 25-8-103 (8.3), C.R.S., in compliance with any regulation adopted pursuant to section 25-8-205 (1)(g), C.R.S., and to enforce compliance with the governing body's ordinance.

(II) Before adopting an ordinance to authorize the use of graywater pursuant to subparagraph (I) of this paragraph (m), the municipal governing body is encouraged to enter into a memorandum of understanding with the local board of health, local public health agencies, and any water and wastewater service providers serving the municipality concerning graywater usage and the proper installation and operation of graywater treatment works, as defined in section 25-8-103 (8.4), C.R.S.

(2) By the date established in section 25-7-407, C.R.S., every governing body of a municipality which has enacted a building code, and thereafter every governing body which enacts a building code, shall enact a building code provision to regulate the construction and installation of fireplaces in order to minimize emission levels. Such building code provision shall contain standards which shall be the same as or stricter than the approved emission performance standards for fireplaces established by the air quality control commission in the department of public health and environment pursuant to section 25-7-407, C.R.S.

(3) By January 1, 2020, every governing body of a municipality which has enacted a building code and an energy code shall report the current version of their municipality's building and energy codes to the Colorado energy office. Thereafter, every governing body of a municipality is encouraged to report any change in their municipality's building and energy code to the Colorado energy office within a month of changing their municipality's building and energy codes.

31-15-602. Energy efficient building codes - legislative declaration - definitions - repeal. (1) The general assembly hereby finds and declares that there is statewide interest in requiring an effective energy efficient building code for the following reasons:

(a) Excessive energy consumption creates effects beyond the boundaries of the local government within which the energy is consumed because the production of power occurs in centralized locations.

(b) Air pollutant emissions from energy consumption affects the health of the citizens throughout Colorado.

(c) The strain on the grid from peak electric power demands is not confined to jurisdictional boundaries.

(d) There is statewide interest in the reliability of the electrical grid and an adequate supply of heating oil and natural gas.

(e) Controlling energy costs for residents and businesses furthers a statewide interest in a strong economy and reducing the cost of housing in Colorado.

(f) More recent energy codes are more effective at ensuring building durability and structural integrity and protecting public health and safety through better:

(I) Moisture management to prevent mold, mildew, and rot;

(II) Airflow management; and

(III) Protection during severe weather.

(g) More recent energy codes incorporate newer building technologies, techniques, and materials and offer more options for builders.

(h) Businesses and residents in low-income communities and rural areas of the state deserve at least the same durability, health and safety, and energy cost savings from energy efficient buildings as those in wealthier, urban, and suburban areas of the state.

(2) As used in this section, unless the context otherwise requires:

(a) "Building code" means regulations related to energy performance, electrical systems, mechanical systems, plumbing systems, or other elements of residential or commercial buildings.

(b) "Energy code" means, at a minimum, one of the three most recent versions of the international energy conservation code published by the international code council.

(c) "Office" means the Colorado energy office created in section 24-38.5-101, C.R.S.

(3) The governing body of any municipality, when adopting or updating any other building codes, shall adopt and enforce an energy code that applies to the construction of, and renovations and additions to, all commercial and residential buildings in the municipality to which the building code applies.

(4) (a) The energy code shall apply to any commercial or residential building in the municipality for which a building permit application is received subsequent to the adoption of the energy code.

(b) (I) A municipality shall not charge permit, plan review, or any other related or associated fees to install an active solar electric or solar thermal device or system that, in aggregate, exceed the lesser of the municipality's actual costs in issuing the permit or five hundred dollars for a residential application or one thousand dollars for a nonresidential application if the device or system produces fewer than two megawatts of direct current electricity or an equivalent-sized thermal energy system, or that exceed the municipality's actual costs in issuing the permit if the device or system produces at least two megawatts of direct

current electricity or an equivalent-sized thermal energy system. The municipality shall clearly and individually identify all fees and taxes assessed on an application subject to this subsection (4)(b)(I) on the invoice. The general assembly hereby finds that there is a statewide need for certainty regarding the fees that can be assessed for permitting such devices or systems, and therefore declares that this subsection (4)(b) is a matter of statewide concern.

(II) This subsection (4)(b) is repealed, effective July 1, 2025.

(5) The following buildings are exempt from subsections (3) and (4) of this section:

(a) Any building that is otherwise exempt from the provisions of the building code adopted by the governing body of the municipality in which the building is located and buildings that do not contain a conditioned space;

(b) Any building that does not use either electricity or fossil fuels for comfort heating. A building will be presumed to be heated by electricity even in the absence of equipment used for electric comfort heating if the building is provided with electrical service in excess of one hundred amps, unless the code enforcement official of the municipality determines that the electrical service is necessary for a purpose other than for providing electric comfort heating.

(c) Historic buildings that are listed on the national register of historic places or Colorado state register of historic properties and buildings that have been designated as historically significant or that have been deemed eligible for designation by a local governing body that is authorized to make such designations; and

(d) Any building that is exempt pursuant to the energy code.

(6) Notwithstanding any other provisions of this section, the governing body of any municipality that is required to adopt an energy code may make any amendments to the energy code that the governing body deems appropriate for local conditions, so long as the amendments do not decrease the effectiveness of the energy code.

(7) (a) The office shall ensure that information explaining the requirements of the energy code and describing acceptable methods of compliance is available to builders, designers, engineers, and architects.

(b) The office shall provide the governing body of any municipality with technical assistance concerning the implementation and enforcement of the energy code.

31-15-703. Improvements - petition - construction. (1) When the owners of sixty percent of the frontage of the lots or lands adjacent to or abutting upon any street or alley or designated portion thereof petition the governing body in writing to construct a sewer, including a storm sewer, in said street or alley or require sidewalks to be constructed along said street or alley or designated portion thereof, it is the duty of the governing body to order said improvement to be made, to assess the cost of said improvement against the lots or lands adjacent to or abutting upon said sidewalk, street, or alley so improved, and to collect the assessment as provided in sections 31-15-401 (1)(d) and 31-15-704.

(2) When the governing body deems it necessary that any sewer, including a storm sewer, should be constructed, it shall construct the same, assess the cost thereof against the adjacent property, and collect the assessment as provided in sections 31-15-401 (1)(d) and 31-15-704. When the governing body deems it necessary that any portion of a sidewalk, curb, and gutter be constructed or repaired, it may, on its own motion, order the same to be done, and if not constructed or repaired by the owner upon notice, the municipality may construct or repair the same, assess the costs thereof against the adjacent property owner, and collect the assessment as provided in sections 31-15-401 (1)(d) and 31-15-704.

31-15-704. Collection of assessments. When the cost of any improvement provided for in sections 31-15-702 (1)(b) and 31-15-703 is assessed against the owners of adjacent or abutting property and the assessment is not paid within thirty days, the clerk shall certify said assessment to the treasurer of the county who shall extend said assessment upon his tax roll and collect it in the same manner as other taxes assessed upon said property.

Any municipality may aid in the construction and repair of any highway leading thereto by appropriating a portion of the highway tax belonging to said municipality, not exceeding fifty percent thereof annually, as provided in this section. When a petition signed by twenty of the registered electors of said municipality asking that the question of aiding in the construction or repair of any highway leading thereto be submitted to the registered electors thereof is presented to the governing body, the governing body immediately shall give notice of a special election. Said notice shall specify the date of such election, the particular highway proposed to be aided, and the proportion of the highway tax then levied and not expended or next thereafter to be levied to be appropriated. The election shall be conducted in accordance with the provisions of the "Colorado Municipal Election Code of 1965". The question on the ballot or voting machine tabs shall be "Appropriation" or "No appropriation". If a majority of the votes polled are for appropriation, the governing body may aid in the construction and repair of said highway to the extent of the appropriation in the same manner as they otherwise would if said highway were within the municipal limits of said municipality. No part of such highway tax shall be expended more than two miles from the limits of such municipality.

31-15-706. Railroad track. (1) The governing body of each municipality has the power to grant the use of, or the right to lay down, any railroad track in any street of the municipality to any steam or street railroad company operating its cars, by any kind of mechanical motive power, only upon the written consent of the owners of the land representing more than one-half of the frontage of the street or so much thereof as is sought to be used for railroad purposes. No franchise shall be granted on that part of any street upon which any other company is operating cars without the written consent of a majority of the frontage owners in every block abutting the track already down upon said street.

(2) The governing body of each municipality has the power to extend, by condemnation or otherwise, any street, alley, or highway over or across or to construct any sewer under or through any railroad track, right-of-way, or land of any railroad company within the corporate limits, but where no compensation is made to such railroad company, the municipality shall restore such railroad track, right-of-way, or land to its former state or in a sufficient manner not to have impaired its usefulness.

31-15-707. Municipal utilities. (1) The governing body of each municipality has the power:

(a) (I) To acquire waterworks, gasworks, and gas distribution systems for the distribution of gas of any kind or electric light and power works and distribution systems, or heating and cooling works and distribution systems for the distribution of heat and cooling obtained from geothermal resources, solar or wind energy, hydroelectric or renewable biomass resources, including waste and cogenerated heat, and all appurtenances necessary to any of said works or systems or to authorize the erection, ownership, operation, and maintenance of such works and systems by others. No such works or systems, except waterworks, shall be acquired or erected by a municipality until the question of acquiring or erecting the same is submitted at a regular or special election and approved in the manner provided for authorization of bonded indebtedness by section 31-15-302 (1)(d) and in accordance with the requirements of law, including requirements of law relating to the acquisition and financing of public utilities by municipalities. The question of acquiring or erecting a waterworks need not be so submitted and approved at an election.

(II) All such works or systems authorized by any municipality to be erected by others or the franchise of which is extended or renewed shall be authorized, extended, or renewed upon the express condition that such municipality has the right and power to purchase or condemn any such works or systems at their fair market value at the time of purchasing or condemning such works or systems, excluding all value of the franchise or right-of-way through the streets and also excluding any value by virtue of any contract for hydrant or private rental or otherwise entered into with the municipality in excess of the fair market value of the works or systems. If, after an election conducted in the manner prescribed in section 31-15-302 (1)(d), the municipality is authorized to acquire any of said works or systems after granting a franchise therefor to any person, the municipality shall purchase or condemn such works or systems within the municipal limits then utilized in serving the inhabitants of such municipality at their fair market value. Nothing in this subparagraph (II) shall require such municipality to purchase or condemn all or any part of such works or systems which is obsolete or which has outworn its usefulness.

(III) If the municipality elects to purchase such works or systems and if the parties in interest cannot agree on the purchase price, they shall enter into a written agreement to arbitrate the matter and to abide by the award of the arbitrators, in which event each party shall choose an arbitrator to determine their fair market value. If the two arbitrators cannot agree on the fair market value, they shall choose a third disinterested arbitrator, and the award of any two arbitrators shall be final and binding upon the parties.

(IV) Nothing in this paragraph (a) shall authorize the condemnation or purchase of any such works or systems within twenty years after the granting of any franchise therefor, except at periods of ten or fifteen years thereafter, without the consent of the owner of the franchise.

(b) To construct or authorize the construction of such waterworks without their limits and, for the purpose of maintaining and protecting the same from injury and the water from pollution, their jurisdiction shall extend over the territory occupied by such works and all reservoirs, streams, trenches, pipes, and drains used in and necessary for the construction, maintenance, and operation of the same and over the stream or source from which the water is taken for five miles above the point from which it is taken and to enact all ordinances and regulations necessary to carry the power conferred in this paragraph (b) into effect;

(c) To make such grant to inure for a term of not more than twenty-five years when the right to build and operate such water, gas, heating and cooling, or electric light works is granted to a person by said municipality and to authorize such person to charge and collect from each person supplied by them with water, gas, heat, cooling, or electric light such water, gas, heat, cooling, or electric light rent as may be agreed upon between the person building said works and said municipality; and to enter into a contract with the person constructing said works to supply said municipality with water for fire purposes and for such other purposes as may be necessary for the health and safety thereof and also with gas, heat, cooling, and electric light and to pay therefor such sums as may be agreed upon between said contracting parties;

(d) To assess from time to time, when constructing such water, gas, heating and cooling, or electric light works and in such manner as it deems equitable, upon each tenement or other place supplied with water, gas, heat, cooling, or electric light, such water, gas, heat, cooling, or electric light rent as may be agreed upon by the governing body. Gas, heat, cooling, and electric light shall be charged for according to use. At the regular time for levying taxes in each year, said municipality is empowered to levy and cause to be collected, in addition to the other taxes authorized to be levied, a special tax on taxable property in said municipality. Such tax, with the water, gas, heat, cooling, or electric light rents hereby authorized, shall be sufficient to pay the expenses of running, repairing, and operating such works. If the right to build, maintain, and operate such works is granted to a person by a municipality and the municipality contracts with said person for the supplying of water, gas, heat, cooling, or electric light for any purpose, such municipality shall levy each year and cause to be collected a special tax, as provided for in this paragraph (d), sufficient to pay off such water, gas, heat, cooling, or electric light rents so agreed to be paid to said person constructing said works. The tax shall not exceed the sum of three mills on the dollar for any one year.

(e) To condemn and appropriate so much private property as is necessary for the construction and operation of water, gas, heating and cooling, or electric light works in such manner as may be prescribed by law; and to condemn and appropriate any water, gas, heating and cooling, or electric light works not owned by such municipality in such manner as may be prescribed by law for the condemnation of real estate.

31-15-708. Water and water systems. (1) The governing body of each municipality has the power:

(a) To construct public wells, cisterns, and reservoirs in the streets and other public and private places within the municipality or beyond the limits thereof for the purpose of supplying the same with water, to provide proper pumps and conducting pipes or ditches, to regulate the distribution of water for irrigating and other purposes, and to levy an equitable and just tax upon all consumers of water for the purpose of defraying the expense of such improvements;

(b) (I) To take water in sufficient quantity, for the purpose provided in paragraph (a) of this subsection (1), from any stream, creek, gulch, or spring in this state. If the taking of such

water in such quantity materially interferes with or impairs the vested right of any person residing upon such creek, gulch, or stream or doing any milling or manufacturing business thereon, the governing body shall first obtain the consent of such person or acquire the right of domain by condemnation as prescribed by law and make full compensation or satisfaction for all the damages thereby occasioned to such person.

(II) When it is deemed necessary by any municipality to enter upon or take private property for any of the uses set forth in this section, the property shall be examined and appraised and the damages thereon assessed. The proceedings shall be in all respects the same as provided by articles 1 to 7 of title 38, C.R.S., for the taking of private property for public or private use.

(c) To regulate the water supply used in said municipality for domestic or household purposes and to prohibit and condemn the use of any and all surface wells and the waters thereof for domestic or household purposes when the same are found injurious to the health of said municipality or of the inhabitants thereof;

(d) To supply water from its water system to consumers outside the municipal limits of the municipality and to collect such charges upon such conditions and limitations as said municipality may impose by ordinance.

31-15-709. Sewers and sewer systems. (1) The governing body of each municipality has the power:

(a) To construct and keep in repair culverts, drains, sewers, water mains, and cesspools and to regulate their use; and to assess, either in whole or in part, the cost of the construction of sewers, water mains, and drains upon the lots or lands adjacent to and opposite the improvements in proportion to the frontage of such lots or lands abutting upon the street in which such sewer, water main, or drain is to be laid. The cost of such sewer, water main, or drain at street intersections or crossings shall be wholly paid for by the municipality. The benefit to the public generally, if any, shall be determined by ordinance and shall be assessed against such municipality, and the balance shall be assessed against the lots or lands and the owners thereof according to the frontage.

(b) To establish a system of sewerage and for that purpose to divide the municipality into districts; to impose a special assessment or tax to defray the expense of constructing such sewers upon private property within such district or upon the lots or lands adjacent to or abutting upon the street where said sewer is laid; to compel the owners of any buildings located in said district and on blocks abutting on any established sewer to connect with such sewer; to prohibit the keeping or maintaining of any vault, closet, privy, or cesspool within said district or within four hundred feet of any established sewer; and to regulate the construction, maintenance, and use of all vaults, closets, privies, and cesspools within the municipal limits and not within said prohibited districts or in proximity to an established sewer.

31-15-710. Water pollution control. (1) The governing body of each municipality has the power:

(a) To provide for the cleansing and purification of water, watercourses, and canals and the draining or filling of ponds on private property when necessary to prevent or abate nuisances; and for the purpose of aiding in the prevention and abatement of water pollution all municipalities are authorized:

(I) To apply for and to accept grants or loans or any other aid from the United States or any agency or instrumentality thereof under any federal law in force;

(II) To construct, reconstruct, lease, improve, better, and extend sewerage facilities and sewage treatment works wholly within or wholly without the municipality or partially within and partially without the municipality;

(VI) To enter into joint operating agreements with industrial enterprises and to accept gifts or contributions from such industrial enterprises for the construction, reconstruction, improvement, betterment, and extension of sewerage facilities and sewage treatment works. When determined by its governing body to be in the public interest and necessary for the protection of public health, a municipality is authorized to enter into and perform contracts, whether long-term or short-term, with an industrial establishment for the provision and operation by the municipality of sewerage facilities to abate or reduce the pollution of waters caused by discharges of industrial wastes by the industrial establishment and the payment periodically by the industrial establishment to the municipality of amounts at least sufficient, in the determination of such governing body, to compensate the municipality for the cost of providing, including payment of principal and interest charges, if any, and of operating and maintaining the sewerage facilities serving such industrial establishment.

(a) To deepen, widen, dock, cover, wall, alter, or change the channel of watercourses;

(b) To establish markets and market houses and provide for the regulation and use thereof. No charge or assessments of any kind shall be levied on any truck or other vehicle, or on the owner thereof, bringing produce or provisions to any of the markets in the municipality, for standing in or occupying a place in any of the marketplaces of the municipality or in the streets contiguous thereto on market days and evenings previous thereto. (b) To enter into, on behalf of the municipality, when deemed by the governing body to be in the best interest of the municipality, any agreement providing for the pooling, unitization, or consolidation of acreage covered by any oil and gas lease executed by such municipality with other acreage for oil and gas exploration, development, and production purposes and providing for the apportionment or allocation of royalties among the separate tracts of land included in such unit or pooling agreement on an acreage or other equitable basis and, by such agreement, with the consent of the lessee under such lease, to change any of the provisions of any such lease issued by such municipality, including the term of years for which such lease was originally granted and any drilling requirements contained therein, in order to conform such lease to the terms and provisions of such unit or pooling agreement and to facilitate the efficient and economic production of oil and gas from the unit lands.

(b) Notwithstanding any law to the contrary, any municipality may negotiate for an incentive payment or credit with any taxpayer who establishes a new business facility, as defined in section 39-30-105 (7)(e), C.R.S., in the municipality. In no instance shall any negotiation result in an annual incentive payment or credit that is greater than the amount of taxes levied by the municipality upon the taxable personal property located at or within the new business facility and used in connection with the operation of the new business facility for the current property tax year. The term of any agreement made prior to August 6, 2014, pursuant to the provisions of this subsection (1) shall not exceed ten years, including the term of any original agreement being renewed. The term of any agreement made on or after August 6, 2014, pursuant to this subsection (1) shall not exceed thirty-five years, which does not include the term of any prior agreement.

(b) The documentation required pursuant to paragraph (a) of this subsection (1.5) must include information that the taxpayer could reasonably and efficiently relocate the facility out of state and that at least one other state is being considered for the relocation. In order to be eligible

for a payment or credit under this subsection (1.5), a taxpayer must identify the specific reasons why the taxpayer is considering leaving the state.

A municipality shall not give an annual incentive payment or credit under this subsection (1.5), unless the governing body of the municipality approves the payment or credit at a public hearing.

(2) Notwithstanding any law to the contrary, any municipality may negotiate for an incentive payment or credit with any taxpayer who expands a facility, as defined in section 39-30-105 (7)(c), C.R.S., the expansion of which constitutes a new business facility, as defined in section 39-30-105 (7)(e), C.R.S., and that is located in the municipality. In no instance shall any negotiation result in an annual incentive payment or credit that is greater than the amount of the taxes levied by the municipality upon the taxable personal property directly attributable to the expansion, located at or within the expanded facility, and used in connection with the operation of the expanded facility for the current property tax year. The term of any agreement made prior to August 6, 2014, pursuant to the provisions of this subsection (2) shall not exceed ten years, including the term of any original agreement being renewed. The term of any agreement made on or after August 6, 2014, pursuant to this subsection (2) shall not exceed thirty-five years, which does not include the term of any prior agreement.

(4) Any municipality that negotiates any agreement pursuant to the provisions of this section shall inform any county in which a new business facility would be located, or an existing or expanded business facility is located, whichever is applicable, of such negotiations.

(5) Any municipality may adjust the amount of its tax levy authorized pursuant to the provisions of section 29-1-301, C.R.S., or pursuant to a municipal home rule charter, whichever is applicable, by an additional amount which does not exceed the total amount of annual incentive payments or credits made by such municipality in accordance with any agreements negotiated pursuant to the provisions of this section or section 39-30-107.5, C.R.S.

31-16-103. Majority must vote for appropriations - proving ordinances. Ordinances, resolutions, and orders for the appropriation of money shall require for their passage or adoption the concurrence of a majority of the governing body of any city or town. Unless otherwise specifically provided by statute or ordinance, all other actions of the governing body upon which a vote is taken shall require for adoption the concurrence of a majority of those present if a quorum exists. 31-16-105. Record and publication of ordinances. All ordinances, as soon as may be after their adoption, shall be recorded in a book kept for that purpose and shall be authenticated by the signature of the presiding officer of the governing body and the clerk. All ordinances of a general or permanent nature and those imposing any fine, penalty, or forfeiture, following adoption and, if required by ordinance adopted pursuant to section 31-4-102 (3) or 31-4-302, compliance with the provisions of section 31-16-104, shall be published in some newspaper published within the limits of the city or town or, if there are none, in some newspaper of general circulation in the city or town. It is a sufficient defense to any suit or prosecution for such fine, penalty, or forfeiture to show that no publication was made. If there is no newspaper published or having a general circulation within the limits of the city or town, then, upon a resolution being passed by the governing body to that effect, ordinances may be published by posting copies thereof in three public places within the limits of the city or town, to be designated by the governing body. Except for ordinances calling for special elections or necessary to the immediate preservation of the public health or safety and containing the reasons making the same necessary in a separate section, such ordinances shall not take effect and be in force before thirty days after they have been so published. The excepted ordinances shall take effect upon adoption and, if required by ordinance adopted pursuant to section 31-4-102 (3) or 31-4-302, compliance with the provisions of section 31-16-104 if they are adopted by an affirmative vote of three-fourths of the members of the governing body of the city or town. The book of ordinances provided for in this section shall be taken and considered in all courts of this state as prima facie evidence that such ordinances have been published as provided by law. Any municipality may determine at a regular or special election to meet the requirements of this section and section 31-16-106 by publishing ordinances by title only rather than by publishing the ordinance in full. No municipality shall call a special election for the sole purpose of determining the issue of whether the municipality should publish new ordinances in full or by title only.

The previous introduction of the ordinance at such preceding meeting of the city council and the fact of its publication shall appear in the certificate and the attestation of the clerk on the ordinance after its adoption. The provisions of section 31-16-105 shall apply to any ordinance adopted by a city council; except that, if publication after introduction was in a newspaper, publication after adoption may be in the same newspaper by title only and shall contain the date of the initial publication and shall reprint in full any section, subsection, or paragraph of the ordinance which was amended following the initial publication. The "net effective interest rate" of an outstanding issue of bonds to be refunded means the net interest cost of said issue to be refunded divided by the sum of the products derived by multiplying the principal amounts of such issue to be refunded maturing on each maturity date by the number of years from the date of the proposed refunding bonds to the respective maturities of the bonds to be refunded. In all cases the net effective interest rate shall be computed without regard to any option of redemption prior to the designated maturity dates of the bonds.

(2) "Net interest cost" of a proposed issue of refunding bonds means the total amount of interest to accrue on said refunding bonds from their date to their respective maturities less the amount of any premium above par at which said refunding bonds are being or have been sold. "Net interest cost" of an outstanding issue of bonds to be refunded means the total amount of interest which would accrue on said outstanding bonds from the date of the proposed refunding bonds to the respective maturity dates of said outstanding bonds to be refunded. An election held under this section shall be held in the manner provided for the authorization of an original bonded indebtedness in section 31-15-302 (1)(d).

(2) At any election held under the provisions of this part 2, the question of authorizing the refunding of all or any part of the then outstanding bonded indebtedness of the municipality may be submitted as one question for determination whether such bonds are of the same or of different issues.

31-21-205. Ordinance for bond issue - bonds. (1) If the governing body determines to issue refunding bonds without an election by meeting the requirements set forth in sections 31-21-202 to 31-21-204 or if, upon canvassing the vote cast at any election held under the provisions of this part 2, it is determined by the governing body that a majority of the votes cast upon the question submitted are in favor of refunding, the governing body shall make such determination a part of the official records of the municipality and shall immediately thereafter adopt and make a law of the municipality, an ordinance providing for the issuance of said refunding bonds in accordance with the provisions of this part 2.

(2) Such ordinance shall fix the date of said refunding bonds, shall designate the denominations thereof, shall designate the maximum net effective interest rate, the rate of interest of individual bonds, the maturity dates, and the place or alternate places of payment, within or without the state of Colorado, of both principal and interest, and shall prescribe the form of said refunding bonds.

(3) Such refunding bonds shall be negotiable in form, shall recite the title of the act under which they are issued, and shall be executed in the name of the municipality and signed by the mayor, countersigned by the treasurer, with the seal of the municipality affixed thereto, and attested by the clerk. The interest accruing on such refunding bonds shall be evidenced by interest coupons thereto attached bearing the engraved facsimile signature of the treasurer of the municipality. When so executed, such coupons shall be the binding obligations of the municipality, according to their import.

(4) In the adoption of said ordinance providing for the issuance of said refunding bonds, the governing body shall make the principal of the debt payable in annual or semiannual installments commencing not later than five years after the date of such bonds and maturing during a period not exceeding thirty-five years from the date thereof. The amounts of such maturities shall be fixed by the governing body. The right to redeem all or any part of said issue

of bonds prior to the respective maturities thereof and the order of any such redemption may be reserved in said ordinance, and, if so reserved, shall be set forth on the face of said bonds.

(5) Outstanding bonds which are secured by a pledge of specific special funds or revenues of the municipality in addition to the general ad valorem tax revenues of said municipality may be refunded under the provisions of this part 2, and substantial compliance with the provisions of this part 2 is deemed and taken to be sufficient to legally authorize such refunding and the issuance of refunding bonds for such purpose without further actions being taken by the municipality. Such a pledge of specific special funds or revenues need not be made to additionally secure the refunding bonds so issued, but such funds or revenues may be so pledged if it is deemed advisable by the governing body of the municipality.

31-21-206. Exchange - sale - proceeds - amounts. Such refunding bonds may be exchanged dollar for dollar for the bonds to be refunded, or they may be sold at, above, or below their par value at a price such that the net effective interest rate of the issue of refunding bonds does not exceed the maximum net effective interest rate authorized. Such refunding bonds shall be in a principal amount not exceeding the principal amount of the bonds to be refunded, as directed by the governing body, and the proceeds thereof shall be applied only to the purpose for which such refunding bonds were issued. The principal amount of said refunding bonds may be the same or less than the principal amount of the bonds to be refunded if due, adequate, and sufficient provision has been made for the payment, or redemption, and retirement of said bonds to be refunded and the payment of the interest accrued thereon in accordance with this part 2.

31-21-207. Tax for payment of refunding bonds. The interest accruing on such refunding bonds issued pursuant to the provisions of this part 2 prior to the time when the proceeds of tax levies are available therefor shall be paid out of the general revenues or any other revenues of the municipality available therefor. For the purpose of reimbursing such general revenues or other revenues and for the payment of subsequently accruing interest, the governing body issuing such refunding bonds shall certify and the board of county commissioners of the county in which the city or town is located shall levy, annually, a sufficient tax upon all the taxable property in the municipality fully to discharge such interest. For the ultimate payment or redemption of such refunding bonds, there shall be certified and levied annually such a tax upon all the taxable property in such municipality as will create a fund sufficient to pay or redeem and discharge such refunding bonds at or prior to their respective maturities. In the event the bonds to be redeemed and the interest thereon accruing would have been paid from taxes levied upon only part of the taxable property in the municipality, the taxes levied for payment or redemption of the refunding bonds and the interest accruing thereon shall be levied in the same manner and upon only the same taxable property as would have been levied for payment of the bonds to be

refunded if no refunding of said bonds had been made and accomplished. As collected, all taxes levied for payment of interest on and for the payment or redemption of the principal of such bonds shall be kept by the treasurer of the municipality in a special fund to be used only in the payment of the interest upon and for the payment or redemption of the principal of such bonds. Such tax shall be levied and collected in the same manner as other municipal taxes are levied and collected. The ordinance authorizing the issuance of said bonds shall set forth the years in which such taxes shall be levied for the creation of said fund.

31-21-209. Consolidated city or town - refunding indebtedness of constituent portions - bonds. When any city or town consolidates with another city or town under the laws of the state of Colorado and has incurred a bonded indebtedness prior to such consolidation, such bonded indebtedness may be refunded by the consolidated city or town under the provisions of this part 2, as is provided for the refunding of other bonds in the same manner as it would have been the duty or within the power of the city council or board of trustees of the city or town which contracted such indebtedness to do had no such consolidation taken place. All the provisions of this part 2, including elections authorizing issuance of such refunding bonds, shall apply only within the former limits of the city or town which contracted such indebtedness. All refunding bonds so issued shall state in substance that they, together with interest thereon, are payable only by levies upon property situated within such limits as the same existed prior to such consolidation, unless the terms of consolidation shall provide that such refunding shall apply within the entire limits of the consolidated city or town.

31-21-210. Combined issues - procedures. Any refunding bonds may be issued to refund one or more issues of outstanding bonds of a municipality, but no two or more issues of outstanding bonds may be refunded by a single issue of refunding bonds unless the taxable property upon which tax levies are being made for payment of each such outstanding issue of bonds is identical to the taxable property on which such levies are being made for the payment of all other outstanding bonds proposed to be refunded by such single issue of refunding bonds. In

the event that two or more issues of outstanding bonds of a municipality are to be refunded by the issuance of a single issue of refunding bonds as provided in this section, the net interest cost and net effective interest rate on the bonds to be refunded shall be computed as if all of said bonds had originally been combined as a single issue aggregating the total of the smaller issues, and the results of this computation shall be compared with the net interest cost and net effective interest rate on the whole of the single refunding issue for purposes of determining the necessity of submitting the question of issuing such refunding bonds to a vote of the registered electors of the municipality.

31-21-211. Application of refunding bond proceeds - procedures - limitations. (1)

The proceeds derived from the issuance of any refunding bonds under the provisions of this part 2 shall either be immediately applied to the payment, or redemption, and retirement of the bonds to be refunded and the cost and expense incident to such procedures or shall immediately be placed in escrow to be applied to the payment of said bonds upon their presentation therefor and the costs and expenses incident to such proceedings and for no other purpose whatsoever until the bonds being refunded have been paid in full and discharged and all accrued interest thereon has also been paid in full, upon which occurrences the escrow shall terminate, and any funds remaining therein shall be returned to the municipality and may be used to pay other bonds of the municipality.

(2) The costs and expenses incident to the refunding of outstanding bonded indebtedness, the issuance of refunding bonds, and the establishment and maintenance of escrow accounts, pursuant to the provisions of this part 2, may be paid from any moneys or funds of the municipality which are legally available therefor. Any moneys or funds of the municipality legally available therefor may be placed in any escrow account established under the provisions of this part 2 and may be used and expended for the purposes specified in the escrow agreement if such procedure is deemed by the governing body to be in the best interests of the municipality.

(3) Any escrowed funds, pending such use, may be invested or, if necessary, reinvested in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S., maturing at such times as to insure the prompt payment of the bonds refunded under the provisions of this part 2 and the interest accruing thereon.

(4) Escrowed funds and investments, together with any interest to be derived from such investments, shall be in an amount which at all times shall be sufficient to pay the bonds refunded as they become due at their respective maturities or as they are called for redemption and payment on prior redemption dates as to principal, interest, any prior redemption premium due, and any charges of the escrow agent payable therefrom, and the computations made in determining such sufficiency shall be verified by a certified public accountant.

(5) For the purpose of implementing the provisions of this part 2, the governing body of any municipality has the power to enter into escrow agreements and to establish escrow accounts with any commercial bank having full trust powers located within the state of Colorado, which is a member of the federal deposit insurance corporation, under protective covenants and agreements whereby such accounts shall be fully secured by, or shall be invested in, securities

meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S., in such amounts as will be sufficient and maturing at such times as to insure the prompt payment of the bonds refunded and the interest accruing thereon under the provisions of this part 2.

(6) In no event shall the aggregate amount of bonded indebtedness of any municipality exceed the maximum allowable amount as determined pursuant to the state constitution, statutes, and charter applicable to such municipality. In determining and computing such aggregate amount of bonded indebtedness of any municipality, bonds which have been refunded as provided in this part 2, either by immediate payment, or redemption, and retirement or by the placement of the proceeds of refunding bonds in escrow shall not be deemed outstanding indebtedness from and after the date on which sufficient moneys are placed with the paying agent of such outstanding bonds for the purpose of immediately paying, or redeeming, and retiring such bonds or from and after the date on which the proceeds of said refunding bonds are placed in such an escrow.

(7) The issuance of refunding bonds by any municipality for the purposes and in the manner authorized by this part 2 or under the provisions of any other law enabling such an issuance shall never be interpreted or taken to be the creation of an indebtedness such that the same would require the approval of the registered electors of the municipality, and no such approval shall be required for the issuance of such refunding bonds except as is specifically required by this part 2 or such other law under which said refunding bonds are sought to be issued or have been issued.

(8) No bonds may be refunded under the provisions of this part 2 unless the holders thereof voluntarily surrender said bonds for immediate exchange or immediate payment or unless said bonds either mature or are callable for redemption prior to their maturity under their terms within ten years from the date of issuance of the refunding bonds, and provisions shall be made for paying, or redeeming, and discharging all of the bonds refunded within said period of time.

Whenever any municipality issues refunding bonds under the provisions of this part 2, the governing body shall direct that the clerk of said municipality, as a part of said clerk's duties, register said bonds in a book to be kept by him for that purpose, and, when so registered, the legality thereof shall not be open to contest by such municipality, or by any other person or corporation in behalf of such municipality for any reason whatever. It is the duty of the clerk to register said bonds, noting the principal amount, the date of issuance and maturity, and the rate of interest of said bonds.

(2) Such notice shall be given by publication at least once in a newspaper customarily used by said municipality for legal notices at least thirty days prior to the date on which said bonds are to be redeemed and paid. Such notice shall contain the date and place on which said bonds shall be redeemed and paid, shall describe the bonds by their legal designation, date, number, and amount, and shall state that after the date so fixed for redemption and payment the interest on said bonds shall cease.

(3) After the date so fixed for redemption and payment, the bonds so called for redemption and payment shall cease to draw interest.

31-23-203. Personnel of the commission. (1) The municipal planning commission, referred to in this part 2 as the "commission", shall consist of not less than five nor more than seven members; except that a home rule city or town shall not be limited in the size of its commission. Unless otherwise provided by ordinance, the membership and terms of members shall be as follows:

(a) When the commission is limited to five members, the membership shall consist of the mayor and a member of the governing body as ex officio members and three persons appointed by the mayor, if the mayor is an elective officer; otherwise by such office as the governing body may designate as the appointing power in the ordinance creating the commission.

31-23-206. Master plan. (1) It is the duty of the commission to make and adopt a master plan for the physical development of the municipality, including any areas outside its boundaries, subject to the approval of the governmental body having jurisdiction thereof, which in the commission's judgment bear relation to the planning of such municipality. The master plan of a municipality shall be an advisory document to guide land development decisions; however, the plan or any part thereof may be made binding by inclusion in the municipality's adopted subdivision, zoning, platting, planned unit development, or other similar land development regulations after satisfying notice, due process, and hearing requirements for legislative or quasi-judicial processes as appropriate. When a commission decides to adopt a master plan, the commission shall conduct public hearings, after notice of such public hearings has been published in a newspaper of general circulation in the municipality in a manner sufficient to notify the public of the time, place, and nature of the public hearing, prior to final adoption of a master plan in order to encourage public participation in and awareness of the development of such plan and shall accept and consider oral and written public comments throughout the process of developing the plan. Such plan, with the accompanying maps, plats, charts, and descriptive matter, shall, after consideration of each of the following, where applicable or appropriate, show the commission's recommendations for the development of said municipality and outlying areas, including:

(a) The general location, character, and extent of existing, proposed, or projected streets, roads, rights-of-way, bridges, waterways, waterfronts, parkways, highways, mass transit routes and corridors, and any transportation plan prepared by any metropolitan planning organization that covers all or a portion of the municipality and that the municipality has received notification of or, if the municipality is not located in an area covered by a metropolitan planning organization, any transportation plan prepared by the department of transportation that the municipality has received notification of and that covers all or a portion of the municipality;

(b) The general location of public places or facilities, including public schools, culturally, historically, or archaeologically significant buildings, sites, and objects, playgrounds, squares, parks, airports, aviation fields, military installations, and other public ways, grounds, open spaces, trails, and designated federal, state, and local wildlife areas. For purposes of this section, "military installation" shall have the same meaning as specified in section 29-20-105.6 (2)(b), C.R.S.

(c) The general location and extent of public utilities terminals, capital facilities, and transfer facilities, whether publicly or privately owned or operated, for water, light, sanitation, transportation, communication, power, and other purposes, and any proposed or projected needs for capital facilities and utilities, including the priorities, anticipated costs, and funding proposals for such facilities and utilities;

(d) The general location and extent of an adequate and suitable supply of water. If the master plan includes a water supply element, the planning commission shall consult with the entities that supply water for use within the municipality to ensure coordination on water supply and facility planning, and the water supply element shall identify water supplies and facilities sufficient to meet the needs of the public and private infrastructure reasonably anticipated or identified in the planning process. Nothing in this paragraph (d) shall be construed to supersede, abrogate, or otherwise impair the allocation of water pursuant to the state constitution or laws,

the right to beneficially use water pursuant to decrees, contracts, or other water use agreements, or the operation, maintenance, repair, replacement, or use of any water facility.

(e) The acceptance, removal, relocation, widening, narrowing, vacating, abandonment, modification, change of use, or extension of any of the public ways, rights-of-way, including the coordination of such rights-of-way with the rights-of-way of other municipalities, counties, or regions, grounds, open spaces, buildings, property, utility, or terminals, referred to in paragraphs (a) to (d) of this subsection (1);

(f) A zoning plan for the control of the height, area, bulk, location, and use of buildings and premises. Such a zoning plan may protect and assure access to appropriate conditions for solar, wind, or other alternative energy sources; however, regulations and restrictions of the height, number of stories, size of buildings and other structures, and the height and location of trees and other vegetation shall not apply to existing buildings, structures, trees, or vegetation except for new growth on such vegetation.

(g) The general character, location, and extent of community centers, housing developments, whether public or private, the existing, proposed, or projected location of residential neighborhoods and sufficient land for future housing development for the existing and projected economic and other needs of all current and anticipated residents of the municipality, and redevelopment areas. If a municipality has entered into a regional planning agreement, such agreement may be incorporated by reference into the master plan.

(h) A master plan for the extraction of commercial mineral deposits pursuant to section 34-1-304, C.R.S.;

(i) A plan for the location and placement of public utilities that facilitates the provision of such utilities to all existing, proposed, or projected developments in the municipality;

(j) Projections of population growth and housing needs to accommodate the projected population for specified increments of time. The municipality may base these projections upon data from the department of local affairs and upon the municipality's local objectives.

(k) The areas containing steep slopes, geological hazards, endangered or threatened species, wetlands, floodplains, floodways, and flood risk zones, highly erodible land or unstable soils, and wildfire hazards. For purposes of determining the location of such areas, the planning commission should consider the following sources for guidance:

(I) The Colorado geological survey for defining and mapping geological hazards;

(II) The United States fish and wildlife service of the United States department of the interior and the parks and wildlife commission created in section 33-9-101, C.R.S., for locating areas inhabited by endangered or threatened species;

(III) The United States Army corps of engineers and the United States fish and wildlife service national wetlands inventory for defining and mapping wetlands;

(IV) The federal emergency management agency for defining and mapping floodplains, floodways, and flood risk zones;

(V) The natural resources conservation service of the United States department of agriculture for defining and mapping unstable soils and highly erodible land; and

(VI) The Colorado state forest service for locating wildfire hazard areas.

(2) As the work of making the whole master plan progresses, the commission may from time to time adopt and publish a part thereof. Any such part shall cover one or more major sections or divisions of the municipality or one or more of the foregoing or other functional

matters to be included in the plan. The commission may amend, extend, or add to the plan from time to time.

(3) (Deleted by amendment, L. 2007, p. 613, § 2, effective August 3, 2007.)

(4) (a) Each municipality that has a population of two thousand persons or more and that is wholly or partially located in a county that is subject to the requirements of section 30-28-106 (4), C.R.S., shall adopt a master plan within two years after January 8, 2002.

(b) The department of local affairs shall annually determine, based on the population statistics maintained by said department, whether a municipality is subject to the requirements of this subsection (4), and shall notify any municipality that is newly identified as being subject to said requirements. Any such municipality shall have two years following receipt of notification from the department to adopt a master plan.

(c) Once a municipality is identified as being subject to the requirements of this subsection (4), the municipality shall at all times thereafter remain subject to the requirements of this subsection (4), regardless of whether it continues to meet the criteria specified in paragraph (a) of this subsection (4).

(5) A master plan adopted in accordance with the requirements of subsection (4) of this section shall contain a recreational and tourism uses element pursuant to which the municipality shall indicate how it intends to provide for the recreational and tourism needs of residents of the municipality and visitors to the municipality through delineated areas dedicated to, without limitation, hiking, mountain biking, rock climbing, skiing, cross country skiing, rafting, fishing, boating, hunting, and shooting, or any other form of sports or other recreational activity, as applicable, and commercial facilities supporting such uses.

(6) The master plan of any municipality adopted or amended in accordance with the requirements of this section on and after August 8, 2005, shall satisfy the requirements of section 29-20-105.6, C.R.S., as applicable.

(7) Notwithstanding any other provision of this section, no master plan originally adopted or amended in accordance with the requirements of this section shall conflict with a master plan for the extraction of commercial mineral deposits adopted by the municipality pursuant to section 34-1-304, C.R.S.

The plan shall be made with the general purpose of guiding and accomplishing a coordinated, adjusted, and harmonious

The commission may adopt the plan as a whole by a single resolution or may by successive resolutions adopt successive parts of the plan (said parts corresponding with major geographical sections or divisions of the municipality or with functional subdivisions of the subject matter of the plan) and may adopt any amendment or extension thereof or addition thereto. Before the adoption of the plan or any such part, amendment, extension, or addition, the commission shall hold at least one public hearing thereon, notice of the time and place of which shall be given by one publication in a newspaper of general circulation in the municipality and in the official newspaper of the county affected. The adoption of the plan, any part, amendment, extension, or addition shall be by resolution of the commission carried by the affirmative votes of not less than two-thirds of the entire membership of the commission. The resolution shall refer expressly to the maps and descriptive and other matter intended by the commission to form the whole or part of the plan, and the action taken shall be recorded on the map and plan and descriptive matter by the identifying signature of the chairman or secretary of the commission. 31-23-209. Legal status of official plan. When the commission has adopted the master plan of the municipality or of one or more major sections or districts thereof, no street, square, park or other public way, ground or open space, public building or structure, or publicly or privately owned public utility shall be constructed or authorized in the municipality or in such planned section and district until the location, character, and extent thereof has been submitted for approval by the commission. In case of disapproval, the commission shall communicate its reasons to the municipality's governing body, which has the power to overrule such disapproval by a recorded vote of not less than two-thirds of its entire membership. If the public way, ground

31-23-210. Publicity - travel - information - entry. The commission has power to promote public interest in and understanding of the plan and to that end may publish and distribute copies of the plan or any report and may employ such other means of publicity and education as it may determine. Members of the commission may attend city planning conferences, meetings of city planning institutes, or hearings upon pending municipal planning legislation, and the commission may pay, by resolution, the reasonable traveling expenses incident to such attendance. The commission shall recommend, from time to time, to the appropriate public officials programs for public structures and improvements and for the financing thereof. It shall be part of its duties to consult and advise with public officials and agencies, public utility companies, civic, educational, professional, and other organizations, and with citizens in relation to protecting and carrying out the plan. The commission has the right to accept and use gifts for the exercise of its functions. All public officials shall furnish to the commission, upon request, within a reasonable length of time, such available information as the commission may require for its work. The commission and its members, officers, and employees, in the performance of their functions, may enter upon any land and make examinations and surveys and place and maintain necessary marks and monuments thereon. 31-23-211. Zoning. Where a commission is established in accordance with the provisions of this part 2, it has and shall exercise all of the powers and rights granted to the zoning commission by part 3 of this article. When there is a zoning commission in existence at the time that a commission is created, the zoning commission shall deliver to the commission all of its records and shall thereafter cease to exercise the powers and prerogatives previously exercised by it; except that, if the existing zoning commission is nearing completion of a zoning plan, the governing body of the municipality may postpone, by resolution, the transfer of the zoning commission's powers until completion of the zoning plan; but in no event shall the period of such postponement exceed six months from the date of the creation of the commission.

Nothing in this section shall invalidate or otherwise affect any zoning law or regulation or any action of the zoning commission adopted or taken prior to the creation of a commission.

31-23-214. Subdivision regulations. (1) Before any commission exercises the powers set forth in section 31-23-213, it shall adopt regulations governing the subdivision of land within its jurisdiction and shall publish the same in pamphlet form, which shall be available for public distribution, or, at the election of the commission, the regulations may be published once each week for three consecutive weeks in the official paper of the municipality or county in which such subdivisions, or any part thereof, are located. Such regulations may provide for the proper arrangement of streets in relation to other existing or planned streets and to the master plan, for adequate and convenient open spaces for traffic, utilities, access of fire fighting apparatus, recreation, light, and air, and for the avoidance of congestion of population, including minimum area and width of lots. The regulations may also provide for waivers from subdivision requirements and may establish different requirements applicable to subdivisions of different sizes, densities, or types of dwelling units. In the territory subject to subdivision jurisdiction beyond the municipal limits, the regulations shall provide only for conformance with the major street plan.

(1.5) Subdivision regulations adopted under provisions of this section may protect and assure access to sunlight for solar energy devices by considering in subdivision development plans the use of restrictive covenants or solar easements, height restrictions, side yard and setback requirements, street orientation and width requirements, or other permissible forms of land use controls.

(2) Before the adoption of the regulations referred to in this section, a public hearing shall be held thereon in the municipality. A copy of such regulations shall be certified by the commission to the county clerk and recorders of the counties in which the municipality and territory are located.

(3) Subdivision regulations adopted under provisions of this section shall require that a subdivider, as defined in section 30-28-101 (9), C.R.S., submit to the commission evidence that provision has been made for facility sites, easements, and rights of access for electrical and natural gas utility service sufficient to ensure reliable and adequate electric or, if applicable, natural gas service for any proposed subdivision. Submission of a letter of agreement between the subdivider and utility serving the site shall be deemed sufficient to establish that adequate provision for electric or, if applicable, natural gas service to a proposed subdivision has been made.

No person may submit an application for subdivision approval to a local authority unless the subdivision plan or plat provides, pursuant to section 43-2-147, C.R.S., that all lots and parcels created by the subdivision will have access to the state highway system in conformance with the state highway access code.

31-23-215. Procedure - legal effect. (1) The commission shall approve or disapprove a plat within thirty days after said plat has been submitted to it; otherwise such plat shall be deemed approved and a certificate to that effect shall be issued by the commission on demand unless the applicant for the commission's approval waives this requirement and consents to an extension of such period. The ground of disapproval of any plat shall be stated upon the records of the commission. No plat shall be acted on by the commission without affording a hearing thereon. Notice of the time and place of such hearing shall be sent to mineral estate owners in accordance with article 65.5 of title 24, C.R.S.

(2) Every plat approved by the commission, by virtue of such approval, shall be deemed to be an amendment or an addition to or a detail of the municipal plan and a part thereof. Approval of a plat shall not constitute or effect an acceptance by the public of any street or other open space shown upon the plat. From time to time, the commission may recommend to the governing body amendments of the zoning ordinance or map or additions thereto to conform to the commission's recommendations for the zoning regulations of the territory comprised within approved subdivisions. The commission has the power to impose use, height, area, or bulk requirements or restrictions governing buildings and premises within the subdivision if such requirements or restrictions do not authorize the violation of the then effective zoning ordinance of the municipality. Such requirements or restrictions shall be stated upon the plat prior to the approval and recording thereof, shall have the force of law, and shall be enforceable in the same manner and with the same sanctions and penalties and subject to the same powers of amendment or repeal as though set out as a part of the zoning ordinance or map of the municipality. No action taken under this section shall be binding for any purpose until such action has been approved by the governmental body of the territory affected or any part thereof.

Whoever, being the owner or agent of the owner of any land located within a subdivision, transfers or sells, agrees to sell, or negotiates to sell any land by reference to or exhibition of or by use of a plat of a subdivision before such plat has been approved by the commission and recorded or filed in the office of the appropriate county clerk and recorder shall pay a penalty of one hundred dollars to the municipality for each lot or parcel so transferred, or sold, or agreed or negotiated to be sold. The description of such lot or parcel by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring shall not exempt the transaction from such penalties or from the remedies provided in this section. The municipality may enjoin such transfer or sale or agreement by action for injunction brought in any court of competent jurisdiction and may recover the penalty by civil action in any court of competent jurisdiction.

31-23-216.5. Additional enforcement - fine or imprisonment - abatement or removal. (1) In addition to any other remedies, the governing body of any municipality may provide by ordinance that it is unlawful to erect, construct, reconstruct, use, or alter any building or structure or to use any land in violation of any municipal subdivision regulation, and the

governing body may enforce obedience to such ordinance by fine or imprisonment as provided in section 31-16-101.

(2) In case any building or structure is or is proposed to be erected, constructed, reconstructed, altered, or used or any land is or is proposed to be used in violation of any municipal subdivision regulation, the municipality, in addition to other remedies provided by law, may institute an appropriate action to prevent, enjoin, abate, or remove the violation to prevent the occupancy of the building, structure, or land or to prevent any illegal act or use in or on such premises.

31-23-217. Acceptance and improvement of streets. (1) The municipality shall not accept, lay out, open, improve, grade, pave, curb, or light any street or lay or authorize water mains or sewers or connections to be laid in any street within any portion of a territory for which the commission has adopted a major street plan unless such street:

(a) Has been accepted or opened as or otherwise has received the legal status of a public street prior to the adoption of such plan; or

(b) Corresponds with a street shown on the official master plan or with a street on a subdivision plat approved by the planning commission or with a street on a street plat made by and adopted by the commission. However, the governing body may accept any street not shown on or not corresponding with a street on the official master plan or on any approved subdivision plat or an approved street plat if the ordinance or other measure accepting such street is first submitted to the commission for its approval and, if approved by the commission, is enacted or passed by not less than a majority of the entire membership of the governing body or, if disapproved by the commission, is enacted or passed by not less than two-thirds of the entire membership of the governing body.

(2) A street approved by the commission upon submission by the governing body or a street accepted by a two-thirds vote after disapproval by the commission shall have the status of an approved street as though it had been originally shown on the official master plan or on a subdivision plat approved by the commission or had been originally platted by the commission.

31-23-218. Erection of buildings. (1) After the time when a commission has adopted a major street plan of the territory within the municipal limits of said municipality, no building shall be erected on any lot within such territory or part nor shall a building permit be issued therefor unless the street giving access to the lot upon which such building is proposed to be placed:

(a) Has been accepted or opened as or otherwise has received the legal status of a public street prior to that time; or

(b) Corresponds with a street shown on the official master plan, with a street or subdivision plat approved by the planning commission, with a street on a street plat made by and adopted by the commission, or with a street accepted by the governing body in accordance with

the provisions of section 31-23-217. Any building erected in violation of this section is an unlawful structure, and the building inspector or other appropriate official may cause it to be vacated or have it removed.

31-23-219. Status of existing statutes. After the time when a municipal planning commission has control over subdivisions as provided in section 31-23-213, the jurisdiction of the planning commission over plats shall be exclusive within the territory under its jurisdiction, and all statutory control over plats or subdivisions of land granted by other statutes, insofar as in harmony with the provisions of this part 2, shall be deemed transferred to the planning commission of such municipality.

31-23-220. Reservation for future acquisition. (1) (a) Any commission is empowered, from time to time, after it has adopted a major street plan of the territory within its subdivision jurisdiction or of any major section or district thereof, to make or cause to be made surveys for the exact location of the lines of a street in any portion of such territory and to make a plat of the area or district thus surveyed showing the land which it recommends be reserved for future acquisition for public streets. The commission, before adopting any such plat, shall hold a public hearing thereon, notice of the time and place of which, with a general description of the district or area covered by the plat, shall be given not less than ten days previous to the time fixed therefor by one publication in a newspaper of general circulation in the municipality if the district or area is within the municipality or of general circulation in the county if the district or area is outside the municipality. After such a hearing the commission may transmit the plat, as originally made or modified, as may be determined by the commission, to the governing body together with the commission's estimate of the time within which the lands shown on the plat as street locations should be acquired by the municipality.

(b) The governing body, by resolution, may approve and adopt or reject such plat or may modify it with the approval of the planning commission or, in the event of the commission's disapproval, the governing body, by a favorable vote of not less than two-thirds of its entire membership, may modify such plat and adopt the modified plat. In the resolution of adoption of a plat, the governing body shall fix the period of time for which the street locations shown upon the plat shall be reserved for future taking or acquisition for public use. Upon such adoption the clerk shall transmit one attested copy of the plat to the county clerk and recorder of each county in which the platted land is located and retain one copy for the purpose of public examination and hearings of claims for compensation.

(2) (a) Such approval and adoption of a plat shall not, however, be deemed the opening or establishment of any street, nor the taking of any land for street purposes, nor for public use, nor as a public improvement but solely as a reservation of the street location shown therein for

the period specified in the resolution for future taking or acquisition for public use. The commission at any time may negotiate for and secure from the owners of any such lands releases of claims for damages or compensation for such reservations or agreements indemnifying the municipality from such claims by others, which releases or agreements shall be binding upon the owners executing the same and their successors in title.

(b) At any time after the filing of a plat with the county clerk and recorder and during the period specified for the reservation, the commission and the owner of any land containing a reserved street location may agree upon modification of the location of the lines of the proposed street. Such agreement shall include a release by said owner of any claim for compensation or damages by reason of such modification. Thereupon the commission may make a plat corresponding to the said modification and transmit the same to the governing body. If such modified plat is approved by the governing body, the clerk shall transmit an attested copy thereof to the county clerk and recorder and the modified plat shall take the place of the original plat. At any time the governing body, by resolution, may abandon any reservation and shall certify any such abandonment to the county clerk and recorder.

31-23-221. Compensation for reservations. (1) In the resolution of adoption of a plat, the governing body shall appoint a board of three appraisers and shall fix the time and place of meetings for hearings by said board upon the amounts of compensation to be paid for such reservations. Thereupon the clerk shall publish in at least two newspapers of general circulation in the municipality once a week for four consecutive weeks a notice which shall contain a general description of the land thus reserved as shown on the plat, the provisions of the resolution of the governing body, including the period of time for which such reservations are made, the time within which claims for compensation may be filed, which shall be not less than three nor more than six months from the date of notice, and the time and place of hearings by the board of appraisers. The first hearing shall not be set earlier than thirty days after the date of the first of such publications. Such notice shall also be posted in at least three public places in the neighborhood of or along the line of the location of the reservation.

(2) The board of appraisers shall fix the amounts of compensation to be paid, respectively, to the owners of lands reserved for the period of time as shown on the plat and in the resolution adopted by the governing body. When the clerk receives, within the period fixed for the same, any claim for such compensation, he shall transmit it to the board of appraisers. At the time and place fixed for such hearings, the board of appraisers shall hear and consider all claims presented to it in writing or in person, including all evidence which may be presented by the claimants or other persons. The board of appraisers has the right on its own initiative to investigate and ascertain data or evidence relevant to the question of such compensation. In case of the abandonment of a reservation prior to the time fixed for payment of compensation, the municipality shall be liable to the owner of the land included within the abandoned reservation for the expenses, if any, incurred by such owner by reason of such reservation.

31-23-222. Report of appraisers - action by the governing body. (1) The board of appraisers, within ninety days after the time fixed for the filing of claims, shall file its tentative report with the clerk setting forth its findings as to the amounts of compensation to be paid the respective owners of the lands included within the lines of such reservations as located on the approved plat. Thereupon the clerk shall publish once a week for two consecutive weeks in at least two newspapers of general circulation in the municipality the fact of the filing of the report of the appraisers and specify a period of thirty days after the date of the first such publication within which objections to the report may be filed with the clerk. If objections are filed within said period, the clerk shall cause the board of appraisers to hold a meeting at which said objections shall be transmitted to the board, and the board may modify its report. The report in its original form or, if modified, in its modified form shall be transmitted to the governing body by the clerk.

(2) Before passing on the report, the governing body may return it to the board of appraisers for reconsideration, and the board, upon further consideration, may transmit its former or modified report to the governing body. The governing body may approve or disapprove the report. If the report is approved by the governing body, it shall provide for the payment of the amounts of compensation set forth in the report within ninety days after the filing of the report with the governing body. In the case of those property owners who file claims, payment shall be made through the clerk who shall notify the claimants at the addresses given upon the claims filed with him. Payments to all other persons shall be made through the clerk of the district court of the county in which the reserved location is situated by the payment to said clerk of the amounts awarded to such persons. Notice of distribution to such persons shall be given and made as may be provided by a rule or order of said court. Payments made to the clerk or clerk of the district court within said ninety days shall be deemed compliance with the above requirement for payment within ninety days.

(3) If the governing body disapproves the report or fails to provide for such payment within ninety days, such disapproval or failure shall be deemed a dismissal of the proceedings, a cancellation of the plat, and an abandonment of the reservations of the street locations as shown on the plat, with the same liability of the municipality for expenses as provided in the case of abandonment by resolution. Thereafter the clerk shall transmit to the county clerk and recorder an attested statement of such abandonment.

31-23-223. Appeal from awards. Within twenty days after the approval of any such report by the governing body, any person dissatisfied with the award of compensation may file with the clerk notice of appeal to the district court of the county in which the appellant's land is located. Within ten days of such notice, the clerk shall file with the clerk of the district court the report of the board of appraisers approved by the governing body, together with certified copies of the resolution thereof and of the notice of appeal. Thereafter the procedure shall be in accordance with the procedure specified by law.

31-23-224. No compensation for buildings. The reservation of a street location, as provided in section 31-23-220, shall not prohibit or impair in any respect the use of the reserved land by the owner or occupant thereof for any lawful purpose, including the erection of buildings thereon. No compensations, other than the compensation awarded in the final report of said board of appraisers as approved by the governing body, as provided in section 31-23-222 or, in the case of an appeal, as awarded on such appeal as provided in section 31-23-223, shall at any time be paid by the municipality or public to or recovered from the municipality or public by any person for the taking of or injury to any building or structure built or erected within the period fixed in the resolution of the governing body upon any such reserved location. No compensation or damages for any such reservation shall be paid or recovered except as provided in sections 31-23-221 to 31-23-223.

31-23-301. Grant of power. (1) Except as otherwise provided in section 34-1-305, C.R.S., for the purpose of promoting health, safety, morals, or the general welfare of the community, including energy conservation and the promotion of solar energy utilization, the governing body of each municipality is empowered to regulate and restrict the height, number of stories, and size of buildings and other structures, the percentage of lot that may be occupied, the size of yards, courts, and other open spaces, the density of population, the height and location of trees and other vegetation, and the location and use of buildings, structures, and land for trade, industry, residence, or other purposes. Regulations and restrictions of the height, number of stories, and the height and location of trees and other vegetation shall not apply to existing buildings, structures, trees, or vegetation except for new growth on such vegetation. Such regulations shall provide that a board of adjustment may determine and vary their application in harmony with their general purpose and intent and in accordance with general or specific rules contained in such regulations. Subject to the provisions of subsection (2) of this section and to the end that adequate safety may be secured, said governing body also has power to establish, regulate, restrict, and limit such uses on or along any storm or floodwater runoff channel or

basin, as such storm or floodwater runoff channel or basin has been designated and approved by the Colorado water conservation board, in order to lessen or avoid the hazards to persons and damage to property resulting from the accumulation of storm or floodwaters. Any ordinance enacted under authority of this part 3 shall exempt from the operation thereof any building or structure as to which satisfactory proof is presented to the board of adjustment that the present or proposed situation of such building or structure is reasonably necessary for the convenience or welfare of the public.

(2) The power conferred by subsection (1) of this section for flood prevention and control shall not be exercised to deprive the owner of any existing property of its future use or maintenance for the purpose to which it was lawfully devoted on February 25, 1966, but provisions may be made for the gradual elimination of uses, buildings, and structures, including provisions for the elimination of such uses when the existing uses to which they are devoted are discontinued, and for the elimination of such buildings and structures when they are destroyed or damaged in major part.

(3) The governing body of any municipality or the board of adjustment thereof, in the exercise of powers pursuant to this section, may condition any zoning regulation, any amendment to such regulation, or any variance of the application thereof or the exemption of any building or structure therefrom upon the preservation, improvement, or construction of any storm or floodwater runoff channel designated and approved by the Colorado water conservation board.

(4) A statutory or home rule city or town or city and county shall not enact an ordinance prohibiting the use of a state-licensed group home for either persons with intellectual and developmental disabilities or behavioral or mental health disorders that serves not more than eight persons with intellectual and developmental disabilities or eight persons with behavioral or mental health disorders and appropriate staff as a residential use of property for zoning purposes. As used in this subsection (4), the phrase "residential use of property for zoning purposes" includes all forms of residential zoning and specifically, although not exclusively, single-family residential zoning.

(5) (a) As used in this subsection (5), unless the context otherwise requires:

(I) "Manufactured home" means a single family dwelling which:

(A) Is partially or entirely manufactured in a factory;

(B) Is not less than twenty-four feet in width and thirty-six feet in length;

(C) Is installed on an engineered permanent foundation;

(D) Has brick, wood, or cosmetically equivalent exterior siding and a pitched roof; and

(E) Is certified pursuant to the "National Manufactured Housing Construction and Safety Standards Act of 1974", 42 U.S.C. 5401 et seq., as amended.

(II) "Equivalent performance engineering basis" means that by using engineering calculations or testing, following commonly accepted engineering practices, all components and subsystems will perform to meet health, safety, and functional requirements to the same extent as required for other single family housing units.

(b) (I) No municipality shall have or enact zoning regulations, subdivision regulations, or any other regulation affecting development which exclude or have the effect of excluding manufactured homes from the municipality if such homes meet or exceed, on an equivalent performance engineering basis, standards established by the municipal building code.

(II) Nothing in this subsection (5) shall prevent a municipality from enacting any zoning, developmental, use, aesthetic, or historical standard, including, but not limited to, requirements relating to permanent foundations, minimum floor space, unit size or sectional requirements, and improvement location, side yard, and setback standards to the extent that such standards or requirements are applicable to existing or new housing within the specific use district of the municipality.

(III) Nothing in this subsection (5) shall preclude any municipality from enacting municipal building code provisions for unique public safety requirements such as snow load roof, wind shear, and energy conservation factors.

(IV) Nothing in this subsection (5) shall be deemed to supersede any valid covenants running with the land.

31-23-302. Districts. For any of the purposes enumerated in section 31-23-301, the governing body may divide the municipality into districts of such number, shape, and area as may be deemed best suited to carry out the purposes of this part 3, and within such districts it may regulate and restrict the erection, construction, reconstruction, alteration, repair, or use of buildings, structures, or land. All such regulations shall be uniform for each class or kind of buildings throughout each district, but the regulations in one district may differ from those in other districts.

31-23-303. Legislative declaration. (1) Such regulations shall be made in accordance with a comprehensive plan and designed to lessen congestion in the streets; to secure safety from fire, panic, floodwaters, and other dangers; to promote health and general welfare; to provide adequate light and air; to prevent the overcrowding of land; to avoid undue concentration of population; to promote energy conservation; and to facilitate the adequate provision of transportation, water, sewerage, schools, parks, and other public requirements. Such regulations shall be made with reasonable consideration, among other things, as to the character of the district and its peculiar suitability for particular uses and with a view to conserving the value of buildings and encouraging the most appropriate use of land throughout such municipality.

(2) (a) The general assembly declares that the establishment of state-licensed group homes for the exclusive use of persons with intellectual and developmental disabilities, which homes are known as community residential homes as defined in section 25.5-10-202, C.R.S., is a matter of statewide concern and that a state-licensed group home for eight persons with intellectual and developmental disabilities is a residential use of property for zoning purposes. As used in this subsection (2), the phrase "residential use of property for zoning purposes" includes all forms of residential zoning and specifically, although not exclusively, single-family residential zoning. As used in this section, "persons with intellectual and developmental disabilities" has the same meaning as set forth in section 25.5-10-202, C.R.S.

(b) (I) (Deleted by amendment, L. 2001, p. 104, § 2, effective March 21, 2001.)

(II) The general assembly declares that the establishment of group homes for the aged for the exclusive use of not more than eight persons sixty years of age or older per home is a matter of statewide concern. The general assembly further finds and declares that it is the policy of this state to enable and assist persons sixty years of age or older who do not need nursing facilities, and who so elect, to live in normal residential surroundings, including single-family residential units. Group homes for the aged shall be distinguished from nursing facilities, as defined in section 25.5-4-103 (14), and institutions providing life care, as defined in section 11-49-101 (6). Every municipality having adopted or that shall adopt a zoning ordinance shall provide for the location of group homes for the aged. A group home for the aged established under this subsection (2)(b) shall not be located within seven hundred fifty feet of another such group home, unless otherwise provided for by the municipality. Nothing in this subsection (2)(b) shall be construed to exempt the group homes from compliance with any state, county, or municipal health, safety, and fire codes. On April 29, 1976, every person sixty years of age or older who resides in a skilled or intermediate health care facility and who may be transferred or discharged therefrom to a group home for the aged shall not be so discharged or transferred unless he or she has received ninety days' advance written notice thereof or has agreed in writing to the proposed transfer or discharge.

(b.5) The general assembly declares that the establishment of state-licensed group homes for the exclusive use of persons with behavioral or mental health disorders, as that term is defined in section 27-65-102, is a matter of statewide concern and that a state-licensed group home for eight persons with behavioral or mental health disorders is a residential use of property for zoning purposes, as defined in section 31-23-301 (4). A group home for persons with behavioral or mental health disorders established pursuant to this subsection (2)(b.5) must not be located within seven hundred fifty feet of another such group home, unless otherwise provided for by the municipality. A person must not be placed in a group home without being screened by either a professional person, as defined in section 27-65-102 (17), or any other such mental health professional designated by the director of a facility approved by the executive director of the department of human services pursuant to section 27-90-102. Persons determined to be not guilty by reason of insanity to a violent offense must not be placed in such group homes, and any person who has been convicted of a felony involving a violent offense is not be eligible for placement in such group homes. The provisions of this subsection (2)(b.5) must be implemented, where appropriate, by the rules of the department of public health and environment concerning residential treatment facilities for persons with behavioral or mental health disorders. Nothing in this subsection (2)(b.5) exempts such group homes from compliance with any state, county, or municipal health, safety, and fire codes.

(c) Nothing in this subsection (2) shall be construed to supersede the authority of municipalities and counties to regulate such homes appropriately through local zoning ordinances or resolutions, except insofar as such regulation would be tantamount to prohibition of such homes from any residential district. This section is specifically not to be construed to permit violation of the provisions of any zoning ordinance or resolution with respect to height, setbacks, area, lot coverage or external signage or to permit architectural designs substantially inconsistent with the character of the surrounding neighborhood. This section is also not to be construed to permit conducting of the ministerial activities of any private or public organization or agency or to permit types of treatment activities or the rendering of services in a manner substantially inconsistent with the activities otherwise permitted in the particular zoning district. If reasonably related to the requirements of a particular home, a local zoning or other development regulations may, without violating the provisions of this section, also attach specific location requirements to the approval of the group home, including the availability of such services and facilities as convenience stores, commercial services, transportation, and public recreation facilities.

(3) The general assembly declares that the availability and affordability of housing for residents of this state is a matter of statewide concern. It is the purpose of section 31-23-301 (5) to promote the public health, safety, and welfare by allowing residents of this state an additional opportunity to be able to live in decent, safe, and affordable housing on a permanent basis by prohibiting the exclusion of manufactured homes on single site lots from municipalities where the manufactured homes meet or exceed on an equivalent performance engineering basis the standards established by the municipal building code.

31-23-304. Method of procedure. The governing body of such municipality shall provide for the manner in which such regulations and restrictions and the boundaries of such districts are determined, established, enforced, and, from time to time, amended, supplemented, or changed. However, no such regulation, restriction, or boundary shall become effective until after a public hearing thereon at which parties in interest and citizens shall have an opportunity to be heard. At least fifteen days' notice of the time and place of such hearing shall be published in an official paper or a paper of general circulation in such municipality.

31-23-305. Changes. Such regulations, restrictions, and boundaries may from time to time be amended, supplemented, changed, modified, or repealed. In case, however, of a protest against changes in regulations or restrictions, or changes in the zone district applicable to particular land, which protest is filed with the municipal clerk at least twenty-four hours prior to the governing body's vote on the change and is signed by the owners of twenty percent or more of the area of land which is subject to the proposed change or twenty percent or more of the area of land extending a radius of one hundred feet from the land which is subject to the proposed change, disregarding intervening public streets and alleys, such changes shall not become effective except by the favorable vote of two-thirds of all the members of the governing body of the municipality. The provisions of section 31-23-304 relative to public hearings and official notice shall apply equally to all changes or amendments.

31-23-306. Zoning commission. In order to avail itself of the powers conferred by this part 3, the governing body shall appoint a commission, known as the zoning commission, to recommend the boundaries of the various original districts and appropriate regulations to be enforced therein. Such commission shall make a preliminary report and hold public hearings thereon before submitting its final report. The governing body shall not hold its public hearings or take action until it has received the final report of such commission. Where a municipal planning commission already exists, it shall be appointed as the zoning commission.

31-23-307. Board of adjustment. (1) The governing body shall provide for the appointment of a board of adjustment consisting of five members, each to be appointed for three years, unless the governing body by ordinance establishes a different number of members or term of office. The governing body may provide by ordinance for filling vacancies on the board,

for designation of alternate members, and for removal of members for inefficiency, neglect of duty, or malfeasance in office. The board of adjustment shall hear and decide appeals from and review any order, requirement, decision, or determination made by any administrative official charged with the enforcement of any ordinance adopted pursuant to this part 3. It shall also hear and decide all matters referred to it or upon which it is required to pass under such ordinance. Unless otherwise provided by ordinance, the concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision, or determination of any such administrative official, or to decide in favor of the applicant any matter upon which it is required to pass under any such ordinance, or to effect any variation in such ordinance. Every decision of such board shall be subject, however, to review by certiorari by the district court of the county within which the municipality or any part thereof is located. Such appeal shall be filed not later than thirty days from the final action taken by the board of adjustment. Such appeal may be taken by any person aggrieved or by an officer, department, board, or bureau of the municipality.

(2) An appeal to the board of adjustment shall be taken within such time as prescribed by the board of adjustment by general rule by filing with the officer from whom the appeal is taken with the board of adjustment a notice of appeal, specifying the grounds thereof. The officer from whom the appeal is taken shall at once transmit to the board of adjustment all the papers constituting the record upon which the action appealed from was taken.

(3) An appeal stays all proceedings in furtherance of the action appealed from unless the officer from whom the appeal is taken certifies to the board of adjustment after the notice of appeal has been filed with him that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril to life or property, in which case proceedings shall not be stayed otherwise than by a restraining order which may be granted by the board of adjustment or by the district court on application, on notice to the officer from whom the appeal is taken, and on due cause shown.

(4) The board of adjustment shall fix a reasonable time for the hearing of the appeal, give due notice thereof to the parties, and decide the same within a reasonable time. Upon hearing, any party may appear in person or by agent or attorney. The board of adjustment may reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from and shall make such order, requirement, decision, or determination as in its opinion ought to be made in the premises and to that end has all the powers of the officer from whom the appeal is taken. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of such ordinance, the board of adjustment has the power, in passing upon appeals, to vary or modify the application of the regulations or provisions of such ordinance relating to the use, construction, or alteration of buildings or structures, or the use of land, so that the spirit of the ordinance is observed, public safety and welfare secured, and substantial justice done. The governing body by ordinance may eliminate the board of adjustment's authority to grant use variances or use modifications, or may transfer that authority to some other board, agency, or commission, or to the governing body of the municipality. Where feasible, the board of adjustment may vary or modify the application of the regulations for the purpose of considering access to sunlight for solar energy devices.

(5) The governing body of a municipality that has entered into an intergovernmental agreement with the county or counties within which it is located for the purposes of joint participation in land use planning, subdivision procedures, and zoning pursuant to the authority granted in section 31-23-227 (2) may, by ordinance, enter into an intergovernmental agreement

with the county or counties within which it is located for the purpose of joint participation in the establishment of a joint zoning board of adjustment for a specific area designated in the intergovernmental agreement.

31-23-308. Remedies. In case any building or structure is erected, constructed, reconstructed, altered, repaired, converted, or maintained or any building, structure, or land is used in violation of this part 3 or of any ordinance or other regulation made under authority conferred by this part 3, the proper local authorities of the municipality, in addition to other remedies, may institute any appropriate action or proceedings to prevent such unlawful erection, construction, reconstruction, alteration, repair, conversion, maintenance, or use to restrain, correct, or abate such violation, to prevent the occupancy of said building, structure, or land, or to prevent any illegal act, conduct, business, or use in or about such premises.

Wherever the provisions of any other statute, local ordinance, or regulation require a greater width or size of yards or courts, or require a lower height of building or a less number of stories, or require a greater percentage of lot to be left unoccupied, or impose higher standards than are required by the regulations made under authority of this part 3, the provisions of such statute or local ordinance or regulation shall govern.

31-25-102. Legislative declaration. (1) The general assembly finds and declares that there exist in municipalities of this state slum and blighted areas which constitute a serious and growing menace, injurious to the public health, safety, morals, and welfare of the residents of the state in general and of the municipalities thereof; that the existence of such areas contributes substantially to the spread of disease and crime, constitutes an economic and social liability, substantially impairs or arrests the sound growth of municipalities, retards the provision of housing accommodations, aggravates traffic problems and impairs or arrests the elimination of traffic hazards and the improvement of traffic facilities; and that the prevention and elimination of slums and blight is a matter of public policy and statewide concern in order that the state and its municipalities shall not continue to be endangered by areas which are focal centers of disease, promote juvenile delinquency, and consume an excessive proportion of its revenues because of the extra services required for police, fire, accident, hospitalization, and other forms of public protection, services, and facilities.

(2) The general assembly further finds and declares that certain slum or blighted areas, or portions thereof, may require acquisition, clearance, and disposition subject to use restrictions, as provided in this part 1, since the prevailing conditions therein may make impracticable the reclamation of the area by conservation or rehabilitation; that other slum or blighted areas, or portions thereof, through the means provided in this part 1, may be susceptible of conservation or rehabilitation in such a manner that the conditions and evils enumerated in this section may be eliminated, remedied, or prevented; and that salvable slum and blighted areas can be conserved and rehabilitated through appropriate public action, as authorized or contemplated in this part 1, and the cooperation and voluntary action of the owners and tenants of property in such areas.

(3) The general assembly further finds and declares that the powers conferred by this part 1 are for public uses and purposes for which public money may be expended and the police

power exercised and that the necessity in the public interest for the provisions enacted in this part 1 is declared as a matter of legislative determination.

(4) The general assembly further finds and declares that:

(a) Urban renewal areas created for the purposes described in subsections (1) and (2) of this section shall not include agricultural land except in connection with the limited circumstances described in this part 1; and

(b) The inclusion of agricultural land within urban renewal areas is a matter of statewide concern.

31-25-103. Definitions. As used in this part 1, unless the context otherwise requires:

(1) "Agricultural land" means any one parcel of land or any two or more contiguous parcels of land that, regardless of the uses for which the land has been zoned, has been classified by the county assessor as agricultural land for purposes of the levying and collection of property tax pursuant to sections 39-1-102 (1.6)(a) and 39-1-103 (5)(a), C.R.S., at any time during the five-year period prior to the date of adoption of an urban renewal plan or any modification of such a plan.

(2) "Blighted area" means an area that, in its present condition and use and, by reason of the presence of at least four of the following factors, substantially impairs or arrests the sound growth of the municipality, retards the provision of housing accommodations, or constitutes an economic or social liability, and is a menace to the public health, safety, morals, or welfare:

- (a) Slum, deteriorated, or deteriorating structures;
- (b) Predominance of defective or inadequate street layout;
- (c) Faulty lot layout in relation to size, adequacy, accessibility, or usefulness;
- (d) Unsanitary or unsafe conditions;
- (e) Deterioration of site or other improvements;
- (f) Unusual topography or inadequate public improvements or utilities;

(k) (Deleted by amendment, L. 2004, p. 1745, § 3, effective June 4, 2004.)

(k.5) The existence of health, safety, or welfare factors requiring high levels of municipal services or substantial physical underutilization or vacancy of sites, buildings, or other improvements; or

(l) If there is no objection by the property owner or owners and the tenant or tenants of such owner or owners, if any, to the inclusion of such property in an urban renewal area, "blighted area" also means an area that, in its present condition and use and, by reason of the presence of any one of the factors specified in paragraphs (a) to (k.5) of this subsection (2),

substantially impairs or arrests the sound growth of the municipality, retards the provision of housing accommodations, or constitutes an economic or social liability, and is a menace to the public health, safety, morals, or welfare. For purposes of this paragraph (1), the fact that an owner of an interest in such property does not object to the inclusion of such property in the urban renewal area does not mean that the owner has waived any rights of such owner in connection with laws governing condemnation.

(3) "Bonds" means any bonds (including refunding bonds), notes, interim certificates or receipts, temporary bonds, certificates of indebtedness, debentures, or other obligations.

(3.1) "Brownfield site" means real property, the development, expansion, redevelopment, or reuse of which will be complicated by the presence of a substantial amount of one or more hazardous substances, pollutants, or contaminants, as designated by the United States environmental protection agency.

(3.3) "Business concern" has the same meaning as "business" as set forth in section 24-56-102 (1), C.R.S.

(3.5) "Displaced person" has the same meaning as set forth in section 24-56-102 (2), C.R.S., and for purposes of this part 1 shall also include any individual, family, or business concern displaced by the acquisition by eminent domain of real property by an authority.

(3.7) "Governing body" means the governing body of the municipality within which an authority has been established in accordance with the requirements of this part 1.

(4) "Obligee" means any bondholder, agent, or trustee for any bondholder, or any lessor demising to an authority property used in connection with an urban renewal project of the authority, or any assignee of such lessor's interest or any part thereof, and the federal government when it is a party to any contract or agreement with the authority.

(5) "Public body" means the state of Colorado or any municipality, quasi-municipal corporation, board, commission, authority, or other political subdivision or public corporate body of the state.

(6) "Real property" means lands, lands under water, structures, and any and all easements, franchises, incorporeal hereditaments, and every estate and right therein, legal and equitable, including terms for years and liens by way of judgment, mortgage, or otherwise.

(7) "Slum area" means an area in which there is a predominance of buildings or improvements, whether residential or nonresidential, and which, by reason of dilapidation, deterioration, age or obsolescence, inadequate provision for ventilation, light, air, sanitation, or open spaces, high density of population and overcrowding, or the existence of conditions which endanger life or property by fire or other causes, or any combination of such factors, is conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime and is detrimental to the public health, safety, morals, or welfare.

(7.5) "Urban-level development" means an area in which there is a predominance of either permanent structures or above-ground or at-grade infrastructure.

(8) "Urban renewal area" means a slum area, or a blighted area, or a combination thereof which the local governing body designates as appropriate for an urban renewal project.

(8.5) "Urban renewal authority" or "authority" means a corporate body organized pursuant to the provisions of this part 1 for the purposes, with the powers, and subject to the restrictions set forth in this part 1.

(9) "Urban renewal plan" means a plan, as it exists from time to time, for an urban renewal project, which plan conforms to a general or master plan for the physical development

of the municipality as a whole and which is sufficiently complete to indicate such land acquisition, demolition and removal of structures, redevelopment, improvements, and rehabilitation as may be proposed to be carried out in the urban renewal area, zoning and planning changes, if any, land uses, maximum densities, building requirements, and the plan's relationship to definite local objectives respecting appropriate land uses, improved traffic, public transportation, public utilities, recreational and community facilities, and other public improvements.

(10) "Urban renewal project" means undertakings and activities for the elimination and for the prevention of the development or spread of slums and blight and may involve slum clearance and redevelopment, or rehabilitation, or conservation, or any combination or part thereof, in accordance with an urban renewal plan. Such undertakings and activities may include:

(a) Acquisition of a slum area or a blighted area or portion thereof;

(b) Demolition and removal of buildings and improvements;

(c) Installation, construction, or reconstruction of streets, utilities, parks, playgrounds, and other improvements necessary for carrying out the objectives of this part 1 in accordance with the urban renewal plan;

(d) Disposition of any property acquired or held by the authority as a part of its undertaking of the urban renewal project for the urban renewal areas (including sale, initial leasing, or temporary retention by the authority itself) at the fair value of such property for uses in accordance with the urban renewal plan;

(e) Carrying out plans for a program through voluntary action and the regulatory process for the repair, alteration, and rehabilitation of buildings or other improvements in accordance with the urban renewal plan; and

31-25-104. Urban renewal authority. (1) (a) Any twenty-five registered electors of the municipality may file a petition with the clerk, setting forth that there is a need for an authority to function in the municipality. Upon the filing of such a petition, the clerk shall give notice of the time, place, and purpose of a public hearing, at which the local governing body will determine the need for such an authority in the municipality. Such notice shall be given at the expense of the municipality by publishing a notice, at least ten days preceding the day on which the hearing is to be held, in a newspaper having a general circulation in the municipality or, if there is no such newspaper, by posting such a notice in at least three public places within the municipality at least ten days preceding the day on which the hearing is to be held.

(b) Upon the date fixed for said hearing held upon notice as provided in this section, a full opportunity to be heard shall be granted to all residents and taxpayers of the municipality and to all other interested persons. After such a hearing, if the governing body finds that one or more slum or blighted areas exist in the municipality, and finds that the acquisition, clearance, rehabilitation, conservation, development, or redevelopment, or a combination thereof of such area is necessary in the interest of the public health, safety, morals, or welfare of the residents of the municipality, and declares it to be in the public interest that the urban renewal authority for such municipality created by this part 1 exercise the powers provided in this part 1 to be exercised by such authority, the governing body shall adopt a resolution so finding and declaring and shall cause notice of such resolution to be given to the mayor, who shall thereupon appoint, as provided in paragraph (a) of subsection (2) of this section, commissioners to act as an authority. A certificate signed by such commissioners shall then be filed with the division of local government in the department of local affairs and there remain of record, setting forth that the governing body made the findings and declaration provided in this paragraph (b) after such hearing and that the mayor has appointed them as commissioners. Upon the filing of such certificate, the commissioners and their successors are constituted an urban renewal authority, which shall be a body corporate and politic. The boundaries of such authority shall be coterminous with those of the municipality.

(c) If the governing body, after a hearing, determines that the findings and declaration enumerated in paragraph (b) of this subsection (1) cannot be made, it shall adopt a resolution denying the petition. After six months have expired from the date of the denial of such petition, subsequent petitions may be filed and new hearings and determinations made thereon; except that there shall be at least six months between the time of filing of any subsequent petition and the denial of the last preceding petition.

(d) In any suit, action, or proceeding involving the validity or enforcement of any bond, contract, mortgage, trust indenture, or other agreement of the authority, the authority shall be conclusively deemed to have been established in accordance with the provisions of this part 1 upon proof of the filing of said certificate. A copy of such certificate, duly certified by the director of the division of local government, shall be admissible in evidence in any such suit, action, or proceeding.

(2) (a) (I) Except as provided in subsection (2.5) of this section, an authority consists of thirteen commissioners, not fewer than ten of whom must be appointed by the mayor, who shall designate the chairperson for the first year. In order to represent the collective interests of the county and all taxing bodies levying a mill levy in one or more urban renewal areas managed by the authority, referred to in this part 1 as an "urban renewal authority area", other than the municipality, one such commissioner on the authority must be appointed by the board of county commissioners of the county in which the territorial boundaries of the urban renewal authority area are located, one such commissioner must also be a board member of a special district selected by agreement of the special districts levying a mill levy within the boundaries of the urban renewal authority area, and one commissioner must also be an elected member of a board of education of a school district levying a mill levy within the boundaries of the urban renewal authority area. If the urban renewal authority area is located within the boundaries of more than one county, the appointment is made by agreement of all of the counties in which the boundaries of the urban renewal authority area are located.

(II) If no county, special district, or school district appoints a commissioner to the authority, then the county, special district, or school district appointment remains vacant until such time as the applicable appointing authority makes the appointment pursuant to this paragraph (a).

(III) If the appointing county is a city and county, the requirements of this paragraph (a) pertaining to county representation on the authority board need not be satisfied.

(IV) All mayoral appointments and chair designations are subject to approval by the governing body of the municipality within which the authority has been established. Not more than one of the commissioners appointed by the mayor may be an official of the municipality.

(V) In the event that an official of the municipality is appointed as commissioner of an authority, acceptance or retention of such appointment is not deemed a forfeiture of his or her office, or incompatible therewith, and does not affect his or her tenure or compensation in any way. The term of office of a commissioner of an authority who is a municipal official is not affected or curtailed by the expiration of the term of his or her municipal office.

(b) The commissioners who are first appointed must be designated by the mayor to serve for staggered terms so that the term of at least one commissioner will expire each year. Thereafter, the term of office is five years. A commissioner holds office until his or her successor has been appointed and has qualified. Vacancies other than by reason of expiration of terms must be filled by the mayor for the unexpired term; except that, in the case of a commissioner on the authority who has been appointed by the board of commissioners of a county pursuant to paragraph (a) of this subsection (2), a vacancy on the authority board for the balance of the unexpired term must be filled by the board of commissioners of the county that made the original appointment, a vacancy of the special-district appointed seat must be filled by agreement of the affected special districts, and a vacancy of the school-district appointed seat must be filled by agreement of the affected school districts. A majority of the commissioners constitutes a quorum. The mayor shall file with the clerk a certificate of the appointment or reappointment of any commissioner, and such certificate is conclusive evidence of the due and proper appointment of such commissioner. A commissioner receives no compensation for his or her services, but is entitled to the necessary expenses, including traveling expenses, incurred in the discharge of his or her duties.

(c) When the office of the first chairman of the authority becomes vacant and annually thereafter, the authority shall select a chairman from among its members. An authority shall select from among its members a vice-chairman, and it may employ a secretary, who shall be executive director, technical experts, and such other officers, agents, and employees, permanent and temporary, as it may require, and it shall determine their qualifications, duties, and compensation. An authority may call upon the municipal counsel or chief legal officer of the municipality for such legal services as it may require, or it may employ its own counsel and legal staff. An authority may delegate to one or more of its agents or employees such duties as it deems proper.

(2.5) When the governing body of a municipality designates itself as the authority or transfers an existing authority to the governing body pursuant to section 31-25-115 (1), an authority consists of the same number of commissioners as the number of members of the governing body. In addition, in order to represent the collective interests of the county and all taxing bodies levying a mill levy within the boundaries of the urban renewal authority area other than the municipality, one additional commissioner on the authority must be appointed by the

board of county commissioners of the county in which the territorial boundaries of the urban renewal authority area are located, one additional commissioner must also be a board member of a special district selected by agreement of the special districts levying a mill levy within the boundaries of the urban renewal authority area, and one additional commissioner must also be an elected member of a board of education of a school district levying a mill levy within the boundaries of the urban renewal authority area. If the number of members of the governing body causes the authority to have an even number of commissioners, the mayor shall appoint an additional commissioner to restore an odd number of commissioners to the authority. As applicable, the appointment of the county, special district, and school district representatives on the authority pursuant to this subsection (2.5) must be made in accordance with the procedures specified in subsection (2) of this section.

(3) No commissioner, other officer, or employee of an authority nor any immediate member of the family of any such commissioner, officer, or employee shall acquire any interest, direct or indirect, in any project or in any property included or planned to be included in any project, nor shall he have any interest, direct or indirect, in any contract or proposed contract for materials or services to be furnished or used in connection with any project. If any commissioner, other officer, or employee of an authority owns or controls an interest, direct or indirect, in any property included or planned to be included in any project, he shall immediately disclose the same in writing to the authority, and such disclosure shall be entered upon the minutes of the authority. Upon such disclosure, such commissioner, officer, or other employee shall not participate in any action by the authority affecting the carrying out of the project planning or the undertaking of the project unless the authority determines that, in the light of such personal interest, the participation of such member in any such act would not be contrary to the public interest. Acquisition or retention of any such interest without such determination by the authority that it is not contrary to the public interest or willful failure to disclose any such interest constitutes misconduct in office.

(4) The mayor, with the consent of the governing body, may remove a commissioner for inefficiency or neglect of duty or misconduct in office but only after the commissioner has been given a copy of the charges made by the mayor against him and has had an opportunity to be heard in person or by counsel before the governing body. In the event of the removal of any commissioner, the mayor shall file in the office of the clerk a record of the proceedings, together with the charges made against the commissioner and findings thereon.

31-25-105.5. Acquisition of private property by eminent domain by authority for subsequent transfer to private party - restrictions - exceptions - right of civil action - damages - definitions. (1) Except as provided in this subsection (1) or subsection (2) of this section, no private property acquired by eminent domain by an authority pursuant to section 31-25-105 (1)(e) after June 4, 2004, shall be subsequently transferred to a private party unless:

(a) The owner of the property consents in writing to acquisition of the property by eminent domain by the authority;

(b) The governing body of the authority determines that the property is no longer necessary for the purpose for which it was originally acquired, and the authority first offers to sell the property to the owner from whom it was acquired, if the owner can be located, at a price not more than that paid by the authority and the owner of the property declines to exercise such right of first refusal;

(c) The property acquired by the authority has been abandoned; or

(d) The owner of the property requests or pleads in an eminent domain action that the authority acquiring the property also acquire property that is not essential to the purpose of the acquisition on the basis that acquiring less property would leave the owner of the property holding an uneconomic remnant.

(2) (a) Where a proposed transfer of private property acquired by an authority by eminent domain does not satisfy one of the requirements specified in subsection (1) of this section, such property acquired by eminent domain by an authority after June 4, 2004, may be subsequently transferred to a private party only upon satisfaction of each of the following conditions:

(I) The governing body has made a determination that the property is located in a blighted area or the property itself is blighted, and the urban renewal project for which the property is being acquired shall be commenced no later than seven years from the date the blight determination is made. For purposes of this section, the determination of whether a particular area or property is blighted shall be based upon reasonably current information obtained at the time the blight determination is made.

(II) Not later than the commencement of the negotiation of an agreement for redevelopment or rehabilitation of property acquired or to be acquired by eminent domain, the authority provides notice and invites proposals for redevelopment or rehabilitation from all property owners, residents, and owners of business concerns located on the property acquired or to be acquired by eminent domain in the urban renewal area by mailing notice to their last known address of record. The authority may also at the same time invite proposals for redevelopment or rehabilitation from other interested persons who may not be property owners, owners of business concerns, or residents within the urban renewal area, and may provide public notice thereof by publication in a newspaper having a general circulation within the municipality in which the authority has been established.

(III) In the case of a set of parcels to be acquired by the authority in connection with an urban renewal project, at least one of which is owned by an owner refusing or rejecting an agreement for the acquisition of the entire set of parcels, the authority makes a determination that the redevelopment or rehabilitation of the remaining parcels is not viable under the urban renewal plan without the parcel at issue.

(b) Any owner of property located within the urban renewal area may challenge the determination of blight made by the governing body pursuant to subparagraph (I) of paragraph (a) of this subsection (2) by filing, not later than thirty days after the date the determination of blight is made, a civil action in district court for the county in which the property is located pursuant to C.R.C.P. 106 (a)(4) for judicial review of the exercise of discretion on the part of the governing body in making the determination of blight. Any such action shall be governed in accordance with the procedures and other requirements specified in the rule; except that the governing body shall have the burden of proving that, in making its determination of blight, it has neither exceeded its jurisdiction nor abused its discretion.

(c) Notwithstanding any other provision of law, any determination made by the governing body pursuant to paragraph (a) of this subsection (2) shall be deemed a legislative determination and shall not be deemed a quasi-judicial determination.

(d) Notwithstanding any other provision of this section, no transfer that satisfies the requirements of subsection (1) of this section shall be subject to the provisions of this subsection (2), subsection (3) or (4), or paragraph (a) of subsection (5) of this section.

(3) Any authority seeking to acquire property by eminent domain in accordance with the requirements of subsection (2) of this section shall reimburse the owner of the property for reasonable attorney fees incurred by the owner in connection with the acquisition where the owner is the prevailing party on a challenge brought under paragraph (b) of subsection (2) of this section.

(4) (a) Any authority that exercises the power of eminent domain to transfer acquired property to another private party as authorized in accordance with the requirements of this section shall adopt relocation assistance and land acquisition policies to benefit displaced persons that are consistent with those set forth in article 56 of title 24, C.R.S., to the extent applicable to the facts of each specific property, and, at the time of the relocation of the owner or the occupant, shall provide compensation or other forms of assistance to any displaced person in accordance with such policies. In addition, in the case of a business concern displaced by the acquisition of property by eminent domain, the authority shall make a business interruption payment to the business concern not to exceed the lesser of ten thousand dollars or one-fourth of

the average annual taxable income shown on the three most recent federal income tax returns of the business concern.

(b) In any case where the acquisition of property by eminent domain by an authority displaces individuals, families, or business concerns, the authority shall make reasonable efforts to relocate such individuals, families, or business concerns within the urban renewal area, where such relocation is consistent with the uses provided in the urban renewal plan, or in areas within reasonable proximity of, or comparable to, the original location of such individuals, families, or business concerns.

(5) For purposes of this section, unless the context otherwise requires:

(a) "Blighted area" shall have the same meaning as set forth in section 31-25-103 (2); except that, for purposes of this section only, "blighted area" means an area that, in its present condition and use and, by reason of the presence of at least five of the factors specified in section 31-25-103 (2)(a) to (2)(l), substantially impairs or arrests the sound growth of the municipality, retards the provision of housing accommodations, or constitutes an economic or social liability, and is a menace to the public health, safety, morals, or welfare.

(b) "Private property" or "property" means, as applied to real property, only a fee ownership interest.

31-25-105.7. Condemnation actions by authorities - effect of other provisions.

Notwithstanding any other provision of law, any condemnation action commenced by an authority on or after June 6, 2006, shall satisfy the requirements specified in section 38-1-101, C.R.S. To the extent there is any conflict between the provisions of this part 1 and the provisions of section 38-1-101, C.R.S., the provisions of section 38-1-101, C.R.S., shall control.

31-25-106. Disposal of property in urban renewal area. (1) An authority may sell, lease, or otherwise transfer real property or any interest therein acquired by it as a part of an urban renewal project for residential, recreational, commercial, industrial, or other uses or for public use in accordance with the urban renewal plan, subject to such covenants, conditions, and restrictions, including covenants running with the land (and including the incorporation by reference therein of the provisions of an urban renewal plan or any part thereof), as it deems to be in the public interest or necessary to carry out the purposes of this part 1. The purchasers, lessees, transferees, and their successors and assigns are obligated to devote such real property only to the land uses, designs, building requirements, timing, or procedure specified in the urban renewal plan and may be obligated to comply with such other requirements as the authority may determine to be in the public interest, including the obligation to begin within a reasonable time any improvements on such real property required by the urban renewal plan. Such real property or interest shall be sold, leased, or otherwise transferred at not less than its fair value (as determined by the authority) for uses in accordance with the urban renewal plan. In determining the fair value of real property for uses in accordance with the urban renewal plan, an authority shall take into account and give consideration to the uses provided in such plan; the restrictions upon and the covenants, conditions, and obligations assumed by the purchaser or lessee; and the

objectives of such plan for the prevention of the recurrence of slum or blighted areas. Real property acquired by an authority which, in accordance with the provisions of the urban renewal plan, is to be transferred shall be transferred as rapidly as feasible in the public interest consistent with the carrying out of the provisions of the urban renewal plan. Any contract for such transfer and the urban renewal plan (or such part of such contract or plan as the authority may determine) may be recorded in the land records of the county in such manner as to afford actual or constructive notice thereof.

(2) An authority may dispose of real property in an urban renewal area to private persons only under such reasonable competitive bidding procedures as it shall prescribe or as provided in this subsection (2). An authority, by public notice by publication once each week for two consecutive weeks in a newspaper having a general circulation in the municipality, prior to the execution of any contract to sell, lease, or otherwise transfer real property and prior to the delivery of any instrument of conveyance with respect thereto under the provisions of this section, may invite proposals from and make available all pertinent information to any person interested in undertaking to redevelop or rehabilitate an urban renewal area or any part thereof. Such notice shall identify the area, or portion thereof, and shall state that such further information as is available may be obtained at the office designated in the notice. The authority shall consider all such redevelopment or rehabilitation proposals and the financial and legal ability of the persons making such proposals to carry them out and may negotiate with any persons for proposals for the purchase, lease, or other transfer of any real property acquired by the authority in the urban renewal area. The authority may accept such proposal as it deems to be in the public interest and in furtherance of the purposes of this part 1; except that a notification of intention to accept such proposal shall be filed with the governing body not less than fifteen days prior to any such acceptance. Thereafter, the authority may execute such contract in accordance with the provisions of subsection (1) of this section and deliver deeds, leases, and other instruments and take all steps necessary to effectuate such contract.

(3) An authority may temporarily operate and maintain real property acquired in an urban renewal area pending the disposition of the property for redevelopment without regard to the provisions of subsection (1) of this section for such uses and purposes as may be deemed desirable even though not in conformity with the urban renewal plan.

(4) Anything in subsection (1) of this section to the contrary notwithstanding, project real property may be set aside, dedicated, and devoted by the authority to public uses which are in accordance with the urban renewal plan or set aside, dedicated, and transferred by the authority to the municipality or to any other appropriate public body for public uses which are in accordance with such urban renewal plan, with or without compensation for such property and with or without regard to the fair value thereof as determined in subsection (1) of this section, upon or subject to such terms, conditions, covenants, restrictions, or limitations as the authority deems to be in the public interest and as are not inconsistent with the purposes and objectives and the other applicable provisions of this part 1.

31-25-107. Approval of urban renewal plans by local governing body - definitions.

(1) (a) An authority shall not actually undertake an urban renewal project for an urban renewal area unless based on evidence presented at a public hearing the governing body, by resolution, has determined such area to be a slum, blighted area, or a combination thereof and designated such area as appropriate for an urban renewal project.

(b) Notwithstanding this part 1, and in addition to any other notice required by law, within thirty days of commissioning a study to determine whether an area is a slum, blighted area, or a combination thereof in accordance with the requirements of subsection (1)(a) of this section, the authority shall provide notice to any owner of private property located in the area that is the subject of the study by mailing notice to the owner by regular mail at the last-known address of record. The notice shall state that the authority is commencing a study necessary for making a determination as to whether the area in which the owner owns property is a slum or a blighted area. Within seven days of making such determination, the authority or the municipality, as applicable, shall also provide notice of the determination to any owner of private property located in the area that is the subject of the study by mailing notice to the owner by regular mail at the last-known address of record. For purposes of this subsection (1)(b), "private property" means, as applied to real property, only a fee ownership interest.

(c) (I) Except for urban renewal plans subject to section 31-25-103 (2)(1), the boundaries of an area that the governing body determines to be a blighted area shall be drawn as narrowly as the governing body determines feasible to accomplish the planning and development objectives of the proposed urban renewal area. The governing body shall not approve an urban renewal plan until a general plan for the municipality has been prepared. An authority shall not acquire real property for an urban renewal project unless the local governing body has approved the urban renewal plan in accordance with subsection (4) of this section. In making the determination as to whether a particular area is blighted pursuant to the provisions of this part 1, any particular condition found to be present may satisfy as many of the factors referenced in section 31-25-103 (2) as are applicable to such condition.

(II) Notwithstanding any other provision of this part 1, no area that has been designated as an urban renewal area shall contain any agricultural land unless:

(A) The agricultural land is a brownfield site;

(B) Not less than one-half of the urban renewal area as a whole consists of parcels of land containing urban-level development that, at the time of the designation of such area, are determined to constitute a slum or blighted area, or a combination thereof, in accordance with the requirements of paragraph (a) of subsection (1) of this section and not less than two-thirds of the perimeter of the urban renewal area as a whole is contiguous with urban-level development as determined at the time of the designation of such area;

(C) The agricultural land is an enclave within the territorial boundaries of a municipality and the entire perimeter of the enclave has been contiguous with urban-level development for a period of not less than three years as determined at the time of the designation of the area;

(D) Each public body that levies an ad valorem property tax on the agricultural land agrees in writing to the inclusion of the agricultural land within the urban renewal area; or

(E) The agricultural land was included in an approved urban renewal plan prior to June 1, 2010.

(III) Notwithstanding any other provision of this part 1, for a period commencing on June 1, 2010, and concluding ten years from June 1, 2010, and in addition to the provisions of

subparagraph (II) of this paragraph (c), no area that has been designated as an urban renewal area shall contain any agricultural land unless:

(A) The agricultural land is contiguous with an urban renewal area in existence as of June 1, 2010;

(B) The person who is the fee simple owner of the agricultural land as of June 1, 2010, is also the fee simple owner of land within the urban renewal area as of June 1, 2010, that is contiguous with the agricultural land; and

(C) Both the agricultural land and the land within the urban renewal area that is described in sub-subparagraph (B) of this subparagraph (III) will be developed solely for the purpose of creating primary manufacturing jobs, and any ancillary jobs necessary to support such manufacturing operations, for the duration of the period during which property tax revenues in excess of a base amount are paid into a special fund pursuant to subparagraph (II) of paragraph (a) of subsection (9) of this section for the purpose of financing an urban renewal project. For purposes of this subparagraph (III), "primary manufacturing jobs" means manufacturing jobs that produce products that are in excess of those that will be consumed within the boundaries of the state and that are exported to other states and foreign countries in exchange for value.

(d) In the case of an urban renewal plan approved or substantially modified on or after June 1, 2010, the plan shall include a legal description of the urban renewal area, including the legal description of any agricultural land proposed for inclusion within the urban renewal area pursuant to the conditions specified in subparagraph (II) or (III) of paragraph (c) of this subsection (1).

(2) Prior to its approval of an urban renewal plan, the governing body shall submit such plan to the planning commission of the municipality, if any, for review and recommendations as to its conformity with the general plan for the development of the municipality as a whole. The planning commission shall submit its written recommendations with respect to the proposed urban renewal plan to the governing body within thirty days after receipt of the plan for review. Upon receipt of the recommendations of the planning commission or, if no recommendations are received within said thirty days, without such recommendations, the governing body may proceed with the hearing on the proposed urban renewal plan prescribed by subsection (3) of this section.

(3) (a) The governing body shall hold a public hearing on an urban renewal plan or substantial modification of an approved urban renewal plan no less than thirty days after public notice thereof by publication in a newspaper having a general circulation in the municipality. The notice shall describe the time, date, place, and purpose of the hearing, shall generally identify the urban renewal area covered by the plan, and shall outline the general scope of the urban renewal project under consideration.

(b) Where an authority intends to acquire private property by eminent domain within the urban renewal area to be subsequently transferred to a private party in accordance with the requirements of section 31-25-105.5 (2), the governing body, prior to the commencement of the acquisition of such property, shall first hold a public hearing on the use of eminent domain as a means to acquire such property after written notice of the time, date, place, and purpose of the hearing has been provided to each owner of property within the meaning of section 31-25-105.5 that is within the urban renewal area at least thirty days prior to the date of the hearing. In order to authorize the use of eminent domain as a means to acquire property, a governing body shall

base its decision on such authorization on a finding of blighted or slum conditions without regard to the economic performance of the property to be acquired.

(3.5) (a) At least thirty days prior to the hearing on an urban renewal plan or a substantial modification to such plan, regardless of when the urban renewal plan was first approved, the governing body or the authority shall submit such plan or modification to the board of county commissioners, and, if property taxes collected as a result of the county levy will be utilized, the governing body or the authority shall also submit an urban renewal impact report, which shall include, at a minimum, the following information concerning the impact of such plan:

(I) The estimated duration of time to complete the urban renewal project;

(II) The estimated annual property tax increment to be generated by the urban renewal project and the portion of such property tax increment to be allocated during this period to fund the urban renewal project;

(III) An estimate of the impact of the urban renewal project on county revenues and on the cost and extent of additional county infrastructure and services required to serve development within the proposed urban renewal area, and the benefit of improvements within the urban renewal area to existing county infrastructure;

(IV) A statement setting forth the method under which the authority or the municipality will finance, or that agreements are in place to finance, any additional county infrastructure and services required to serve development in the urban renewal area for the period in which all or any portion of the property taxes described in subparagraph (II) of paragraph (a) of subsection (9) of this section and levied by a county are paid to the authority; and

(V) Any other estimated impacts of the urban renewal project on county services or revenues.

(b) The inadvertent failure of a governing body or an authority to submit an urban renewal plan, substantial modification to the plan, or an urban renewal impact report, as applicable, to a board of county commissioners in accordance with the requirements of paragraph (a) of this subsection (3.5) shall neither create a cause of action in favor of any party nor invalidate any urban renewal plan or modification to the plan.

(c) Notwithstanding any other provision of this section, a city and county shall not be required to submit an urban renewal impact report satisfying the requirements of paragraph (a) of this subsection (3.5).

(3.7) Upon request of the governing body or the authority, each county that is entitled to receive a copy of the plan shall provide available county data and projections to assist the governing body or the authority in preparing the urban renewal impact report required pursuant to subsection (3.5) of this section.

(4) Following such hearing, the governing body may approve an urban renewal plan if it finds that:

(a) A feasible method exists for the relocation of individuals and families who will be displaced by the urban renewal project in decent, safe, and sanitary dwelling accommodations within their means and without undue hardship to such individuals and families;

(b) A feasible method exists for the relocation of business concerns that will be displaced by the urban renewal project in the urban renewal area or in other areas that are not generally less desirable with respect to public utilities and public and commercial facilities;

(c) The governing body has taken reasonable efforts to provide written notice of the public hearing prescribed by subsection (3) of this section to all property owners, residents, and owners of business concerns in the proposed urban renewal area at their last known address of record at least thirty days prior to such hearing. Such notice shall contain the same information as is required for the notice described in subsection (3) of this section.

(d) No more than one hundred twenty days have passed since the commencement of the first public hearing of the urban renewal plan pursuant to subsection (3) of this section;

(e) Except for urban renewal plans subject to section 31-25-103 (2)(l), if the urban renewal plan contains property that was included in a previously submitted urban renewal plan that the governing body failed to approve pursuant to this section, at least twenty-four months shall have passed since the commencement of the prior public hearing concerning such property pursuant to subsection (3) of this section unless substantial changes have occurred since the commencement of such hearing that result in such property constituting a blighted area pursuant to section 31-25-103;

(f) The urban renewal plan conforms to the general plan of the municipality as a whole;

(g) The urban renewal plan will afford maximum opportunity, consistent with the sound needs of the municipality as a whole, for the rehabilitation or redevelopment of the urban renewal area by private enterprise; and

(h) The authority or the municipality will adequately finance, or that agreements are in place to finance, any additional county infrastructure and services required to serve development within the urban renewal area for the period in which all or any portion of the property taxes described in subparagraph (II) of paragraph (a) of subsection (9) of this section and levied by a county are paid to the authority.

(4.5) In addition to the findings otherwise required to be made by the governing body pursuant to subsection (4) of this section, where an urban renewal plan seeks to acquire private property by eminent domain for subsequent transfer to a private party pursuant to section 31-25-105.5 (2), the governing body may approve the urban renewal plan where it finds, in connection with a hearing satisfying the requirements of subsection (3) of this section, that the urban renewal plan has met the requirements of section 31-25-105.5 (2) and that the principal public purpose for adoption of the urban renewal plan is to facilitate redevelopment in order to eliminate or prevent the spread of physically blighted or slum areas.

(5) In case the urban renewal area consists of an area of open land which, under the urban renewal plan, is to be developed for residential uses, the governing body shall comply with the applicable provisions of this section and shall also determine that a shortage of housing of sound standards and design which is decent, safe, and sanitary exists in the municipality; that the need for housing accommodations has been or will be increased as a result of the clearance of slums in other areas (including other portions of the urban renewal area); that the conditions of blight in the urban renewal area and the shortage of decent, safe, and sanitary housing cause or contribute to an increase in and spread of disease and crime and constitute a menace to the public health, safety, morals, or welfare; and that the acquisition of the area for residential uses is an integral part of and essential to the program of the municipality.

(6) In case the urban renewal area consists of an area of open land which, under the urban renewal plan, is to be developed for nonresidential uses, the local governing body shall comply with the applicable provisions of this section and shall also determine that such nonresidential uses are necessary and appropriate to facilitate the proper growth and

development of the community in accordance with sound planning standards and local community objectives and that the contemplated acquisition of the area may require the exercise of governmental action, as provided in this part 1, because of being in a blighted area.

(7) An urban renewal plan may be modified at any time; but, if modified after the lease or sale by the authority of real property in the urban renewal project area, such modification shall be subject to such rights at law or in equity as a lessee or purchaser or his successor in interest may be entitled to assert. Any proposed modification shall be submitted to the governing body for approval. If the modification will substantially change provisions of the urban renewal plan regarding land area, land use, authorization to collect incremental tax revenue, the extent of the use of tax increment financing, the scope or nature of the urban renewal project, the scope or method of financing, design, building requirements, timing, or procedure, as previously approved, or where such modification will substantially clarify a plan that, when approved, was lacking in specificity as to the urban renewal project or financing, then the modification is substantial and subject to all of the requirements of this section. For urban renewal plans in which a pledge of the revenues deposited into the special fund created pursuant to subsection (9) of this section was made by an indenture or other legally binding document that is separate from the plan itself prior to January 1, 2016, a pledge to secure the payment of refunding bonds is not a substantial modification and is not subject to the requirements of this subsection (7). Not less than thirty days prior to approving any modification of an urban renewal plan, the governing body or urban renewal authority shall provide a detailed written description of the proposed modification to each taxing entity that levies taxes on property located within the urban renewal area and a notice of the date and time of the meeting at which the governing body will consider the modification. Any taxing entity that levies taxes on property located within the urban renewal area may file an action in the state district court exercising jurisdiction over the county in which the urban renewal area is located for an order determining, under a de novo standard of review, whether the modification is a substantial modification. Further, if requested by the taxing entity, the court shall enjoin any action by the authority pursuant to the modification until the court has determined whether the modification is a substantial modification and, if so, shall further enjoin any action by the authority until there has been compliance with subsection (9.5) of this section.

(7.5) No action may be brought to enjoin any undertaking or activity of the authority pursuant to an urban renewal plan, including the issuance of bonds, the incurrence of other financial obligations, or the pledge of revenue, unless the action is commenced within forty-five days after the date on which the authority provided notice of its intention regarding such undertaking or activity. The notice must describe the undertaking or activity proposed to be engaged in by the authority and specify that any action to enjoin the undertaking or activity must be brought within forty-five days from the date of the notice. The notice must be published one time in a newspaper of general circulation within the county. On or before the date of publication of the notice, the authority shall also mail a copy of the notice to each taxing entity that levies taxes on property within the urban renewal area.

(8) Upon the approval by the governing body of an urban renewal plan or a substantial modification thereof, the provisions of said plan with respect to the land area, land use, design, building requirements, timing, or procedure applicable to the property covered by said plan shall be controlling with respect thereto.

(9) (a) Notwithstanding any law to the contrary, any urban renewal plan, as originally approved or as later modified pursuant to this part 1, may contain a provision that the property taxes of specifically designated public bodies, if any, levied after the effective date of the approval of such urban renewal plan upon taxable property in an urban renewal area each year or that municipal sales taxes collected within said area, or both such taxes, by or for the benefit of the designated public body must be divided for a period not to exceed twenty-five years after the effective date of adoption of such a provision, as follows:

(I) That portion of the taxes which are produced by the levy at the rate fixed each year by or for each such public body upon the valuation for assessment of taxable property in the urban renewal area last certified prior to the effective date of approval of the urban renewal plan or, as to an area later added to the urban renewal area, the effective date of the modification of the plan, or that portion of municipal sales taxes collected within the boundaries of said urban renewal area in the twelve-month period ending on the last day of the month prior to the effective date of approval of said plan, or both such portions, shall be paid into the funds of each such public body as are all other taxes collected by or for said public body.

(II) That portion of said property taxes or all or any portion of said sales taxes, or both, in excess of the amount of property taxes or sales taxes paid into the funds of each such public body in accordance with the requirements of subsection (9)(a)(I) of this section must be allocated to and, when collected, paid into a special fund of the authority to pay the principal of, the interest on, and any premiums due in connection with the bonds of, loans or advances to, or indebtedness incurred by, whether funded, refunded, assumed, or otherwise, the authority for financing or refinancing, in whole or in part, an urban renewal project, or to make payments under an agreement executed pursuant to this section. Any excess municipal sales tax or property tax collections not allocated pursuant to this subsection (9)(a)(II) must be paid into the funds of the municipality or other taxing entity, as applicable. Unless and until the total valuation for assessment of the taxable property in an urban renewal area exceeds the base valuation for assessment of the taxable property in such urban renewal area, as provided in subsection (9)(a)(I) of this section, all of the taxes levied upon the taxable property in such urban renewal area must be paid into the funds of the respective public bodies. Unless and until the total municipal sales tax collections in an urban renewal area exceed the base year municipal sales tax collections in such urban renewal area, as provided in subsection (9)(a)(I) of this section, all such sales tax collections must be paid into the funds of the municipality. When such bonds, loans, advances, and indebtedness, if any, including interest thereon and any premiums due in connection therewith, have been paid, all taxes upon the taxable property or the total municipal sales tax collections, or both, in such urban renewal area must be paid into the funds of the respective public bodies, and all money remaining in the special fund established pursuant to this subsection (9)(a)(II) that has not previously been rebated and that originated as property tax increment generated based on the mill levy of a taxing body, other than the municipality, within the boundaries of the urban renewal area must be repaid to each taxing body based on the pro rata share of the prior year's property tax increment attributable to each taxing body's current mill levy in which property taxes were divided pursuant to this subsection (9). Any money remaining in the special fund not generated by property tax increment is excluded from any such repayment requirement. Notwithstanding any other provision of law, any additional revenues resulting because the voters have authorized the municipality, county, special district, or school district to retain and spend said revenues pursuant to section 20 (7)(d) of article X of the state

constitution subsequent to the creation of the special fund pursuant to this subsection (9)(a)(II) or as a result of an increase in the property tax mill levy approved by the voters of the municipality, county, special district, or school district subsequent to the creation of the special fund, to the extent the total mill levy of the municipality, county, special district, or school district exceeds the respective mill levy in effect at the time of approval or substantial modification of the urban renewal plan, shall not be pledged by an authority for the payment of any bonds of, any loans or advances to, or any indebtedness incurred by the authority without the consent of the relevant municipality, county, special district, or school district. To the extent the authority has received the notification specified in this subsection (9)(a)(II), such additional revenues shall then be promptly repaid by the authority to the municipality or other taxing entity. The authority shall be notified of the amount of additional revenues and the calculations used in computing the amount by the applicable municipality or other taxing entity prior to making repayment and, in any event, not later than February 1 in each fiscal year following the year in which a voter-approved revenue increase has taken effect. The authority and municipality or any other taxing entity may negotiate for the purpose of entering into an agreement on the issues of the amount of repayment, the mechanics of how repayment of the additional revenues will be accomplished, a method for resolving disputes regarding the amount of repayment, and whether the municipality or taxing entity will waive the repayment requirement, singularly or in combination, and may enter into an intergovernmental agreement regarding any of these issues.

(III) In calculating and making payments as described in subparagraph (II) of this paragraph (a), the county treasurer may offset the authority's pro rata portion of any property taxes that are paid to the authority under the terms of subparagraph (II) of this paragraph (a) and that are subsequently refunded to the taxpayer against any subsequent payments due to the authority for the urban renewal project. The authority shall make adequate provision for the return of overpayments in the event that there are not sufficient property taxes due to the authority to offset the authority's pro rata portion of the refunds. The authority may establish a reserve fund for this purpose or enter into an intergovernmental agreement with the municipal governing body in which the municipality assumes responsibility for the return of the overpayments. The provisions of this subparagraph (III) shall not apply to a city and county.

(b) The portion of taxes described in subparagraph (II) of paragraph (a) of this subsection (9) may be irrevocably pledged by the authority for the payment of the principal of, the interest on, and any premiums due in connection with such bonds, loans, advances, and indebtedness. This irrevocable pledge shall not extend to any taxes that are placed in a reserve fund to be returned to the county for refunds of overpayments by taxpayers; except that this limitation on the extension of the irrevocable pledge shall not apply to a city and county.

(c) As used in this subsection (9), the word "taxes" shall include, without limitation, all levies authorized to be made on an ad valorem basis upon real and personal property or municipal sales taxes; but nothing in this subsection (9) shall be construed to require any public body to levy taxes.

(d) In the case of urban renewal areas, including single- and multiple-family residences, school districts which include all or any part of such urban renewal area shall be permitted to participate in an advisory capacity with respect to the inclusion in an urban renewal plan of the provision provided for by this subsection (9).

(e) In the event there is a general reassessment of taxable property valuations in any county including all or part of the urban renewal area subject to division of valuation for

assessment under paragraph (a) of this subsection (9) or a change in the sales tax percentage levied in any municipality including all or part of the urban renewal area subject to division of sales taxes under paragraph (a) of this subsection (9), the portions of valuations for assessment or sales taxes under both subparagraphs (I) and (II) of said paragraph (a) shall be proportionately adjusted in accordance with such reassessment or change.

(f) Notwithstanding the twenty-five-year period of limitation set forth in paragraph (a) of this subsection (9), any urban renewal plan, as originally approved or as later modified pursuant to this part 1, may contain a provision that the municipal sales taxes collected in an urban renewal area each year or the municipal portion of taxes levied upon taxable property within such area, or both such taxes, may be allocated as described in this subsection (9) for a period in excess of twenty-five years after the effective date of the adoption of such provision if the existing bonds are in default or about to go into default; except that such taxes shall not be allocated after all bonds of the authority issued pursuant to such plan including loans, advances, and indebtedness, if any, and interest thereon, and any premiums due in connection therewith have been paid.

(g) Notwithstanding any other provision of this section, if one or more of the conditions specified in subparagraph (II), or all of the conditions specified in subparagraph (III), of paragraph (c) of subsection (1) of this section have been satisfied such that agricultural land is included within an urban renewal area, the county assessor shall value the agricultural land at its fair market value in making the calculation of the taxes to be paid to the public bodies pursuant to subparagraph (I) of paragraph (a) of this subsection (9) solely for the purpose of determining the tax increment available pursuant to subparagraph (II) of paragraph (a) of this subsection (9). Nothing in this section shall affect the actual classification, or require reclassification, of agricultural land for property tax purposes, and nothing in this section shall affect the taxes actually to be paid to the public bodies pursuant to subparagraph (I) of paragraph (a) of this subsection (9), which shall continue to be based on the agricultural classification of such land unless and until it has been reclassified in the normal course of the assessment process.

(h) The manner and methods by which the requirements of this subsection (9) are to be implemented by county assessors shall be contained in such manuals, appraisal procedures, and instructions, as applicable, that the property tax administrator is authorized to prepare and publish pursuant to section 39-2-109 (1)(e), C.R.S.

(i) Within the twelve-month period prior to the effective date of the approval or modification of the urban renewal plan requiring the allocation of moneys to the authority pursuant to paragraph (a) of this subsection (9), the municipality, county, special district, or school district is entitled to the reimbursement of any moneys that such municipality, county, special district, or school district pays to, contributes to, or invests in the authority for the project. The reimbursement is to be paid from the special fund of the authority established pursuant to paragraph (a) of this subsection (9).

(9.5) (a) Before any urban renewal plan containing any tax allocation provisions that allocates any taxes of any taxing entity other than the municipality may be approved by the municipal governing body pursuant to subsection (4) of this section, the authority shall notify the board of county commissioners of each county and the governing boards of each other taxing entity whose incremental property tax revenues would be allocated under such proposed plan. Representatives of the authority and the governing body of each taxing entity shall then meet and attempt to negotiate an agreement governing the sharing of incremental property tax revenue

allocated to the special fund of the authority established in accordance with subparagraph (II) of paragraph (a) of subsection (9) of this section. The agreement must address, without limitation, estimated impacts of the urban renewal plan on county or district services associated solely with the urban renewal plan. The agreement may be entered into separately among the authority and each such taxing entity, or through a joint agreement among the authority and any taxing entity that has chosen to enter that agreement. Any such shared incremental tax revenues governed by any agreement are limited to all or any portion of the incremental revenue generated by the taxes levied upon taxable property by the taxing entity within the area covered by the urban renewal plan in addition to any incremental sales tax revenues generated within the area covered by the urban renewal plan by the imposition of the sales tax of the municipality and, at the option of any other taxing entity levying a sales tax in the area covered by the urban renewal plan, any incremental sales tax revenues of such other taxing entity that are included within the agreement.

(b) The agreement described in paragraph (a) of this subsection (9.5) may provide for a waiver of any provision of this part 1 that provides for notice to the taxing entity, requires any filing with or by the taxing entity, requires or permits consent from the taxing entity, or provides any enforcement right to the taxing entity.

(c) If, after a period of one hundred twenty days from the date of notice or such longer or shorter period as the authority and any taxing entity may agree, there is no agreement between the authority and any taxing entity as described in paragraph (a) of this subsection (9.5), the authority and any applicable taxing entity are subject to the provisions and limitations of paragraph (d) of this subsection (9.5).

(d) (I) In an absence of an agreement between the authority and any taxing entity as described in paragraph (a) of this subsection (9.5), the parties must submit to mediation on the issue of appropriate sharing of incremental property tax revenues and urban renewal project costs among the authority and any such taxing entities whose incremental property tax revenues will be allocated pursuant to an urban renewal plan and with whom an intergovernmental agreement with the authority has not been reached.

(II) The mediation required by subparagraph (I) of this paragraph (d) must be conducted by a mediator who has been jointly selected by the parties; except that, if the parties are unable to agree on the selection of a mediator, then the authority shall select one mediator, the other parties shall select a second mediator, and these two mediators shall then select a third mediator. In such circumstances, the mediation will be jointly conducted by the three mediators. Unless all parties otherwise agree, any mediator selected pursuant to this paragraph (d) must be an attorney licensed in the state for at least ten years and must be experienced in both land use and administrative law. Payment of the fees and costs for the mediation must be split equally between or among the parties.

(III) In making a determination of the appropriate sharing, the mediator must consider the nature of the project, the nature and relative size of the revenue and other benefits that are expected to accrue to the municipality and other taxing entities as a result of the project, any legal limitations on the use of revenues belonging to the authority or any taxing entity, and any capital or operating costs that are expected to result from the project. Within ninety days, the mediator must issue his or her findings of fact as to the appropriate sharing of costs and incremental property tax revenues, and shall promptly transmit such information to the parties. With respect to the use of incremental property tax revenues of each other taxing entity, following the issuance of findings by the mediator, the governing body of the municipality shall:

(A) Incorporate the mediator's findings on the use of incremental property tax revenues of any taxing body into the urban renewal plan and proceed to adopt the plan;

(B) Amend the urban renewal plan to delete authorization of the use of the incremental property tax revenues of any taxing body with whom an agreement has not been reached; or

(C) Direct the authority to either incorporate the mediator's findings into one or more intergovernmental agreements with other taxing entities or to enter into new negotiations with one or more taxing entities and to enter into one or more intergovernmental agreements with such taxing entities that incorporate such new or different provisions concerning the sharing of costs and incremental property tax revenues with which the parties are in agreement.

(e) Notwithstanding any other provision of law, no incremental property tax revenues may be allocated and paid into the special fund of the authority in accordance with subparagraph (II) of paragraph (a) of subsection (9) of this section unless the municipality or the authority has satisfied the requirements of this subsection (9.5).

(f) Notwithstanding any other provision of this section, a city and county is not required to reach an agreement with a county satisfying the requirements of this subsection (9.5).

(g) For purposes of this subsection (9.5), "taxing entity" means any county, special district, or other public body that levies an ad valorem property tax on property within the urban renewal area subject to a tax allocation provision.

(9.6) (a) Notwithstanding any other provision of law, the governing body of the municipality, as applicable, may provide in an urban renewal plan that the valuation attributable to the extraction of mineral resources located within the urban renewal area shall not be subject to the division that is otherwise required by subsection (9)(a) of this section. In such circumstances, the taxes levied on the valuation will be distributed to the public bodies as if the urban renewal plan was not in effect.

(b) For purposes of this subsection (9.6):

(I) "Mineral resources" has the same meaning as specified in section 36-1-100.3 (3).

(II) "Valuation attributable to the extraction of mineral resources" includes:

(A) The value of oil and gas leaseholds and land and subsurface oil and gas well equipment that is valued for assessment purposes as real property under sections 39-7-102 and 39-7-103; and

(B) Surface oil and gas well equipment and submersible pumps and sucker rods located on oil and gas leaseholds and land that is valued for assessment purposes as personal property under section 39-7-103.

(9.7) Notwithstanding any other provision of law:

(a) Nothing in subsection (9.5) of this section, as added by House Bill 15-1348, enacted in 2015, and as amended by Senate Bill 16-177, enacted in 2016, is intended to impair, jeopardize, or put at risk any existing bonds, investments, loans, contracts, or financial obligations of an urban renewal authority outstanding as of December 31, 2015, or the pledge of pledged revenues or assets to the payment thereof that occurred on or before December 31, 2015.

(b) The requirements of section 31-25-104 (2)(a), (2)(b), and (2.5), section 31-25-115 (1.5), the introductory portion of subsection (9)(a) of this section, subsections (9)(a)(II), (9)(i), and (9.5) of this section, as added by House Bill 15-1348, enacted in 2015, and as amended by Senate Bill 16-177, enacted in 2016, and the requirements of subsections (7) and (7.5) of this section as amended by Senate Bill 17-279, enacted in 2017, and the requirements of subsection (9)(a)(II) of this section as amended by Senate Bill 18-248, enacted in 2018, apply to

municipalities, urban renewal authorities, and any urban renewal plans created on or after January 1, 2016, and to any substantial modification of any urban renewal plan where the modification is approved on or after January 1, 2016.

(10) The municipality in which an urban renewal authority has been established pursuant to the provisions of this part 1 shall timely notify the assessor of the county in which such authority has been established when:

(a) An urban renewal plan or a substantial modification of such plan has been approved that contains the provision referenced in paragraph (a) of subsection (9) of this section or a substantial modification of the plan adds land to the plan, which plan contains the provision referenced in paragraph (a) of subsection (9) of this section;

(b) Any outstanding obligation incurred by such authority pursuant to the provisions of subsection (9) of this section has been paid off; and

(c) The purposes of such authority have otherwise been achieved.

(11) The governing body or the authority may enter into an agreement with any taxing entity within the boundaries of which property taxes collected as a result of the taxing entity's levy, or any portion of the levy, will be subject to allocation pursuant to subsection (9) of this section. The agreement may provide for the allocation of responsibility among the parties to the agreement for payment of the costs of any additional county infrastructure or services necessary to offset the impacts of an urban renewal project and for the sharing of revenues. Except with the consent of the governing body or the authority, any such shared revenues shall be limited to all or any portion of the taxes levied upon taxable property within the urban renewal area by the taxing entity. The agreement may provide for a waiver of any provision of this part 1 that provides for notice to the taxing entity, requires any filing with or by the taxing entity, requires or permits consent from the taxing entity, or provides any enforcement right to the taxing entity.

(12) (a) Except as provided in paragraph (e) of this subsection (12), the county may enforce the requirements of subparagraphs (III) and (IV) of paragraph (a) of subsection (3.5) and paragraph (h) of subsection (4) of this section by means of the arbitration process established by this subsection (12) where:

(I) Property located within such county is included within an urban renewal plan;

(II) The county has provided information requested pursuant to subsection (3.7) of this section; and

(III) The county has appeared at a public hearing held pursuant to paragraph (a) of subsection (3) of this section and presented evidence at such hearing that development within the urban renewal area will create a need for additional county infrastructure and services; except that the requirements of this subparagraph (III) shall not apply in the case of a county that did not receive an urban renewal plan, a substantial modification to the plan, or an urban renewal impact report, as applicable, pursuant to paragraph (a) of subsection (3.5) of this section.

(b) (I) A county objecting under the provisions of this section to an urban renewal plan approved under subsection (4) of this section that received on a timely basis an urban renewal plan, a substantial modification to the plan, or an urban renewal impact report, as applicable, pursuant to paragraph (a) of subsection (3.5) of this section shall file written notice of the objection with the authority as well as the governing body that has approved the plan within fifteen days of the date of the approval of the plan. A county objecting under the provisions of this section to an urban renewal plan approved under subsection (4) of this section that did not receive on a timely basis an urban renewal plan, a substantial modification to the plan, or an

urban renewal impact report, as applicable, pursuant to paragraph (a) of subsection (3.5) of this section shall file written notice of the objection with the authority as well as the governing body that has approved the plan within thirty days of the date of the approval of the plan or within five days of the date of the county's receipt of the plan, whichever date is later. The notice of objection shall include a statement of the grounds upon which the county asserts that the authority or the governing body has failed to comply with the requirements of subparagraphs (III) and (IV) of paragraph (a) of subsection (3.5) and paragraph (h) of subsection (4) of this section. The notice of objection shall also include the name of one attorney who has been licensed for a minimum of ten years in the state of Colorado, who is experienced in administrative and land use law, and who the board of county commissioners of the county believes to be qualified to serve as a member of the panel of arbitrators charged with resolving the county's objections in accordance with the requirements of this subsection (12).

(II) Within twenty days of receipt of the notice of objection, the governing body shall submit to the county the name of one additional person to serve as a member of the panel of arbitrators, which person shall also satisfy the requirements specified in subparagraph (I) of this paragraph (b). Within twenty days of such submission, the two members of the arbitration panel selected by the county and the governing body shall jointly select an additional person to serve as the third and final member of the panel of arbitrators, which person shall also satisfy the requirements specified in subparagraph (I) of this paragraph (b). The panel of three arbitrators selected pursuant to this paragraph (b) shall be charged with resolving the county's objections in accordance with the requirements of this subsection (12). Notwithstanding the provisions of this paragraph (b), the county, governing body, and authority may agree upon a single arbitrator to resolve the county's objections.

(III) If the county, governing body, and authority have not reached a written agreement resolving the county's objections within thirty days after the receipt by the governing body of the notice specified in subparagraph (I) of this paragraph (b), the objections specified in the notice shall be submitted to arbitration in accordance with the requirements of this subsection (12).

(c) The arbitration hearing, if any, shall commence within sixty days after the receipt by the governing body of the notice of objection. The parties to the arbitration shall be the county, governing body, and authority. At the arbitration hearing, the governing body or the authority, as applicable, shall have the burden of proving by a preponderance of the evidence that it submitted the urban renewal plan, a substantial modification to the plan, and an urban renewal impact report, as applicable, to the county pursuant to paragraph (a) of subsection (3.5) of this section and that it did not abuse its discretion in preparing the estimate or statement provided to the county pursuant to subparagraphs (III) and (IV) of paragraph (a) of subsection (3.5) of this section and that the governing body did not abuse its discretion in connection with the findings it has made under paragraph (h) of subsection (4) of this section. The decision of the arbitrators shall be based upon the objections contained in the notice filed pursuant to subparagraph (I) of paragraph (b) of this subsection (12) and upon the record of the hearing held pursuant to subsection (3) of this section. In rendering a decision, the arbitrators shall take into consideration the goals and objectives of the urban renewal plan, information that has been submitted by the county as contained in the record of the hearing on the urban renewal plan and the impact report provided to the county pursuant to subsection (3.5) of this section, the reasonableness of the county's objections contained in the notice, the extent to which the urban renewal project will improve existing county infrastructure, the extent to which tax increment revenues, if any, to be

generated by development within the urban renewal area and collected by the authority pursuant to paragraph (a) of subsection (9) of this section may reasonably be expected to defray the cost of the additional infrastructure and services requested by the county, and the debt service requirements of the authority. The arbitration hearing shall be concluded not later than seven days after its commencement, and the decision of the arbitrators shall be rendered not later than thirty days after the conclusion of the hearing. The order of the arbitrators shall be limited to either approving the urban renewal plan or, upon a finding of abuse of discretion, remanding the plan to the governing body for reconsideration of the county's objections. The order shall be final and binding on the parties and shall not be subject to judicial review except to enforce the order or to determine whether the order was procured by corruption, fraud, or other similar wrongdoing.

(d) Fifty percent of the necessary fees and necessary expenses of any arbitration conducted pursuant to this subsection (12), excluding all fees and expenses incurred by either party in the preparation or presentation of its case, shall be borne by the county, and fifty percent of such fees and expenses shall be borne by the governing body or the authority.

(e) Notwithstanding any other provision of this section, the provisions of this subsection (12) shall not apply to any urban renewal plan in which less than ten percent of the area identified in such plan:

(13) Pending the preparation of any definitive bonds under this section, an authority may issue its interim certificates or receipts or its temporary bonds, with or without coupons, exchangeable for such definitive bonds when the latter have been executed and are available for delivery.

(a) The exercise of its power of eminent domain to condemn property outside its corporate limits is required as a condition of a state or federal permit for construction of a new public facility; or

(b) The use of the power of eminent domain to condemn property is necessary for the acquisition of conservation sites on or contiguous to reservoir sites owned by any city or city and county; or

(c) The use of the power of eminent domain to condemn property is predicated on the prior written approval of the board of county commissioners of the county or counties in which such property is located, in instances not covered by paragraph (a) or (b) of this subsection (1) when the city or city and county has notified such board or boards. The board has sixty days from such notification to deliver its approval or disapproval. If the board fails to take any action or fails to so notify the city or city and county, the city or city and county may proceed with the exercise of its power; or

(d) The land to be condemned is subject to a single comprehensive plan which includes provision of recreational facilities within the county and which has been adopted by both the county and the city seeking to condemn.

(2) "Interests in land", as used in this part 2, means all rights and interests in land less than the full fee interest, including but not limited to future interests, easements, covenants, and contractual rights. Every such interest in land held pursuant to subsection (1) of this section, when recorded, shall run with the land to which it pertains for the benefit of the city holding such interest and may be protected and enforced by such city in any court of general jurisdiction by any proceeding at law or in equity.

(3) Any city may unite with any other similarly authorized political subdivision of this state in acquiring, establishing, and maintaining any property which a city is authorized to acquire, establish, or maintain pursuant to subsection (1) of this section.

31-25-203. Acquisition by purchase - petition of electors - bonds - park bonds. (1) No indebtedness shall be created nor shall any bonds be issued for acquiring such lands or interests in land unless the question of incurring such debt and issuing such bonds has been submitted at a regular election to a vote of those persons qualified to vote on authorization of other bonded indebtedness and approved as required by section 31-15-302 (1)(d).

(2) The governing body, upon petition of the registered electors of such city equal in number to at least one-tenth of the number of such registered electors voting at the last regular election of such city, shall submit at the next regular election either or both of the questions of acquisition or of incurring bonded indebtedness by separate ordinance. In the ordinance submitting the question of the acquisition of such lands or interests in land, the governing body

shall state the location of the land or interests in land proposed to be acquired, describing the same by legal subdivisions, wherever practicable, and the consideration to be given for purchase and the manner of payment, and, in the ordinance submitting the question of incurring indebtedness, the governing body shall state the maximum net effective interest rate at which the bonds may be issued. If the only question to be submitted is the acquisition of such properties, the question may be submitted at a regular or special election. If the acquisition or incurring of indebtedness or both have been approved as required by section 31-15-302 (1)(d), the governing body shall acquire such lands or interests in land, incur said indebtedness, or both, pursuant to said authorization.

(3) The parks, pleasure grounds, boulevards, parkways, avenues, driveways, and roads established in any such city, or such part thereof as may be determined by the mayor and park commission, may be paid for in park bonds of the city of date and form prescribed by the park commission, bearing the name of the city, and payable to bearer at such times and in a sufficient period of years to cover the period of payments provided for, with interest annually at a rate such that the net effective interest rate of the issue of bonds does not exceed the maximum net effective interest rate authorized, as may be determined by the commission. The bonds shall be signed by the mayor, countersigned by the auditor, treasurer, or finance director, and attested by the clerk and have the seal of the city with the approval of the president of the park commission, if such commission exists, endorsed thereon. The interest shall be evidenced by suitable coupons attested by a facsimile of the signature of the city clerk.

(4) For the purposes of this part 2, unless the context otherwise requires, "net effective interest rate" of a proposed issue of bonds means the net interest cost of said issue divided by the sum of the products derived by multiplying the principal amount of such issue maturing on each maturity date by the number of years from the date of said proposed bonds to their respective maturities. "Net interest cost" of a proposed issue of bonds means the total amount of interest to accrue on said bonds from their date of issuance to their respective maturities plus the amount of any discount below par or less the amount of any premium above par at which said bonds are being or have been sold. In all cases the net effective interest rate and net interest cost shall be computed without regard to any option of redemption prior to the designated maturity dates of the bonds.

(g) To pay, from general funds of the municipality, from proceeds of general obligation bonds, from other moneys available to the municipality, from the proceeds of assessments levied on property benefited by any such improvements, from funds raised through bonds issued payable from such assessments, or from any other source whatsoever, the whole or any portion of the cost of such improvements;

(h) To levy assessments against properties benefited by the proposed pedestrian mall in an amount no greater than the total damages or compensation paid to landowners or to assess such damages as part of the total cost of the improvements made in the mall area, so long as the amount assessed does not exceed the special benefits conferred;

(i) To issue special assessment bonds in anticipation of the collection of special assessments payable in installments or to be levied at annual intervals over a designated term and to additionally secure the payment of such bonds by or from a source otherwise provided by law;

(j) To do any and all other acts or things necessary or convenient for the accomplishment of the purposes of this part 4.

(3) The acquisitions and improvements authorized in paragraphs (c) and (e) of subsection (2) of this section shall be deemed improvements as such term or a related term is used in this part 4. 31-25-403. Definitions. As used in this part 4, unless the context otherwise requires:

(1) "Improvements" means improvements of any kind or nature necessary or convenient to the operation of municipal streets as a pedestrian mall, including but not limited to paving, sidewalks, curbs, gutters, sewers, drainage works, street lighting facilities, fire protection facilities, flood protection facilities, water distribution facilities, ponds, lakes, vehicular parking areas, retaining walls, landscaping, tree planting, statuaries, fountains, commercial buildings and facilities, decorative structures, benches, rest rooms, child care facilities, display facilities, information booths, public assembly facilities, and other structures, works, or improvements necessary or convenient to serve members of the public using such pedestrian mall and including the reconstruction or relocation of existing municipally-owned works, improvements, or facilities on such municipal streets.

(2) "Intersecting street" means any street which meets or crosses a pedestrian mall at a mall intersection but includes only those portions thereof on either side of a mall intersection which lie between the mall intersection and the first intersection of the intersecting street with a municipal street or highway open to vehicular traffic. If any portion of a pedestrian mall terminates on a street at a place thereon other than a place of intersection with a municipal street or state highway open to vehicular traffic, "intersecting street" also includes that portion of any street which lies between such place of termination and the first intersection of such street with a municipal street or state highway open to vehicular traffic. "Intersecting street" also includes any other street or portion thereof which the governing body, in a measure duly adopted as provided in this part 4, declares to be such.

(3) "Mall intersection" means any intersection of a municipal street which constitutes a part of a pedestrian mall with any other street, which intersection is itself part of the pedestrian mall.

(4) "Municipal street" means a street which exists within the municipal boundaries of a municipality except those designated as state highways by a duly constituted authority. If a state highway is contemplated to be used as part of a pedestrian mall, the transportation commission is

authorized to remove the classification of a state highway from such part to be used as a pedestrian mall and to cede complete jurisdiction to the municipality by resolution duly adopted if it is satisfied that satisfactory provisions for the routing of traffic through the municipality can be provided by an alternate route or that the part of the state highway proposed for a pedestrian mall is no longer necessary for state highway purposes.

(5) "Public mall", referred to in this part 4 as "pedestrian mall", means one or more municipal streets or portions thereof on which vehicular traffic is or is to be restricted in whole or in part and which is or is to be used exclusively or primarily for pedestrian travel, although such mall may have other improvements constructed upon it for appearance and utility.

(6) "Streets", as used in the definitions of the terms "municipal street", "mall intersection", and "intersecting street" in this section, means any public street, road, highway, alley, lane, sidewalk, right-of-way, court, way, or place of any nature open to the use of the public and held by the public for street and road purposes, whether the same was acquired in fee or by grant of dedication or easement or by adverse use.

31-25-404. Resolution of intention. (1) When the governing body determines that the public interest and convenience require the establishment of a pedestrian mall and that vehicular traffic will not be unduly inconvenienced thereby, it may adopt a resolution declaring its intention to establish such pedestrian mall. Such resolution shall contain:

(a) The determination and declaration referred to in the introductory portion of this subsection (1);

(b) A general description of the municipality's streets or portions thereof which are proposed to be established as a pedestrian mall;

(c) A general description of the mall intersections;

(d) A general description of the intersecting streets;

(e) A statement that the governing body proposes to adopt an ordinance prohibiting, in whole or in part, vehicular traffic on such pedestrian mall. If vehicular traffic is proposed to be prohibited only in part, the resolution shall also contain a general statement of the exceptions proposed to be made. Such exceptions may include exceptions in favor of public, emergency, utility, and other classes of vehicles, may include exceptions in favor of all or certain classes of vehicles during certain days or during portions of days, and may include other exceptions of any kind or nature.

(f) A general statement of the source of moneys proposed to be used to pay damages, if any, allowed or awarded to any abutting property owner by reason of the establishment of the pedestrian mall and how and when it is anticipated that such sum will be paid;

(g) Provision for a notice fixing a day, hour, and place for a public hearing by the governing body relative to the establishment of the proposed pedestrian mall. The notice shall also contain a statement that oral presentations from abutting property owners and the public at large in favor of or opposing, objecting to, or protesting the proposed pedestrian mall will be considered by the governing body at the public hearing.

(h) A statement that any person owning or having any legal or equitable interest in any real property which might suffer legal damage by reason of the establishment of the proposed pedestrian mall shall file a written claim of damages, if any damages are to be considered or allowed, with the clerk at any time prior to the first reading of the ordinance establishing the pedestrian mall.

(2) In such resolution any street may be described by reference thereto by its lawful or official name or the name by which it is commonly known, and the pedestrian mall, the mall intersections, and the intersecting streets may be described by reference to a map or plat thereof on file in the office of the clerk in order that the description is sufficient for one to ascertain which streets and parts of streets are in fact within the proposed mall.

(3) If the governing body intends, at any time in the future, through appropriate action, to levy assessments on lands benefited by the establishment of the mall to help pay the compensation or damages allowed to property owners, a statement to such effect shall be included in the resolution.

(4) If the governing body, in connection with the initial establishment of a pedestrian mall, proposes improvements and a method for paying for the same, the resolution shall also contain statements to satisfy the requirements of applicable law for special assessment districts, improvement districts, or other governmental bodies or agencies or private nonprofit corporations selected to accomplish and pay for the improvements.

(5) If the governing body foresees improvements being made to the pedestrian mall in the future, a statement shall be included as to how the governing body anticipates the same shall be accomplished and paid for.

Editor's note: This section is similar to former § 31-25-404 as it existed prior to 1975.

31-25-405. Notice and hearing. (1) The resolution of intention shall be published in a newspaper of general circulation published within the county or municipality as the case may be. It shall be published three times: Once less than seventy-five days but more than sixty days prior to the date of the hearing; once less than forty-five days but more than thirty days prior to the date of the hearing; and once less than fifteen days but more than ten days prior to the date of the hearing. In a municipality where no such newspaper is published, the resolution shall instead be so published in a newspaper of general circulation published in the county in which the municipality is located.

(2) Copies of the resolution shall be prepared for posting and for this purpose shall be headed "Notice of Intention to Establish a Pedestrian Mall", the heading to be in letters at least one-half inch in height. Such copies shall be posted not less than sixty days prior to the hearing, and good faith efforts shall be made to maintain the posted copies in existence to the hearing date. These copies of the resolution shall be posted approximately three hundred feet apart, located as follows:

(a) On or near all municipal streets or portions thereof proposed to be established as a pedestrian mall;

(b) On all intersecting streets;

(c) On all streets that are proposed to be left open and which lie within the mall area if, in fact, the area is to be circumscribed by streets to be closed.

(3) (a) A copy of the resolution shall be mailed by registered mail with return receipt requested, not less than sixty days prior to the hearing date, to each person owning of record all or any part of a fee interest or holding an encumbrance of record against any of such lands abutting the proposed mall and, if the mall closes, to all property owners of record and those who hold encumbrances of record within the area so circumscribed. The copies shall be sent to the last known addresses of such owners and encumbrancers.

(b) The governing body may determine that such resolution shall also be mailed to such other persons as it deems should be notified in accordance with the procedures in this section.

(4) The governing body, not less than sixty days prior to the date of the hearing, shall cause to be filed in the office of the county clerk and recorder of the county in which the said properties are located a statement including the names of the parties to whom such notices have been sent and a general description of the property which the notice concerns so that any party receiving or acquiring an interest in such property between the date of the sending of the notice and the date of the hearing shall be put on notice as to the nature of the proceeding and that his claim or protest, if any, shall be filed with the governing body in accordance with the provisions of this part 4. A copy of the resolution shall be attached to the recorded document.

(5) At or before the hearing, any interested person may, severally or with others, file with the clerk a document in writing either supporting, opposing, objecting to, or protesting the establishment of the proposed pedestrian mall. The same may be withdrawn at any time by written notice of such withdrawal signed by the persons who signed the original document, or any person who signed the original document may have his name stricken from such document. Such notice of withdrawal shall be filed with the clerk within the time set forth in this subsection (5) with the same effect as if said written document had never been filed.

(6) (a) At the hearing the governing body shall receive the written objections and written protests to the establishment of the proposed pedestrian mall. The governing body shall also receive oral presentations from abutting property owners and the public at large in favor of or opposing, objecting to, or protesting the establishment of the proposed pedestrian mall. The hearing may be continued from time to time by order entered on the minutes.

(b) If the owners of lands abutting the proposed pedestrian mall representing a majority of the frontage on the proposed pedestrian mall have made written objection or written protest to the establishment of the proposed pedestrian mall, the governing body shall so find. In the event of such finding, the governing body may terminate the proceedings for such establishment or continue the proceedings in order to put the question of the establishment of the proposed pedestrian mall to a vote of the registered electors of the municipality. If such question is put to a vote of the registered electors of the municipality and a majority of those voting thereon vote in favor of establishing such proposed pedestrian mall, the governing body may go forward to establish the proposed pedestrian mall in accordance with the provisions of this part 4, but all costs and expenses of establishing the pedestrian mall shall be paid by the municipality, and no special assessment shall be levied against the owners of lands abutting the pedestrian mall unless levied against all real property within the municipality. If the majority of those voting thereon vote against establishing such proposed pedestrian mall, the governing body shall terminate the proceedings. In the event proceedings are terminated, no proceeding shall again be commenced

for the establishment of the same or substantially the same pedestrian mall until the expiration of one year from the date of termination.

(7) In the event a majority written protest or written objection is not filed, the judgment of the governing body, if it establishes the proposed pedestrian mall, shall be final and conclusive. In the event a majority written protest or written objection is filed, the judgment of the governing body, if it establishes the proposed pedestrian mall, shall be final and conclusive only if an election is held and if the result thereof complies with the provisions of subsection (6) of this section.

(8) If it is determined to establish the pedestrian mall, a resolution to that effect shall be adopted by the governing body. If the governing body at that time or at a later time determines that the pedestrian mall shall not be established, no claim for damages or compensation shall be allowed to any extent whatsoever.

31-25-406. Claims for damages or compensation. (1) Any person owning, or having any legal or equitable interest in, any real property which might suffer legal damage by reason of the establishment of the proposed pedestrian mall shall file, prior to the first reading of the ordinance establishing the pedestrian mall, a written claim for damages with the clerk. Such written claim shall describe the real property as to which the claim is made, shall state the exact nature of the claimant's interest therein, shall state the exact nature of and grounds for the claimed damage thereto, and shall state the amount of damages claimed. The failure to file such written claim within the time provided in this subsection (1) is a waiver of any claim for damages or compensation and shall operate as a complete bar to any subsequent action seeking to prevent the establishment of said pedestrian mall or to recover damages on account of such establishment, and, in the event a claim is filed, such filing shall operate as a complete bar in any subsequent action for the recovery of any damages or compensation in excess of the amount stated in such claim. Any such claim may be withdrawn by the claimant at any time by written withdrawal with the same effect as if it had never been filed. The governing body shall receipt for the claims that have been filed in accordance with this section for damages or compensation from the establishment of the proposed mall.

(2) The governing body may allow any claim for damages made pursuant to this section. Any claim so allowed shall be for the full amount of damages claimed in the written claim; except that the governing body, with the written consent of the claimant, may allow a claim for a lesser amount. In the event the claim is not allowed in full, or a suitable lesser amount is not agreed upon between the claimant and the governing body, or the governing body refuses to recognize the claim, the claimant or the governing body, through its legal counsel, may institute proceedings in court to ascertain the amount, if any, due the claimant; however, in no event shall an action be instituted later than two years after the date the claim has been denied. Any amount determined to be due to the claimant shall accrue interest at six percent per annum from the date that vehicular traffic is prohibited, in whole or in part, on the pedestrian mall, which closing in fact is the act from which the claimed damages arise.

(3) Before vehicular traffic is prohibited, in whole or in part, on the pedestrian mall, the governing body or another agency to which it is intended the mall will be conveyed shall pay the amounts allowed or enter into agreements with good and sufficient surety to pay the principal amounts allowed or, in the event the claim is to be litigated, an amount which the court determines is sufficient to pay the compensation in that behalf when ascertained. The required surety bond may be waived in writing by the claimant.

(4) Those lawsuits instituted to determine the amount of damages, if any, to be allowed shall be in the nature of a proceeding in eminent domain for the condemnation of the right in real property, the taking of which by the establishment of the pedestrian mall results in the damages claimed. The complaint shall in no way be construed as an admission that the rights in fact exist or that damages or compensation are due therefor. The court shall first determine the nature of the right in real property, if any, being taken. Such proceedings shall then be governed under the applicable statutes and proceedings of articles 1 to 7 of title 38, C.R.S., except as otherwise provided by this part 4.

(5) Nothing in this part 4 shall be construed or interpreted as creating any new right in any person to damages or compensation by reason of the establishment of a pedestrian mall, it being the intention of the general assembly in enacting this part 4 to provide an orderly method for the determination and payment only of such damages and compensation as are required under the constitutions of the state of Colorado and the United States. In this connection, the general assembly expressly declares that, to the extent to which the establishment of a pedestrian mall is justifiable as an exercise of the police power for which no compensation is constitutionally required, no damages or compensation shall be allowed in any action.

(6) The general assembly expressly declares that the establishment of a pedestrian mall and the prohibition of vehicular traffic, in whole or in part, is a legislative act and within the discretion of the governing body except to the extent which may otherwise be provided in this part 4.

(7) Once the pedestrian mall has been established in accordance with the provisions of this part 4, the nature of the title held by the governing body shall be deemed a fee simple.

(8) In the event the governing body vacates the pedestrian mall or any part thereof by official act and such pedestrian mall or part thereof is not designated by the governing body to revert to a public street, the real property thereby vacated shall vest in abutting landowners in the same manner as if a public street were being vacated.

31-25-407. Establishment of the mall. (1) Not later than one hundred eighty days following the adoption of the resolution establishing the pedestrian mall as provided in this part 4, the governing body may adopt on first reading an ordinance finally establishing the pedestrian mall. Such ordinance shall contain:

(a) A general description of the pedestrian mall and a declaration and determination that the same is established. The mall as finally established shall be substantially the same as or any portion of that described in the resolution of intention.

(b) Rules and regulations prohibiting vehicular traffic on such pedestrian mall subject to such exceptions as the ordinance may provide. Such rules and regulations and such exceptions are to follow substantially those statements made in the resolution of intention.

(c) Such additional rules and regulations as the governing body may determine pertaining to the interpretation, operation, and enforcement of the rules and regulations promulgated under paragraph (b) of this subsection (1) and otherwise pertaining to the use, operation, maintenance, and control of the pedestrian mall;

(d) Such provisions as the governing body deems necessary pertaining to the effective date of any such rules or regulations.

(2) Such ordinance shall be adopted and published and shall take effect in the manner provided by law or charter for ordinances of the municipality.

(3) Such ordinance shall be subject to referendum in the same manner as other ordinances of the municipality. The pedestrian mall shall not be closed to vehicular traffic, in whole or in part, under such ordinance until all claims for damages have been paid or properly secured as provided in this part 4.

(4) Proceedings under this part 4 and the adoption of such ordinance notwithstanding, the municipality and its governing body shall retain its police powers and other rights and powers relating to the municipal streets and rights-of-way constituting a part of the pedestrian mall. No action taken pursuant to this part 4 shall be interpreted or construed to be a vacation or abandonment, in whole or in part, of any municipal street or any right therein, it being intended that the establishment of a pedestrian mall pursuant to this part 4 be a matter of appropriate additional regulation only.

(5) Nothing in this section shall be interpreted or construed to prevent the municipality and its governing body, at any time subsequent to the adoption of the ordinance provided for in this part 4, from abandoning the operation of the pedestrian mall, from changing the extent of the pedestrian mall, or from changing or repealing any of the rules and regulations pertaining to the pedestrian mall; but any substantial change made after the adoption of the ordinance provided for in this section will create potential liability for new or additional claims which could not have been foreseen prior to the date of the hearing on the original establishment of the pedestrian mall.

31-25-408. Improvement of the pedestrian mall. (1) The municipality and its governing body may provide for the construction of and payment for improvements on the pedestrian mall through an improvement district under part 6 of this article, or by creation of an improvement district which can levy special assessments under other authority, or by other

lawful means. The cost of the improvements shall be the cost of construction and may include the damages or compensation paid to obtain the mall area. The municipality may also pay all or any part of the cost of improving a pedestrian mall from its general funds or from any other source of moneys available to it.

(2) A pedestrian mall established or to be established pursuant to this part 4 may be so improved either concurrently with the proceedings taken under this part 4 for the establishment of a pedestrian mall or at any time subsequent thereto, but no contract for the work or any improvement shall be awarded until the claims for damages or compensation for establishing the mall have been fully paid or properly secured as provided in this part 4.

(3) The governing body may combine any part of the proceedings taken pursuant to this part 4 with any part of the proceedings taken under any law allowing for the assessment of and payment of the damages and for the construction of and payment for improvements to the end that duplication of ordinances, resolutions, notices, hearings, and other acts or proceedings may be avoided.

31-25-409. Special ad valorem assessments. (1) As used in this section, "district" means the district within which lie the lands deemed by the governing body to be specially benefited by the establishment of the pedestrian mall even though assessments may not be levied to pay for improvements.

(2) Following the establishment of a pedestrian mall pursuant to this part 4 and annually on or before December 1 of each year, the governing body or other body or agency having jurisdiction or responsibility for the improvements may prepare and approve an estimate of the expenditures required during the ensuing fiscal year for the maintenance, operation, and repair of the pedestrian mall and shall deduct from such estimate the amount of revenues, if any, which the governing body estimates will accrue to the municipality during such year from the operation of the pedestrian mall.

(3) The said governing body or agency may then through the levying authority levy and collect in any year upon and against all of the taxable land and improvements within the district a special ad valorem assessment sufficient to raise a sum of money to provide the net amount as so determined, but in no event shall the rate of assessment in any one year exceed one-half mill against the valuation for assessment of each property in the district as shown on the assessment roll used by the county for the municipal taxation. The levy shall be made with notice and hearing to all owners affected thereby. The limitation as set forth in this subsection (3) shall not be construed to limit in any manner the financing of improvements which may be erected in the mall area.

(4) The special ad valorem assessment shall be levied, collected, and enforced at the same times, in the same manner, by the same officers, and with the same interest and penalties as in the case of general taxes levied by the municipality.

(5) The proceeds of the assessment shall be placed in a separate fund by the said governing body or agency and shall be expended only for the maintenance, operation, repair, or improvement of the pedestrian mall.

31-25-500.2. Legislative declaration - energy efficiency and renewable energy production projects. (1) The general assembly finds, determines, and declares that:

(a) The production and efficient use of energy will continue to play a central role in the future of this state and the nation as a whole; and

(b) The development, production, and efficient use of renewable energy will advance the security, economic well-being, and public and environmental health of this state, as well as contributing to the energy independence of our nation.

(2) The general assembly further finds, determines, and declares that the inclusion of energy efficiency and renewable energy production projects for residential and commercial use in special improvement districts, and powers conferred under this part 5, as well as the expenditures of public moneys made pursuant to this part 5, will serve a valid public purpose and that the enactment of this part 5 is expressly declared to be in the public interest.

31-25-501. Definitions. As used in this part 5, unless the context otherwise requires:

(1) "Assessment unit" means an area within a district which is separately defined for determining assessments payable pursuant to this part 5.

(1.5) "District" means the geographical division of the municipality and, in accordance with the provisions of this part 5, the county in which such municipality is situated, or any other municipality within such county, within which any local improvement may be made or, when so declared by the governing body, may include the entire municipal area. One or more noncontiguous parts or sections of property may be included in one district.

(1.7) (a) "Elector of the district" means a person who, at the designated time or event, is registered to vote in the general election in this state and:

(I) Who is a resident of the district or the area to be included in the district; or

(II) Who or whose spouse or civil union partner owns taxable real or personal property within the district or the area to be included in the district whether or not said person resides within the district.

(b) Where the owner of taxable real or personal property specified in subparagraph (II) of paragraph (a) this subsection (1.7) is not a natural person, an "elector of the district" shall

include a natural person designated by such owner to vote for such person. Such designation shall be in writing and filed with the clerk of the municipality. Only one such person may be designated by an owner.

(1.9) "Energy efficiency improvement" means an installation or modification that is designed to reduce energy consumption in residential or commercial buildings and includes, but is not limited to, the following:

(a) Insulation in walls, roofs, floors, and foundations and in heating and cooling distribution systems;

(b) Storm windows and doors, multiglazed windows and doors, heat-absorbing or heat-reflective glazed and coated window and door systems, additional glazing, reductions in glass area, and other window and door system modifications that reduce energy consumption;

(c) Automatic energy control systems;

(d) Heating, ventilating, or air conditioning and distribution system modifications or replacements in buildings or central plants;

(e) Caulking and weatherstripping;

(f) Replacement or modification of lighting fixtures to increase the energy efficiency of the system without increasing the overall illumination of a residential or commercial building unless such increase in illumination is necessary to conform to the applicable building code for the proposed lighting system;

(g) Energy recovery systems;

(h) Daylighting systems; and

(i) Any other modification, installation, or remodeling approved as a utility cost-savings measure by the governing body; except that no renewable energy improvement shall be authorized that interferes with a right held by a public utility under a certificate issued by the public utilities commission under article 5 of title 40, C.R.S. The public utilities commission shall have primary jurisdiction to adjudicate disputes as to whether a renewable energy improvement interferes with such a right.

(2) "Owner", in reference to petitions, means only persons in whom the record fee title is vested, although subject to lien or encumbrance.

(3) "Property" means all land, whether platted or unplatted, regardless of improvements thereon and regardless of lot or land lines. The term also includes the franchise of any railroad whose tracks lie, either lengthwise or crosswise, within any street improved under this part 5. Lots may be designated in accordance with any recorded map or plat thereof, unplatted lands by any definite description thereof, and franchises by the name of the corporation owning the same.

(3.5) "Qualified community location" means:

(a) If the affected local electric utility is not an investor-owned utility, an off-site location of a renewable energy improvement that:

(I) Is wholly owned, through either an undivided or a fractional interest, by the owner or owners of the residential or commercial building or buildings that are directly benefited by the renewable energy improvement;

(II) Provides energy as a direct credit on the owner's utility bill; and

(III) Is an encumbrance on the property specifically benefited.

(b) If the affected local electric utility is an investor-owned utility, a community solar garden as that term is defined in section 40-2-127 (2), C.R.S. If House Bill 10-1342 does not

take effect, there shall be no qualified community locations in the service territories of investor-owned utilities.

(4) (a) "Renewable energy improvement" means a fixture, product, system, device, or interacting group of devices that produces energy from renewable resources, including photovoltaic systems, solar thermal systems, small wind systems, biomass systems, hydroelectric systems, or geothermal systems, as may be authorized by the governing body, and that either:

(I) Is installed behind the meter of a residential or commercial building; or

(II) Directly benefits a residential or commercial building through a qualified community location.

(b) No renewable energy improvement shall be authorized that interferes with a right held by a public utility under a certificate issued by the public utilities commission under article 5 of title 40, C.R.S. Nothing in this part 5 limits the right of a public utility, subject to article 3 or 3.5 of title 40, C.R.S., or section 40-9.5-106, C.R.S., to assess fees for the use of its facilities, or modifies or expands the net metering limitations established in section 40-9.5-118, C.R.S. The public utilities commission has primary jurisdiction to adjudicate disputes as to whether a renewable energy improvement interferes with such a right.

31-25-502. Powers to make local improvements. (1) A district may be formed in accordance with the requirements of this part 5 for the purpose of constructing, installing, or acquiring any public improvement so long as the municipality that forms the district is authorized to provide such improvement under the municipality's home rule charter or ordinance passed pursuant to such charter, if any, or the laws of this state. Public improvements shall not include any facility identified in section 30-20-101 (8) or (9), C.R.S.

(2) The improvements authorized by this part 5 may include, where so specified or generally provided for in the ordinance of the governing body forming the district, any renewable energy improvement or energy efficiency improvement to any residential or commercial property within the district.

(3) It is lawful for any municipality to construct any of the local improvements mentioned in this part 5 and to assess the cost thereof, wholly or in part, upon the property especially benefited by such improvements. The improvements shall be authorized by ordinance duly adopted and shall be constructed under the direction of the municipal engineer or other officer having similar duties or under the direction of the governing body in accordance with plans and specifications adopted by the governing body; except that, for districts formed for the

purpose of encouraging, accommodating, and financing renewable energy improvements or energy efficiency improvements, the owner of property within a district may arrange improvements that qualify pursuant to the ordinance of the governing body authorizing improvements for the district and may obtain financing for said improvements from the district through the process set forth in the ordinance forming the district.

Editor's note: This section is similar to former § 31-25-502 as it existed prior to 1975.

31-25-503. What improvements may be made - conditions. (1) A district may be created within the boundaries of a municipality and may also include any property in the unincorporated area of the county within which the municipality is situated if such county consents by resolution to such district and the construction or acquisition of improvements therein. In addition, such district may also include any property in another municipality within such county if such municipality consents by ordinance to such district and the construction or acquisition of the improvements therein. If a district includes property within a county by county consent or within another municipality by municipal consent, the municipality shall have full authority to construct or acquire improvements, to assess property within the county or such municipality benefited by such improvements, and to enforce and collect such assessments in the manner provided in this part 5; but:

(a) No improvement, except as provided in paragraph (d) of this subsection (1) and except for sidewalks, water mains, sewers, and sewage disposal works and their appurtenances, shall be ordered under this part 5 unless a petition for the same is first presented. The petition shall be subscribed by the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed. Except as specified in this section, nothing in this part 5 shall restrict the right of such owners from securing any particular kind or variety of improvements petitioned for. In any case where a proposed improvement district includes two or more assessment units, the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed in each assessment unit shall petition as specified in this part 5.

(b) If the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed petition for any particular kind of improvement and for any particular materials to be used in the same, the improvement shall be ordered in accordance with the petition, and the materials so designated shall be used, except as otherwise provided in this section;

(c) If the material petitioned for by the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed does not encourage competition, the petitioners shall have the right to state in the petition the maximum price per square yard or linear foot or per unit at which the improvement is desired, and no contract shall be let for any such improvement at a price exceeding the maximum price fixed in said petition, excluding the cost of engineering, collection, inspection, incidentals, and interest;

(d) Any improvement may be initiated directly by the governing body by resolution declaring its intention to construct the improvements. If initiated by such resolution, the governing body shall make a preliminary order as required by subsection (3) of this section in the same manner as if the improvements had been requested by petition. Such preliminary order may be included in the resolution of intention to construct the improvements. However, if written protests are submitted prior to the hearing referred to in subsection (4) of this section subscribed by the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed, the governing body shall not proceed with such special improvement district, based on the preliminary order so protested. Such protests shall not prevent the governing body from adopting a subsequent preliminary order for such improvements, subject to notice, hearing, and protest, as provided in this part 5.

(2) The governing body shall encourage competition by advertising for and receiving bids for such construction and, insofar as possible within the limits of the petition, shall describe all materials by standard or quality in the specifications.

(3) Before contracting for or ordering any work to be constructed, a preliminary order shall be made by the governing body, adopting preliminary plans and specifications for the same, definitely describing the materials to be used or stating that one of several specified materials shall be chosen, determining the number of installments and the time in which the cost of the improvement shall be payable, and the property to be assessed for the same, as provided in this part 5, and requiring an estimate of the cost to be made by the municipal engineer or any similar officer or employee, together with a map of the district in which the improvement is to be made and a schedule showing the approximate amounts to be assessed upon the several lots or parcels of property within the district. The cost estimates and approximate amounts to be assessed shall be formulated in good faith on the basis of the best information available to the governing body but shall not be binding.

(4) The clerk shall give notice of the hearing on the construction of the improvements by publication in one issue of a newspaper of general circulation in the municipality, the publication to be at least twenty days prior to the date of the hearing. In addition, notice shall be mailed by first-class mail to each property owner to be assessed for the cost of the improvements who is included within the district. The mailed notice shall be made on or about the date of the publication of the notice of hearing. The notice shall set forth the following information:

- (a) The kind of improvements proposed;
- (b) The number of installments;
- (c) The time in which the cost shall be payable;
- (d) Repealed.
- (e) The extent of the district to be improved;
- (f) The probable cost per front foot or other unit basis which, in the judgment of the governing body, reflects the benefits which accrue to the properties to be assessed, as shown by the estimates of the engineer;
- (g) The time, not less than twenty days after the publication, when an ordinance authorizing the improvements will be considered;
- (h) That said map and estimate and schedule showing the approximate amounts to be assessed and all resolutions and proceedings are on file and can be seen and examined by any interested person at the office of the clerk, or other designated place, at any time within said period of twenty days; and

(i) That all complaints and objections made in writing concerning the proposed improvement by the owners of any property to be assessed will be heard and determined by the governing body before final action is taken.

(4.5) If the petition for an improvement is signed by one hundred percent of the owners of property to be assessed and contains a request for such waiver, the governing body may, at its discretion, waive all or any of the requirements for notice, publication, and a hearing set forth in subsection (4) of this section.

(5) The finding by ordinance or resolution of the governing body that said improvements were duly ordered after notice duly given and after hearing duly held when such notice and hearing are required pursuant to this section, that such petition was presented, and that the petition was subscribed by all or the required number of owners shall be conclusive of the facts so stated in every court or other tribunal.

(6) Any resolution or order in the premises may be modified, confirmed, or rescinded at any time prior to the passage of the ordinance authorizing the improvements.

(7) The specifications for paving may include sidewalks, curbs, gutters, and grading, and sufficient culverts, sewers, or drains necessary to carry off the surface waters across or along the line of the street improved, and such other incidentals to paving as, in the judgment of the governing body, may be required. The specifications may also provide that bidders shall agree to enter into contract to do the work and maintain the same in good repair for a period of five years, and the contract may be entered into in accordance with such specifications.

(8) If, before any such improvements are made, any piece of real estate or any railway company to be assessed already has an improvement conforming to the general plan or satisfactory to the governing body, an allowance therefor may be made to the owner, and such allowance may be deducted from the owner's assessment and from the contract price.

(9) (a) Any other provision of this part 5 to the contrary notwithstanding, the governing body may create a district for the purpose of acquiring existing improvements of a character authorized by this part 5, in which case, the provisions of this part 5 concerning construction of improvements by the municipality, competitive bidding, and preliminary plans and specifications shall not apply.

(b) Any other provision of this part 5 notwithstanding, the governing body may create an improvement district for the purpose of encouraging, accommodating, and financing renewable energy improvements and energy efficiency improvements of a character authorized by section 31-25-502 (2). Any such district shall include only property for which the owner has executed a contract or agreement consenting to the inclusion of such property within the district, and such consent may occur subsequent to the adoption of the ordinance of the governing body forming the district. The inclusion of such property within the district subsequent to the adoption of the ordinance of the governing body forming the district may be made by the adoption of a supplemental or amending ordinance or resolution of the governing body. For districts formed for the purpose of encouraging, accommodating, and financing renewable energy improvements or energy efficiency improvements, the provisions of subsections (2) and (3) of this section concerning preliminary orders, competitive bidding, and preliminary plans and specifications, of section 31-25-516 concerning contracts for construction, and of section 31-25-518 concerning contract provisions shall not apply.

(c) The contract or agreement shall note the existence of any first priority mortgage or deed of trust on the property, the identity of the record holder thereof, and the penalty for default

provided in section 31-25-530 clearly stating that default, like the penalties that exist for default on any mortgage or any other special assessment, may result in the loss of the applicant's home. Within thirty days of a person's submission of an application to the district, the governing body shall provide written notice to the record holder of any first priority mortgage or deed of trust on the real property that the person is participating in the district.

(10) The governing body is authorized to enter into contracts and agreements with any owner of property within the district or any other person concerning the construction or acquisition of improvements, the assessment of the cost thereof, the waiver or limitation of legal rights, or any other matter concerning the district.

(11) At or about the time of publication by the governing body of any ordinance creating a district, a copy of such ordinance shall be provided to the county assessor, the county treasurer, and the division of local government in the department of local affairs. The governing body shall make a good faith attempt to comply with this subsection (11), but failure to comply shall not affect or impair the organization of any district, the construction or acquisition of improvements therein, the levying and collection of assessments, or any other matter pursuant to the provisions of this part 5.

Such districts, by like authority, may be divided into subdistricts or enlarged, diminished, or otherwise altered by ordinance at any time in accordance with the provisions of this part 5. - (c) Any adaptability of property to a superior or more profitable use;
- (d) Any alleviation of health and sanitation hazards accruing to particular property or accruing to public property in the improvement district, if the provision of health and sanitation is paid for wholly or partially out of funds derived from taxation of property owners of the improvement district;
- (e) Any reduction in the maintenance costs of particular property or of public property in the improvement district, if the maintenance of the public property is paid for wholly or partially out of funds derived from taxation of property owners of the improvement district;

31-25-513. Cost assessed in accordance with benefits. (1) The cost of improvements constructed or acquired pursuant to this part 5, or such part thereof as may be assessed against the property specially benefited, including the intersections of streets and alleys except the share to be assessed against railway companies, may be assessed on property, without regard to lot or land lines, on a frontage, zone, or other equitable basis in accordance with benefits as the same may be determined by the governing body.

(2) When the governing body determines that the improvement of any street or alley, including the intersections of streets and alleys, or any other improvement authorized by this part 5 results in special benefits to both the municipality and the owners of property within the district, that portion of the cost of the improvement which results in a special benefit to the municipality may be assessed against the municipality and be payable in installments, as provided in this part 5. The determination by the governing body as to the property to be assessed and the amount of special benefits shall be conclusive of the facts stated therein.

(3) No cost of improvements to streets or alleys shall be assessed to any property where reasonable access to the street or alley is denied the owner of the property.

31-25-514. Streets - railway companies subject to tax. (1) Whenever any grading, paving, or other kind of street improvement district is created under this part 5, the governing body may include in the area to be paved, graded, or otherwise improved the entire width of street from curb to curb or any part thereof, including the portion of said street occupied by or required by franchise obligation to be paid by or chargeable or assessable to any railway company whose railroad runs through or across any street in said district, and shall charge to, assess, and collect the proper proportion of the cost of the improvement from such railway company in the same manner as is provided for in case of other property, and shall issue bonds for the same, which bonds shall be issued and made payable in like manner as bonds issued for the improvement to be assessed against the real estate specially benefited.

(2) In the meaning of this section, in the absence of a franchise obligation to grade or pave or otherwise improve, a railway company shall be held to occupy and is liable for the grading, paving, or other improvement of that part of the street lying between the rails of each track and two feet outside of each rail, and every railway company, whether street railway or otherwise, shall be assessed for the cost of such improvement of any part of any street or alley occupied by or required by franchise obligation to be so improved. The assessment levied for the cost of said improvements chargeable to a railway company shall be a perpetual tax lien against the entire franchise and property of the company, both within and without said district but within the limits of the municipality where such improvement is made, superior to all other liens except general tax liens.

(3) All the terms, conditions, and provisions in this part 5 relative to the collection of the amounts chargeable against property specially benefited shall be applicable in the enforcement and collection of such assessment against such railway company, and the property of such railway company, in case of default in payment of such assessment, shall be sold as in cases of default in payment of general taxes levied thereon; but railway trackage shall not be considered or computed as assessable frontage in determining the sufficiency of petitions.

31-25-515. Utility connections may be ordered before paving - costs - default. Before paving in any district in pursuance of this part 5, the governing body may order the owners of the abutting property to connect their several premises with the gas or water mains or with any other utility in the street in front of their several premises. Upon default of any owner for thirty days after such order to make such connections, the municipality may contract for and make the connections at such distance, under such regulations, and in accordance with such specifications as may be prescribed by the governing body. The whole cost of each connection shall be assessed against the property with which the connection is made, and the cost shall be paid upon the completion of the work in one sum. The cost shall be assessed, shall become a lien, and shall be collected in the same manner as is provided in this part 5 for the assessment and collection of the cost of other special improvements. Upon default in the payment of any such assessment, the property shall be sold in like manner and with like effect.

31-25-516. Contracts for construction - bond - default. (1) Except as provided in this section, all local improvements made under the provisions of this part 5 shall be constructed by independent contract, and all contracts shall be let by the mayor with the approval of the governing body. All such contracts shall be let to the lowest reliable and responsible bidder after public advertisement once a week for three consecutive weeks in a newspaper of general circulation in such municipality; but, after such advertisement, if it is determined by the governing body that the bids are too high or that the proposed improvement can be made by the municipality for less than the bid of the lowest reliable and responsible bidder, such municipality is hereby empowered to provide for doing the work by hiring labor by the day or otherwise and to arrange for purchasing necessary material, all under the supervision of the governing body.

(2) Except when the municipality does the work, no contract shall be made without a surety bond for its faithful performance with sufficient sureties to be approved by the governing body. No surety shall be accepted or approved by the governing body or mayor, other than a corporate surety company, unless he is the owner of real estate in this state, free and clear of all encumbrances, in double the amount of his liability on all bonds upon which he may then be surety. Upon default in the performance of any contract, the governing body may advertise and relet the remainder of the work in like manner without further ordinance and deduct the cost from the original contract price or, with the approval of the governing body, advance any excess

out of the funds of the municipality and recover the same by suit on the original bond. In all advertisements the right shall be reserved to reject any or all bids and, upon rejecting all bids, if deemed advisable by the governing body, other bids may be advertised for.

Upon completion of any local improvement or upon completion from time to time of any part thereof and upon acceptance thereof by the governing body or when the total cost of any improvement or of any such part thereof can be reasonably ascertained, either prior to, during, or subsequent to the construction of the improvements, the governing body shall cause to be prepared a statement showing the whole cost of the improvement, including costs of inspection and collection, capitalized interest on any

bonds for such period as the governing body may deem necessary, capitalized bond reserves, and all other incidental costs, the portion thereof, if any, to be paid by the municipality, and the portion thereof to be assessed upon each lot or tract of land to be assessed for the same, which statement shall be filed in the office of the clerk. If the governing body determines that the basis of assessment is inequitable in any case, a just and equitable assessment shall be made upon the basis of benefits accruing to the property assessed by reason of the improvements made.

The same notice of the hearing shall be mailed by first-class mail to each property owner to be assessed for the cost of the improvements who is included within the district. The mailed notice shall be made on or about the date of the publication of the notice of hearing. 31-25-522. Assessment of lien - filing with county clerk and recorder - corrections.

(1) All assessments made in pursuance of this part 5, together with all interest thereon and penalties for default in payment thereof and all costs in collecting the same, shall constitute, from the date of the final publication of the assessing ordinance, a perpetual lien in the several amounts assessed against each lot or tract of land and shall have priority over all other liens except general tax liens. As to any subdivisions of any land assessed in pursuance of this part 5, the assessment lien may be apportioned by the governing body in such manner, if any, as may be provided in the assessing ordinance.

(2) The clerk shall file copies of the assessing ordinance after its final adoption by the governing body with the county clerk and recorder of the county wherein each lot or tract of land assessed is located for recording on the land records of such lots or tracts of land, as provided in article 30, 35, or 36 of title 38, C.R.S. In addition, the clerk shall also file copies of such assessing ordinance after its adoption by the governing body with the county treasurer and the county assessor. The county assessor is authorized to create separate schedules for each lot or tract of land assessed within the municipality pursuant to the ordinance.

(3) No delays, mistakes, errors, or irregularities in any act or proceeding authorized or required by this part 5 shall prejudice or invalidate any final assessment; but the same may be remedied by subsequent filings, amending acts, or proceedings, as the case may require. When so remedied, the same shall take effect as of the date of the original filing, act, or proceeding.

(4) To provide for unanticipated increases in the costs of improvements, the amount of any assessment imposed before the completion of the related improvements may be increased to a total amount not in excess of the special benefit conferred upon the affected property if, not more than ninety days following the completion of such improvements, the governing body gives notice of its intent to consider the amendment of such assessment, stating the time and place that a public hearing shall be held thereon, and holds such public hearing, in the same manner as provided for hearings held pursuant to sections 31-25-520 and 31-25-521. At the conclusion of such public hearing, the governing body may determine whether to amend one or more assessments within a district. Any such amendment shall take effect as of the date of the original assessment.

(5) If, as the result of any subdivision, resubdivision, vacation of right-of-way, or other action taken subsequent to the adoption of the assessment ordinance, any new lot or parcel is created within a district, the governing body may, without a public hearing and with the consent

of the owner of the new lot or parcel, modify the assessment ordinance to reapportion all or any part of the total amount assessed in the district to such new lot or parcel.

The assessment roll shall have suitable columns for use in case of payment of the whole amount or of any installment or penalty. Said roll shall thereafter be certified by the clerk under the seal of the municipality and delivered by him to the county treasurer of the same county with his warrant for the collection of the same. The county treasurer shall receipt for the same, and all such rolls shall be numbered for convenient reference.

(3) If the municipal treasurer is directed by ordinance to collect assessment payments as provided in section 31-25-526 (1), in lieu of the procedure specified in subsection (2) of this section, the municipal treasurer may keep the assessment roll, numbered for convenient reference, in such a manner as to best facilitate the collection and recording of assessment payments.

All persons so electing to pay in installments shall be conclusively considered to have consented to said improvements. 31-25-530. Penalty for default - payment of balance. Failure to pay any installment, whether of principal or interest, when due shall cause the whole of the unpaid principal to become due and collectible immediately, and the whole amount of the unpaid principal and accrued interest shall thereafter draw interest at the rate established pursuant to section 5-12-106 (2) and (3), C.R.S., until the day of sale; but, at any time prior to the day of sale, the owner may pay the amount of all unpaid installments, with interest at the penalty rate set by the assessing ordinance, and all penalties and costs of collection accrued and shall thereupon be restored to the right thereafter to pay in installments in the same manner as if default had not been suffered. The owner of any property not in default as to any installment or payment may, at any time, pay the whole of the unpaid principal with the interest accruing to the maturity of the next installment of interest or principal; except that any owner who pays the whole of the unpaid balance pursuant to this section may be assessed a prepayment premium not to exceed three percent of the unpaid principal, the amount of which premium shall be specified in the ordinance imposing the assessment.

(2) In case of default in the payment of any installment of principal or interest on assessed property when due:

(a) The municipal treasurer, if collecting assessment payments pursuant to section 31-25-526, shall certify to the county treasurer the whole amount of the unpaid assessments; and

(b) The county treasurer shall advertise and sell all property concerning which such default is suffered for the payment of the whole of the unpaid assessments thereon, plus penalties and costs of collection.

(3) Said advertisements and sales shall be made at the same times, in the same manner, under all the same conditions and penalties, and with the same effect as provided by general law for sales of real estate in default of payment of the general property tax.

31-25-532. Municipality may purchase property on default. (1) At any sale by the county treasurer of any property for the purpose of paying any special assessment for local improvements made under the provisions of this part 5, the municipal treasurer, having written authority from the governing body, may purchase any such property without paying for the same in cash and shall receive certificates of purchase therefor in the name of the municipality. The certificates shall be received and credited at their face value, with all interest and penalties accrued, on account of the assessments in pursuance of which the sale was made. The certificates may thereafter be sold by the municipal treasurer at their face value, with all interest and penalties accrued, and assigned by him to the purchaser in the name of the municipality. The proceeds of such sale shall be credited to the fund created by ordinance for the payment of such assessments respectively. In the event that all bonded indebtedness incurred in payment for said local improvements has been discharged in full, said certificates may be sold by the governing body for the best price obtainable at public sale, at auction, or by sealed bids in the same manner and under the same conditions as is provided in subsection (3) of this section. The proceeds shall be credited to the general fund of said municipality or to the special surplus and deficiency fund provided for by section 31-25-534 (2), as the circumstances may require. Such assignments shall be without recourse, and the sale and assignments shall operate as a lien in favor of the purchaser and assignee as is provided by law in the case of sale of real estate in default of payment of the general property tax.

(2) Any municipality as such purchaser has the right to apply for tax deeds on such certificates of purchase at any time after three years from the date of issuance of said certificates, and such deeds shall be issued as provided by law for issuance of tax deeds for the nonpayment of the general property tax.

(3) Cumulatively with all other remedies, any municipality which is the owner of property by virtue of a tax deed, or is the owner of property otherwise acquired, in satisfaction or discharge of the liens represented by such certificates of sale, may sell such property for the best price obtainable at public sale, at auction, or by sealed bids. Such sales shall be after public notice by the municipal treasurer or clerk to all persons having or claiming any interest in the property to be sold or in the proceeds of such sale by publication of such notice three times, a week apart, in a weekly or daily newspaper of general circulation within the county in which the property is located. Such notice shall describe the property and state the time, place, and manner of receiving bids; except that the time fixed for the sale shall not be less than ten days after the last publication. The municipality may reject any and all bids. Any interested party, at any time within ten days after the receipt of bids for the sale of property, may file with the municipality a written protest as to the sufficiency of the amount of any bid made or the validity of the

proceedings for the sale. If the protest is denied, such person, within ten days thereafter, shall commence an action in a court of competent jurisdiction to enjoin or restrain the municipality from completing the sale. If no such action is commenced, all protests or objections to the sale shall be waived and the municipality shall then convey the property to the successful bidder by quitclaim deed.

(4) In addition to all other remedies, any municipality which is a holder of certificates of purchase may bring a civil action for foreclosure thereof in accordance with article 38 of title 38, C.R.S., joining as defendants all persons holding record title, persons occupying or in possession of the property, persons having or claiming any interest in the property or in the proceeds of foreclosure sale, all governmental taxing units having taxes or other claims against said property, and all unknown persons having or claiming any interest in said property. Any number of certificates may be foreclosed in the same proceeding. In such proceeding the municipality, as plaintiff, is entitled to all relief provided by law in actions for an adjudication of rights with respect to real property, including actions to quiet title.

(5) The proceeds of any such sale of property shall be credited to the appropriate special assessment fund. The municipality shall deduct therefrom the necessary expenses in securing deeds and taking proceedings for the sale or foreclosure.

(6) When any municipality has sold or conveyed at a fair market value certificates of purchase or property which it has acquired in satisfaction or discharge of special assessment liens, such sales and conveyances are hereby validated and confirmed as against all parties having or claiming any interest in such property or the proceeds of such sale.

(7) It is hereby declared that the purpose of this section is to restore delinquent property to the tax rolls and to realize the greatest possible amount from such property for the benefit of all persons and taxing bodies having liens thereon.

31-25-533. Power of governing body to contract debt - question submitted to registered electors. The governing body has power to contract an indebtedness on behalf of the municipality and upon the credit thereof by borrowing money or issuing the negotiable interest-bearing bonds of the municipality for the purpose of providing a fund to pay such part of the cost of said improvements as may be determined by the governing body. No such indebtedness shall be created except by ordinance subject to and otherwise in accordance with the provisions of section 31-15-302 (1)(d).

31-25-534. Issuing bonds - property specially benefited. (1) For the purpose of paying all or such portion of the cost of any improvement constructed under this part 5 as may be assessed against the property specially benefited, special assessment bonds of the municipality may be issued of such date, in such form, and on such terms, including, without limitation, provisions for their sale, payment, and redemption, as may be prescribed by the governing body, bearing the name of the street, alley, or district improved and payable in a sufficient period of years after such date to cover the period of payment provided and in convenient denominations. All such bonds shall be issued upon estimates approved by the governing body, and the municipal treasurer shall preserve a record of the same in a suitable book kept for that purpose. All such bonds shall be subscribed by the mayor, countersigned by the municipal treasurer, with the corporate seal thereto affixed, and attested by the clerk. Such bonds shall be payable out of the moneys collected on account of the assessments made for said improvements, from reserve accounts, if any, established to secure payment of such bonds, and from any other legally available moneys. Whenever three-fourths of the bonds for an improvement constructed under this part 5 have been paid and cancelled and for any reason any remaining assessments are not paid in time to pay the remaining bonds for the district and the interest due thereon, the municipality may pay, from legally available moneys, the bonds when due and the interest due thereon and reimburse itself by collecting the unpaid assessments due the district. All moneys collected from such assessments for any improvement shall be applied to the payment of the bonds issued until payment in full is made of all the bonds, both principal and interest, or to fund or replenish reserve accounts, if any, established to secure the payment of such bonds. The bonds may be used in payment of the cost of the improvement as specified; or the governing body, upon advertisement published at least once in a newspaper of general circulation in such municipality and in such other newspapers as may be designated by the governing body, may sell a sufficient number of said bonds to pay such cost in cash for the best bid submitted in accordance with the terms of the notice of sale. All bids may be rejected at the discretion of the governing body. In addition, the bonds may be sold on such terms and conditions at a private sale if determined by the governing body to be in the best interests of the municipality.

(2) When all bonds of a district have been paid, any moneys remaining to the credit of such district may be transferred to a special surplus and deficiency fund, and, whenever there is a deficiency in any improvement district bond fund to meet the payment of outstanding bonds for other improvement districts and interest due thereon or to redeem such outstanding bonds in accordance with any estimated redemption schedule used in connection with the sale of such bonds, the deficiency may be paid from the moneys available therefor in the surplus and deficiency fund.

(3) In connection with the issuance of bonds payable solely from special assessments, the governing body of the municipality may provide by ordinance or resolution for the submission of the question of issuing such bonds to the electors eligible to vote on the question. The governing body of the municipality may provide by ordinance or resolution that all

registered electors of the municipality shall be eligible to vote on the question or that only electors of the district shall be eligible to vote on the question.

(4) In connection with the issuance of bonds payable from special assessments which are additionally secured by a pledge of any other funds of the municipality, including the surplus and deficiency fund, the governing body of the municipality may provide by ordinance or resolution for the submission of the question of issuing the bonds to all registered electors of the municipality.

(5) Notwithstanding any other provision of this part 5, bonds issued in accordance with the requirements of this section may be payable from the assessments levied in one or more improvement districts.

(6) Notwithstanding any other provision of this part 5, any district formed for the purpose of encouraging, accommodating, and financing improvements as authorized in section 31-25-502 (2) may be authorized to issue one or more series of bonds, and bonds of any such district may be payable from the assessments levied pursuant to one or more assessment ordinances.

Any such bonds shall be issued in accordance with the provisions of article 56 of title 11, C.R.S. In such case, for purposes of complying with the requirements of article 56 of title 11, C.R.S., any bonds issued to refund all or any portion of the outstanding bonds of one or more improvement districts shall be deemed to be revenue bonds, the refunded bonds shall be deemed to be revenue obligations, and the assessments shall be deemed to be revenue.

(4) Except as otherwise provided in subsection (5) or (6) of this section, in connection with the issuance of refunding bonds pursuant to this section, the governing body may amend the

ordinance imposing the assessment to modify all or any portion of the following terms describing the assessment as specified in the ordinance:

- (d) The dates upon which unpaid assessments are due;
- (e) The number of years over which unpaid assessments are due; or
- (f) Any other term specified in the ordinance as necessary to make the ordinance conform to the requirements of this section.

(5) Before the governing body may amend the ordinance imposing the assessment to increase the amount of principal and interest due and owing under the assessment, the number of years over which unpaid assessments are due, or the amount of any unpaid assessments, the governing body shall:

(a) Obtain consent in writing to the amendment to the ordinance from the owner of each tract of land that would be affected by the amendment; or

(b) (I) Set a place and time, not less than twenty days nor more than forty days after the date of such setting, for a hearing on the proposed amendment.

(II) Thereupon, the clerk of the governing body shall cause notice by publication to be made of the pendency of the proposed amendment, a summary of the terms of such amendment as described in subsection (4) of this section, and of the time and place of the hearing on the proposed amendment.

(III) All complaints and objections made in writing concerning the proposed amendment by the owners of any property in the district shall be heard and determined by the governing body before final action is taken. If the owners of the tracts upon which more than one-half of the affected assessments, measured by the unpaid assessment balance, submit written protests to the amendment to the governing body on or before the date specified in the notice, the governing body shall not adopt the proposed amendment. Any proposed amendment may be modified, confirmed, or rescinded prior to passage of the ordinance authorized under subsection (4) of this section.

(6) Notwithstanding any other provision of law, in order either to issue refunding bonds or to amend an ordinance of the governing body imposing an assessment pursuant to this section, the governing body shall make written findings that:

(a) The obligation of the municipality shall not be materially or adversely impaired with respect to any outstanding bond secured by the assessments; and

(b) The principal balance of any assessment shall not increase to an amount such that the aggregate amount that is assessed against any one particular tract of land exceeds the maximum benefit to the tract that is estimated to result from the project that is financed by the assessment and refunding of the outstanding bonds.

31-25-537. When mandamus will issue. When any improvement authorized by this part 5 is petitioned for by the owners of property to be assessed for more than one-half of the entire costs estimated by the governing body to be assessed, it is the duty of the municipal officials whose duty it is to act to authorize said improvement, and an order in the nature of mandamus may issue out of any court of competent jurisdiction requiring said officials to take such action as is required by this part 5; but, if the material petitioned for is known to be worthless or of poor quality or would not make a good, substantial, and reasonable permanent improvement, the governing body may refuse to grant a petition for that reason. If a material petitioned for or designated in the specifications is a patented or proprietary article on which there can be but one bid, the governing body may refuse to award a contract if the entire bid is excessive as compared with improvements of equal value or may reject the bid or readvertise.

31-25-538. No action maintainable - exception - grounds - limitations. (1) No legal or equitable action shall be brought or maintained except to enjoin the collection of assessments levied under this part 5 upon the grounds:

(a) That notice of a hearing upon the amount of the assessment was not given as required in this part 5. Any person presenting objections to the governing body at or before the hearing on assessment shall be deemed to have waived this ground.

(b) That the hearing upon the amount of the assessment as provided in this part 5 was not held;

(c) That the improvement ordered was not one authorized by this part 5;

(d) That the assessment levied exceeds the benefits received by the property assessed.

(2) No action shall be brought on the grounds provided in paragraph (c) of subsection (1) of this section unless a hearing on the proposed improvements is required pursuant to section 31-25-503 and unless the objections on which such action is based have been presented to the governing body in writing prior to or at such hearing. No action shall be brought on the grounds provided in paragraph (d) of subsection (1) of this section unless the objections on which such action is based have been presented to the governing body in writing prior to or at the hearing on the assessment roll. Any action brought with respect to the ordering of any improvements, the creation of any district, the authorization or issuance of any bonds, the levying of any assessments, or any other action taken under this part 5 shall be commenced within thirty days after the passage of the ordinance or resolution ordering the improvements, creating the district, authorizing or issuing bonds, or levying assessments or within thirty days after performance of any other action complained of or else shall be forever barred.

If in any court of competent jurisdiction any final assessment made in pursuance of this part 5 is set aside or if the governing body determines it to be necessary to alter any final assessment made pursuant to this part 5, the governing body, upon notice as required in the making of an original assessment, may make a new assessment in accordance with the provisions of this part 5.

Except in such rolls, the cost may be stated as being of probable or certain amount per front foot or per square foot or per lot of given size.

31-25-541. Interim warrants. The governing body, from time to time as work proceeds in a local improvement district, may authorize the issuance of interim warrants: For not to exceed ninety percent in value of the work theretofore done upon estimates of the engineer of the municipality; after completion of the work and acceptance thereof by the engineer of the municipality and by the governing body, for one hundred percent of the value of the work so completed; and, where improvements in the district require the acquisition of property, for an amount not exceeding the value of the property. The warrants may be issued to a contractor to apply at par value on the contract price for the improvements or to the owner of the property to apply at par value on the property price. The warrants may also be issued and sold at not less than par value in such manner as the governing body may determine, and the proceeds may be used to apply towards payment of the contract price and property price. Interim warrants shall bear interest from date of issue until paid at such rate as may be fixed by the governing body. Interest accruing on interim warrants shall be included as a cost of the improvements in the local improvement district. 31-25-602. Definitions. As used in this part 6, unless the context otherwise requires:

(1) "District" means an improvement district that is a taxing unit and that may be created by any municipality in this state for the purpose of acquiring, constructing, installing, operating, or maintaining any public improvement or for the purpose of providing any service so long as the municipality that forms the district is authorized to perform such service or provide such improvement under the municipality's home rule charter, if any, or the laws of this state. "Public improvement" or "service" shall not include any facility identified in section 30-20-101 (8) or (9), C.R.S., nor shall the terms include services identified in section 30-15-401 (4) to (7.7), C.R.S., unless the district provides such services consistent with part 4 of article 15 of title 30, C.R.S. No such improvement or facility shall duplicate or interfere with any municipal improvement already constructed or planned to be constructed within the limits of such district.

(2) (a) "Elector of a district" means a person who, at the designated time or event, is qualified to register to vote in general elections in this state and:

(I) Has been a resident of the district or of the area to be included in the district for not less than thirty days; or

(II) Owns, or whose spouse owns, taxable real or personal property within the district or within the area to be included within the district, whether the person resides within the district or not.

(b) Where the owner of taxable real or personal property specified in subparagraph (II) of paragraph (a) of this subsection (2) is not a natural person, an "elector of a district" shall include a natural person designated by such owner to vote for such person. Such designation shall be in writing and filed with the clerk of the municipality. Only one such person may be designated by an owner.

(3) "Net effective interest rate" of a proposed issue of bonds means the net interest cost of said issue divided by the sum of the products derived by multiplying the principal amount of such issue maturing on each maturity date by the number of years from the date of said proposed bonds to their respective maturities.

(4) "Publication", if no manner is specified therefor, means publication once a week in three consecutive weekly editions of a newspaper of general circulation in the district. It shall not be necessary that publication be made on the same day of the week in each of the three weeks; but not less than fourteen days, excluding the day of first publication, shall intervene between the first publication and the last publication, and publication shall be complete on the date of the last publication.

31-25-603. Authority of governing body. (1) The governing body of a municipality is hereby vested with jurisdiction, power, and authority to establish districts within the municipality in which the improvement is to be acquired, constructed, installed, operated, or maintained or the service is to be provided. The governing body of a municipality may establish a district partially within the boundaries of any other municipality or within the unincorporated territory of a county if such municipality or county consents by resolution to the establishment of such district. No such district may provide the same improvement or service as an existing special district within the territory of such existing special district unless the existing special district consents.

(2) If a municipality other than the municipality that established the district annexes or incorporates any territory within an established district, such territory shall remain in the district unless the municipality notifies the district's board of the municipality's intent to exclude the territory annexed or incorporated from the district. If the municipality notifies the board of its intent to exclude such territory, such exclusion shall take effect January 1 of the year following such notice. Any property excluded from the district under this subsection (2) shall remain subject to payment of its share of any indebtedness or bonds that are outstanding on the date of such exclusion.

31-25-604. Organization petition - contents. (1) The organization of a district shall be initiated by a petition filed in the office of the clerk of the governing body vested with jurisdiction. The petition shall be signed by not less than thirty percent or two hundred of the electors of the proposed district, whichever is less. After the filing of a petition, no signer shall be permitted to withdraw his or her name from the petition.

(2) The petition shall set forth:

(a) The name of the proposed district, which shall include the name of the municipality creating the district, a descriptive name or number, and the words "general improvement district";

(b) A general description of the improvements to be acquired, constructed, installed, operated, or maintained or the services to be provided within and for the district;

(c) The estimated cost of the proposed improvements or the estimated annual cost of providing the proposed services;

(d) A general description of the boundaries of the district or the territory to be included therein with such certainty as to enable a property owner to determine whether or not his or her property is within the district;

(e) The names of three persons of the district who shall represent the petitioners and who have the power to enter into agreements relating to the organization of the district, which agreements shall be binding on the district, if created;

(f) A request for the organization of the district; and

(g) A statement that either:

(I) The boundaries of the proposed district include at least one hundred electors of the district;

(II) The boundaries of the proposed district include at least one elector of the district for each five acres of land included within the proposed district; or

(III) The petition is signed by one hundred percent of the owners of taxable real property to be included in the proposed district.

(3) No petition with the requisite signatures shall be declared void on account of alleged defects. The governing body, at any time, may permit the petition to be amended to conform to the facts by correcting any errors in the description of the territory or in any other particular. Similar petitions or duplicate copies of the same petition for the organization of the same district may be filed and together shall be regarded as one petition. All such petitions filed prior to the hearing on the first petition filed shall be considered by the governing body the same as though included with the first petition placed on file.

31-25-605. Bond of petitioners. At the time of filing the petition or at any time prior to the time of hearing on said petition, a bond shall be filed, with security approved by the governing body, or a cash deposit made sufficient to pay all expenses connected with the proceedings in case the organization of the district is not effected. If at any time during the organization proceedings the governing body is satisfied that the bond first executed or the amount of cash deposited is insufficient in amount, it may require the execution of an additional bond or the deposit of additional cash within a time to be fixed, not less than ten days thereafter, and, upon failure of the petitioners to file or deposit the same, the petition shall be dismissed.

31-25-606. Notice of hearing. (1) Except as provided in section 31-25-607 (3.5), as soon as possible after the filing of such petition, the governing body shall fix by order a place and time, not less than twenty days nor more than forty days after the petition is filed, for a hearing thereon. Thereupon the clerk of the governing body shall cause notice by publication to

be made of the pendency of the petition, of the purposes and boundaries of the proposed district, and of the time and place of hearing thereon. The clerk shall also cause a copy of said notice to be mailed to each elector of the district at the elector's last-known address, as disclosed by the tax and official voter registration records of the counties in which said district is proposed to be located.

(2) No member of a governing body shall be disqualified to perform any duty imposed by this part 6 by reason of ownership of property within any proposed district.

(3) The notice of hearing on the petition shall set forth the fact that all the property in the district is subject to the lien of the indebtedness, if any, and shall set forth the amount of the proposed indebtedness, if any.

Editor's note: This section is similar to former § 31-25-606 as it existed prior to 1975.

31-25-607. Hearing - dismissal - findings - declaration - when action barred. (1) On the day fixed for such hearing or at any adjournment thereof or, if the hearing is waived under subsection (3.5) of this section, at any meeting at which an ordinance creating a district is considered, the governing body shall ascertain from the tax rolls of the counties in which the district is located, from the last official registration list and from such other evidence which may be adduced, the total number of electors of the district and the total valuation for assessment of the real and personal property therein.

(2) If it appears that said petition is not signed by at least the number of electors required under section 31-25-604 (1) or if it is shown that the proposed improvement or service will not confer a general benefit on the district or that the cost of the improvement or service would be excessive as compared with the value of the property in the district, the governing body shall dismiss the petition and adjudge the cost against those executing the bond filed to pay such costs. No appeal or other remedy shall lie from an order dismissing said proceeding. Nothing in this section shall prevent the filing of subsequent petitions for similar improvements or services or for a similar district. The right so to renew such proceeding is hereby expressly granted and authorized.

(3) The finding of the governing body upon the question of the genuineness of the signatures and all matters of fact incident to such determination shall be final and conclusive on all parties in interest, whether appearing or not.

(3.5) If the petition for organizing a district is signed by one hundred percent of the owners of taxable real property to be included in the district and contains a request for such waiver, the governing body may, at its discretion, waive all or any of the requirements for notice, publication, and a hearing set forth in this section and in section 31-25-606.

(4) (a) Upon the hearing if required, or without a hearing pursuant to subsection (3.5) of this section, if it appears that a petition for the organization of a district has been duly signed and presented in conformity with this part 6 and that the allegations of the petition are true, the governing body, by ordinance duly adopted and made effective, shall adjudicate all questions of jurisdiction and may order that the question of the organization of the district and such other matters as the governing body deems appropriate including, but not limited to, the issuance of

bonds or other matters for which voter approval is required under section 20 of article X of the Colorado constitution, be submitted to the electors at an election to be held for that purpose in accordance with the provisions of articles 1 to 13 of title 1, C.R.S., or article 10 of this title. Unless provided otherwise in section 20 of article X of the Colorado constitution, such election may be held either at a special election held not less than sixty days but not more than one hundred eighty days after the governing body adopts the ordinance or in conjunction with a regular municipal election, general election, ballot issue, or ballot question election.

(b) At an election held under paragraph (a) of this subsection (4), the electors of the district shall vote for or against the organization of the district and such other matters as the governing body deems appropriate including, but not limited to, the issuance of bonds or matters for which voter approval is required under section 20 of article X of the Colorado constitution. If a majority of the votes cast at the election are in favor of the organization, the governing body shall adopt an ordinance declaring the district organized.

(c) If a petition filed with the governing body complies with subsection (3.5) of this section, the governing body may adopt an ordinance declaring the district organized without any notice, hearing, election, or filing of a bond.

(d) If the governing body adopts an ordinance in accordance with paragraph (b) or (c) of this subsection (4), the governing body shall give the district the corporate name specified in the petition by which, in all proceedings, it shall thereafter be known. The district shall be a public or quasi-municipal subdivision of this state and a body corporate with the limited proprietary powers set forth in this part 6.

(e) Nothing in this subsection (4) authorizes a governing body to waive an election otherwise required under section 20 of article X and section 6 of article XI of the Colorado constitution or to hold an election inconsistent with the election requirements in said section 20.

(5) If an ordinance is adopted establishing the district, such ordinance shall finally and conclusively establish the regular organization of the district against all persons unless an action attacking the validity of the organization is commenced in a court of competent jurisdiction within thirty days after the adoption of such ordinance. Thereafter, any such action shall be perpetually barred. The organization of said district shall not be directly or collaterally questioned in any suit, action, or proceeding.

The presiding officer of the governing body shall be ex officio the presiding officer, the clerk of the governing body shall be ex officio the secretary, and the treasurer of the municipality shall be ex officio the treasurer of the board and district. The secretary and the treasurer may be one person. Such board shall adopt a seal. The secretary shall keep in a visual text format that may be transmitted electronically a record of all its proceedings, minutes of all meetings, certificates, contracts, and all corporate acts, which shall be open to inspection of all owners of property in the district, as well as to all other interested parties. - (a) To have perpetual existence;
- (b) To have and use a corporate seal;
- (c) To sue and be sued and be a party to suits, actions, and proceedings;
- (d) To enter into contracts and agreements, except as otherwise provided in this part 6, affecting the affairs of the district, including contracts with the United States and any of its agencies or instrumentalities. Except in cases in which a district receives aid from an agency of the federal government, a notice shall be published for bids on all construction contracts for work or material or both involving an expense of one thousand dollars or more. The district may reject any and all bids, and, if it appears that the district can perform the work or secure material for less than the lowest bid, it may proceed so to do.
- (e) To borrow money and incur general obligation indebtedness and evidence the same by bonds, certificates, warrants, notes, and debentures and to issue revenue bonds or special assessment bonds in accordance with the provisions of this part 6;

(g) To refund any general obligation indebtedness, revenue bonds, or special assessment bonds of the district without an election; otherwise, the terms and conditions of refunding bonds shall be substantially the same as those of an original issue of bonds of the district;

(h) To have the management, control, and supervision of all the business and affairs of the district and of the acquisition, construction, installation, operation, and maintenance of district improvements or the provision of services;

(i) To exercise the power of eminent domain and dominant eminent domain and, in the same manner provided by law for the condemnation of private property for public use, to take any property necessary to the exercise of the powers granted in this part 6;

(j) To construct and install improvements across or along any public street, alley, or highway and to construct works across any stream of water or watercourses. However, the district shall promptly restore any such street or highway to its former state of usefulness as nearly as possible and shall not use the same in such manner as completely or unnecessarily to impair the usefulness thereof. The use and occupation of streets, alleys, and highways and the construction or installation of improvements by any district shall be in accordance with the provisions of all applicable municipal ordinances and with such reasonable rules and regulations as may be prescribed by the governing body of the municipality affected. Plans and specifications of proposed improvements shall be approved by the governing body of the municipality before construction or installation of improvements is commenced.

(2) (a) As used in this part 6, "net effective interest rate" means the net interest cost of securities divided by the sum of the products derived by multiplying the principal amount of the securities maturing on each maturity date by the number of years from their date to their respective maturities. In all cases, net effective interest rate shall be computed without regard to any option of redemption prior to the designated maturity dates of the securities.

(b) For the purpose of determining the net effective interest rate, "net interest cost" means the total amount of interest to accrue on securities from their date to their respective maturities, less the amount of any premium above par, or plus the amount of any discount below par, at which said bonds are being or have been sold. In all cases net interest cost shall be computed without regard to any option of redemption prior to the designated maturity dates of the securities.

(b) Publish a notice of the municipality's intent to reclaim title to the burial space in a newspaper of general circulation in the area in which the cemetery is located once per week for four weeks.

(3) The notice required by subsection (2) of this section shall clearly indicate that the municipality intends to terminate the owner's rights and title to the burial space and include a recitation of the owner's right to notify the municipality of the owner's intent to retain ownership of the burial space.

(4) If the governing body of the municipality does not receive from the owner of the burial space a letter of intent to retain ownership of the burial space within sixty days after the last publication of the notice required by paragraph (b) of subsection (2) of this section, all rights and title to the burial space shall transfer to the municipality. The municipality may then sell, transfer, or otherwise dispose of the burial space without risk of liability to the prior owner of the burial space.

(5) A municipality that reclaims title to a burial space in accordance with this section shall retain in its records for no less than one year a copy of the notice sent pursuant to paragraph (a) of subsection (2) of this section and a copy of the notice published pursuant to paragraph (b) of subsection (2) of this section.

(6) If a person submits to the governing body of a municipality a legitimate claim to a burial space that the governing body has reclaimed pursuant to this section, the governing body shall transfer to the person at no charge a burial space that, to the extent possible, is equivalent to the reclaimed burial space.

(7) Notwithstanding any provision of law to the contrary, on and after August 7, 2006, the governing body of a municipality shall not convey title to the real property surveyed as a lot in a cemetery for use as a burial space. The governing body of a municipality may grant interment rights to a burial space in a cemetery.

PART 8

DOWNTOWN DEVELOPMENT AUTHORITIES

31-25-801. Legislative declaration. (1) The general assembly declares that the organization of downtown development authorities having the purposes and powers provided in this part 8 will serve a public use; will promote the health, safety, prosperity, security, and general welfare of the inhabitants thereof and of the people of this state; will halt or prevent deterioration of property values or structures within central business districts, will halt or prevent the growth of blighted areas within such districts, and will assist municipalities in the development and redevelopment of such districts and in the overall planning to restore or provide for the continuance of the health thereof; and will be of especial benefit to the property within the boundaries of any authority created pursuant to the provisions of this part 8.

(2) The general assembly determines, finds, and declares that because of a number of atypical factors and special conditions concerning downtown development unique to each locality, the rule of strict construction shall have no application to this part 8, but it shall be liberally construed to effect the purposes and objects for which it is intended.

31-25-807. Powers - duties. (1) The board, subject to the provisions of this part 8 and subject to other applicable provisions of law, shall have all powers customarily vested in the board of directors of a corporation. It shall exercise supervisory control over the activities of the director and the staff of the authority in carrying out the functions authorized by this part 8.

(2) In addition to the powers granted by subsection (1) of this section, the board may:

(a) Appoint and remove a director and other staff members, who shall be employed upon recommendation of the director, and prescribe their duties and fix their compensation which shall be paid from funds available to the authority;

(b) At the request of the governing body, prepare an analysis of economic changes taking place in the central business district of the municipality;

(c) Study and analyze the impact of metropolitan growth upon the central business district;

(d) Plan and propose, within the downtown development area, plans of development for public facilities and other improvements to public or private property of all kinds, including removal, site preparation, renovation, repair, remodeling, reconstruction, or other changes in existing buildings which may be necessary or appropriate to the execution of any such plan which in the opinion of the board will aid and improve the downtown development area;

(e) To implement, as provided in this part 8, any plan of development, whether economic or physical, in the downtown development area as is necessary to carry out its functions;

(f) In cooperation with the planning board and the planning department of the municipality, develop long-range plans designed to carry out the purposes of the authority as stated in section 31-25-801 and to promote the economic growth of the district and may take

such steps as may be necessary to persuade property owners and business proprietors to implement such plans to the fullest extent possible;

(g) Retain and fix the compensation of legal counsel to advise the board in the proper performance of its duties;

(h) Make and enter into all contracts necessary or incidental to the exercise of its powers and the performance of its duties.

(3) (a) Notwithstanding any law to the contrary and subject to subsection (3)(a)(IV) of this section, any such plan of development as originally adopted by the board or as later modified pursuant to this part 8 may, after approval by the governing body of the municipality, contain a provision that taxes, if any, levied after the effective date of the approval of such plan of development by said governing body upon taxable property within the boundaries of the plan of development area each year or that municipal sales taxes collected within said area, or both such taxes, by or for the benefit of any public body shall be divided for a period not to exceed thirty years or such longer period as provided for in subsection (3)(a)(IV) of this section after the effective date of approval by said governing body of such a provision, as follows:

(I) That portion of the taxes which are produced by the levy at the rate fixed each year by or for each such public body upon the valuation for assessment of taxable property within the boundaries of the plan of development area last certified prior to the effective date of approval by said governing body of the plan, or, as to an area later added to the boundaries of the plan of development area, the effective date of the modification of the plan, or that portion of municipal sales taxes collected within the boundaries of said development area in the twelve-month period ending on the last day of the month prior to the effective date of approval of said plan, or both such portions, shall be paid into the funds of each such public body as are all other taxes collected by or for said public body.

(II) That portion of said property taxes or all or any portion of said sales taxes, or both, in excess of such amount shall be allocated to and, when collected, paid into a special fund of the municipality for the payment of the principal of, the interest on, and any premiums due in connection with the bonds of, loans or advances to, or indebtedness incurred by, whether funded, refunded, assumed, or otherwise, the municipality for financing or refinancing, in whole or in part, a development project within the boundaries of the plan of development area. Any excess municipal sales tax collection not allocated pursuant to this subparagraph (II) shall be paid into the funds of the municipality. Unless and until the total valuation for assessment of the taxable property within the boundaries of the plan of development area exceeds the base valuation for assessment of the taxable property within such boundaries, as provided in subparagraph (I) of this paragraph (a), all of the taxes levied upon the taxable property in such boundary area shall be paid into the funds of the respective public bodies. Unless and until the total municipal sales tax collections in the plan of development area exceed the base year municipal sales tax collections in such area, as provided in subparagraph (I) of this paragraph (a), all such sales tax collections shall be paid into the funds of the municipality. When such bonds, loans, advances, and indebtedness, if any, including interest thereon and any premiums due in connection therewith, and including any refunding securities therefor, have been paid, all taxes upon the taxable property or the total municipal sales tax collections, or both, in such boundary area shall be paid into the funds of the respective public bodies.

(III) In calculating and making payments as described in subparagraph (II) of this paragraph (a), the county treasurer may offset the authority's pro rata portion of any property

taxes that are paid to the authority under the terms of subparagraph (II) of this paragraph (a) and that are subsequently refunded to the taxpayer against any subsequent payments due to the authority for the plan of development area. The authority shall make adequate provision for the return of overpayments in the event that there are not sufficient property taxes due to the authority to offset the authority's pro rata portion of the refunds. The authority may establish a reserve fund for this purpose or enter into an intergovernmental agreement with the governing body of the municipality that established the authority in which the municipality assumes responsibility for the return of the overpayments. The provisions of this subparagraph (III) shall not apply to a city and county.

(IV) (A) During the final ten years of the thirty-year period during which a portion of the property taxes or sales taxes, or both, may be allocated to and, when collected, paid into the special fund of the municipality in accordance with the requirements of subparagraph (II) of this paragraph (a), the governing body may by ordinance extend the period during which property taxes shall be allocated for one additional extension of twenty years, which extension shall commence upon the expiration of the original thirty-year period, if on the first day of the twenty-year extension period the established base year for the allocation of property taxes pursuant to subparagraph (II) of this paragraph (a) is advanced forward by ten years and, subsequent to the completion of the first ten years of the twenty-year extension, the base year is advanced forward by one year for each additional year through the completion of the twenty-year extension. The governing body may also by ordinance extend the period during which sales taxes shall be allocated for one additional extension of twenty years with no change to the established sales tax base year. Notwithstanding any other provision of this subparagraph (IV), any extension authorized pursuant to this subparagraph (IV) may only be considered by the governing body during the final ten years of the original thirty-year period.

(B) In connection with an extension implemented pursuant to sub-subparagraph (A) of this subparagraph (IV), on an annual basis fifty percent of the property taxes levied, or such greater amount as may be set forth in an agreement negotiated by the municipality and the respective public bodies, and allocated in accordance with the requirements of subparagraph (II) of this paragraph (a) shall be paid into the special fund of the municipality and the balance of such taxes shall be paid into the funds of the other public bodies by or for which such taxes are collected. Not later than August 1 of each calendar year, the governing body shall certify to the county assessor an itemized list of the property tax distribution percentages attributable to the special fund of the municipality pursuant to this sub-subparagraph (B) from the mill levies to be certified by each public body. When certifying values to taxing entities pursuant to sections 39-1-111 (5), 39-5-121 (2), and 39-5-128, C.R.S., the assessor shall certify only the percentage of increment value attributable to the special fund pursuant to this sub-subparagraph (B) as certified by the governing body.

(b) The special fund described in subparagraph (II) of paragraph (a) of this subsection (3) and the tax moneys paid into such fund may be irrevocably pledged by the municipality for the payment of the principal of, the interest on, and any premiums due in connection with such bonds, loans, advances, or indebtedness if the question of issuing such bonds or otherwise providing for such loans, advances, or indebtedness and the question of any such intended pledge are first submitted for approval to the qualified electors of the district at a special election to be held for that purpose. Any such election required by this paragraph (b) shall be called by resolution of the board adopted at a regular or special meeting thereof and approved by the

governing body by a vote of a majority of the members thereof at least thirty days prior to such election. Except with respect to the qualifications of electors, such election together with all attendant preparations therefor and proceedings thereafter shall be held and conducted in the manner prescribed by law for the holding and conducting of other regular or special elections in the municipality. This irrevocable pledge shall not extend to any taxes that are placed in a reserve fund to be returned to the county for refunds of overpayments by taxpayers; except that this limitation on the extension of the irrevocable pledge shall not apply to a city and county.

(c) As used in this subsection (3), "taxes" shall include, but not be limited to, all levies authorized to be made on an ad valorem basis upon real and personal property or municipal sales taxes; but nothing in this subsection (3) shall be construed to require any public body to levy taxes.

(d) In the case of such plan of development areas, school districts which include all or any part of such plan of development area shall be permitted to participate in an advisory capacity with respect to the inclusion in a plan of development of the provision provided for by this subsection (3).

(e) In the event there is a general reassessment of taxable property valuations in any county including all or part of the plan of development area subject to division of valuation for assessment under paragraph (a) of this subsection (3) or a change in the sales tax percentage levied in any municipality including all or part of the downtown development area subject to division of sales taxes under paragraph (a) of this subsection (3), the portions of valuations for assessment or sales taxes under both subparagraphs (I) and (II) of paragraph (a) of this subsection (3) shall be proportionately adjusted in accordance with such reassessment or change.

(f) The manner and method by which the requirements of subparagraph (IV) of paragraph (a) of this subsection (3) are to be implemented by the county assessors shall be contained in such manuals, appraisal procedures, and instructions, as applicable, that the property tax administrator is authorized to prepare and publish pursuant to section 39-2-109 (1)(e), C.R.S.

(4) (a) An authority shall not actually undertake a development project for a plan of development area unless the governing body, by resolution, has first approved the plan of development which applies to such development project.

(b) Prior to its approval of a plan of development, the governing body shall submit such plan to the planning board of the municipality, if any, for review and recommendations. The planning board shall submit its written recommendations with respect to the proposed plan of development to the governing body within thirty days after receipt of the plan for review. Upon receipt of the recommendations of the planning board or, if no recommendations are received within said thirty days, without such recommendations, the governing body may proceed with the hearing on the proposed plan of development prescribed by paragraph (c) of this subsection (4).

(c) The governing body shall hold a public hearing on a plan of development or substantial modification of an approved plan of development after public notice thereof by publication once by one publication during the week immediately preceding the hearing in a newspaper having a general circulation in the municipality. The notice shall describe the time, date, place, and purpose of the hearing, shall generally identify the plan of development area covered by the plan, and shall outline the general scope of the development project under consideration.

(d) Following such hearing, the governing body may approve a plan of development if it finds that there is a need to take corrective measures in order to halt or prevent deterioration of property values or structures within the plan of development area or to halt or prevent the growth of blighted areas therein, or any combination thereof, and if it further finds that the plan will afford maximum opportunity, consistent with the sound needs and plans of the municipality as a whole, for the development or redevelopment of the plan of development area by the authority and by private enterprise.

(1) By ordinance adopted by the governing body at a regular or special meeting, by a vote of a majority of the members of the governing body, the municipality may issue bonds, payable solely from revenues or from taxes pledged pursuant to section 31-25-807 (3)(b) or from both such revenues and taxes, to pay all or any part of the cost of any project or for furthering any purpose of this part 8.

(2) The governing body, in determining such costs, may include all costs and estimated costs of the issuance of said bonds; all engineering, inspection, fiscal, and legal expenses; any discount on the sale of the bonds; the cost of any financial, professional, or other expert advice; contingencies; any administrative, operating, or other expenses of the municipality incurred pursuant to the issuance of such bonds, as may be determined by the governing body; all such other expenses as may be necessary or incident to the financing, acquisition, improvement, equipment, and completion of any development project or for furthering any purpose of this part 8; sufficient provision of reserves for working capital, operation, or maintenance or replacement

expense or for payment or security of principal of or interest on any bonds during or after an acquisition or improvement and equipment as the governing body may determine; and reimbursements to any governmental agency or instrumentality for any moneys expended pursuant to agreement on any project or for furthering any purpose of this part 8.

(3) In each such project financed by the proceeds of bonds issued under this part 8, the governing body shall determine the costs of, and may budget a percentage therefrom for, operation and administration of the total cost of the actual project.

(4) The proceeds of the bonds may be expended by the municipality or, with the consent of the municipality, by the authority as agent for, and on behalf of, the municipality. If the proceeds of the bonds are applied for the acquisition of real or personal properties, the governing body may:

(a) Retain title to such properties in its own name and lease or grant licenses or privileges in such properties to the authority in order that the authority may, as principal or agent, exercise its powers with respect to such properties; or

31-25-810. Bond provisions. (1) Bonds issued pursuant to this part 8 shall bear interest at a rate such that the net effective interest rate of the issue of bonds does not exceed the maximum net effective interest rate authorized, payable semiannually or annually, and evidenced by one or two sets of coupons, if any, executed with the facsimile or manually executed signature of any official of the municipality; except that the first coupon appertaining to any bond may evidence interest not in excess of one year. The ordinance authorizing the issuance of such bonds shall specify the maximum net effective interest rate. Such bonds may be issued as term or serial bonds, in one or more series, may bear such date, may mature at such time not exceeding twenty years' duration, may be in such denomination or denominations, may be payable in such medium of payment at such place or places within or without the state (including but not limited to the office of any county treasurer in which the municipality is located wholly or in part), may carry such registration privileges, may be subject to such terms of prior redemption in advance of maturity in such order or by lot or otherwise at such time with or without a premium, may be executed in such manner, may bear such privileges for reissuance in the same or other denomination, may be so reissued, without modification of maturities and interest rates, and may be in such form, either bearer coupon or registered, with such recitals, terms, covenants, conditions, and other details as may be provided by the governing body, subject to the provisions of this part 8.

(2) (a) The governing body may provide for preferential security for any bonds, both principal and interest, to be issued pursuant to this part 8 to the extent deemed feasible and desirable by such governing body over any bonds that may be issued thereafter.

(b) Said bonds may be sold at, above, or below the principal amounts thereof, but they may not be sold at a price such that the net effective interest rate of the issue of bonds exceeds the maximum net effective interest rate authorized.

(c) Said bonds may be sold at public or private sale as determined by the governing body to be in the best interest of the issuer.

(3) Bonds may be issued with privileges for conversion or registration, or both, for payment as to principal or interest, or both; and, where interest accruing on the bonds is not represented by interest coupons, the bonds may provide for the endorsing of payments of interest thereon.

(4) Subject to the payment provisions of this part 8, said bonds, any interest coupons attached thereto, and any temporary bonds shall be fully negotiable within the meaning of and for all the purposes of article 8 of title 4, C.R.S., except as the governing body may otherwise provide; and each holder of each such security, by accepting such security, shall be conclusively deemed to have agreed that such security, except as otherwise provided, is and shall be fully negotiable within the meaning and for all purposes of article 8 of title 4, C.R.S.

(5) Notwithstanding any other provision of law, the governing body in any proceedings authorizing bonds pursuant to this part 8:

(a) May provide for the initial issuance of one or more bonds, referred to in this subsection (5) as "bond", aggregating the amount of the entire issue;

(b) May make such provision for installment payments of the principal amount of any such bond as it may consider desirable;

(c) May provide for the making of any such bond, payable to bearer or otherwise, registrable as to principal or as to both principal and interest and, where interest accruing thereon is not represented by interest coupons, for the endorsing of payments of interest on such bonds;

(d) May further make provision in any such proceedings for the manner and circumstances in and under which any such bond may in the future, at the request of the holder thereof, be converted into bonds of smaller denominations, which bonds of smaller denominations may in turn be either coupon bonds or bonds registrable as to principal, or principal and interest, or both.

(6) If lost or completely destroyed, any security authorized by this part 8 may be reissued in the form and tenor of the lost or destroyed security upon the owner furnishing, to the satisfaction of the governing body, proof of ownership; proof of loss or destruction; a surety bond in twice the face amount of the security, including any unmatured coupons appertaining thereto; and payment of the cost of preparing and issuing the new security.

(7) Any officer authorized to execute any bond, after filing with the secretary of state his manual signature certified by him under oath, may execute or cause to be executed, with a facsimile signature in lieu of his manual signature, any bond authorized in this part 8, if such a filing is not a condition of execution with a facsimile signature of any interest coupon, and if at least one signature required or permitted to be placed on each such bond, excluding any interest coupon, is manually subscribed. An officer's facsimile signature shall have the same legal effect as his manual signature.

31-25-811. Refunding bonds. (1) By ordinance adopted by the governing body at a regular or special meeting, by vote of a majority of the members of the governing body, any bonds issued under this part 8 may be refunded by the municipality without an election, subject to the provisions concerning their payment and to any other contractual limitations in the proceedings authorizing their issuance or otherwise relating thereto.

(2) Any bonds issued for refunding purposes may either be delivered in exchange for the outstanding bonds authorized to be refunded or may be sold as provided in this part 8 for the sale of other bonds.

(3) No bonds may be refunded under this part 8 unless the holders thereof voluntarily surrender them for exchange or payment or unless they either mature or are callable for prior redemption under their terms within ten years from the date of issuance of the refunding bonds. Provision shall be made for paying the bonds within said period of time. No maturity of any bonds refunded may be extended over fifteen years. The rate of interest on such refunding bonds shall be determined by the authority. The principal amount of the refunding bonds may exceed the principal amount of the refunded bonds if the aggregate principal and interest costs of the refunding bonds do not exceed such unaccrued costs of the bonds refunded, except to the extent any interest on the bonds refunded in arrears or about to become due is capitalized with the proceeds of the refunding bonds. The principal amount of the refunding bonds may also be less than or the same as the principal amount of the bonds refunded so long as provision is duly and sufficiently made for their payment.

(4) The proceeds of refunding bonds shall either be immediately applied to the retirement of the bonds to be refunded or be placed in escrow or in trust to be applied to the payment of the bonds refunded upon their presentation therefor. Any proceeds held in escrow or in trust, pending such use, may be invested or reinvested in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S. Such proceeds and investments in escrow or in trust, together with any interest or other gain to be derived from any such investment, shall be in an amount at all times sufficient as to principal, interest, any prior redemption premium due, and any charges of the escrow agent or trustee payable therefrom to pay the bonds refunded as they become due at their respective maturities or due at designated prior redemption dates upon which the authority shall be obligated to call the refunded bonds for prior redemption.

(5) The relevant provisions pertaining to bonds generally shall be equally applicable in the authorization and issuance of refunding bonds, including their terms and security, the bond resolution, trust indenture, taxes, and revenues, and other aspects of the bonds.

(a) By an action in the nature of mandamus or other suit, action, or proceeding at law or in equity to enforce his rights against the municipality and to require and compel the governing body to perform its duties and obligations under this part 8 and its covenants and agreements with the bondholders;

The district shall be a quasi-municipal corporation and political subdivision of the state with all powers and responsibilities thereof.

In such event, the presiding officer of the governing body shall be ex officio the presiding officer of the board, the clerk of the governing body shall be ex officio the secretary of the board, and the treasurer of the municipality shall be ex officio the treasurer of the board. A quorum of the governing body shall constitute a quorum of the board.

(b) The governing body of the municipality may, at any time, provide by ordinance for the creation of a board of directors of the district consisting of not fewer than five members. Each member shall be an elector of the district appointed by the governing body or, if designated by the governing body, by the mayor of the municipality; except that, if possible, no more than one-half of the members of the board may be affiliated with one owner or lessee of taxable real or personal property in the district. Each member shall serve at the pleasure of the municipality. Within thirty days after a vacancy occurs, a successor shall be appointed in the same manner as the original appointment. Within thirty days after his appointment, except for good cause shown, each member shall appear before an officer authorized to administer oaths and take an oath that he will faithfully perform the duties of his office as required by law and will support the constitution of the United States, the state constitution, and laws made pursuant thereto. A majority of the members shall constitute a quorum of the board. The board shall elect one of its members as presiding officer, one of its members as secretary, and one of its members as treasurer. The office of both secretary and treasurer may be filled by one person.

(c) If more than one-half of the property located within the district is also located within an urban renewal area, a downtown development authority, or a general improvement district, the governing body of the municipality may, at any time, provide by ordinance that the governing body of the urban renewal authority, downtown development authority, or general improvement district created by the municipality shall constitute ex officio the board of directors

of the district. In such event, the officers of such entity shall be ex officio the officers of the board. A quorum of the board of directors of such entity shall constitute a quorum of the board.

(d) If the petition initiating the organization of the district or any subsequent petition signed by persons who own real or personal property in the service area of the proposed district having a valuation for assessment of not less than fifty percent, or such greater amount as the governing body may provide by ordinance, of the valuation for assessment of all real and personal property in the service area of the proposed district and who own at least fifty percent, or such greater amount as the governing body may provide by ordinance, of the acreage in the proposed district so specifies, the members of the board of the district shall be elected by the electors of the district. If such a petition is approved, the terms of members of the board must be specified by ordinance of the governing body and shall be the same as the terms of directors of special districts pursuant to article 1 of title 32, C.R.S. The initial election for members of the board must be held within ninety days after approval of the ordinance organizing the district or the filing of any subsequent petition. All subsequent elections for members of the board must be on the regular election date specified in article 1 of title 32, C.R.S., for special districts. The number of directors, the quorum requirements, and the oaths of office shall be the same as those provided for directors of special districts pursuant to article 1 of title 32, C.R.S. Any vacancy on the board must be filled in the same manner as provided in paragraph (b) of this subsection (1). Until the members of the board are elected and qualified, the governing body shall serve as the board of the district. Elections pursuant to this paragraph (d) must be held in accordance with the provisions of part 8 of article 1 of title 32, C.R.S. The cost of any election held pursuant to this paragraph (d) must be borne by the district.

(e) The governing body of the municipality may remove a member of the board of a district or the entire board thereof for inefficiency or neglect of duty or misconduct in office, but only after the member or the board has been given a copy of the charges made by the governing body against such member or such board and has had an opportunity to be heard in person or by counsel before the governing body. In the event of the removal of any member of the board or of the board pursuant to this paragraph (e), the governing body shall file in the office of the clerk thereof a record of the proceedings, together with the charges made against the member or the board and the findings thereon.

(f) Ten percent of the electors of a district may petition the governing body of the municipality for the removal of a member of the board of the district or of the entire board thereof for inefficiency or neglect of duty or misconduct in office, and the governing body may remove the member or the board, but only after the member or the board has been given a copy of the charges made against such member or such board and has had an opportunity to be heard in person or by counsel before the governing body. In the event of the removal of the member or of the board pursuant to this paragraph (f), the governing body shall file in the office of the clerk thereof a record of the proceedings, together with the charges made against the member or the board and the findings thereon.

(2) The board shall adopt a seal. The secretary shall keep in a visual text format that may be transmitted electronically a record of all proceedings, minutes of meetings, certificates, contracts, and corporate acts of the board, which shall be open to inspection by the electors of the district and other interested parties. The treasurer shall keep permanent records containing accurate accounts of all money received by and disbursed for and on behalf of the district and shall make such annual or other reports to the municipality as it may require. All budgets and

financial records of the district, whether governed by a separate board or by the governing body of the municipality, shall be kept in compliance with parts 1 and 5 of article 1 of title 29, C.R.S.

(3) Each member of the board of a district or the governing body of the municipality or other entity acting ex officio as the board of a district is required to disclose any potential conflicting interest in any transaction of the district pursuant to section 18-8-308, C.R.S. A board member with a potential conflicting interest in a district transaction may not participate in the considerations of and vote on the transaction, may not attempt to influence any of the contracting parties, and may not act directly or indirectly for the board in the inspection, operation, administration, or performance of any contract related to the transaction. Ownership, in and of itself, by a board member of property within the district shall not be considered a potential conflicting interest.

(4) When the governing body of the municipality establishes a board of directors pursuant to paragraph (b), (c), or (d) of subsection (1) of this section, it may set such conditions, limitations, procedures, duties, and powers under which the board shall conduct its business. Such conditions and limitations may be in the form of a binding contract on both the governing body of the municipality and the board and may include provisions requiring the dissolution of the board after a specified length of time, at which time the governing body of the municipality shall assume all powers and duties of the district, including the payment of any outstanding indebtedness.

The operating plan or budget shall specifically identify the services or improvements

to be provided by the district, the taxes, fees, or assessments to be imposed by the district, the estimated principal amount of bonds to be issued by the district, and such additional information as the municipality may require. All of the business records of the district shall be considered public records, as defined in section 24-72-202 (6), C.R.S., and shall promptly be made available to the municipality upon request. For the purposes of this section, the business records of the district shall not include the business records of the owners of property in the district. The municipality may require the district to supplement the district's operating plan or budget where necessary. The municipality shall approve or disapprove the operating plan and budget within thirty days after receipt of such operating plan and budget and all requested documentation relating thereto, but not later than December 5 of the year in which such documents are filed. Thereafter, the services, improvements, and financial arrangements of the district shall conform so far as practicable to the operating plan and the budget. The operating plan and the budget may, from time to time, be amended by the district with the approval of the municipality in substantially the same manner as the process for formulating the operating plan and budget for each year. Any material departure from the operating plan and the budget, as originally approved or amended from time to time, may be enjoined by an order of the municipality filed with the board.

The board may pledge such revenue for the payment of any bonds of the district. 31-25-1214. Determining and fixing rate of levy. The board shall determine the amount of money necessary to be raised by a levy on the taxable property in the district, taking into consideration other sources of revenue of the district, and shall fix a rate of levy which, when levied upon every dollar of the valuation for assessment of taxable property within the district together with other revenues, shall raise the amount required by the district during the ensuing fiscal year to supply funds for paying the expenses of organization and the costs of providing the services of the district and acquiring, constructing, installing, and operating the improvements or works of the district and promptly to pay in full when due all interest on and principal of bonds and other obligations of the district. In the event of accruing defaults or deficiencies, additional levies may be made as provided in section 31-25-1215. In accordance with the time schedule provided in section 39-5-128, C.R.S., the board shall certify to the board of county commissioners of each county in which the district or a portion thereof lies the rate so fixed in order that, at the time and in the manner required by law for the levying of taxes, such board of county commissioners shall levy such tax upon the valuation for assessment of all taxable property within the district.

31-25-1215. Levies to cover deficiencies. The board, in certifying annual levies, shall take into account the maturing indebtedness for the current and ensuing year as provided in its

contracts, maturing bonds, and interest on bonds and the deficiencies and defaults of prior years and shall make ample provisions for the payment thereof. In case the moneys produced from such levies, together with other revenues of the district, are not sufficient to pay punctually the annual installments on its contracts or bonds and interest thereon and to pay defaults and deficiencies, the board, from year to year, shall make such additional levies of taxes as may be necessary for such purposes, and, notwithstanding any limitations, such taxes shall be levied and shall continue to be levied until the indebtedness of the district is fully paid.

31-25-1219. Special assessments. (1) In order to defray all or any portion of the costs of the improvements provided by the district, the board may establish special improvement districts within the boundaries of the district. Such special improvement districts may be established whenever in the opinion of the board property in the district will be especially benefited by such improvements. The method of creating special improvement districts, making the improvements, and assessing the costs thereof shall be as provided in part 5 of this article; except that the electors eligible to vote on the question shall be electors as defined in section 31-

25-1203 (4) of the district or the special improvement district, as determined by the board, the board shall perform the duties of the governing body, the secretary of the district shall perform the duties of the clerk, and the improvements which may be constructed shall be the improvements which the district is permitted to provide pursuant to this part 12.

(2) (a) In order to defray all or any portion of the costs of providing services, the board may impose special assessments wholly or in part upon real property located within the boundaries of the district. Prior to imposing a special assessment, the board shall adopt a resolution setting a date, which shall be not less than twenty days nor more than forty days after the adoption of the resolution, a time, and a location for a hearing on the question of the imposition of such special assessment and the benefit to be derived by the property upon which such special assessment will be imposed. The resolution shall include a form of notice, which shall describe the property on which the assessment shall be levied, the purposes for which the assessment is to be levied, the proposed method of assessment and the manner of payment thereof, and the right of the owners of the property to be assessed to file a remonstrance petition. Thereupon, the board shall give the notice by publication and cause a copy of said notice to be mailed by first-class mail to each owner of the property to be assessed at his last-known address, as disclosed by the tax records of the county or counties in which the district is located.

(b) On the date and at the time and place specified in the notice, the board shall conduct a hearing for the purpose of considering the desirability of and the need for providing the service and imposing the assessment therefor and determining the special benefits to be received by the properties to be assessed. No assessment shall be imposed if a remonstrance petition objecting to the assessment and signed by the owners of the property which would bear more than one-half of the proposed assessment is filed with the board prior to or at the hearing. After the hearing, the board shall adopt a resolution either approving or disapproving the proposed assessment. The resolution shall apportion the relative benefits to the real properties benefited by the service. Thereafter, the board shall cause to be prepared a local assessment roll. All assessments shall be due and payable at the time and place specified in the assessing resolution and said assessments shall become delinquent if not paid with thirty days of such due date.

(c) The board shall cause to be mailed by first-class mail to each owner of property specified on the assessment roll a notice of the amount of the assessment, the due date, and a statement that the assessment shall constitute a perpetual lien from the date of mailing of the notice in the amount assessed against each lot or tract of land, and a statement that such lien shall have priority over all other liens except general tax liens. As to any subsequent subdivision of any lot or tract of land assessed, the assessment may be apportioned by the board in such manner, if any, as may be provided in the assessing resolution. If any court of competent jurisdiction sets aside any assessment for irregularity in the proceedings, the board may make a new assessment in accordance with the provisions of this subsection (2). If an assessment is not paid within thirty days after its due date, penalty interest on the amount of the assessment shall accrue at the rate established pursuant to section 5-12-106 (2) and (3), C.R.S., until the date of sale or payment.

(d) The assessments imposed by this section shall be collected by the officer of the district designated in the assessment resolution or, by agreement with the municipality, by the municipal treasurer. In the case of a default in the payment of any assessment, the collection officer shall certify to the county treasurer the whole amount of the unpaid assessments. The county treasurer shall advertise and sell all property concerning which such a default has

occurred for the payment of the whole of the unpaid assessment, plus penalties and costs of collection. Such advertisement and sale shall be made at the same times, in the same manner, under all the same conditions and penalties, and with the same effect as provided by general law for sales of real estate and default of payment of the general property tax.

31-25-1220. Inclusion or exclusion - petition - notice - hearing. (1) The boundaries of any district organized under the provisions of this part 12 may be changed in the manner prescribed in this section, but the change of boundaries of the district shall not impair or affect its organization or its rights in or to property or any of its rights or privileges whatsoever, nor shall it affect or impair or discharge any contract, obligation, lien, or charge for or upon which the district might be liable or chargeable had any such change of boundaries not been made. The owners of property proposed to be included or excluded may file with the governing body a petition, in writing, requesting that such property be included in or excluded from the district. The petition shall describe the property owned by the petitioners and shall be verified. The petition shall be accompanied by a deposit of moneys sufficient to pay all costs of the inclusion or exclusion proceedings. The clerk of the governing body shall cause notice of the filing of such petition to be given and published, which notice shall state the filing of such petition, the names of the petitioners, descriptions of the property sought to be included or excluded, and the request of said petitioners.

(2) Such notice shall inform all persons having objections to appear at the time and place stated in said notice and show cause why the petition should not be granted. The governing body, at the time and place mentioned or at any time to which the hearing may be adjourned, shall proceed to hear the petition and all objections thereto which may be presented by any person showing cause why said petition should not be granted. The failure of any interested person to show cause shall be deemed as an assent on his part to the inclusion or exclusion of such property as requested for in the petition. If the change of boundaries of the district does not adversely affect the district and if the petition is granted, the governing body shall adopt an ordinance to that effect and file a certified copy of the same with the county clerk and recorder of the county in which the property is located. Thereupon, said property shall be included or excluded from the district.

(3) All property included within or excluded from a district shall thereafter be subject to the levy of taxes for the payment of its proportionate share of any indebtedness of the district outstanding at the time of inclusion or exclusion.

31-25-1221. Board can issue bonds - form. To carry out the purposes of this part 12, the board, with the approval of the municipality if the board is appointed pursuant to section 31-25-1209 (1)(b) or (1)(c), is hereby authorized to issue bonds of the district. Such bonds shall bear interest at a rate such that the net effective interest rate of the issue of bonds does not exceed the maximum net effective interest rate authorized, payable at such times as determined by the

board, and shall be due and payable in installments at such times as determined by the board extending not more than twenty years from the date of issuance. The form and terms of said bonds, including provisions for their sale, payment, and redemption, shall be determined by the board. If such bonds are payable from the general ad valorem taxes of the district, such bonds shall not be issued unless first approved at an election held pursuant to section 31-25-1222. Bonds payable solely from revenues derived from sources other than the district's general ad valorem tax may be issued without an election. If the board so determines, such bonds may be redeemable prior to maturity, with or without payment of a premium, but no premium shall exceed three percent of the principal thereof. The bonds shall be executed in the name of and on behalf of the district and signed by the presiding officer of the board with the seal of the district affixed thereto and attested by the secretary of the board. Such bonds shall be in such denominations as the board shall determine. Interest coupons, if any, shall bear the original or facsimile signature of the presiding officer of the board. Under no circumstances shall any of said bonds be held to be an indebtedness, an obligation, or a liability of the municipality in which the district is located, and bonds issued pursuant to the provisions of this part 12 shall contain a statement to that effect.

31-25-1222. Submission of debt question. (1) When any board determines that the interest of said district and the public interest or necessity demand the acquisition, construction, installation, or completion of any improvements or the provision of any service within the district or the making of any contract with the United States or with any person or corporation to carry out the objects or purposes of said district requiring the creation of an indebtedness, said board shall order the submission to the electors of the proposition of issuing such obligations or bonds or creating other indebtedness at an election held for that purpose. Such election shall be held and conducted and the results thereof declared in the manner provided in part 8 of article 1 of title 32, C.R.S. Any such election may be held, on any date selected by the board, separately or may be consolidated or held concurrently with any other regular or special election. The declaration of public interest or necessity required and the provisions for the holding of such election may be included within one and the same resolution, which, in addition to such declaration of public interest or necessity, shall recite the objects and purposes for which the indebtedness is proposed to be incurred, the estimated cost of the works or improvements, as the case may be, the amount of the principal of the indebtedness to be incurred therefor, and the maximum net effective interest rate to be paid on such indebtedness.

(2) Such resolution shall also fix the date upon which such election shall be held and the manner of holding the same and the method of voting for or against the incurring of the proposed indebtedness or the making of the proposed contract. Such resolution shall appoint a designated election official and provide for the duties thereof.

31-25-1223. Effect - subsequent elections. If any such proposition is approved at such election in the manner required by part 8 of article 1 of title 32, C.R.S., the district is authorized to incur such indebtedness or obligation, enter into such contract, or issue and sell such bonds of the district, as the case may be, all for the purposes and objects specified in the proposition submitted, in the amount so provided, and at a rate of interest such that the maximum net effective interest rate specified in the proposal is not exceeded. The bonds may be sold at public or private sale, as determined by the board to be in the best interests of the district. Submission of the proposition of incurring such obligation or bonded or other indebtedness at such an election shall not prevent or prohibit submission of the same or other propositions at subsequent elections called for such purpose.

(III) For a retirement pension pursuant to section 31-30-1123, two hundred dollars per month;

(I) (A) Repealed.

(B) As of July 1, 2004, the department of local affairs shall be responsible for disbursing the state contribution to each municipality and district. (II) (A) Repealed.

(B) To the extent that the state's contribution under this section exceeds contributions made by the state during the calendar year 1979, the state treasurer shall transfer the excess amounts from the proceeds of the tax imposed by section 10-3-209, C.R.S., to the department of local affairs on or before October 31, 2004, and on or before October 31 of each year thereafter, for disbursement to the municipality or district's funds.

(C) Moneys transferred under this subparagraph (II) shall be separate from and in addition to moneys transferred under section 31-30.5-307 (2) and do not revert to the general fund but are available for the purposes provided in this section.

(j) It is the intent of the general assembly to continually fund volunteer firefighter pension plans.

(3) (a) The department of local affairs shall work with the municipalities and the districts to develop a procedure by which municipalities and districts apply to receive state assistance moneys distributed pursuant to this section. The application procedure must ensure that the department can verify the amount of money to which each municipality and district is entitled before the department transfers funds to the municipalities and districts each year.

(b) The department of local affairs shall work with the joint budget committee to develop a procedure that allows any municipality or district to apply for a late disbursement of moneys in the event that such municipality or district made a good faith effort, but was unable to comply with the application procedure created pursuant to paragraph (a) of this subsection (3) due to a delay in preparing a financial statement or completing a required audit or actuarial study.

(4) (a) The department of local affairs may impose a nonrefundable application fee in an amount to be determined by the department on any municipality or district that applies to the department for state assistance moneys distributed pursuant to this section. The application fee may be on a sliding scale based on the amount of state assistance moneys distributed to each fund pursuant to this section in the previous year.

(b) All revenue collected by the department of local affairs from the fee imposed pursuant to paragraph (a) of this subsection (4) shall be transmitted to the state treasurer who shall credit the revenue to the volunteer fire department application fund, which fund is hereby created in the state treasury. The moneys in the fund shall be continuously appropriated to the department for the purpose of covering the direct costs of administering the distribution of the state contribution moneys pursuant to this section.

(5) The department of local affairs shall have the authority to contract with any entity for the purpose of complying with the requirements of this section.

(a) A short-term disability monthly annuity for not more than one year in an amount it determines is proper and equitable, considering the financial condition of the fund, but not more than one-half the amount paid by the board pursuant to section 31-30-1122 (1) or two hundred twenty-five dollars, whichever is greater; or

(b) A long-term disability monthly annuity for a disability that deprives the volunteer firefighter of an earning capacity and that extends beyond one year in an amount it determines is proper and necessary but not more than the amount paid by the board pursuant to section 31-30-1122 (1) or four hundred fifty dollars, whichever is greater. 31-30-1122. Retirement pension. (1) The board of a municipality, with the prior consent of the municipality's governing body, or the board of a fire protection district or county improvement district may pay a retirement pension to a volunteer firefighter who has twenty years of active service and who is over the age of fifty years. The retirement pension shall be an amount determined by the board of not more than one hundred dollars per month, unless an actuarial review indicates a higher payment is actuarially sound; except that any such amount determined by the board of a municipality shall be made with the prior consent of the municipality's governing body. Pensions that make payments in excess of three hundred dollars per month are subject to the state contribution limitation specified in section 31-30-1112 (2)(b). Except as provided in section 31-30-1132, a volunteer firefighter shall not receive a retirement pension for service in a fire department while the firefighter is an active member of that department. A volunteer firefighter shall maintain a minimum training participation in the fire department of thirty-six hours each year to qualify for retirement benefits. A volunteer firefighter who has served twenty years and who has not reached the age of fifty years may be granted a

leave of absence and retain all rights to a retirement pension and is entitled to the retirement pension when the firefighter is fifty years of age.

(2) Notwithstanding subsection (1) of this section, the board may pay a retirement pension to a volunteer firefighter who has less than twenty years of active service if the municipality's or district's fund is actuarially sound. The board shall determine the period of active service necessary to qualify for this retirement pension, but in no event shall such period be less than ten years of active service. The board shall not pay this retirement pension until the volunteer firefighter is fifty years of age. The amount of this retirement pension shall be determined by prorating the amount of the retirement pension under subsection (1) of this section based on the volunteer firefighter's years of service.

(3) Whenever the board increases the retirement pension benefit payable pursuant to subsection (1) of this section, such increase may also be applied to the pension benefit of any retired volunteer firefighter receiving the pension benefit specified in subsection (1) of this section at the time of such increase. The applicable pro rata share of any such increase, based upon the number of years of service, may also be applied to the pension benefit of any retired volunteer firefighter receiving the pension benefit specified in subsection (2) of this section at the time of such increase. Whenever the board elects to apply any retirement pension increase permitted under this subsection (3), the board shall apply such increase to the retirement pension of all retired volunteer firefighters in a fire department who are eligible for such increase under this subsection (3). Any actuarial review required under subsection (1) of this section shall include the cost of any retirement pension increase permitted under this subsection (3).

31-30-1123. Retirement pension - sources of payment. The retirement pension of a volunteer firefighter who has earned twenty years of active service as a volunteer firefighter for any one municipality or district shall be paid from the fund of that municipality or district, and no other fund shall pay a pension to that volunteer firefighter. The retirement pension of a volunteer firefighter who earns twenty years of active service as a volunteer firefighter after June 2, 1977, by serving more than one municipality or district shall be paid from the fund of each municipality or district for which the volunteer firefighter served at least five years. The amount paid by each fund for each year of service with the particular municipality or district shall equal one-twentieth of the retirement pension being paid by that fund on the day the volunteer firefighter left the service of the particular municipality or district. The retirement pension of a volunteer firefighter who earns twenty years of active service as a volunteer firefighter by serving more than one municipality or district shall be paid only by the municipality or district last served by that volunteer firefighter if any part of the twenty years of service was earned on or before June 2, 1977. In no event shall a volunteer firefighter receive a total retirement benefit from all volunteer firefighter pension funds exceeding the maximum amount paid by the board

from such funds pursuant to section 31-30-1122 (1) or four hundred fifty dollars, whichever is greater.

31-30-1124. Compliance - insufficient moneys. (1) The board may require information, including proof of years of service, and establish procedures as it deems necessary to ensure compliance with the requirements and limitations of sections 31-30-1122 and 31-30-1123.

(2) If at any time money or other property in the fund is insufficient to pay the full amount per month to which each volunteer firefighter receiving a pension under this part 11 and other beneficiary of the fund is entitled, an equal percentage of the monthly payment shall be made to those volunteer firefighters and other beneficiaries until the fund is replenished in an amount that permits payment in full to those volunteer firefighters and other beneficiaries.

31-30-1125. Supplemental retirement pension. (1) In addition to the monthly retirement pension provided by section 31-30-1122, the board of a municipality, with the prior consent of the municipality's governing body, or the board of a fire protection district or county improvement district may pay a supplemental monthly retirement pension to a volunteer firefighter who is fifty years of age and who has been in active service more than twenty years if:

(a) An actuarial review indicates a supplemental monthly pension payment is actuarially sound; and

(b) Sixty-five percent of the total number of fire department members and retired fire department members give prior approval.

(2) The supplemental monthly pension payment shall not exceed five percent of the monthly pension payment provided by section 31-30-1122 multiplied by the number of years of active service in excess of twenty years, up to a maximum of ten years; except that the total of the monthly retirement pension payment provided by section 31-30-1122 and the supplemental monthly pension payment shall not exceed an amount that is actuarially sound.

(1) Except as otherwise provided in subsection (3) of this section, upon the death of a retired fire department member or a volunteer firefighter who, regardless of age, has served the requisite number of years for retirement under section 31-30-1122 and who leaves a surviving spouse, the board may pay an annuity of not more than fifty percent of the current pension payment for a retired fire department member if the fund is actuarially sound. If the volunteer firefighter had less than twenty years of active service, the annuity to the surviving spouse shall be prorated based upon the number of years of service.

(2) This annuity to the surviving spouse shall cease if the surviving spouse remarries. Dissolution of a subsequent marriage does not reinstate the annuity. A surviving spouse shall not receive both an annuity under section 31-30-1127 and an annuity under this section.

(3) The benefits under this section do not apply if the optional survivor benefits under section 31-30-1128 are provided.

(4) The benefits under this section may be increased in the same manner as postretirement benefit increases as provided in section 31-30-1122 (3), subject to the state contribution limit set forth in section 31-30-1112 (2).

31-30-1128. Optional survivor benefits. (1) Notwithstanding the provisions of sections 31-30-1126 and 31-30-1127 relating to payment of annuities in the event of the death of a volunteer firefighter in active service, the board in any municipality, with the prior consent of the governing body of such municipality, fire protection district, or county improvement district having a volunteer fire department may provide to the active members of the volunteer fire department the option of having the survivor benefits offered by this section in lieu of the purchase of individual, group, or blanket life, endowment, or annuity or variable annuity insurance pursuant to section 31-30-1114 (1)(a)(I) and (1)(a)(II) and in lieu of the survivor benefits provided to active volunteer firefighters pursuant to sections 31-30-1126 and 31-30-1127 if the following conditions are met:

(a) Sixty-five percent of the active and retired volunteer firefighters of the affected volunteer fire department consent in writing to the option provided by this section;

(b) An actuarial review by an independent actuary indicates the option provided by this section is actuarially sound and will not impair the ability of pension funds to pay the annuities to a beneficiary or to pay pensions; and

(c) If a municipality intends to provide the option provided by this section, the governing body of the municipality consents to the option.

(2) The governing body of a municipality or the board of a fire protection district or county improvement district having a volunteer fire department that intends to provide the option provided by this section shall determine whether the survivor benefits are allowed only if the volunteer firefighter dies while on duty and shall determine the benefit amount equal to up to one hundred percent of the amount of the pension the volunteer firefighter would have been entitled to under this part 11 if the volunteer firefighter had retired immediately before the volunteer firefighter's death. If survivor benefits are provided pursuant to subsection (1) of this section to the members of a volunteer fire department and if a volunteer firefighter who is a member of such fire department dies on duty or, if authorized by the governing body or board, off duty, a spouse, dependent child, or dependent parent of the volunteer firefighter or, lacking such dependents, any other beneficiary who is a natural person and who has been designated by the volunteer firefighter shall receive a monthly annuity in the amount determined pursuant to this subsection (2).

(3) If survivor benefits are provided pursuant to subsection (1) of this section, the board shall pay the annuity authorized by this section to the designated beneficiary or to the legal guardian of the designated beneficiary who is a child under the age of eighteen as follows:

(a) Until the death of the beneficiary;

(b) If the beneficiary is a child under the age of eighteen, until the death of the child or until the child is eighteen years of age;

(c) If the beneficiary is a full-time student in an educational or vocational institution, until the beneficiary is twenty-three years of age;

(d) If the beneficiary is the surviving spouse, until the surviving spouse remarries; or

(e) Until the proceeds of the insurance policies provided in subsection (4) of this section and the accrued interest on such insurance proceeds are exhausted.

(4) To pay the costs of the option provided pursuant to this section, the board shall insure members of the volunteer fire department by insurance policies of individual, group, or blanket life, endowment, or annuity insurance or variable annuity insurance. The pension fund must be the beneficiary of these insurance policies, and the proceeds of these insurance policies shall be paid to the board as an addition to the fund. Payment of the premiums on these policies shall be paid from the existing pension fund assets, from additional local contributions made to the existing pension fund for payment of the premiums, or both; except that, notwithstanding the provisions of section 31-30-1112 concerning the amount of state contributions to the pension fund, additional state contributions shall not be made to the existing pension fund assets for payment of the premiums on these policies or as a result of additional local contributions made to the existing pension fund for payment of the premiums.

(5) If survivor benefits are provided pursuant to subsection (1) of this section and if a volunteer firefighter terminates active duty before retirement, the board may allow the firefighter to purchase any insurance policy that was purchased pursuant to subsection (4) of this section at a price equal to the cash value of the policy. If the firefighter does not purchase the policy, the board shall surrender the policy for its cash value. Moneys obtained by the board pursuant to this subsection (5) shall be deposited in the pension fund and used to pay the costs of the survivor benefits provided pursuant to this section.

(6) The survivor benefits provided pursuant to subsection (1) of this section may be terminated at any time by either:

31-30.5-209. Idle funds. (1) If the governing body of a municipality, by resolution, finds that no person named in this article is, and no such person can become, eligible for payment of a benefit from the municipality's police officers' old hire pension fund established pursuant to section 31-30.5-201 (2), it may authorize use of the money in the fund to make contributions to the defined benefit system trust fund pursuant to section 31-31-402 (2), to make contributions to a police benefit fund established pursuant to section 31-31-601 (1)(b), or to make contributions under the federal social security laws if the municipality's police officers are covered by the social security laws. To the extent that money in the fund exceeds three times the present yearly employer contribution to any of the preceding benefit funds on behalf of the municipality's current police officers, such excess may be used for any law-enforcement-related purpose. If the municipality does not employ any police officer, the governing body may authorize use of the money in the fund for any law-enforcement-related purpose. In addition, any money in the fund that is attributable to contributions by the municipality and to interest on such contributions may be used for any police-related purpose and, if no such police-related need exists, then for any purpose as decided by the governing body of the municipality. For the purposes of this subsection (1), contracting with the county or county sheriff for law enforcement service shall not be considered employment of a police officer.

(2) If the governing body of a municipality, fire protection district, or county improvement district, by resolution, finds that no person named in this article is, and no such person can become, eligible for payment of a benefit from the employer's firefighters' old hire pension fund, it may authorize use of the money in the fund to make contributions to the defined benefit system trust fund pursuant to section 31-31-402 (2) or to make contributions under the federal social security laws if the employer's firefighters are covered by the social security laws. In addition, any money in the fund that is attributable to contributions by the municipality or district and to interest on such contributions may be used for any fire-related purpose and, if no such fire-related need exists, for any purpose as decided by the governing body of the municipality or district.

(3) (a) At least sixty days before adoption of a resolution permitted by subsection (1) or (2) of this section, the governing body of the municipality or district shall publish one notice in a newspaper having general circulation within the municipality or district and shall provide a copy of such published notice to the board of directors of the state fire and police pension association established pursuant to section 31-31-201 (1). The notice shall state the intent of the governing body to use the money in the fund for the purposes permitted in this section. The notice shall state that persons who believe they are or may be entitled to benefit payments from the fund shall have fifty days from the date of the notice in which to file an objection, in writing, with the governing body regarding its proposed use of the fund. If any such written objection is received, the governing body shall hold a public hearing before adoption of any resolution under this section with prior published notice of the time and place of the hearing as well as written notice of such hearing mailed, by certified mail, to each person filing a written objection.

(b) If, within one year after adoption of a resolution pursuant to this section, any person establishes a claim to a benefit from the fund, the municipality or district shall repay to the fund any money expended from such fund pursuant to this section, and no such additional expenditures shall be made from the fund.

(4) (a) (I) Notwithstanding the provisions of subsections (1) and (2) of this section and subject to the provisions of paragraph (c) of this subsection (4), if no members are active

participants in an employer's old hire pension plan established under this article, the governing body of the employer, by resolution, may authorize the use of the excess balance in the plan fund for the purposes permitted in subsections (1) and (2) of this section. If a governing body authorizes the use of the excess balance under this subsection (4), the employer shall maintain the plan fund at a level equal to at least two times the amount necessary to fund the benefit liabilities of any persons continuing to receive benefits from the plan fund.

(II) For purposes of this paragraph (a), "excess balance" means the amount in an old hire plan fund in excess of two times the amount necessary to fund the benefit liabilities of persons continuing to receive benefits from the plan fund, as determined by the plan's actuary. In determining the excess balance in an old hire plan fund, the actuary shall utilize the assumptions approved by the board of directors of the fire and police pension association pursuant to section 31-30.5-306 (2)(b).

(b) Notwithstanding the provisions of subsections (1) and (2) of this section and paragraph (a) of this subsection (4) and subject to the provisions of paragraph (c) of this subsection (4), if no members are active participants in an employer's old hire pension plan established under this article and the plan provides no rank escalation benefit to persons receiving benefits from the plan fund, the board, after disclosure to the affected retirees, is authorized to use the assets in the plan fund for the purpose of purchasing annuities in amounts sufficient to pay any required benefits, including nondiscretionary cost-of-living adjustments required under the plan, to those persons who continue to receive benefits from the plan fund. If the board purchases annuities for such persons, the governing body of the employer, by resolution, may authorize the use of any additional funds that remain in the plan fund after purchasing such annuities for the purposes permitted in subsections (1) and (2) of this section. Annuities may be purchased pursuant to this paragraph (b) only from insurance companies rated at least A+ by the A.M. Best company or rated at least AA by Standard & Poors Corporation. If there is a default on the payment of benefits resulting from an annuity purchased under this paragraph (b), the employer remains liable to make any required benefit payments to persons for whom the annuities were purchased.

(c) Moneys in the plan fund in excess of the amount required to purchase annuities as provided in paragraph (b) of this subsection (4), if any, may be used to purchase additional benefits or may be treated as an excess balance as provided in paragraph (a) of this subsection (4).

In addition, upon the request of an employer, the board shall permit the modification of any provision of an old hire pension plan necessary to comply with state or federal law. Such modification may be made without the approval of the active and retired old hire members. FUNDING - STATE-ASSISTED PLANS

31-30.5-301. Legislative declaration. The general assembly finds and declares that the establishment of statewide actuarial standards regarding funded and unfunded liabilities of state-assisted old hire police officers' and firefighters' pension funds established pursuant to this article is a matter of statewide concern affected with a public interest, and the provisions of this part 3 are enacted in the exercise of the police powers of this state for the purpose of protecting the health, peace, safety, and general welfare of the people of this state. The general assembly further declares that state moneys provided to municipalities, fire protection districts, and county improvement districts do not constitute an obligation of the state to participate in the costs of pension plan benefits but are provided in recognition that said local governments are currently burdened with financial obligations relating to pensions in excess of their present financial capacities. It is the intent of the general assembly in providing state moneys to assist said local governments that state participation decrease annually, terminating at the earliest possible date.

31-30.5-702. Police officers' old hire pension plans - municipalities under one hundred thousand in population. (1) If an old hire member of any police department in a municipality having a population of less than one hundred thousand, while in the performance of the member's duty or by reason of service in such department, becomes physically or mentally disabled and such disability is deemed to be of a temporary nature, the board of trustees shall retire the individual with a disability and shall authorize the payment to such individual, monthly, of an amount from the pension fund equal to the monthly compensation paid any such member as salary at the date of such disability, not to exceed a period of one year. For the purpose of determining the physical or mental disability of any such member, the board of trustees may personally examine the member or may appoint one or more physicians or surgeons to make an examination of the member and report their findings to the board, which report may be taken into consideration in determining whether the member has a physical or mental disability.

(2) After any old hire member of any police department in a municipality having a population of less than one hundred thousand has been retired temporarily by reason of any disability, the board of trustees has the right at any time to cause such retired member to be brought before it and again examined by competent physicians or surgeons and has the right to examine other witnesses for the purpose of discovering whether such disability yet continues and whether such retired member should be continued on the pension roll, not to exceed a period of one year, or reinstated in the service of the police department, except in case of dismissal or resignation. Such retired member is entitled to notice and to be present at the hearing of any such evidence and may be represented by counsel. The retired member shall be permitted to propound any question pertinent or relevant to such matter and shall also have the right to introduce evidence on the member's own behalf. All witnesses so produced shall be examined under oath, and any member of such board of trustees is authorized to administer such oath to such witnesses. The decision of such board shall be final.

(3) If any old hire member or officer of any police department in a municipality having a population of less than one hundred thousand becomes mentally or physically disabled so as to render necessary the member's retirement from service in such department, said board of trustees shall retire such member from service in such department, and the member shall receive from the pension fund an amount equal to one-half of the monthly salary received by the member at the time the member becomes so disabled. Except as provided in subsection (4) of this section, when any old hire member of such police department or retired old hire member dies and leaves a surviving spouse or dependent parent or children under the age of sixteen years, surviving, the board of trustees shall authorize the payment monthly from the pension fund of the sum of thirty

dollars to such surviving spouse or dependent parent and six dollars to each such minor child until the child reaches the age of sixteen years. (4) In those municipalities making contributions from general funds into the old hire police officers' pension plan pursuant to section 31-30.5-402, the benefits payable in the event an old hire member of such police department or retired member dies and leaves a dependent surviving spouse or dependent parent or children under the age of sixteen years shall be an amount equal to one-fourth the monthly salary received by the member of the department at the time the member died to such surviving spouse or dependent parent and an amount equal to one-eighth of the monthly salary received by the member of the department at the time the member died to each minor child until such child reaches the age of sixteen years. No pension shall be paid to the dependent parent of the deceased member who leaves a surviving spouse, and, if the surviving spouse of any deceased member remarries, such pension shall cease.

(5) If at any time there is not sufficient money or other property in said pension fund to pay to each beneficiary the full amount per month to which such beneficiary is entitled, an equal percentage of such monthly payment shall be made to each, until such fund is so replenished as to warrant payment in full to each of such beneficiaries.

31-30.5-703. Firefighters' old hire pension plans - municipalities and districts under one hundred thousand in population. (1) (a) Any old hire member of a paid fire department in a municipality, fire protection district, or county improvement district, having less than one hundred thousand in population who becomes mentally or physically disabled while on active duty during regular assigned hours of duty from any cause not self-inflicted nor due to the habitual use of intoxicants or drugs to an extent whereby the member is unable to perform the member's duties shall be retired by the board. Any old hire member of said fire department who has completed five or more years as a member of said department but who is unable to perform the member's duties by reason of heart disease or any disease of the lungs or respiratory tract shall submit competent evidence substantiating the member's claim that the member has contracted said disease while on duty as a result of strain or the inhalation of noxious fumes, poison, or gases and shall be retired by the board.

(b) In cases where a special position or assignment can or may be assigned to such old hire member, the member may be assigned to such special position or assignment. Any such retirement shall be for the period of the disability and no longer and shall be governed by the provisions of paragraphs (c) to (e) of this subsection (1).

(c) Effective July 1, 1969, said old hire member shall be paid a monthly pension equal to one-half the amount of the member's monthly salary as of the date of the member's retirement plus, if the governing body of the municipality, the board of directors of the fire protection district, or the board of the county improvement district authorizes such additional benefits, one-

half of any increase in salary and longevity or additional pay based on length of service granted during the period of the member's retirement to the rank occupied by the member in said department. Said pension shall continue to be paid as long as the member is in retirement.

(d) All applicants for disability pensions shall be examined by one or more physicians selected by the board and may be examined by one or more physicians selected by the applicant. All expenses of examination by the physician chosen by the board shall be paid by the board out of the old hire pension fund.

(e) The board shall establish such rules as it deems proper for the purpose of reexamination of all old hire members who are retired for disability to determine from time to time the fitness of such members to return to active duty in said department. No such member who has reached the age of fifty years, either before or after the member's retirement, shall be reexamined. No such member who has completed twenty years of active duty before the date of such retirement shall be reexamined. No member on the retired list shall be examined sooner than one year after date of retirement and not more often than once a year thereafter. In the event it is found by said board that any member on the retired list has recovered from the disability that caused the member's retirement, such member, if the member is under fifty years of age and has served less than twenty years of active duty, shall be removed from the retired list and ordered to report to the chief officer of said fire department within thirty days for assignment to active duty. During said period of thirty days, such member may file a written protest in which the member shall state any objection to the member's removal from the retired list. The decision of said board shall be suspended pending a hearing on said protest, at which hearing such member shall have the right to appear and to be represented by counsel. During the period that any member is retired for disability by said board, such member, if under the age of fifty years and having served less than twenty years of active duty, shall be carried on a special roll of the fire department and listed as inactive.

(f) (I) Except as provided in subparagraph (II) of this paragraph (f), if an old hire member of the fire department becomes mentally or physically disabled while not on active duty during regularly assigned hours of duty and from any cause not self-inflicted or due to the habitual use of intoxicants or drugs to an extent whereby the member is unable to perform the member's regular fire department duties, the member shall be paid by the board, starting twelve months from such disability and for the remaining period of such disability, a monthly benefit equal to five percent of the amount set forth in paragraph (c) of this subsection (1), multiplied by the number of years the member has been in active service with said fire department; but any such benefit under this subsection (1) shall not exceed one-half of the member's monthly salary as of the date of the member's disability. The provisions covering examinations, and reexamination as set forth in paragraph (e) of this subsection (1), shall be applicable to all cases arising under this paragraph (f).

(II) Any person who became an old hire member of a fire department prior to July 1, 1971, shall be entitled to the benefits set forth in subparagraph (I) of this paragraph (f) as of the date of the onset of such disability and shall not be subject to the twelve-month delay provision.

(2) If any old hire member of a fire department in a municipality, fire protection district, or county improvement district having a population of less than one hundred thousand dies from any cause, whether on duty or not or while on the retired list, leaving a surviving spouse or dependent parent, such surviving spouse or dependent parent shall be awarded a monthly annuity equal to one-third of the monthly salary of a first-grade firefighter at the time of the member's

death or retirement so long as the surviving spouse or dependent parent remains unmarried. No dissolution of a subsequent marriage shall have the effect of reinstating said surviving spouse on the pension roll or authorizing the granting of a pension. No pension shall be paid to the dependent parent of a deceased old hire member who leaves a surviving spouse or dependent children.

(3) In addition to the annuity set forth in subsection (2) of this section, the board shall also order the payment to such surviving spouse or the legally appointed guardian of each dependent child of such deceased old hire member of said fire department of a monthly annuity of thirty dollars for each child, to continue until such child reaches the age of eighteen years. If such surviving spouse dies or there is no surviving spouse, as limited and described in subsection (2) of this section, but there are surviving children under eighteen years of age, the board shall order a monthly payment equal to the full payment to which a firefighter's surviving spouse is entitled under subsection (2) of this section to be divided equally among the children or a monthly payment of thirty dollars for each child, whichever total amount is greater, to the guardian for said children. In no event shall such surviving children of a deceased or retired firefighter receive an amount in excess of one-half of the current salary paid to a firefighter, first grade, of said department. No annuity shall be paid to the dependent parent of a deceased member who leaves a child or children under eighteen years of age.

(4) When any active or retired old hire member dies, the board shall appropriate from the old hire pension fund the sum of one hundred dollars, as a death benefit, to be paid to the surviving spouse or family of the deceased, but, if there is no surviving spouse or family, said sum shall be paid to such other person as the board of said fund designates.

31-30.5-704. Police officers' old hire pension plans - municipalities of at least one hundred thousand in population. (1) If any old hire member of the police department in a municipality having a population of at least one hundred thousand, while in the performance of the member's duty, becomes temporarily totally disabled, physically or mentally, for service by reason of service in such department, the board shall order the payment to such disabled member, monthly during such disability but not to exceed one year, from the old hire pension fund, a sum equal to the monthly compensation allowed such member as salary at the date of the member's disability if such member is paid no salary as such member. If any old hire member of the police department, while in the performance of the member's duty, becomes mentally or physically permanently disabled by reason of service in such department so as to render necessary the member's retirement from service in such department, the board shall retire such disabled member from service in such department. No such retirement on account of disability shall occur unless said member has contracted said disability while in the service of said police department.

(2) Upon retirement the board shall order the payment to such disabled member from the old hire pension fund a sum equal to one-half the monthly compensation allowed to such the member as salary at the date of the member's retirement. If any old hire member of the police

department in a municipality having a population of at least one hundred thousand, while in the performance of the member's duty, is killed, dies as a result of an injury received in the line of duty or of any disease contracted by reason of the member's occupation, dies from any cause whatever as the result of the member's services in said department, or dies while in the service or on the retired list from any cause and leaves a surviving spouse or a dependent child under sixteen years surviving or, if unmarried, leaves a dependent parent surviving, the board shall direct the payment from the fund, monthly, to such surviving spouse, while unmarried, of thirty dollars, and for each child, while unmarried, until the child reaches the age of sixteen years, six dollars, and to the dependent parent, if such member was unmarried, thirty dollars. The pension to the dependent parent or both shall be paid as follows: If the father is dead, the mother shall receive the entire thirty dollars, and if the mother is dead, the father shall receive the entire thirty dollars, and if both are living, each shall receive fifteen dollars.

31-30.5-705. Firefighters' old hire pension plans - municipalities of at least one hundred thousand in population. (1) Any old hire member of a fire department in a municipality having a population of at least one hundred thousand, who becomes mentally or physically disabled while on active duty during regularly assigned hours of duty from any cause not self-inflicted nor due to the habitual use of intoxicants or drugs to an extent whereby the member is unable to perform the member's duties shall be retired by the board. Any old hire member of said fire department who has completed five years or more as a member of the department but who is unable to perform the member's duties by reason of heart disease or any disease of the lungs or respiratory tract shall be presumed, unless said presumption is overcome by competent evidence, to have contracted said disease while on active duty as a result of strain or the inhalation of noxious fumes, poison, or gases and shall be retired by the board.

(2) In cases where a special position or assignment can or may be assigned to such member, the member may be assigned to such special position or assignment. Any such retirement shall be for the period of the disability, and no longer, and shall be governed by the provisions of subsections (3), (4), and (5) of this section.

(3) The old hire member shall be paid a monthly pension equal to one-half the amount of the member's monthly salary as of the date of the member's retirement plus one-half of any increase in salary and longevity or additional pay based on length of service granted during the period of the member's retirement to the rank occupied by the member in the department. The member, after retirement, shall continue to accrue longevity, and the member's length of service shall continue to extend in the same manner and with the same limitations as if the member were still active and not retired. Said pension shall continue to be paid as long as the member is in retirement.

(4) All applicants for disability pensions shall be examined by one or more physicians selected for the purpose by the board and may be examined by one or more physicians selected by the applicant. All expenses of examination by the physician chosen by the board shall be paid by the board out of said fund.

(5) The board shall establish such general rules as it deems proper for the purpose of reexamination of all old hire members who have been retired for disability to determine from time to time the fitness of such members to return to active duty in the department. No such member who has reached the age of fifty years, either before or after the member's retirement, shall be reexamined. No such member who has completed twenty-five years of active duty in the department before the date of such retirement shall be reexamined. No member on the retired list shall be examined sooner than one year after date of retirement and not more often than once a year thereafter. In the event it is found by the board that any old hire member on the retired list has recovered from the disability that caused the member's retirement, such member, if the member is under fifty years of age and has served less than twenty-five years of active duty, shall be removed from the retired list and ordered to report to the chief officer of the fire department within thirty days for assignment to active duty. During said period of thirty days such member may file a written protest in which the member shall state any objection that the member may have to the member's removal from the retired list. The decision of the board shall be suspended pending a hearing on said protest, at that hearing the member shall have a right to appear and to be represented by counsel. During the period that any member is ordered retired for disability by the board, such member, if under the age of fifty years and having served less than twenty-five years of active duty, shall be carried on a special roll of the fire department and listed as inactive.

(6) In any case where an old hire member of the fire department in a municipality having a population of at least one hundred thousand becomes mentally or physically disabled while not on active duty during regularly assigned hours of duty and from any cause not self-inflicted or due to the habitual use of intoxicants or drugs to an extent whereby the member is unable to perform the member's regular fire department duties, the member shall be paid by the board, during the period of such disability and no longer, a monthly benefit equal to five percent of the amount set forth in subsection (3) of this section multiplied by the number of years the member has been in active service with the fire department; except that any such benefit under this section shall not exceed one-half of the member's monthly salary as of the date of the member's disability. The provisions covering examinations and reexaminations, as set forth in subsections (4) and (5) of this section, shall be applicable to all cases arising under this subsection (6).

(7) If any old hire member of a fire department in a municipality having a population of at least one hundred thousand dies from any cause while in the service or while on the retired list, leaving a surviving spouse, such surviving spouse shall be awarded a monthly annuity equal to one-third of the monthly salary of such member at the time of the member's death or retirement plus one-third of any increase in salary and longevity or additional pay based on length of service granted to firefighters of the rank or comparable successor rank that the member held in the department on the date of the member's death or retirement so long as such surviving spouse remains unmarried. No dissolution of a subsequent marriage shall have the effect of reinstating said spouse on the pension roll or authorizing the granting of a pension. This section shall apply alike to surviving spouses of firefighters and retired firefighters who die after April 11, 1947, and to surviving spouses of firefighters and retired firefighters who were dead on said date, it being the intent of the general assembly to provide an annuity for all surviving spouses of firefighters, which annuity shall increase or decrease proportionately to any increase or decrease in the current rate of pay of firefighters.

(8) The board shall also order the payment to such surviving spouse or the legally appointed guardian of each child of such deceased old hire member of the fire department a monthly annuity of thirty dollars for each child, to continue until such child reaches the age of eighteen years. If such surviving spouse dies or there is no surviving spouse as limited and described but such deceased old hire member leaves surviving children under eighteen years of age, the board shall order a monthly payment equal to the full payment to which a firefighter's surviving spouse is entitled under subsection (7) of this section to be divided equally among the children or a monthly payment of thirty dollars for each child, whichever total amount is greater, to the guardian of the children for the children. In no event shall such surviving children of a deceased or retired firefighter receive an amount in excess of one-half of the current salary paid to a firefighter, first-grade, of said department.

(9) When an active or retired firefighter dies without necessary funeral expenses, the board shall appropriate from the fund a sum not exceeding one hundred dollars to the surviving spouse or family or other person paying said expenses for the purpose of assisting the proper burial of said deceased old hire member.

PART 8

EXEMPT PLANS

31-30.5-801. Exempt alternative programs authorized. (1) Notwithstanding any other provision of this article or the provisions of article 31 of this title that specifically refer to exempt plans, any municipality, fire protection district, or county improvement district, prior to January 1, 1980, may establish an alternative police officers' or firefighters' pension benefit program or combination pension and insurance benefit program for police officers or firefighters that, if found by an actuarial study to be actuarially sound, shall be exempt from all provisions of parts 3 to 7 of this article. Such program and any amendments thereto must be approved in an election held or vote called for that purpose by at least sixty-five percent of the total votes cast by all police officers or firefighters actively employed by the municipality, fire protection district, or county improvement district and all former old hire members who have earned pension rights or benefits under this article at the time the program is adopted or amended. No amendment of an exempt alternative program may be adopted that would adversely affect the accrued pension benefits of former old hire members. Once established, such exempt alternative program shall cover all police officers or firefighters employed by the municipality, fire protection district, or county improvement district, regardless of the date of hire. Any municipality, fire protection district, or county improvement district having established an exempt alternative program pursuant to this section shall be entitled to receive its appropriate share of state contributions to local police officers' or firefighters' pension funds and shall file any reports required to receive such state contributions. The date limitation of January 1, 1980, established in this subsection (1) shall not be construed as limiting the ability of an employer to

establish an exempt money purchase plan in accordance with the provisions of subsection (2) of this section and section 31-30.5-802.

(2) (a) Not later than January 1, 1983, any employer that covered its firefighters or police officers hired on or after April 8, 1978, under the statewide defined benefit plan established in part 4 of article 31 of this title, may withdraw from that plan upon establishment of a money purchase plan, in accordance with the requirements governing exempt alternative programs under subsection (1) of this section.

(b) Such money purchase plan shall include all firefighters or police officers hired on or after April 8, 1978, and may include all old hire firefighter or police officer members, at the option of the employer.

(c) The money purchase plan shall be approved by sixty-five percent of all firefighters or police officers hired on or after April 8, 1978. In order for old hire firefighter or police officer members to be included in such plan, pursuant to paragraph (b) of this subsection (2), sixty-five percent of those members shall approve the plan.

(d) Any employer desiring to withdraw pursuant to the provisions of this section shall file a resolution with the fire and police pension association stating such intent. The resolution shall also state a requested effective date for withdrawal.

(e) The withdrawal shall be effective on the requested effective date or on the first day of the month following certification by the fire and police pension association of the approval of the members, whichever occurs later.

31-30.5-802. Exempt money purchase plan option. (1) Any employer that has not elected to affiliate with the fire and police pension association relating to an old hire plan established pursuant to this article may offer to the active old hire members of such plan the option of converting to a money purchase plan.

(2) Such option shall be available on an individual basis such that any member desiring to remain in the current defined benefit plan may do so.

(3) The money purchase plan offered may be a new plan established by the employer or an existing plan maintained for the benefit of other members employed in the same department.

(4) Any such money purchase plan shall be exempt from all provisions of parts 3 to 7 of this article.

(5) The option may be offered only if approved by at least sixty-five percent of all active old hire members. If approved, a deadline shall be set for electing between the current plan and the money purchase plan. Prior to said deadline, the employer shall provide to each active old hire member a disclosure statement describing the differences between the current plan and the money purchase plan and a statement as to the minimum beginning account balance for such employee in the event of conversion to a money purchase plan.

(6) If any active old hire member elects to remain in the current plan, the employer shall continue to fund such plan on an actuarially sound basis with any unfunded liability being amortized over a period not to exceed twenty years after January 1, 1989.

(7) Within ninety days after the election is made by each active old hire member, the employer shall make the final determination as to whether to adopt such option and shall be under no obligation to do so. In the event that the employer determines that the option will not be adopted at that time, the employer may reoffer the option at a later date in accordance with the provisions contained in this section.

(8) No such option may be adopted which, in its application, would adversely affect the pension benefits of retired old hire members.

(9) Nothing in this section shall be construed to prohibit an election by an employer to affiliate its local plan with the fire and police pension association after said employer has adopted a money purchase plan option pursuant to this section. Any such affiliation shall be governed by the provisions of section 31-31-701.

31-30.5-803. Investment authority. (1) Except as provided in subsection (2) of this section, moneys of exempt alternative plans that are not affiliated with the fire and police pension association under section 31-31-706 may be managed and invested by the trustees of such plans pursuant to the standard and other provisions for trustees set forth in the "Colorado Uniform Prudent Investor Act", article 1.1 of title 15, C.R.S. Such investments shall be audited at least biennially.

(2) (a) (Deleted by amendment, L. 97, p. 10, § 2, effective March 13, 1997.)

(b) The trustees of an exempt alternative plan may allow a participant to exercise control of the investment of the participant's accrued benefit under the plan, subject to the following requirements:

(I) The trustees shall select at least three investment alternatives, each of which is diversified in itself, that allow the participant a broad range of investments and a meaningful choice between risk and return in the investment of the participant's accrued benefit;

(II) The trustees shall allow the participant to change investments at least once each calendar quarter; and

(III) The trustees shall provide the participant with information describing the investment alternatives and the nature, investment performance, fees, and expenses of the investment alternatives and other information to enable a participant to make informed investment decisions.

(c) Neither the state nor local governments shall be held responsible to pay for any or all financial losses experienced by participants of the exempt alternative plan; except that nothing in this section relieves a local government's responsibility as a trustee to the plan.

Fire - Police - New Hire Pension Plans

Editor's note: This article was added with relocations in 1996 containing provisions of some sections formerly located in parts 3 to 10 of article 30 of this title. Former C.R.S. section numbers are shown in editor's notes following those sections that were relocated.

PART 1

GENERAL PROVISIONS

31-31-101. Legislative declaration. The general assembly hereby declares that the establishment of police officers' and firefighters' pension plans in this state is a matter of statewide concern that affects the public safety and general welfare, that the ability of pension funds to pay earned benefits to present and future members is a necessary corollary to the establishment of pension plans, and that statewide pension plans establishing pension benefits that can be fully funded with local moneys will permit the continuation of pension plans for police officers and firefighters in this state. In addition, the general assembly declares that any pension plan must be actuarially sound in order to assure the security of the pension system and that this article is enacted to provide for the stability and security of police officers' and firefighters' pension plans in this state. The general assembly further declares that state moneys provided to municipalities, fire protection districts, and county improvement districts do not constitute a continuing obligation of the state to participate in the ongoing normal costs of pension plan benefits, except for state funding of death and disability benefits as specified in this article, but are provided in recognition that the local governments are currently burdened with financial obligations relating to pensions in excess of their present financial capacities. It is the intent of the general assembly in providing state moneys to assist the local governments that state participation decrease annually, terminating at the earliest possible date.

(c) The insurer shall have sole power to determine disability for volunteer firefighters under the policy provided by this subsection (4).

(d) On and after July 1, 2004, the responsibility to provide a statewide accidental death and disability insurance policy to cover all volunteer firefighters serving in volunteer or paid and volunteer fire departments shall be the responsibility of the department of local affairs pursuant to section 31-30-1134.

(4) (a) The board may allow a member to exercise control of the investment of part or all of the member's accrued benefit under the member's plan. In allowing a member to exercise such control, the board shall:

(I) Select at least three investment alternatives, each of which is diversified in itself, that allow the member a broad range of investments and a meaningful choice between risk and return in the investment of the member's accrued benefit;

(II) Allow the member to change investments at least once each calendar quarter; and

(III) Provide the member with information describing the investment alternatives, the nature, investment performance, fees, and expenses of investment alternatives, and other information to enable a member to make informed investment decisions.

(b) The board shall adopt rules governing the calculation and allocation of earnings and losses under the various investment alternatives that it may offer, the transfer of assets between funds under each alternative, the allocation of a member's account between investment alternatives, and such other matters as may be necessary to its administration and management of the fire and police members' self-directed investment fund created pursuant to this section.

PART 4

STATEWIDE DEFINED BENEFIT PLAN

31-31-401. Applicability of plan. (1) Every employer in this state shall provide the pension benefits of the statewide defined benefit plan established by this part 4 for members hired on or after April 8, 1978, except for the following:

(a) Any employer that began covering members under the federal "Social Security Act" on or before August 11, 2005, and any employer that began covering members under the federal "Social Security Act" on or before August 11, 2005, that chooses to cover members hired after August 11, 2005, under the federal "Social Security Act";

(b) Any employer that covers members under an exempt plan established pursuant to part 8 of article 30.5 of this title;

(c) Any employer that has withdrawn its members from the statewide defined benefit plan pursuant to part 6 of this article and established a locally administered and financed alternative pension plan;

(d) Any employer that has withdrawn its members from the statewide defined benefit plan for the purpose of covering them under the statewide money purchase plan established pursuant to part 5 of this article; and

(e) Any employer that covers a member hired on or after April 8, 1978, but before January 1, 1980, under an old hire pension plan as permitted by section 31-30.5-103 (1).

(2) Nothing in this part 4 shall affect retirement pensions or disability or survivor benefits of members hired prior to April 8, 1978, who retired, were disabled, or died prior to January 1, 1980.

(3) Where an employer results from a merger, a consolidation, or an exclusion or dissolution proceeding between or among one or more employers, including a new governmental entity created by intergovernmental agreement between or among one or more employers, all members transferred to or employed by such resulting employer shall, for the purposes of this article 31 and article 30.5 of this title 31, have those rights and obligations they had prior to the merger, consolidation, exclusion, dissolution, or intergovernmental agreement. In the event of a transfer of members, provision shall be made in such agreement or proceeding for allocation and transfer of plan assets, and, in the event of the transfer of members of a defined benefit plan, provision shall be made in such agreement or proceeding for discharging plan liabilities and funding in order to maintain or enhance the actuarial soundness of the remaining and resulting plans. If the resulting employer had no members prior to the merger, consolidation, exclusion, or dissolution, it may continue as its plan any plan of a transferring employer, authorized by this article, for its members hired after the effective date of the agreement or proceeding or the resulting employer shall belong to the statewide defined benefit plan. The board may authorize the resulting employer to consolidate preexisting retirement plans and any retirement plan attributable solely to the resulting employer into one or more plans if the plans to be consolidated are identical, the benefits are equal for all members covered under the retirement provisions of the plans, and no member suffers a reduction of benefits or an increase in member contributions due to such plan consolidation. Any member employed by a predecessor department who participated in a money purchase plan prior to the merger, consolidation, exclusion, or dissolution and who participates in the statewide defined benefit plan after the merger, consolidation, exclusion, or dissolution shall pay the continuing uniform rate of contribution established by the board pursuant to section 31-31-1101 (7).

(4) (a) A department chief hired on or after April 8, 1978, shall be exempted from the statewide defined benefit plan, upon the execution of a written agreement between the department chief and the chief's employer that provides for the department chief's participation in social security or in a federal insurance contribution act replacement plan as allowed under the federal internal revenue code, and the submission of notice to the association. A department chief may satisfy the federal insurance contribution act replacement plan requirement by participating in an employer sponsored plan, the statewide money purchase plan, or the statewide hybrid plan. The transfer of member and employer contributions between the statewide defined benefit plan and the statewide money purchase plan shall be consistent with the provisions of section 31-31-501.

(b) For purposes of this subsection (4), a "department chief" means the senior command officer of any fire or police department of any employer, by whatever title known, including but not limited to chief, administrator, or director.

(c) A department chief exempted pursuant to paragraph (a) of this subsection (4) may maintain coverage for disability and survivor benefits under part 8 of this article if the department chief participates in the statewide money purchase plan, the statewide hybrid plan, or a local money purchase plan that is qualified under section 401(a) of the federal internal revenue code and that has a contribution rate of not less than sixteen percent.

(5) A member normally serving less than one thousand six hundred hours in any calendar year shall be exempted from the statewide defined benefit plan and shall be covered under the statewide money purchase plan.

(6) If an employer that is otherwise required to enroll its members under the plan fails to properly enroll such members, neither the fire and police pension association nor the defined benefit system trust fund is obligated or liable for any purpose to any person or employer arising from such failure.

31-31-402. Employer and member contributions. (1) On and after January 1, 1980, until the board is able to determine a contribution rate from the first annual actuarial valuation, every member covered under the statewide defined benefit plan established by this part 4 shall pay into the defined benefit system trust fund eight percent of salary paid or such higher member contribution rate established pursuant to section 31-31-408 (1.5)(a). The payment shall be made by the employer by deduction from the salary paid such member. Each employer shall pick up the member contributions required for all salaries paid after July 1, 1985, and the contributions so picked up shall be treated as employer contributions pursuant to section 414 (h)(2) of the federal "Internal Revenue Code of 1986", as amended, in determining tax treatment under such code. The employer shall pay these member contributions directly to the retirement association, instead of paying such amounts to members, and such contributions shall be paid from the same funds that are used in paying salaries to the members. Such contributions, although designated as member contributions, shall be paid by the employer in lieu of contributions by members. Members may not elect to choose to receive such contributions directly instead of having them paid by the employer to the pension plan. Member contributions so picked up shall be treated for all purposes of this article, other than federal tax, in the same manner as member contributions made before the date picked up. Payment shall be made by one voucher for the aggregate amount deducted and shall be made no later than ten days following the date of payment of salary to the member. All such payments shall be credited to the defined benefit system trust fund.

(2) On and after January 1, 1980, until the board is able to determine a contribution rate from the first annual actuarial valuation, every employer employing members who are covered by the statewide defined benefit plan established by this part 4 shall pay into the defined benefit system trust fund eight percent of the salary paid to such member, and such payment shall be

made no later than ten days following the date of payment of salary to the member. All such payments shall be credited to the defined benefit system trust fund.

(3) The general assembly declares that the rates of member and employer contributions shall be adequate to fund benefit liabilities accrued under the statewide defined benefit plan established by this part 4, and to this end, the board shall submit an annual actuarial valuation report to the state auditor, the legislative audit committee, and the joint budget committee of the general assembly, together with any recommendations concerning such liabilities as accrued. Amortization of such liability over a forty-year period shall be deemed adequate to maintain actuarial stability. If the actual financial experience of the new hire benefits account in the defined benefit system trust fund is found to be more or less favorable than the assumed experience during the two-year period from January 1, 1980, and each biennium thereafter, adjustments may be made by the board in the member and employer contributions as may be deemed feasible and advisable so long as the employer contribution rate is at least equal to the member contribution rate. If the member contribution rate has been increased pursuant to section 31-31-408 (1.5)(a), the requirement that the employer contribution rate be at least equal to the member contribution rate shall not apply, but in such circumstance, any increase to the employer contribution rate shall be at least equal to the increase in the member contribution rate and any decrease in the member contribution rate shall be at least equal to the decrease in the employer contribution rate.

(4) The payments required by this section are subject to interest if not submitted when due. Payments are due no later than ten days following the date of payment of salary to the member.

(5) (a) There shall be established in the defined benefit system trust fund a new hire benefits account into which contributions made pursuant to this section shall be deposited. The benefits provided by the statewide defined benefit plan established in part 4 of this article, together with the expenses of administering the plan, shall be paid from such account.

(b) Defined benefit assets of the statewide defined benefit plan shall be administered within the fire and police members' benefit investment fund and assets of the of the plan designated for self direction shall be administered within the fire and police members' self-directed investment fund.

31-31-403. Normal retirement - statewide defined benefit plan. (1) (a) Any member covered by the statewide defined benefit plan who has completed at least twenty-five years of

active service and has attained the age of fifty-five years shall be eligible for a normal retirement pension subject to adjustment pursuant to paragraph (b) of this subsection (1). The annual normal retirement pension shall be two percent of the average of the member's highest three years' base salary multiplied by the member's years of service, not to exceed twenty-five.

(b) The board shall determine after each annual actuarial valuation if the cost of all benefits established by this part 4 for members covered under this section and the cost of a normal retirement pension beginning at age fifty-five for members then eligible may be fully funded on an actuarially sound basis without necessitating an increase in the eight percent employer and eight percent member contributions made pursuant to section 31-31-402 or such higher member contribution rate established pursuant to section 31-31-408 (1.5)(a). If the board cannot so determine, it shall order that the normal retirement pension commence such number of months as are actuarially supportable, from one to sixty, after age fifty-five for members who have completed at least twenty-five years of active service and are otherwise eligible in accordance with the board's determination. The determination of the board shall be conclusive in the absence of fraud. A pension commenced after age fifty-five pursuant to this paragraph (b) shall not be subject to annual review. If a court determines that this paragraph (b) is invalid, the age of retirement to be eligible for any normal retirement benefit shall be age sixty except for persons receiving a benefit at the time of the court's decision.

(2) (a) If in any year the board determines pursuant to this part 4 that the cost of the benefits described in paragraph (b) of subsection (1) of this section, excluding the benefit described in section 31-31-405, may not be fully funded on an actuarially sound basis without necessitating an increase in the eight percent employer and eight percent member contribution made pursuant to section 31-31-402 or such higher member contribution rate established pursuant to section 31-31-408 (1.5)(a), the board shall not increase such employer or member contributions unless:

(I) The board has terminated the benefit described in section 31-31-405; and

(II) The board has transferred all funds in the stabilization reserve account to the actuarial account as required by section 31-31-405 (1) and (2), except such funds as are attributable to the separate retirement account of any member who has terminated service after at least five years of credited service.

(b) Nothing in this subsection (2) shall be construed to prohibit the board from utilizing the provisions of section 31-31-405 to provide the benefit described in said section in any subsequent year when the total amount of additional deposits to the new hire benefits account exceeds the amount needed to meet the benefit liabilities funded by the actuarial account pursuant to section 31-31-405.

(c) Nothing in this subsection (2) shall be construed to require the reduction of benefits below the level sustainable by the higher member contribution rate established pursuant to section 31-31-408 (1.5)(a).

(3) Any member retiring and eligible for a normal retirement pension as provided by subsection (1) of this section may elect to defer receipt of such pension until attaining the age of sixty-five years. In the case of such election, the annual deferred retirement pension shall be the actuarial equivalent of the normal retirement pension.

(4) Any member covered by the statewide defined benefit plan who has completed at least thirty years of active service or has attained the age of fifty years and who is not receiving benefits pursuant to section 31-31-803 may elect to retire from active service and shall be

eligible for an early retirement pension. The annual early retirement pension for a member shall be the benefit, as determined by the board, that the member would have received at normal retirement reduced on an actuarial equivalent basis to reflect the early receipt of the benefit.

(5) (a) A member eligible for a normal, deferred, or early retirement pension may elect to receive one of the following pension options in lieu of a pension computed in accordance with subsection (1), (3), or (4) of this section:

(I) Option 1. A reduced pension payable to the member and upon the member's death, all of such reduced pension to be paid to the member's designated beneficiary for life;

(II) Option 2. A reduced pension payable to the member and upon the member's death, one-half of such reduced pension to be paid to the member's designated beneficiary for life;

(III) Option 3. A reduced pension payable jointly to the member and the member's designated beneficiary and, upon the death of either, one-half of such reduced pension to be paid to the survivor for life.

(b) A member shall be considered to have elected option 1 and retired on the day before the member's death if the member is eligible for a normal or early retirement pension and dies:

(I) Before making an election as provided in paragraph (a) of this subsection (5);

(II) Before the first pension payment has been deposited or otherwise negotiated or sixty days from the date of issuance of such check, whichever occurs first; and

(III) Is survived by a spouse, a dependent child, or a designated beneficiary.

(c) (I) After an election has been made of any of the options provided in paragraph (a) of this subsection (5) and the first pension payment has been deposited or otherwise negotiated by the member, or sixty days from date of issuance of the check have elapsed, whichever occurs first, the election shall be irrevocable. The member's beneficiary designation shall also be irrevocable at such time unless the member's marital status changes as the result of dissolution of marriage, marriage, remarriage, or in the event of the death of a beneficiary. In such case, the member may designate a new beneficiary; except that, in cases of dissolution of marriage, this provision shall only apply to any final dissolution of marriage decree of a member entered on or after July 1, 1990.

(II) Notwithstanding subparagraph (I) of this paragraph (c), an unmarried member who receives a single life annuity at the time benefits commence and whose marital status subsequently changes as the result of marriage or remarriage may elect one of the options provided in paragraph (a) of this subsection (5) within one hundred eighty days of the date of the marriage or remarriage or January 1, 2008, whichever date is later. If, after such selection of a different payment option, the member subsequently dies within one hundred eighty days following the marriage or remarriage, the only survivor benefit payable to the member's designated beneficiary shall be the difference between the single life option amount payable to the member prior to marriage or remarriage and the amount of the reduced benefit that was actually paid to the deceased member after the marriage or remarriage and prior to the member's death.

(d) The joint pension benefits provided by this subsection (5) shall be calculated as the actuarial equivalent of the normal or early retirement pension otherwise payable as provided in subsections (1), (3), and (4) of this section. In the event of a change in beneficiary designation pursuant to paragraph (c) of this subsection (5), the joint pension benefits payable shall be recalculated so as to be the actuarial equivalent of the remainder of the original pension benefits based upon the member's initial beneficiary designation, if any. In the event of a change in

option elected pursuant to subparagraph (II) of paragraph (c) of this subsection (5), the joint pension benefits payable shall be recalculated so as to be the actuarial equivalent of the remainder of the original pension benefits payable to the member immediately prior to the change in option.

(6) If the total amount of pension benefits paid as provided in this section is less than the amount of the member's accumulated contributions at the time of death, the difference shall be paid to:

(a) The member's estate if no pension payment was made pursuant to subsection (5) of this section; or

(b) The survivor's estate if pension payments were made pursuant to subsection (5) of this section.

(7) All service of a member who is employed by successive employers shall be aggregated for determining eligibility and benefits provided by this section if the service for each employer was rendered while the employer covered its members under the statewide defined benefit plan established by this part 4. The service of a member who is employed by successive employers shall be aggregated for determining eligibility and benefits provided by the statewide defined benefit plan established by this part 4 if the service for any employer was rendered while the employer did not cover its members under the statewide defined benefit plan established by this part 4 only on the basis of agreements made with the board.

(8) The board may promulgate rules to allow members who are eligible to receive any type of retirement benefits to defer receipt of the benefits to the extent permitted under section 401 (a)(9) of the federal "Internal Revenue Code of 1986", 26 U.S.C. sec. 401 (a)(9), as amended, and the regulations promulgated pursuant to section 401 (a)(9).

31-31-404. Return or transfer of contributions - vested retirement. (1) (a) Any member covered by the statewide defined benefit plan established by this part 4 and terminating service may elect to have the member's accumulated contributions refunded in a lump sum and shall sign a statement to be filed with the member's employer evidencing such election and acknowledging that the member has no right to benefits provided by this article. A member shall only be eligible for a refund, from the association, of the contributions paid by the member to the association and any of the member's contributions that have been transferred to the association by an affiliating employer. Nothing in this subsection (1) shall prevent a member from obtaining a refund to which the member may be entitled from a nonaffiliating employer pursuant to policies established by the employer prior to December 1, 1978. In addition to receiving accumulated contributions, the member shall also receive, as interest, five percent of the member's total accumulated contributions. The contributions refunded pursuant to this

subsection (1) shall not include contributions other than those required to be made by the member, and the return of contributions shall be made within one hundred twenty days.

(b) If the member who terminated service subsequently returns to service as an active member with an employer that covers its members under the statewide defined benefit plan, the member's prior service credit shall be restored when the member returns the member's refunded contributions, with interest accrued from the date of refund to the date of return, according to the terms and conditions established by the board. If the member fails to return such contributions and interest, the member shall be treated as a new member, and the member's prior service shall not be recognized in determining pension eligibility or pension benefits.

(2) (a) In lieu of having the member's contributions returned as provided in paragraph (a) of subsection (1) of this section, a member who has at least five years of credited service may leave the contributions with the fund. When the inactive member attains age fifty-five, the member shall be eligible to receive an annual vested benefit equal to two percent of the member's average highest three years' salary multiplied by years, not to exceed twenty-five, of active service. Any such member shall be eligible to receive the applicable vested benefit as provided in this section or to make an election for a reduced pension in the manner provided in section 31-31-403 (5). All the provisions of section 31-31-403 (5) shall apply to the member; except that the benefits used to calculate the reduced benefits shall be the vested benefit provided to the member under this section rather than the retirement benefit provided in section 31-31-403. The member may not elect one of the options earlier than sixty days prior to the commencement of vested benefit payments. In the event that an inactive member who is eligible for vested benefits dies prior to the commencement of the member's benefit payments, the fire and police pension association shall refund the inactive member's contributions to the member's estate, and no vested benefits shall be payable to the inactive member's survivors or beneficiaries.

(b) The board shall determine after each annual actuarial valuation if the cost of all benefits established by this part 4 for members covered under section 31-31-403 and the cost of vested benefits beginning at age fifty-five for members then eligible may be fully funded on an actuarially sound basis without necessitating an increase in the eight percent employer and eight percent member contributions made pursuant to section 31-31-402 or such higher member contribution rate established pursuant to section 31-31-408 (1.5)(a). If the board cannot so determine, it shall order that the vested benefits commence such number of months as are actuarially supportable, from one to one hundred twenty, after age fifty-five for eligible members in accordance with the board's determination. The determination of the board shall be conclusive in the absence of fraud. A vested benefit commenced before age fifty-five pursuant to this paragraph (b) shall not be subject to annual review. If a court determines that this paragraph (b) is invalid, the age to be eligible for a vested benefit shall be age sixty-five except for persons receiving a benefit at the time of the court's decision.

(3) The board may promulgate rules to allow members who are eligible to receive any type of retirement benefits to defer receipt of the benefits to the extent permitted under section 401 (a)(9) of the federal "Internal Revenue Code of 1986", 26 U.S.C. sec. 401 (a)(9), as amended, and the regulations promulgated pursuant to section 401 (a)(9).

31-31-405. Stabilization reserve account and separate retirement account - creation - allocation. (1) Within the new hire benefits account, created pursuant to section 31-31-402 (5), there shall be established two subaccounts:

(a) An actuarial account, into which that portion of the new hire benefits account necessary to fund benefit liabilities accrued under sections 31-31-403 and 31-31-404 (2), as determined by the 1987 actuarial study, shall be deposited;

(b) A stabilization reserve account, into which the remainder in the new hire benefits account, after allocation pursuant to subparagraph (a) of this subsection (1), may be deposited.

(2) In each year after 1987, the board may allocate additional deposits to the new hire benefits account between the actuarial account and the stabilization reserve account based upon the actuarial study for the previous year. If in any year the total amount of additional deposits to the new hire benefits account is not sufficient to meet the benefit liabilities funded by the actuarial account, then such additional amount as may be necessary to fund the increase shall be transferred from the stabilization reserve account to the actuarial account. If in any year the total amount of additional deposits to the new hire benefits account exceeds the amount required to meet any increase in the benefit liabilities funded by the actuarial account, the board, in its sole discretion, may allocate all or any part of such excess to the stabilization reserve account. Any excess allocated to the stabilization reserve account in any year shall be allocated from that portion of deposits to the new hire benefits account constituting employer contributions to the statewide defined benefit plan established by this part 4.

(3) For accounting purposes only, the stabilization reserve account created by subsection (1) of this section shall consist of individual separate retirement accounts established in the name of each member covered by the statewide defined benefit plan established by this part 4, except such members as are covered on a supplemental basis pursuant to section 31-31-704. Members covered on a supplemental basis pursuant to section 31-31-704.5 shall be eligible for individual separate retirement accounts.

(4) Such amount as may be allocated to the stabilization reserve account pursuant to subsection (1) of this section shall be further allocated to each member's separate retirement account based upon the difference between a member's employer and employee contributions to the new hire benefits account for each payroll period and the proportionate amount of such contributions that is allocated to the actuarial account pursuant to subsection (1) of this section.

(5) Earnings accruing on the amount allocated to the member's separate retirement account shall be allocated at least monthly on a time-weighted basis as determined by the board until the account is exhausted.

(6) Any amount allocated to a member's separate retirement account shall be subject to reduction prior to the time a member has terminated service in the event that additional amounts must be transferred to the actuarial account as set forth in subsections (1) and (2) of this section. Reductions in a member's separate retirement account pursuant to this subsection (6) shall be made on a pro rata basis in the proportion that the balance in a member's separate retirement account bears to the total balance of all members' separate retirement accounts.

(2) Amendments to subsection (1) by House Bill 06-1068 were relocated to subsection (3) due to its harmonization with amendments made to this section by House Bill 06-1059.

31-31-406. Separate retirement accounts - administration. (1) Any member having a separate retirement account who terminates service and at the time of termination has less than five years of credited service or who terminates service and at the time of termination has more than five years of credited service but elects a refund of contributions as provided under section 31-31-404 (1)(a) shall forfeit the entire balance in the member's separate retirement account to the actuarial account.

(2) (a) Any member having a separate retirement account who is retired for disability shall receive the entire balance in the member's separate retirement account in accordance with the member's selection of one of the payment options permitted by subsection (3) of this section or pursuant to rules promulgated by the board that allow members who are eligible to receive retirement benefits to defer receipt of the benefits to the extent permitted under section 401 (a)(9) of the federal "Internal Revenue Code of 1986", 26 U.S.C. sec. 401 (a)(9), as amended, and the regulations promulgated pursuant to section 401 (a)(9). If the member subsequently returns to work pursuant to section 31-31-805 (2) and had been receiving periodic payments from the member's separate retirement account, such payments shall cease and any remaining balance shall remain in the member's separate retirement account, subject to subsequent distribution in accordance with this section.

(b) If any member having a separate retirement account dies prior to termination, the entire balance in the member's separate retirement account shall be payable to the member's surviving spouse or dependent children in accordance with their selection of one of the payment options permitted by subsection (3) of this section.

(3) Any member retiring pursuant to the provisions of section 31-31-403 or 31-31-404 (2) may elect to receive the balance in the member's separate retirement account in accordance with one of the following payment options:

(a) Option 1: In a lump sum;

(b) Option 2: In periodic installments of a specified and substantially equal amount, payable monthly over a period not to exceed the joint life expectancy of the member and the member's spouse. This maximum period shall be determined under the applicable actuarial tables then being used by the association at the time the initial monthly installment payment becomes payable.

(c) Option 3: In an annuity. The member may choose an annuity payable to the member for life or may choose any of the joint and survivor options permitted by section 31-31-403 (5)(a).

(4) A member may elect to commence payment of the amount in the member's separate retirement account at any time after the member terminates service but in no event later than the commencement of the member's retirement benefits under section 31-31-403 or 31-31-404 (2). A

member will continue to accrue earnings on the amount in the member's separate retirement account until such time as the account is exhausted.

(5) The restoration of a member's service credit pursuant to section 31-31-404 (1)(b) shall not entitle the member to reinstatement of any previously forfeited balance in the member's separate retirement account.

(6) If a member terminates service with less than five years of credited service and does not elect a refund of accumulated contributions, the amount in the member's separate retirement account shall not be forfeited but shall continue to be subject to the earnings and reduction provisions of section 31-31-405, and, upon the member's return to active service with an employer covering its members under the normal retirement provisions of this part 4, the member shall be credited with any amount which has accrued in the member's separate retirement account.

(7) The balance in a member's separate retirement account, the member's accumulated contributions to the account, and the earnings on the account shall be paid to the member's estate if the member:

- (a) Dies while in active service;
- (b) Has more than five years of credited service;
- (c) Does not leave a surviving spouse, dependent child, or designated beneficiary; and
- (d) Is not eligible for the normal retirement pension described in section 31-31-403 at the time of death.

31-31-407. Adjustment of benefits. (1) The benefits payable under the statewide defined benefit plan established by this part 4 may be redetermined effective October 1 each year. If such benefits are redetermined, such redetermined amount shall be payable for the following twelve months. To be eligible for redetermination, such benefits shall have been paid for at least twelve calendar months prior to the effective date of redetermination. Any redetermination of benefits made pursuant to this section shall be in lieu of any other annual cost of living adjustment.

(2) and (3) (Deleted by amendment, L. 2008, p. 13, § 1, effective August 5, 2008.)

(4) The cost of the adjustment of benefits provided by this section shall be funded in the same manner as other defined benefits established by this part 4.

(5) (a) Effective October 1, 2008, and each year thereafter, any redetermination of benefits made pursuant to subsection (1) of this section shall be determined by the board in its discretion as a fiduciary of the statewide defined benefit plan after considering the funding level of the plan, the cost of such increase, whether the increase creates an adverse actuarial impact on the plan's ability to fund future benefits, and any other factors the board deems appropriate. The redetermined benefits shall not exceed the greater of:

- (I) One hundred three percent of the benefits paid for the prior twelve-month period; or

(II) The benefits paid during the prior twelve-month period multiplied by a fraction using the consumer price index for the immediately preceding calendar year as the numerator and the consumer price index for the calendar year prior to the immediately preceding calendar year as the denominator.

(b) As used in subparagraph (II) of paragraph (a) of this subsection (5), the term "consumer price index" means the national consumer price index for urban wage earners and clerical workers prepared by the United States department of labor.

31-31-408. Modification of state plan by the board. (1) Notwithstanding any other provision of this part 4, and in addition to the authority granted in part 2 of this article, the board may modify the pension benefits and the age and service requirements for pension benefits set forth in this part 4 with respect to the members of the statewide defined benefit plan if:

(a) The board determines that such modification will maintain or enhance the actuarial soundness, as specified in section 31-31-102 (1), of the plan;

(b) The modification does not require an increase in the employer and member contribution rates established as of January 1, 1980, pursuant to section 31-31-402 or such higher member contribution rate established pursuant to paragraph (a) of subsection (1.5) of this section;

(c) The modification does not adversely affect the plan's status as a qualified plan pursuant to the federal "Internal Revenue Code of 1986", as amended;

(d) The modification is approved by sixty-five percent of the active members of the plan who vote in the election proposing the modification;

(e) The modification is approved by more than fifty percent of the employers having active members covered by the plan who vote in the election proposing the modification, each employer to be assigned one vote; except that employers having both active police and fire members in the plan shall be assigned two votes; and

(f) The modification does not adversely affect the pension benefits of retired members.

(1.5) (a) Notwithstanding any other provision of this part 4, the board may increase the member contribution rate above the rate established pursuant to section 31-31-402 with respect to the members of the statewide defined benefit plan if the increase:

(I) Does not require an increase in the employer contribution rate established pursuant to section 31-31-402;

(II) Does not adversely affect the plan's status as a qualified plan pursuant to the federal "Internal Revenue Code of 1986", as amended;

(III) Is approved by sixty-five percent of the active members of the plan who vote in the election proposing an increase in the member contribution rate; and

(IV) Is approved by more than fifty percent of the employers having active members covered by the plan who vote in the election proposing an increase in the member contribution

rate, each employer to be assigned one vote; except that employers having both active police and fire members in the plan shall be assigned two votes.

(b) The increase in the member contribution rate established pursuant to paragraph (a) of this subsection (1.5) shall be paid from a member's salary and otherwise be treated in the same manner specified in section 31-31-402 (1) for other member contributions for purposes of the federal "Internal Revenue Code of 1986", as amended. The increase in the member contribution rate shall not be subject to negotiation for payment by the employer.

(c) The board may eliminate an increase in the member contribution rate established pursuant to paragraph (a) of this subsection (1.5) so long as the requirements for an increase set forth in said paragraph (a) are met.

(2) In no event shall the board adopt a modification that reduces the statewide defined benefit plan's normal retirement age below that permitted by section 31-31-403 (1)(b).

(3) The board shall adopt rules setting forth the procedures for the member elections required by paragraph (d) of subsection (1) and subparagraph (III) of paragraph (a) of subsection (1.5) of this section. Each employer having members in the statewide defined benefit plan shall comply with the procedures established by the board and shall certify the results of any member election to the board as prescribed by the board's rules.

(4) A written copy of the language of any modifications to the statewide defined benefit plan or an increase in the member contribution rate adopted by the board pursuant to this section shall be kept and maintained by the board at its offices and be made available for copying and inspection by any interested party.

(5) If at any time the cost of any modification adopted by the board pursuant to subsection (1) of this section would require an increase in the eight percent employer and eight percent member contributions made pursuant to section 31-31-402 or such higher member contribution rate established pursuant to paragraph (a) of subsection (1.5) of this section, the board shall revoke the modification as it applies to active members of the plan. The board may reinstitute the modification at a later date, in its discretion, if reinstating the modification would not require an increase in the eight percent employer and eight percent member contributions made pursuant to section 31-31-402 or such higher member contribution rate established pursuant to paragraph (a) of subsection (1.5) of this section.

PART 5

STATEWIDE MONEY PURCHASE PLAN

31-31-501. Withdrawal into statewide money purchase plan. (1) Any employer may withdraw from its participation in the statewide defined benefit plan established by part 4 of this article for the sole purpose of electing participation in the statewide money purchase plan created pursuant to the authority granted in section 31-31-502.

(2) (a) The employer may initiate withdrawal from the statewide defined benefit plan by filing with the board a resolution adopted by the employer pursuant to paragraph (b) of this subsection (2) no less than nine months prior to the effective date of withdrawal unless a shorter waiting period is approved by the board. The effective date of withdrawal shall be the first day of the month immediately following the month in which the waiting period expires.

(b) The employer's withdrawal resolution shall be adopted by the governing body of the employer and shall state the employer's intent to withdraw from participation in the statewide defined benefit plan for the purpose of electing participation in the statewide money purchase plan.

(c) Any withdrawal shall be approved by at least sixty-five percent of all active members employed by the employer who are participating in the statewide defined benefit plan at the time of the election and who vote in the election proposing the withdrawal.

(d) The board shall promulgate rules relating to standards for disclosure of all ramifications and procedures for obtaining the member approval provided for in paragraph (c) of this subsection (2).

(e) All withdrawals from the statewide defined benefit plan shall comply with the requirements set forth in this section, and, except as otherwise provided in this section, all withdrawals meeting such requirements shall be approved by the board. Withdrawal requests that do not meet the requirements of this section shall not be approved by the board.

(3) The rights of benefit recipients and the vested rights of inactive members shall not be impaired or reduced in any manner as a result of the withdrawal of an employer as provided in this section.

(4) (a) (I) The board shall determine the amount of reserves required as of the effective date of withdrawal to maintain current benefits payable by the association to benefit recipients and to preserve the vested rights of inactive members. The amount of reserves shall be determined by the board utilizing certified actuarial reports prepared by the actuary for the statewide defined benefit plan. Any such actuarial report shall also certify that the employer's withdrawal shall not have an adverse financial impact on the actuarial soundness of the new hire benefits account. If the actuary determines, in accordance with accepted actuarial principles, that

the withdrawal will not have an adverse financial impact on the actuarial soundness of the new hire benefits account, the board shall transfer such employer's share of the employer contribution reserve in the new hire benefits account, as determined by the actuary, and all member contributions for the employer's active members to a short-term investment account. If the actuary determines, in accordance with accepted actuarial principles, that the withdrawal shall have an adverse financial impact on the actuarial soundness of the new hire benefits account, the employer shall not be permitted to withdraw.

(II) At least sixty days prior to the effective date of the withdrawal, the actuarial reports shall be updated and appropriate adjustments made to the amount of reserves transferred by the board to the short-term investment account on behalf of the employer if an update is required pursuant to rules adopted by the board. Within thirty days after the receipt of such updated reports, the withdrawal may be terminated by either:

(A) The employer filing with the board a subsequent resolution revoking the employer's resolution of intent to withdraw; or

(B) More than thirty-five percent of the employer's active members who are eligible to vote filing with the board ballots indicating that they no longer wish to withdraw.

(III) If a resolution or a sufficient number of ballots is timely filed with the board pursuant to subparagraph (II) of this paragraph (a), the withdrawal shall be terminated, and the board shall return to the new hire benefits account any amounts transferred to the short-term investment account pursuant to subparagraph (I) of this paragraph (a). If no resolution or an insufficient number of ballots is timely filed, the withdrawal shall proceed in accordance with the provisions of this section.

(IV) The board shall prescribe the form of the ballot to be submitted by members indicating that they no longer wish to withdraw and any other rules necessary for the implementation of this subsection (4).

(b) On the effective date of withdrawal, the actuarial reports prepared pursuant to the provisions of paragraph (a) of this subsection (4) shall be updated to finalize the amount of reserves required for the purposes specified in paragraph (a) of this subsection (4).

(c) Expenses incurred by the board for the actuarial reports prepared as a result of an application for withdrawal shall be paid by the employer making such application.

(d) The board shall provide any information contained in such actuarial reports upon request of the employer making the application for withdrawal.

(5) (a) In the event that the amount of the reserves required pursuant to the provisions of subsection (4) of this section exceeds the amount of the employer's share of the employer contribution reserve in the new hire benefits account as calculated by the actuary, the employer shall make an additional payment no later than ten working days after the effective date of withdrawal in an amount equal to the difference between the amount of reserves required and the amount of reserves on deposit.

(b) In the event that the amount of the reserves on deposit in the new hire benefits account, as calculated by the actuary, for the employer making application for withdrawal, exceeds the amount of reserves required pursuant to the provisions of subsection (4) of this section, such excess amount and the amount required for the transfer of member contributions as provided in subsection (6) of this section shall be transferred to the fire and police members' statewide money purchase plan benefit trust fund on the effective date of withdrawal. Allocation

of such amounts to individual member accounts under the statewide money purchase plan shall be made as set forth in section 31-31-502.

(c) The payments required by this section are subject to interest if not submitted when due.

(6) (a) Members who are not vested under the statewide defined benefit plan and who are employed by an employer who has withdrawn from the statewide defined benefit plan shall have their member contributions credited to the statewide money purchase pension plan as set forth in section 31-31-502.

(b) (I) Members who are vested under the statewide defined benefit plan and who are employed by an employer who has filed a resolution of intent to withdraw from the statewide defined benefit plan may elect that, if the withdrawal becomes effective, their contributions remain with the statewide defined benefit plan by giving written notice to the association no later than the date established for completion of the member election provided in paragraph (c) of subsection (2) of this section.

(II) Members who have made such an election shall become inactive statewide defined benefit plan members entitled to vested benefits upon termination and attainment of vested retirement age.

(III) Members who have made such an election shall not be entitled to withdraw any amounts from their separate retirement account until they have terminated their current employment.

(IV) If members who have made such an election die or become disabled prior to termination of employment, neither they nor their survivors shall be eligible for benefits under the statewide defined benefit plan, but rather they shall be limited to those benefits provided in sections 31-31-803, 31-31-807, and 31-31-807.5.

(c) Members who do not elect to leave their contributions with the statewide defined benefit plan pursuant to paragraph (b) of this subsection (6) shall have their member contributions credited to the statewide money purchase pension plan as set forth in section 31-31-502.

(7) The provisions of section 31-31-404 (1)(b) that relate to the purchase of service credit forfeited by the refund of member contributions shall not apply to members who are employees of an employer that has withdrawn from the statewide defined benefit plan. Such service credit forfeited by such withdrawal may be purchased pursuant to the provisions of section 31-31-403 (7).

31-31-502. Statewide money purchase plan - creation - management. (1) The board shall develop, maintain, and amend a statewide money purchase plan document that is intended to comply with the qualification requirements specified in section 401 of the internal revenue

code, as applicable to governmental plans. As used in this subsection (1), "internal revenue code" shall have that meaning set forth in section 31-31-204 (3). The plan shall cover the members of those employers that have withdrawn from the statewide defined benefit plan pursuant to section 31-31-501.

(2) (a) There is hereby created the fire and police members' statewide money purchase plan benefit trust fund, which shall consist of moneys of employers that have withdrawn from the statewide defined benefit plan pursuant to section 31-31-501, including member and employer contributions and such amounts as are transferred pursuant to section 31-31-501. The board shall keep an accurate account of the fund and of each member's separate account in the fund.

(b) The plan document created by the board pursuant to subsection (1) of this section shall govern the calculation and allocation of earnings and losses under the various investment alternatives which the board may offer, the transfer of assets between funds under each alternative, the allocation of a member's account between investment alternatives, and such other matters as may be necessary to the board's administration and management of the fund created pursuant to this section.

(c) In its administration, investment, and management of the fire and police members' statewide money purchase plan benefit trust fund, the board shall be subject to the provisions of section 31-31-303.

(3) Each member's member contributions transferred to the fund pursuant to section 31-31-501 (5)(b) shall be allocated to the member's separate account within the fund. In addition, each member's separate account will be credited with a portion of any excess employer reserve that is transferred to the fund, such amount to be calculated by multiplying the excess employer reserve times the proportion that the member's transferred member contributions bears to the total member contributions transferred.

(4) (a) Except as provided in paragraph (b) of this subsection (4), upon the effective date of an employer's withdrawal from the statewide defined benefit plan and election to participate in the statewide money purchase plan, each member covered by the statewide money purchase plan shall pay into the fund eight percent of salary paid. The payment shall be made by the employer by deduction from the salary paid such member. Except as provided in paragraph (b) of this subsection (4), for each such member, the employer shall pay into the fund eight percent of the salary paid to such member. All such payments shall be made by one voucher for the aggregate amount and shall be made no later than ten days following the date of payment of salary to the member. All such payments shall be credited to the fund. Late payments are subject to the penalty set forth in section 31-31-402 (4).

(b) (I) Upon the request of an employer, the board shall permit a higher mandatory employer contribution rate, mandatory employee contribution rate, or both, than is set forth in subsection (4)(a) of this section if the board determines that:

(A) A local resolution or ordinance setting forth the higher mandatory contribution rate or rates was enacted and is in effect; and

(B) An employee election was conducted and the higher mandatory contribution rate or rates was approved by sixty-five percent of the employer's active members of the plan who vote in the election proposing the higher rate.

(II) Any active member and any employer may make voluntary contributions to the plan by payroll deduction. Voluntary member contributions are not subject to the employer pickup provisions of section 414 (h) of the federal "Internal Revenue Code of 1986", as amended.

(III) In no event shall increased contributions resulting from a higher contribution rate or rates cause a member to exceed the limit on annual additions under the federal "Internal Revenue Code of 1986", as amended, as applicable to government plans.

(5) The board may amend the pension benefits provided under the statewide money purchase plan document created pursuant to subsection (1) of this section only upon the approval of at least sixty-five percent of the active members of the plan who vote in the election proposing the plan amendment and more than fifty percent of the employers who vote in the election proposing the plan amendment and who have active members covered by the plan, each employer to be assigned one vote; except that employers having both active police and fire members in the plan shall be assigned two votes; and except that the board may amend the plan document, without further approval, as it deems prudent and necessary to comply with state and federal law or as it deems necessary to efficiently administer benefits under the plan.

(6) (a) Any employer who has established a local money purchase plan pursuant to part 6 of this article or article 30.5 may apply to the board to cover the members of its local money purchase plan under the statewide money purchase plan. An application may be initiated by filing with the board a resolution adopted by the employer pursuant to paragraph (b) of this subsection (6) no less than six months prior to the proposed effective date of coverage under the statewide money purchase plan, unless a shorter waiting period is approved by the board. The effective date of coverage shall be the first day of the month following the waiting period.

(b) The employer's resolution applying for coverage under the statewide money purchase plan shall be adopted by the governing body of the employer and shall state the employer's intent to cover the members of its local money purchase plan under the statewide money purchase plan.

(c) Any application for coverage under the statewide money purchase plan shall be approved by at least sixty-five percent of all active members employed by the employer who are participating in the local money purchase plan at the time of the application and who vote in the election proposing the coverage under the statewide money purchase plan.

(d) The board shall promulgate rules relating to standards for disclosure of all ramifications and procedures for obtaining the member approval described in paragraph (c) of this subsection (6). The board shall also promulgate rules relating to standards for granting an employer's application for participation in the statewide money purchase plan and for the submission of information to the board by the employer.

(e) An application for coverage under the statewide money purchase plan shall not be complete until the employer certifies to the board that:

(I) The employer's local money purchase plan meets the qualification requirements of section 401 (a) of the "Internal Revenue Code of 1986" that are applicable to governmental plans;

(II) In connection with the employer's resolution pursuant to paragraph (b) of this subsection (6), the employer's governing body has adopted a resolution for complete or partial termination of the local money purchase plan in accordance with the terms of that plan and that:

(A) The termination resolution does not adversely affect the qualified status of the local money purchase plan; and

(B) The rights of all participants in the local money purchase plan who are affected by the termination to benefits accrued to the date of termination are nonforfeitable;

(III) All active and retired fire and police participants in the local money purchase plan will become participants in the statewide money purchase plan;

(IV) As directed by the board, the employer will transfer or cause to be transferred to the statewide money purchase plan all assets of the local money purchase plan that are attributable to the accrued benefits of the transferred participants;

(V) All employer and employee contributions required to be made to the local money purchase plan as of the date of termination have been paid;

(VI) Participants in the local money purchase plan will not incur a reduction in their respective accrued benefits, determined as of the date of transfer, as a result of their transfer to the statewide money purchase plan; and

(VII) The employer agrees to participate in the statewide money purchase plan and to be bound by the terms of the plan and the decisions and actions of the board with respect to the plan.

PART 6

WITHDRAWN LOCAL ALTERNATIVE PENSION PLAN

31-31-601. Withdrawn local alternative pension plan - creation - administration. (1)

(a) Any employer may withdraw from the statewide defined benefit plan, and any employer may subsequently reenter the statewide defined benefit plan, by filing with the board a resolution adopted by the employer pursuant to paragraph (c) of this subsection (1), no less than twelve months prior to the effective date of withdrawal or reentry unless a shorter waiting period is approved by the board. The effective date of withdrawal or reentry shall be January 1 of the year following the waiting period, but no withdrawal or reentry may become effective after January 1, 1985, except a withdrawal to establish a money purchase plan. No withdrawal to establish a money purchase plan may become effective after January 1, 1988, except as provided pursuant to section 31-31-501.

(b) An employer that withdraws from the statewide defined benefit plan prior to January 2, 1988, as provided in this subsection (1) shall establish and maintain a locally administered and financed alternative pension plan subject to the following:

(I) If the plan is a defined benefit plan, in whole or part, such plan shall be financed by contributions determined by the board on the basis of the entry age-normal cost method and shall

include the payment required to amortize the unfunded accrued liability over forty years from January 1, 1979; and

(II) The members of such plan hired before, on, or after April 7, 1978, shall be covered by the provisions of sections 31-31-803, 31-31-807, and 31-31-807.5 in lieu of any other defined disability and preretirement death benefits.

(c) Any reentry of both the withdrawal and the alternative pension plan, together with any amendments thereto, shall be approved by at least sixty-five percent of all active members who vote in the election proposing the reentry, withdrawal, or amendment. No amendment of an alternative pension plan may be adopted that would adversely affect the pension benefits of retired members. Notwithstanding any other provision of this subsection (1), however, an alternative pension plan, with the approval of the employer and sixty-five percent of the active members of the plan who vote in the election proposing the amendment, may be amended so as to change the nature of the plan from a defined benefit plan to a money purchase plan or from a money purchase plan to a defined benefit plan.

(d) This subsection (1) shall not apply to any employer first established after January 1, 1980.

(2) (a) Within six months from the effective date of withdrawal, the association shall refund to the employer all employer and member contributions in its custody, together with the net earnings of such funds. For the purposes of this subsection (2), "net earnings" means actual earnings, less actual administrative expenses and expenses connected with the withdrawal. The determination of net earnings shall be made by the board.

(b) The refunded moneys shall be used only as contributions to the alternative pension plan.

(c) Upon the effective date of withdrawal, the employer is liable for the payment of all benefits then vested under the provisions of section 31-31-403.

(d) The provisions of this subsection (2) apply to all employers whose withdrawals are effective on or after January 1, 1981.

PART 7

AFFILIATION OF PLANS WITH THE ASSOCIATION

31-31-701. Affiliation by old hire pension plans. (1) Any employer may elect affiliation with the association relating to an old hire fire or police pension plan that it has established pursuant to article 30.5 of this title by filing with the board a resolution approved as to form by the fire and police pension association and adopted by the employer. The effective date of affiliation must be mutually agreed upon by the employer and the association.

(2) (Deleted by amendment, L. 2014.)

(3) On the effective date of affiliation pursuant to this section, the assets of the old hire pension plan shall be transferred to the trust fund created by subsection (6) of this section. The amount of the transfer must equal the market value of such assets at the close of business on date of affiliation. Upon affiliation and the transfer of assets to the fund, benefits due pursuant to the old hire plan shall be paid by the association from the assets of the plan.

(4) An eligible employer may request of the board, prior to filing a resolution of affiliation, an estimate of the employer's contribution rate necessary to comply with the contribution requirements established by subsection (5) of this section.

(5) An employer that affiliates pursuant to this section shall annually contribute an amount approved by the board, upon advice of its actuary, to pay the normal cost plus amortize the unfunded past service liability attributed to old hire members hired prior to April 8, 1978, over a period not to exceed the lesser of twenty years or the number of years equal to the average remaining life expectancy of the pension fund's members.

31-31-704.5. Entry for social security employers. (1) (a) (I) Notwithstanding the exemption provided in section 31-31-401 (1)(a), any employer that covers members under the federal "Social Security Act", as amended, or any county that covers salaried employees under the federal "Social Security Act", as amended, whose duties are directly involved with the provision of law enforcement or fire protection as certified by the county may elect coverage under the social security supplemental plan established pursuant to section 31-31-704.6 by filing a resolution of affiliation with the board pursuant to subsection (2) of this section. Election of coverage under the plan shall be irrevocable.

(II) The board may allow an employer eligible for participation in the social security supplemental plan pursuant to subsection (1)(a)(I) of this section to alternatively elect to participate in one or more of the plans within the defined benefit system with full benefits and unreduced contribution rates. Such participation shall be as provided by rules adopted by the

board. The board may determine a continuing rate of contribution for all members who are active on the effective date of coverage to fund benefits as may be necessary to ensure that the affiliating employers' coverage shall not have an adverse financial impact on the actuarial soundness of the plan.

(b) A county electing to affiliate with the association shall make such election through the county's governing board. For purposes of administering to counties affiliated pursuant to this section, any county electing to affiliate shall be included in the definition of "employer", as defined in section 31-31-102 (3), and any covered employee of such county shall be included in the definition of "member", as defined in section 31-31-102 (4).

(2) The employer's resolution applying for coverage by the association shall first be adopted by the governing body of the employer and shall state the employer's intent to cover its members under the plan.

(3) Any application for coverage by the association shall be approved by at least sixty-five percent of all active members employed by the employer at the time of the application who vote in the election proposing the coverage; except that no such election shall be required if:

(a) The employer allows members to elect to remain in a predecessor plan pursuant to association rules or if the members have approved leaving a predecessor plan pursuant to section 24-54-106 (3); and

(b) The employer designates that all future eligible employees will participate in a plan of the association.

(4) The board shall promulgate rules relating to standards for disclosure of all ramifications and procedures for obtaining member approval pursuant to subsection (3) of this section. The board shall also promulgate rules relating to standards for granting an employer's application for participation in the plan and for the submission of information to the board by the employer. The rules shall contain a provision specifying that an employer that opts for coverage by the association shall not be permitted to opt out of the coverage at any later date. The board may adopt rules allowing an eligible individual active employee of an affiliating department to elect to remain in a predecessor plan and not have coverage by the association.

(5) An application for coverage by the association filed by an employer shall include the employer's certification to the board:

(a) That all fire and law enforcement employees who are active at the time of affiliation, except those that have elected to remain in a predecessor plan as may be allowed by rule, and all fire and law enforcement employees who are hired after affiliation as certified by the employer, will become participants in the plan and the election to participate in the plan is irrevocable; and

(b) That the employer agrees to participate in the plan and to be bound by the terms of the plan and the decisions and actions of the board with respect to the plan.

(6) An employer that affiliates with the association pursuant to this section shall not be prohibited from participating in other governmental pension or benefit plans to the extent allowed under the federal "Internal Revenue Code of 1986", as amended.

(7) Nothing contained in this section shall affect the ability of an employer to terminate social security coverage or affect the procedures for such termination.

31-31-704.6. Social security supplemental plan - creation - management. (1) The board is authorized to develop, maintain, and amend a social security supplemental plan document, as a component of the defined benefit system, that offers a defined benefit and that is intended to comply with the qualification requirements specified in section 401 of the federal "Internal Revenue Code of 1986", as amended, that are applicable to governmental plans. The plan shall cover the members of those employers that have elected coverage under the plan pursuant to section 31-31-704.5.

(2) (a) Contributions and earnings of the social security supplemental plan shall be held in trust as part of the defined benefit system trust fund.

(b) The social security supplemental plan document created by the board pursuant to subsection (1) of this section shall govern the accrual of service credit, vesting, the benefits to be offered based on age and service, the establishment and payment of contributions, the allocation of contributions towards funding the defined benefit, amendment of the plan, and such other matters as may be necessary to the board's administration and management of the plan.

(3) Upon the effective date of coverage under the social security supplemental plan, each member covered by the plan shall pay one-half of the member contribution rate established in part 4 of this article into the defined benefit plan trust fund. The payment shall be made by the employer by deduction from the salary paid to the member. For each member, the employer shall pay one-half of the employer contribution rate established in part 4 of this article into the defined benefit plan trust fund. Payments are due no later than ten days following the date of payment of salary to the member, unless the salary is paid more than once monthly, in which event the payments are due no later than the tenth day of the month following the month the salary is paid to the member. The payments required by this section are subject to interest if not submitted when due.

(4) Each employer shall pay the employee contributions required for all salaries, and the contributions so paid shall be treated as employer contributions pursuant to section 414 (h)(2) of the federal "Internal Revenue Code of 1986", as amended, in determining tax treatment under the code. The employer shall pay the employee contributions directly to the retirement association, instead of paying the amounts to employees, and the contributions shall be paid from the same funds that are used in paying salaries to the employees. The contributions, although designated as employee contributions, shall be paid by the employer in lieu of contributions by employees. Employees may not elect to choose to receive the contributions directly instead of having them paid by the employer to the pension plan. Employee contributions so paid shall be treated for all purposes of this article, other than federal tax, in the same manner as employee contributions made before the date paid. Payment shall be made by one voucher for the aggregate amount deducted and shall be made no later than the tenth day after the end of each pay period.

(5) Benefits payable under the social security supplemental plan shall be equivalent to one half of the benefits paid under the statewide defined benefit plan.

(2) Any social security employer that offers coverage under the statewide death and disability plan must also participate in the social security supplemental retirement plan created pursuant to section 31-31-704.6. Coverage under the statewide death and disability plan for any social security employer not participating in the social security supplemental retirement plan may be terminated by the board on or after January 1, 2017.

(1) The board is authorized to make affiliation agreements with governing bodies that provide pension plans for volunteer firefighters to administer such plans and manage the funds of such plans for investment. The fire and police pension association may require periodic renewal of the agreement.

(2) The fire and police pension association has the following responsibilities in connection with a volunteer firefighter pension plan that has an agreement with the association pursuant to subsection (1) of this section:

- (a) Investing the assets of the plan, including determining the allocation of assets;
- (b) Collecting and accounting for contributions to the plan;
- (c) Distributing benefits provided under the plan as directed by the governing body or its agent and issuing tax forms and filing tax reports regarding distributions;

The allocated expense shall be paid from the assets of each plan.
- (g) Taking such other actions as may be allowed or required by statute.

(3) The governing body of a volunteer pension plan or its local pension board has the following responsibilities when the plan is affiliated with the fire and police pension association pursuant to subsection (1) of this section:

(a) Establishing eligibility for and the amount of benefits to be received by members and beneficiaries of the plan, including the determination of base benefits, years of service under the plan, marital status, and continuing eligibility of retirees and survivors;

(b) Electing options for the allocation of assets, if such options are provided by the fire and police pension association;

(c) Maintaining records of the terms and provisions of the plan as they may be adopted and amended;

(d) Making determinations regarding benefit improvements, if any; and

(e) Periodically certifying information required by the fire and police pension association to administer the plan benefits.

31-31-706. Affiliation by exempt defined benefit pension plans. (1) At the request of any local employer having an exempt defined benefit pension plan, the board is authorized to make an agreement with the employer's governing body to manage such employer's exempt defined benefit pension plan fund for investment.

(2) (a) As an alternative to affiliation for investment management pursuant to subsection (1) of this section, at the request of any local employer having an exempt defined benefit pension plan, the board is authorized to make an agreement with the employer's governing body to incorporate the exempt defined benefit pension plan into the defined benefit system. The incorporation shall be under terms and conditions that are mutually agreeable to the employer's governing body and the board and as may be required to maintain the qualified status of the plan under the federal "Internal Revenue Code of 1986", as amended.

(b) Prior to the implementation of an agreement of incorporation pursuant to paragraph (a) of this subsection (2), the board shall find that the incorporation is not projected to have an adverse actuarial impact on existing members of the defined benefit system. The board and the employer's governing body are authorized to take all actions necessary to accomplish the agreement and to maintain the qualified status of the formerly exempt defined benefit pension plan after incorporation into the defined benefit system. Notwithstanding any other requirement, an exempt defined benefit pension plan may be incorporated into the defined benefit system without the approval of the members of the exempt plan or the statewide plan.

31-31-802. Coverage. (1) Except as provided in section 31-31-803, any member hired before, on, or after April 7, 1978, is eligible for the benefits provided by this part 8, with the exception of the following:

(a) Any member whose employer covers them under the federal "Social Security Act" shall be exempt from the provisions of this part 8 except the provisions of section 31-31-202;

(b) Members whose employer had established an exempt defined benefit pension plan in accordance with part 8 of article 30.5 of this title, on January 1, 1980, unless an employer irrevocably elects not later than October 1, 1983, to be subject to the provisions of this part 8; and

(c) Members whose employer had established a money purchase plan on or before December 1, 1978, in accordance with the provisions of part 8 of article 30.5 of this title 31; except that members of a police or fire department of any such employer may elect, with the approval of sixty-five percent of all active members employed by the department who vote in the election proposing the coverage and with the consent of the members' employer, to be covered by the provisions of this part 8, but any member hired on or after the date determined by the board to be the effective date of affiliation for coverage under this part 8 shall be covered under said part and shall have no right of election. Upon election of such coverage, members shall complete a statewide standard health history form pursuant to section 31-31-810 (1)(c) and, for purposes of this part 8, shall be considered as if first employed as of the date the election is effective. The board shall establish procedures for obtaining the required member and employer approval for coverage under this part 8. Once a member has elected the coverage of this part 8, the member's election shall be irrevocable. No employer that elects coverage on or after July 1, 1996, under this part 8 pursuant to this subsection (1)(c) shall be permitted to withdraw from such coverage pursuant to subsection (2) of this section.

(d) Any member whose employer has affiliated with the public employees' retirement association for the purpose of administering retirement benefits for its members.

(2) (a) Any employer may withdraw the active members of its police or fire department from coverage under the disability and survivor benefit provisions of this part 8 in order to establish its own exempt disability and survivor benefit program. Such withdrawal must be approved by at least sixty-five percent of all active members employed by the department, but if the members do not so approve, the employer may request approval of the withdrawal by the board. The board shall approve the request only if the proposed alternative program will provide disability and survivor benefits which are at least the actuarial equivalent of benefits provided

under this part 8, as determined by an actuary appointed by the board. In making its determination, the actuary shall follow the association's standards for actuarial equivalency and shall include a review of the income tax consequences of the benefits offered. The cost of an actuarial review shall be paid by the employer and the employer will provide the information requested by the actuary. In the event the employer proposes the use of a private insurance company to provide the alternative program, the company shall have a minimum rating from a recognized rating agency as prescribed by rules of the board.

(b) An employer requesting to withdraw as provided in this subsection (2) must file a resolution of intent to withdraw with the board no later than December 31, 1999. No withdrawal will be permitted to take effect after December 31, 2001.

(c) An employer that withdraws pursuant to this subsection (2) shall establish and maintain a locally financed alternative disability and survivor benefit plan. Except for the one time payment specified in paragraph (e) of this subsection (2), the state shall not have any financial or other responsibility for a plan that has been withdrawn pursuant to this subsection (2).

(d) The board shall promulgate rules relating to the standards for disclosure of all ramifications of and procedures for obtaining the member approval of withdrawal provided for in paragraph (a) of this subsection (2).

(e) Within sixty days of the effective date of a withdrawal under this subsection (2), the association shall pay to the withdrawn employer its actuarially determined proportionate share of the state contribution made by the state treasurer on January 31, 1997, for funding of death and disability benefits pursuant to section 31-31-811 (3). The board shall promulgate rules for determining the calculation of a withdrawn employer's actuarially determined proportionate share of the state contribution. Such rules shall consider the number of members hired prior to January 1, 1997, who are being withdrawn, the number of members hired prior to January 1, 1997, who continue to be covered for death and disability benefits under this part 8, including those members and survivors already receiving benefits, and the cost of covering the withdrawn employer's members for the period prior to the withdrawal. Any money paid to a withdrawn employer pursuant to this paragraph (e) shall be applied to the funding of that employer's exempt disability and survivor benefit program created pursuant to paragraph (a) of this subsection (2).

(f) Once an employer has withdrawn under this subsection (2), reentry into the disability and survivor benefit plan provided by this part 8 shall be permitted only once, in accordance with procedures established by the board.

(3) If an employer that is otherwise required to enroll its members under the plan fails to properly enroll such members, neither the fire and police pension association nor the death and disability trust fund is obligated or liable for any purpose to any person or employer arising from such failure.

(b) Notwithstanding subsection (5) of this section, a member eligible for the normal annual disability benefit for total disability may elect to receive one of the following disability benefit options in lieu of the normal annual disability benefit provided under paragraph (a) of this subsection (1):

(I) Option 1. A reduced annual disability benefit payable to the member and, upon the member's death, all of such reduced annual disability benefit to be paid to the member's designated beneficiary for life;

(III) Option 3. A reduced annual disability benefit payable to the member and, upon the member's death, all of such reduced annual disability benefit to be paid to the member's surviving spouse and dependent children, if any, until the death of the surviving spouse, the death of any adult dependent child found to be incapacitated by the board, or until the youngest child, regardless of marital status, reaches twenty-three years of age, whichever is later.

(c) A member shall be deemed to have elected option 3 specified in subparagraph (III) of paragraph (b) of this subsection (1) if the member is eligible for a benefit for total disability under this subsection (1), is survived by a spouse or dependent child, and dies before making an election allowed under paragraph (b) of this subsection (1).

(d) (Deleted by amendment, L. 2009, (SB 09-017), ch. 53, p. 188, § 2, effective March 25, 2009.)

(2) (a) A member who becomes occupationally disabled, as defined in section 31-31-801 (3), and is awarded a disability retirement prior to October 1, 2002, shall be retired from active service for such time as the occupational disability continues and shall be eligible to receive the disability benefit provided by this subsection (2) or section 31-31-806.5 if the member:

(I) Is not eligible for the normal retirement pension from a plan that is part of the defined benefit system pursuant to section 31-31-204 or a local defined benefit retirement pension provided pursuant to article 30.5 of this title; or

(II) Has not reached age fifty-five with twenty-five years of accumulated service as a member and is a participant under the statewide money purchase plan pursuant to part 5 of this article or under a local money purchase plan.

(b) The annual disability benefit for occupational disability for a member who is retired pursuant to paragraph (a) of this subsection (2) shall be thirty percent of the annual base salary paid to the member immediately preceding retirement for disability. The benefit shall be increased by:

(I) Ten percent of the annual base salary if such member had a spouse at the time of becoming occupationally disabled, for so long as such spouse survives and is married to such member or is legally entitled to maintenance from such member in an amount equal to or greater than the amount of the increase in the benefit authorized by this subparagraph (I). If the amount of maintenance is less than the amount of the increase in the benefit authorized by this subparagraph (I), the benefit shall be increased by an amount equal to the amount of the maintenance; except that, for any member who is receiving the benefit authorized by this subparagraph (I) and who becomes legally required to pay maintenance prior to June 1, 2001, the amount of the benefit shall be ten percent of the annual base salary.

(II) Ten percent of the annual base salary if such member has any dependent children.

(III) (Deleted by amendment, L. 2009, (SB 09-017), ch. 53, p. 188, § 2, effective March 25, 2009.)

(2.1) (a) A member who becomes permanently occupationally disabled, as defined in section 31-31-801 (3.2), shall be retired from active service for such time as the permanent occupational disability continues and shall be eligible to receive the disability benefit provided by this subsection (2.1) or section 31-31-806.5 if the member:

(I) Is not eligible for the normal retirement pension from a plan that is part of the defined benefit system pursuant to section 31-31-204 or a local defined benefit retirement pension provided pursuant to article 30.5 of this title; or

(II) Has not reached age fifty-five with twenty-five years of accumulated service as a member and is a participant under the statewide money purchase plan pursuant to part 5 of this article or under a local money purchase plan.

(b) The annual disability benefit for a permanent occupational disability for a member who is retired pursuant to paragraph (a) of this subsection (2.1) shall be fifty percent of the annual base salary being paid to the member immediately preceding retirement for disability.

(2.2) (a) A member who becomes temporarily occupationally disabled, as defined in section 31-31-801 (3.4), shall be retired from active service for such time as the temporary occupational disability continues for a period up to five years from the date of original disablement and shall be eligible to receive the disability benefit provided by this subsection (2.2) or section 31-31-806.5 if the member:

(I) Is not eligible for the normal retirement pension from a plan that is part of the defined benefit system pursuant to section 31-31-204 or a local defined benefit retirement pension provided pursuant to article 30.5 of this title; or

(II) Has not reached age fifty-five with twenty-five years of accumulated service as a member and is a participant under the statewide money purchase plan pursuant to part 5 of this article or under a local money purchase plan.

(b) The annual disability benefit for a temporary occupational disability for a member who is retired pursuant to paragraph (a) of this subsection (2.2) shall be forty percent of the annual base salary being paid to the member immediately preceding retirement for disability.

(c) A member found to have a temporary occupational disability shall be subject to reexamination at such times and in such manner as the board may direct. Based on the

recommendations of the physician panel, the board may require treatment, counseling, or therapy necessary to rehabilitate the member for return to work. At the time of reexamination, a member with a temporary disability shall provide evidence of compliance with the requirements established by the board. Benefits may be terminated by the board if the member fails to make rehabilitation efforts or if sufficient evidence of compliance and continuing disability is not provided to the board by the disabled member.

(d) A member who remains disabled may apply for an upgrade to permanent occupational disability or to total disability no later than six months prior to the end of five years from the date of original disablement. A member may be upgraded to a permanent occupational disability upon a finding by the board that the member meets the definition contained in section 31-31-801 (3.2) or to a total disability upon a finding by the board that the member meets the definition contained in section 31-31-801 (4). After the five-year period, benefits shall cease unless the member has been upgraded to either permanent occupational disability or total disability.

(e) A member whose disability benefits cease and who is not restored to active service or a member who elects to terminate his or her disability benefits shall be entitled to:

(I) Any vested benefit earned through his or her years of service prior to becoming disabled, payable at normal retirement age; or

(II) A refund of the member's contributions if no benefit is vested.

(3) (a) Notwithstanding any other provision of this section, no benefits shall be payable for any disability resulting in whole or in part from:

(I) Addiction to a controlled substance, the use of which is prohibited in article 18 of title 18, C.R.S.;

(II) Engaging in any act for which the member has been convicted of a felony; or

(III) An intentionally self-inflicted injury.

(b) For purposes of this subsection (3), "addiction" shall have the same meaning as set forth in part 8 of article 245 of title 12 and "controlled substance" shall have the same meaning as set forth in part 2 of article 80 of title 27.

(4) (a) (I) The determination of disability, whether occupational or total or whether on-duty, shall be made by the board, and the board shall consider reports to be made by a panel of three physicians who shall be appointed by the board upon the recommendation of a medical advisor with whom the board shall contract to provide advisory services and any other evidence the board deems relevant. The board shall not make a determination of disability unless two of the three physicians examining the applicant agree that a disability exists, but the board shall not be bound by the physicians' determination that a disability exists.

(II) The board may consider any relevant evidence, including medical evidence, in making its determination regarding the origin of an applicant's disability and may request that the three physicians appointed by the board to examine the applicant also provide an opinion as to whether the applicant's injury was received while performing official duties or whether the applicant's occupational disease arose out of and in the course of the applicant's employment.

(III) In all cases under this subsection (4), section 31-31-805, or section 31-31-806.5, the board:

(A) May appoint hearing officers who are experienced in disability matters to conduct hearings and make findings and recommendations to the board on any issue relating to an applicant's disability;

(B) May adopt rules to establish a process for the administrative approval of disability applications, including standards of review for the applications, without board review; and

(C) Shall take any final action that constitutes a denial of a disability application or a reduction of a benefit.

(b) The board shall have the authority to investigate claims for disability retirement benefits at the time of initial application for benefits or subsequent to an award of benefits in order to determine eligibility or continuing eligibility for such benefits. The board shall appoint such investigators and other personnel as may be necessary to carry out this function. No investigation of a member who has been awarded a disability retirement shall be pursued if more than five years has elapsed since the date of the award.

(c) If the board determines that an applicant for retirement for disability is not disabled and the applicant is on sick leave, disability leave, or other type of leave of absence, is serving in a temporary position pending the determination of an application, or has been terminated from employment by the employer on the basis of an alleged disability, the employer shall reinstate the applicant to active service in the same position the applicant held prior to the commencement of such leave, assignment to a temporary position, or termination. If the employer refuses to reinstate the applicant to the applicant's prior position, the employer shall thereafter pay benefits to the applicant as if the applicant had been determined occupationally disabled by the board. The employer shall continue to pay such benefits until the applicant is reinstated to the applicant's prior position or declines an offer of reinstatement.

(5) (a) Any member who is awarded a total disability pension or a permanent occupational disability pension under this section or section 31-31-806.5 shall be eligible to receive the applicable normal disability pension provided in this section or to make an election for a reduced pension in the manner provided in this section.

(b) (I) If, after making the election of a normal disability pension, an unmarried member who receives a single life annuity at the time benefits commence and whose marital status changes as the result of marriage or remarriage shall be eligible to change the member's original election to take a reduced pension in the same manner as the original election authorized in paragraph (a) of this subsection (5) within one hundred eighty days of the date of the marriage or remarriage or January 1, 2008, whichever date is later. If, after such selection of a different payment option, the member subsequently dies within one hundred eighty days following the marriage or remarriage, the only survivor benefit payable to the member's designated beneficiary shall be the difference between the single life option amount payable to the member prior to marriage or remarriage and the amount of the reduced benefit that was actually paid to the deceased member after the marriage or remarriage and prior to the member's death.

(II) The newly elected pension shall be recalculated as the actuarial equivalent of the remainder of the original pension for which the member would otherwise have been eligible if the member had not changed the original election.

(6) (a) The benefits payable under the statewide death and disability plan established in this part 8 shall be redetermined effective October 1 each year, and such redetermined amount shall be payable for the following twelve months. To be eligible for redetermination, such benefits shall have been paid for at least twelve calendar months prior to the effective date of redetermination. The annual redetermination of benefits made pursuant to this section shall be in lieu of any other annual cost of living adjustment.

(b) (I) For the redetermination of occupational disability benefits payable pursuant to subsections (2), (2.1), and (2.2) of this section and section 31-31-806.5, the amount of the benefit on the effective date of the benefit shall be increased by a percentage to be determined by the board but not more than three percent for each full year contained in the period commencing with the effective date of the benefit and ending with the effective date of the redetermination.

(II) For the redetermination of total disability benefits payable pursuant to subsection (1) of this section and section 31-31-806.5, the amount of the benefit on the effective date of the benefit shall be increased by three percent for each full year contained in the period commencing with the effective date of the benefit and ending with the effective date of the redetermination.

(c) The cost of the adjustment of benefits provided by this section shall be funded in the same manner as other benefits established by this part 8.

(7) (a) The benefits payable under this section or section 31-31-806.5 to any member who is awarded an occupational disability prior to October 1, 2002, a total disability, or who is permanently occupationally disabled and who is also eligible to receive payments from the member's separate retirement account pursuant to section 31-31-406 or a similar provision in a local pension plan shall be reduced by an amount that is the actuarial equivalent of the benefits such member is eligible to receive from the separate retirement account, whether the benefits received from the account are paid on a periodic basis or in a lump sum.

(b) The benefits payable under this section or section 31-31-806.5 to any member who is awarded a total disability or who is permanently occupationally disabled and who is also eligible to receive a defined benefit from a statewide or local pension plan shall be reduced by the amount of the defined benefit.

(8) (a) A member eligible for a permanent occupational disability benefit under subsection (2.1) of this section or a permanent occupational disability benefit under section 31-31-806.5 may elect to receive one of the following disability benefit options in lieu of such disability benefit:

(I) Option 1. A reduced annual disability benefit payable to the member and, upon the member's death, all of such reduced annual disability benefit to be paid to the member's designated beneficiary for life;

(II) Option 2. A reduced annual disability benefit payable to the member and, upon the member's death, one-half of such reduced annual disability benefit to be paid to the member's designated beneficiary for life; or

(III) Option 3. A reduced annual disability benefit payable to the member and, upon the member's death, all of such reduced annual disability benefit to be paid to the member's surviving spouse and dependent children, if any, until the death of the surviving spouse, the death of any adult dependent child found to be incapacitated by the board, or until the youngest child, regardless of marital status, reaches twenty-three years of age, whichever is later.

(b) A member shall be deemed to have elected option 3 specified in subparagraph (III) of paragraph (a) of this subsection (8) if the member is awarded a permanent occupational disability benefit under subsection (2.1) of this section or an occupational disability benefit under section 31-31-806.5, is survived by a spouse or dependent child, and dies before making an election allowed under paragraph (a) of this subsection (8).

(9) After an election has been made of any of the options provided in paragraph (b) of subsection (1) or paragraph (a) of subsection (8) of this section, the election shall be irrevocable when the first disability benefit payment has been deposited or otherwise negotiated by the

member or sixty days after the date of issuance of the check, whichever occurs first. The member's beneficiary designation shall also be irrevocable at such time unless the member's marital status changes as a result of dissolution of marriage, death of a beneficiary, marriage, or remarriage or in the event of the death of a beneficiary. In such case, the member may designate a new beneficiary; except that, in cases of dissolution of marriage, this subsection (9) shall only apply to any final dissolution of marriage decree of a member entered on or after July 1, 1990.

(10) The joint disability benefit provided in this section shall be calculated as the actuarial equivalent of the normal annual disability benefit otherwise payable as provided in this section. In the event of a change in the beneficiary designation pursuant to subsection (9) of this section, the joint disability benefit payable shall be recalculated so as to be the actuarial equivalent of the remainder of the original disability benefit based upon the member's initial beneficiary designation, if any.

(11) Repealed.

(12) Notwithstanding any limitation provided under article 80 of title 13, C.R.S., or any other applicable limitation, any application for disability must be filed by the member no later than one hundred eighty days after the last day on the payroll under which disability coverage under this section is provided.

(13) Within the application for disability benefits, a member may irrevocably elect not to be considered for reinstatement in the event that such member becomes eligible. Any such election shall terminate any obligation for reinstatement by the employer.

(14) Within the application for disability benefits, the employer shall:

(a) Make a statement indicating the reason for the member's separation from employment; and

(b) State any additional basis for disability under the death and disability program which the employer believes exists and include any documentation of relevant medical evidence. In the event the member's disability ceases to exist and the member becomes eligible to be restored to active service pursuant to section 31-31-805 (2), the member may be considered for a continuing disability by the board with regard to the additional basis provided by the employer. The consideration shall be conducted as if the member had filed an original application; except that limitation periods under section 31-31-805 (2) shall accrue from the date of the original disablement. If the member fails to be examined with regard to the additional basis, the member shall be entitled to neither reinstatement nor continuing disability benefits.

(1) (a) (Deleted by amendment, L. 2009, (SB 09-017), ch. 53, p. 191, § 4, effective March 25, 2009.)

(b) Any disability benefit provided pursuant to section 31-31-803 shall be reduced by the pro rata amount of any social security benefit received by the member attributable to the member's quarters of social security coverage derived from employment as a member.

(c) Any member receiving an occupational disability benefit pursuant to section 31-31-803 or 31-31-806.5 and a social security benefit attributable to the member's quarters of social security coverage derived from employment as a member shall file an annual report concerning any social security income. If such member knowingly fails to file such report or files a fraudulent report, the disability benefit shall be discontinued.

(2) The benefits payable under section 31-31-803 or 31-31-806.5 to any member who is occupationally disabled prior to October 1, 2002, is permanently occupationally disabled, or who is totally disabled and who at the time of the award of such benefits is a member of a money purchase plan pursuant to this article or article 30.5 of this title, including any department chief, who at the time of the award of such benefits has been exempted from the statewide defined benefit plan as permitted by section 31-31-401 (4), shall be reduced by an amount that is the actuarial equivalent of the benefits such member receives from any such money purchase plan, whether the benefits received from the money purchase plan are paid on a periodic basis or in a lump sum. No such reduction shall exceed the actuarial equivalent of money purchase plan benefits if such benefits had been funded at the same rate of contributions specified in section 31-31-402 (1) and (2) as is required for benefits under section 31-31-403.

Editor's note: Provisions of this section were formerly numbered as § 31-30-1007 (3) and (9).

31-31-805. Change in disability status - reexamination. (1) At any time that a total disability, including an on-duty disability pursuant to section 31-31-806.5 (1), ceases to exist, based upon periodic reexamination as may be required by the board or based upon other evidence of ability to engage in substantial gainful activity, a member retired for such disability shall be declared permanently occupationally disabled, and the benefits provided by section 31-31-803 (1) or 31-31-806.5 (1) shall be reduced to the level provided in section 31-31-803 (2.1). The five-year limitation on investigations contained in section 31-31-803 (4)(b) shall not be applicable to the enforcement of this subsection (1).

(2) (a) At any time that an occupational disability, including an on-duty disability pursuant to section 31-31-806.5 (2), ceases to exist, based upon periodic reexamination as may be required by the board, a member retired for such disability may be restored to active service, and the benefits provided by section 31-31-803 or 31-31-806.5 (2) shall be discontinued. The member shall be restored to active service by the member's former employer if a vacancy exists in the same position the member held prior to retirement, or if there is a position of equal base pay available, or if the member agrees to accept another available position that may not be the same or of equal base pay to the member's former position.

(b) In addition, if the position to which the member will be restored requires, as a matter of state law, that the member maintain any type of state certification, the employer need not restore the member to such position if the member does not have the necessary certification or the member's certification has otherwise lapsed, expired, or been revoked. The employer, however, must afford the member an opportunity to attain certification, recertification, or reactivation of an existing certification and must hold open any position that the member has agreed to accept pursuant to this subsection (2) for a period not to exceed one year. The board is directed to evaluate the impact of this requirement on employers of association members. The one-year period may extend beyond the five-year limitation set forth in paragraph (f) of this subsection (2), as long as the opening occurs within the five-year period. Disability benefits will be continued during any period, not to exceed one year, that the member is attempting to attain certification, recertification, or reactivation.

(c) If, at the time of a board finding that a member's occupational disability has ceased to exist, there is no opening in the same position the member held prior to retirement or one of equal base pay and there is no opening in a position of lesser base pay that the member agrees to accept, the board may order the member to proceed with any necessary training in order to attain, reinstate, or reactivate any certification required for the position from which the member retired. Disability benefits shall be continued during the training period up to a maximum of one year.

(d) If the member refuses to take the steps necessary to attain certification, recertification, or reactivation as required by paragraphs (b) and (c) of this subsection (2), or if at the end of the one-year limitation on attaining certification, recertification, or reactivation the member has not attained the necessary certification, recertification, or reactivation, disability benefits shall be discontinued, and the employer shall be relieved of further obligations pursuant to this subsection (2).

(e) If a member refuses to accept the same or a position of equal base pay, the benefits provided by section 31-31-803 shall be discontinued, but a member shall not lose benefits if there is no such vacancy or if the member refuses to accept a position that is not the same or of

equal base pay to the member's former position, or if the employer refuses to restore the member to active service, except as provided pursuant to paragraph (b) of this subsection (2).

(f) If at least two members of the three-member physician panel examining the member agree that an occupational disability ceases to exist, if the board determines that such disability ceases to exist, and if no appropriate vacancy is available at that time, the member shall have the first right of refusal to fill such a vacancy if it occurs within five years from the date of original disablement. In the event an occupational disability is based on a medical determination of mental impairment or disease, all three members of the physician panel must agree, and the board must determine, that the occupational disability ceases to exist before the member is granted such first right of refusal.

(g) At least thirty days prior to making its determination, the board shall provide written notice to the employer and member of the agreement of the appropriate number of physicians and of the opportunity for a hearing, upon request of the employer or member, before the board. If a hearing is requested, the board shall provide the employer with copies of the medical reports prepared by the physician panel with respect to any examination or reexamination of the member. Neither the employer, the agents of the employer, including any physician retained to review such reports, nor the association shall release such reports to any other person except as otherwise allowed pursuant to section 24-72-204 (3)(a)(I), C.R.S.

(h) If the member refuses a vacancy in the same position the member held prior to retirement or in a position of equal base pay to the member's former position, the benefits provided by section 31-31-803 shall be discontinued. Except as otherwise provided pursuant to this subsection (2), if the employer refuses to allow a member who exercises such first right of refusal to fill the vacancy, the employer shall thereafter pay the cost of the benefits provided by section 31-31-803.

(i) When a temporary occupational disability ceases to exist and the member is restored to active service with the member's employer, a transfer will be made from the statewide death and disability plan to the member's normal retirement plan in the amount of the monthly employer and employee contributions being made to the member's pension plan at the time of disability but not more than sixteen percent of the monthly base salary that the member was being paid at the time of disability retirement, multiplied by the number of months the member received temporary occupational disability benefits. The member will receive service credit for such transfer. A restored member of a local plan which has a contribution rate in excess of sixteen percent shall have the difference between the amount transferred and the amount that would have been contributed at the excess rate, made up by an additional contribution from the employer.

(2.5) When a member on temporary occupational disability satisfies the age and service requirements for a normal retirement, including the time the member was on temporary occupational disability, a transfer shall be made from the statewide death and disability plan to the member's normal retirement plan in the amount of the monthly employer and employee contributions being made to the member's pension plan at the time of disability but not more than sixteen percent of the monthly base salary that the member was being paid at the time of disability retirement, multiplied by the number of months the member received temporary occupational disability benefits. A member of a statewide or local retirement plan that has a mandatory contribution rate in excess of sixteen percent shall have the difference between the amount transferred and the amount that would have been contributed at the excess rate made up

by an additional contribution from the employer. The member shall then be granted a normal retirement under the member's normal retirement plan and the temporary occupational disability benefits under the statewide death and disability plan shall terminate.

(3) Within five years from the date of a board finding of occupational disability pursuant to subsection (1) of this section or from the date of original disablement pursuant to section 31-31-803 (2), (2.1), or (2.2), a member retired for such disability may be declared totally disabled based upon periodic reexamination as ordered by the board in its discretion. If the member is declared totally disabled, the benefits provided by section 31-31-803 (2), (2.1), or (2.2) shall be increased to the level provided in section 31-31-803 (1).

(II) Following the submittal of the annual actuarial valuation report dated January 1, 1995, and continuing through the submittal of the report dated January 1, 1999, the board shall

submit biennial actuarial valuation reports for the purposes described in subsection (4) of this section.

(III) (A) By September 30, 2001, and by each September 30 thereafter, the board shall submit an annual actuarial valuation report dated January 1 of the year in which the report is submitted for the purposes described in subsection (4) of this section.

(B) The general assembly reviewed the reporting requirements to the general assembly in sub-subparagraph (A) of this subparagraph (III) during the 2008 regular session and continued the requirements.

(3) On the first day of each month of each fiscal year commencing July 1, 1993, the state treasurer shall transfer one-twelfth of the amount certified by the board for that fiscal year for state funding of death and disability benefits pursuant to subsection (2) of this section, which amount shall in no case exceed seven million five hundred thousand dollars for such fiscal year, to the fund created by section 31-31-301 (1)(a) for allocation to the death and disability account in the fund; except that no such transfer shall be made after December 31, 1996. On January 31, 1997, the state treasurer shall transfer thirty-nine million dollars for state funding of death and disability benefits pursuant to this subsection (3) for members hired before January 1, 1997, to the fund created by section 31-31-301 (1)(a) for allocation to the death and disability account in the fund. Moneys in the fund created by section 31-31-301 (1)(a) shall not revert to the general fund but shall be continuously available for the purposes provided in this part 8.

Thereafter, the board, based on an annual actuarial valuation, may adjust the contribution rate every two years, but in no event may the adjustment for any two-year period exceed one-tenth of one percent of the member's salary. Any employer and any local pension board or authority shall provide such information as may be required by the board in order to complete the annual actuarial valuations. The actuary appointed by the board may utilize either the entry age-normal cost method or the aggregate cost method for purposes of the study required by this subsection (4). Any unfunded accrued liability shall be funded over a period not to exceed thirty years. The actuarial study shall not include any consideration of a cost of living adjustment to benefits awarded to members who are occupationally disabled. Payments shall be made by the employer and are due no later than ten days following the date of payment of salary to the member. The payments required by this section are subject to interest if not submitted when due. Any decision regarding whether the contribution required by this subsection (4) shall be assessed against the employer or the member, or shall in some manner be assessed jointly against the employer and the member, will be made at the local level utilizing the usual process for determining employee benefits. If it is not already part of the usual process for determining employee benefits, the employer shall confer with the employees or their representative prior to making a determination on how the contribution will be assessed.

An application may be initiated by filing with the board a resolution adopted by the governing body of the employer in accordance with the terms, process, certifications, and schedule established by the board.

(1.5) An employer who has elected participation pursuant to subsection (1) of this section may also apply to cover some or all of the existing members of its money purchase plan under the defined benefit system. An application may be initiated by filing with the board a resolution adopted by the governing body of the employer in accordance with the requirements, terms, process, certifications, and schedule established by the board.

(2) (Deleted by amendment, L. 2018.)

(3) Except as otherwise provided in subsection (3.5) of this section, any application for coverage under the defined benefit system pursuant to subsection (1.5) of this section shall be approved by at least sixty-five percent of all active members employed by the employer who are participating in the money purchase plan at the time of the application and who vote in the election proposing the coverage.

(3.5) (a) In lieu of an election to obtain the approval by at least sixty-five percent of all active members who vote in the election proposing the coverage as required by subsection (3) of this section, and when the local plan allows for the individual self-direction of each member's account, the employer may offer each active local plan member the option to discontinue participation in the local money purchase plan and to participate in the defined benefit system. The offer shall be extended to all active local plan members employed by the employer at the time of the offer.

Any actuarial report shall also certify, in accordance with accepted actuarial principals, that the employers' coverage shall not have an adverse financial impact on the actuarial soundness of the plan. Continuing contributions for each member who is active on the effective date of coverage shall be made at the rate established on said date until the member's retirement or termination. The board may periodically adjust the rate prior to the election of coverage by an employer based on certified actuarial reports prepared by the actuary for the plan.

The board shall keep an accurate account of the fund, each member's separate account in the fund, and each member's service credit earned under the statewide hybrid plan.

(b) The statewide hybrid plan document created by the board pursuant to subsection (1) of this section shall govern the accrual of service credit, vesting, the benefits to be offered based on age and service, the allocation of contributions towards funding the defined benefit and the defined contribution, the calculation and allocation of earnings and losses under the various investment alternatives which the board may offer, the transfer of assets between funds under each investment alternative, the allocation of a member's account between investment alternatives, and such other matters as may be necessary to the board's administration and management of the plan created pursuant to this section.

(c) Defined benefit assets of the statewide hybrid plan shall be administered within the fire and police members' benefit investment fund, and self-directed assets of the plan shall be

The payment shall be made by the employer by deduction from the salary paid to such member. Except as provided in paragraph (b) of this subsection (4), for each such member, the employer shall pay into the defined benefit system trust fund eight percent of the salary paid to such member. Payments are due no later than ten days following the date of payment of salary to the member. The payments required by this section are subject to interest if not submitted when due.

(b) (I) Upon the request of an employer, the board shall permit a higher mandatory employer contribution rate, mandatory employee contribution rate, or both, than is set forth in subsection (4)(a) of this section if the board determines that:

(A) A local resolution or ordinance setting forth the higher mandatory contribution rate or rates was enacted and is in effect; and

(B) An employee election was conducted and the higher mandatory contribution rate or rates was approved by sixty-five percent of the employer's active members of the plan who vote in the election proposing the coverage.

(II) Any active member and any employer may make voluntary contributions to the statewide hybrid plan by payroll deduction. Voluntary member contributions are not subject to the employer pickup provisions of section 414 (h) of the federal "Internal Revenue Code of 1986", as amended.

(III) In no event shall increased contributions resulting from a higher contribution rate or rates cause a member to exceed the limit on annual additions under the federal "Internal Revenue Code of 1986", as amended, that are applicable to government plans.

(5) Except with respect to amendments necessary to comply with state and federal law, including amendments adopted pursuant to section 31-31-204 (2.5), or amendments necessary to maintain the actuarial soundness of the statewide hybrid plan, the board may amend the plan document created pursuant to subsection (1) of this section only upon the approval of at least sixty-five percent of the active members of the plan and more than fifty percent of the employers having active members covered by the plan, each employer to be assigned one vote; except that employers having both active police and fire members in the plan shall be assigned two votes.

The fire and police pension association shall at the same time file a certificate to the effect that the time for appeal or review has passed without appeal or review being undertaken or that the order has been finally affirmed with all appellate remedies and all opportunities for review having been exhausted. The clerk of the district court shall record the order and the association's certificate in the judgment book of said court and entry thereof made in the judgment docket, and it shall thereafter have all the effect of a judgment of the district court, and execution may issue thereon out of said court as in other cases. PART 3

WATER MAINS AND OTHER IMPROVEMENTS - CITIES AND TOWNS

31-35-301. Construction of water mains. When any city or town is the owner of a municipal water plant with water mains in operation throughout the greater portion of said city or town and is unable to extend the same so as to cover the entire area contained within the municipal limits of said city or town, the citizens and resident taxpayers of any area containing four blocks or more situated in said city or town not having water mains therein may agree among themselves or a majority of the owners of the lots therein for the construction of the same. Upon application to the governing body by a majority of such owners, the governing body shall have authority to enter into a contract with said owners of said four blocks or more or with the majority thereof to allow them to construct such water mains in such territory and to connect the same with the supply of water of said city or town. The governing body has authority to enter into a contract with such citizens to allow all the proceeds derived from water rentals going to such addition through such water mains and collected as rental therefor to be applied to the payment of such water pipes, the cost thereof to be limited by the city or town to not more than the actual cost thereof upon any basis by which the city or town itself could secure the construction of the same. 31-35-302. Petition - plans - contract. (1) For the purpose of carrying the provisions of this section and section 31-35-301 into effect, the owners of four blocks or more situated in any city or town in this state owning its own municipal water plant which has not been supplied with water mains shall present a petition to the governing body, offering therein to construct such water mains and pipes in the streets and alleys of said city or town in such manner and at such places and of such sizes as the said governing body may require and at a cost to said city or town as low as the same could be constructed by said city or town.

(2) Upon receipt of such petition, the governing body shall prepare plans and specifications for the supplying of said territory with water mains and pipes, and the petitioners, upon the inspection of said plans and specifications, shall state their willingness to construct the same at a certain price to be paid for out of the revenues derived from water running through

said pipes in said district, the same to be charged at no higher rate than the remainder of said city or town is paying. If such proposition is satisfactory to the governing body, it has the right to enter into a contract with said petitioners upon behalf of said city or town for the construction of such water mains and pipes according to said plans and specifications and for the price agreed upon, not more than that specified, and within a time to be set by said governing body.

(3) Upon the completion of said works by said petitioners, the city or town shall inspect and, if satisfactory, accept the same and issue certificates of indebtedness therefor stating therein how the same is to be paid out of the proceeds from such water rentals collected from the territory in which said extensions are made, unless otherwise sooner arranged for by said city or town, and proceed to operate and maintain the same and collect the revenues therefrom and to apply the same to the payment of the indebtedness created for the construction of said pipes without interest until the same is paid for or until said city or town makes payment therefor in some other manner. Said rentals shall be paid upon said certificates from time to time when the amount of one hundred dollars is received from said rentals for that purpose, and said rentals shall be set apart and kept as a separate fund and used for the purposes provided in this subsection (3) only until the entire indebtedness is paid.

Thereupon such city or town, by its governing body and its duly authorized officers, may exercise the right of eminent domain and may condemn, take, or damage any private property that may be necessarily condemned, taken, or damaged in the making of such improvement. The governing body, as soon thereafter as the cost of said improvements can be definitely ascertained, shall assess the cost thereof upon the lots respectively in front of which said sidewalk is to be constructed. Such assessment, when completed, shall be subject to inspection by any interested person. Notice of the making and completion of the assessment shall be given by the publication of a notice to the effect that said assessment has been made upon said lots and is ready for inspection. The notice shall be published at least once a week for four successive weeks in some newspaper published or of general circulation in said city or town and shall designate a day upon which the governing body shall sit for the purpose of hearing objections thereto and making corrections therein. Upon the day designated, the governing body shall sit for said purpose and hear any objections that may be made and shall thereupon make any such changes in said assessments as may in their judgment be necessary, equitable, or just and shall thereupon finally determine such assessments. Such assessments, when so finally determined, shall be a lien upon the property so assessed for the purpose of making said improvement. "Net interest cost" of a proposed issue of bonds means the total amount of interest to accrue on said bonds from their date of issuance to their respective maturities plus the amount of any discount below par or less the amount of any premium above par at which said bonds are being or have been sold. 31-35-402. Powers. (1) In addition to the powers which it may now have, any municipality, without any election of the qualified electors thereof, has power under this part 4:

(a) To acquire by gift, purchase, lease, or exercise of the right of eminent domain, to construct, to reconstruct, to improve, to better, and to extend water facilities or sewerage facilities or both, wholly within or wholly without the municipality or partially within and partially without the municipality, and to acquire by gift, purchase, or the exercise of the right of eminent domain lands, easements, and rights in land in connection therewith;

(b) To operate and maintain water facilities or sewerage facilities or both for its own use and for the use of public and private consumers and users within and without the territorial boundaries of the municipality, but no water service or sewerage service or combination of them shall be furnished in any other municipality unless the approval of such other municipality is obtained as to the territory in which the service is to be rendered;

(c) To accept loans or grants or both from the United States under any federal law in force to aid in financing the cost of engineering, architectural, or economic investigations or studies, surveys, designs, plans, working drawings, specifications, procedures, or other action preliminary to the construction of water facilities or sewerage facilities or both;

(d) To accept loans or grants or both from the United States under any federal law in force for the construction of necessary water facilities or sewerage facilities or both;

(e) To enter into joint operating agreements, contracts, or arrangements with consumers concerning water facilities or sewerage facilities or both, whether acquired or constructed by the municipality or consumer, and to accept grants and contributions from consumers for the construction of water facilities or sewerage facilities or both. When determined by its governing body to be in the public interest and necessary for the protection of the public health, any municipality is authorized to enter into and perform contracts, whether long-term or short-term but in no event exceeding fifty years, with any consumer for the provision and operation by the municipality of sewerage facilities to abate or reduce the pollution of waters caused by discharges of wastes by a consumer and the payment periodically by the consumer to the municipality of amounts at least sufficient, in the determination of such governing body, to compensate the municipality for the cost of providing, including payment of principal and interest charges, if any, and of operating and maintaining the sewerage facilities serving such consumer.

(f) To prescribe, revise, and collect in advance or otherwise, from any consumer or any owner or occupant of any real property connected therewith or receiving service therefrom, rates, fees, tolls, and charges or any combination thereof for the services furnished by, or the direct or indirect connection with, or the use of, or any commodity from such water facilities or sewerage facilities or both, including, without limiting the generality of the foregoing, minimum charges, charges for the availability of service, tap fees, disconnection fees, reconnection fees, and reasonable penalties for any delinquencies, including but not necessarily limited to interest on delinquencies from any date due at a rate of not exceeding one percent per month or fraction thereof, reasonable attorneys' fees, and other costs of collection without any modification, supervision, or regulation of any such rates, fees, tolls, or charges by any board, agency, bureau, commission, or official other than the governing body collecting them; and in anticipation of the collection of the revenues of such water facilities or sewerage facilities, or joint system, to issue revenue bonds to finance in whole or in part the cost of acquisition, construction, reconstruction, improvement, betterment, or extension of the water facilities or sewerage facilities, or both; and to issue temporary bonds until permanent bonds and any coupons appertaining thereto have been printed and exchanged for the temporary bonds;

(g) To pledge to the punctual payment of said bonds and interest thereon all or any part of the revenues of the water facilities or sewerage facilities or both, including the revenues of improvements, betterments, or extensions thereto thereafter constructed or acquired, as well as the revenues of existing water facilities or sewerage facilities or both;

(h) To enter into and perform contracts and agreements with other municipalities for or concerning the planning, construction, lease, or other acquisition and the financing of water facilities or sewerage facilities or both and the maintenance and operation thereof. Pursuant to any such contracts or agreements, such municipalities may obligate themselves to make payments in amounts which shall be sufficient to enable any municipality which finances such water facilities or sewerage facilities or both to meet its expenses, the interest and principal payments for its bonds, its reasonable reserves for debt service, operation and maintenance, and renewals and replacements, and the requirements of any rate covenant with respect to debt service coverage contained in any resolution, ordinance, or other security instrument. Such contracts or agreements may contain such other terms and conditions as the municipalities may determine, including but not limited to provisions whereby a municipality is obligated to pay for the output, capacity, or use of any project irrespective of whether such output, capacity, or use is produced or delivered to the municipality or whether any project contemplated by any such agreement is completed, operable, or operating, and notwithstanding suspension, interruption, interference, reduction, or curtailment of the output, use, or service of such project. Subject to local charter and state constitutional limitations, such contracts or agreements may also provide that if one or more of the municipalities default in the payment of its obligations under any such contract or agreement, the remaining municipalities which also have such agreements shall be required to accept and pay for, and shall be entitled proportionately to use or otherwise dispose of, the output, capacity, or use of the project contracted for by the defaulting municipalities. The obligations of a municipality under such contracts or agreements shall either constitute special obligations of the municipality, payable solely from the revenues and other moneys derived by the municipality from its water facilities, sewerage facilities, or both, and shall be treated as expenses of operating such facilities or, in the discretion of such municipality and subject to satisfaction of any requirements of law governing or limiting the incurrence of debt by such municipality, shall constitute a general obligation of such municipality. Notwithstanding the provisions of section 6 (3) of article XI of the state constitution, where such contract or agreement is to constitute a general obligation of such municipality and where such contract or agreement provides that the municipality shall be required to accept and pay for the output, capacity, or use of the project contracted for by a defaulting municipality, such contract or agreement shall not be entered into unless the question of incurring a general obligation for such project has been submitted to and approved at an election conducted by such municipality in accordance with the election laws applicable to such municipality. Any such municipalities so contracting may also provide in any contract or agreement for a board, commission, or such other body as they deem proper for the supervision and general management of the water facilities or sewerage facilities or both and for the operation thereof and may prescribe its powers and duties, including the power to issue revenue bonds pursuant to this part 4, and fix the compensation of the members thereof. For the purposes of this paragraph (h), "municipality" means a municipality as defined in part 1 of article 1 of this title and any other political subdivision of this state, including any entity formed pursuant to intergovernmental contract or

agreement, authorized by any law of this state to acquire, operate, and maintain the facilities which are the subject of such contract or agreement.

(i) To make all contracts, execute all instruments, and do all things necessary or convenient in the exercise of the powers granted in this section, or in the performance of its covenants or duties, or in order to secure the payment of its bonds if no encumbrance, mortgage, or other pledge of property, excluding any pledged revenues, of the municipality is created thereby, and if no property, other than money, of the municipality is liable to be forfeited or taken in payment of said bonds, and if no debt on the credit of the municipality is thereby incurred in any manner for any purpose; and

(j) To issue water or sewer or joint water and sewer refunding revenue bonds to refund, pay, or discharge all or any part of its outstanding water or sewer or joint water and sewer revenue bonds issued under this part 4 or under any other law, including any interest thereon in arrears or about to become due, or for the purpose of reducing interest costs, effecting a change in any particular year or years in the principal and interest payable thereon or in the related utility rates to be charged, effecting other economies, or modifying or eliminating restrictive contractual limitations appertaining to the issuance of additional bonds or to any municipal water facilities or sewerage facilities, or both, as provided in section 31-35-412.

31-35-403. Authorization of facilities and bonds. (1) The acquisition, construction, reconstruction, lease, improvement, betterment, or extension of any water facilities or sewerage facilities or both and the issuance, in anticipation of the collection of revenues of such facilities, of bonds to provide funds to pay the cost thereof may be authorized under this part 4 by action of the governing body of the municipality taken at a regular or special meeting by a vote of a majority of the members of the governing body.

(2) The governing body, in determining such cost, may include all costs and estimated costs of the issuance of said bonds; all engineering, inspection, fiscal, and legal expenses; interest which it is estimated will accrue during the construction or other acquisition period and for a period of not exceeding one year thereafter on money borrowed or which it is estimated will be borrowed pursuant to this part 4; any discount on the sale of the bonds; costs of financial, professional, and other estimates and advice; contingencies; any administrative, operating, and other expenses of the municipality prior to and during such acquisition period and for a period of not exceeding one year thereafter, as may be determined by the governing body; all such other expenses as may be necessary or incident to the financing, acquisition, improvement, equipment, and completion of any water or sewerage facilities, joint water and sewer system, or part thereof, and the placing of the same in operation; such provision or reserves for working capital, operation, maintenance, or replacement expenses or for payment or security of principal or interest on any bonds during or after such an acquisition or improvement and equipment as the governing body may determine; and also reimbursements to the federal government or any agency, instrumentality, or corporation thereof of any moneys theretofore expended for or in connection with any such water or sewerage facilities or both.

31-35-404. Bond provisions. (1) Revenue bonds issued under this part 4 shall bear interest at a rate such that the net effective interest rate of the issue of bonds does not exceed the maximum net effective interest rate authorized, payable semiannually or annually, and evidenced by one or two sets of coupons, if any, executed with the facsimile or manually executed signature of any official of the municipality; except that the first coupon appertaining to any bond may evidence interest not in excess of one year. The resolution authorizing the issuance of such bonds shall specify the maximum net effective interest rate. Such bonds may be issued in one or more series, may bear such date, may mature at such time not exceeding the estimated life of the water facilities or sewerage facilities or both, to be acquired with the bond proceeds, as determined by the governing body, but in no event beyond forty years from their respective dates, may be in such denomination, may be payable in such medium of payment, at such place within or without the state, including but not limited to the office of any county treasurer in which the municipality is located wholly or in part, may carry such registration privileges, may be subject to such terms of prior redemption in advance of maturity in such order or by lot or otherwise at such time with or without a premium, may be executed in such manner, may bear such privileges for reissuance in the same or other denomination, may be so reissued, without modification of maturities and interest rates, and may be in such form, either coupon or registered, as may be provided by the governing body.

(2) (a) The governing body may provide for preferential security for any bonds, both principal and interest, to be issued under this part 4 to the extent deemed feasible and desirable by such governing body over any bonds that may be issued thereafter.

(b) Said bonds may be sold at, above, or below the principal amounts thereof, but they may not be sold at a price such that the net effective interest rate of the issue of bonds exceeds the maximum net effective interest rate authorized.

(c) Said bonds may be sold at public or private sale upon such terms and conditions as the governing body shall determine; except that, if said bonds are sold at public sale, notice of such sale shall be published once at least five days prior to such sale in a newspaper circulating in the municipality and in a financial newspaper published in either Denver, Colorado; San Francisco, California; Chicago, Illinois; or New York, New York.

(3) Bonds may be issued with privileges for conversion or registration or both, for payment as to principal or interest or both, and where interest accruing on the bonds is not represented by interest coupons, the bonds may provide for the endorsing of payments of interest thereon; and the bonds generally shall be issued in such manner, in such form, either coupon or registered, with such recitals, terms, covenants, and conditions, and with such other details as may be provided by the governing body, except as otherwise provided in this part 4.

(4) Subject to the payment provisions specifically provided in this part 4, said bonds, any interest coupons thereto attached, and any temporary bonds shall be fully negotiable within the meaning of and for all the purposes of article 8 of title 4, C.R.S., except as the governing body may otherwise provide; and each holder of each such security, by accepting such security, shall be conclusively deemed to have agreed that such security, except as otherwise provided, is and shall be fully negotiable within the meaning and for all purposes of article 8 of title 4, C.R.S.

(5) Notwithstanding any other provision of law, the governing body in any proceedings authorizing bonds under this part 4:

(a) May provide for the initial issuance of one or more bonds, referred to in this subsection (5) as "bond", aggregating the amount of the entire issue;

(b) May make such provision for installment payments of the principal amount of any such bond as it may consider desirable;

(c) May provide for the making of any such bond, payable to bearer or otherwise, registrable as to principal or as to both principal and interest and, where interest accruing thereon is not represented by interest coupons, for the endorsing of payments of interest on such bond; and

(d) May further make provision in any such proceedings for the manner and circumstances in and under which any such bond may in the future, at the request of the holder thereof, be converted into bonds of smaller denominations, which bonds of smaller denominations may in turn be either coupon bonds or bonds registrable as to principal or principal and interest, or both.

(6) If lost or completely destroyed, any security authorized in this part 4 may be reissued in the form and tenor of the lost or destroyed security upon the owner furnishing, to the satisfaction of the governing body: Proof of ownership; proof of loss or destruction; a surety bond in twice the face amount of the security, including any unmatured coupons appertaining thereto; and payment of the cost of preparing and issuing the new security.

(7) Any officer authorized to execute any bond, after filing with the secretary of state his manual signature certified by him under oath, may execute or cause to be executed, with a facsimile signature in lieu of his manual signature, any bond authorized in this part 4 if such a filing is not a condition of execution with a facsimile signature of any interest coupon and if at least one signature required or permitted to be placed on each such bond, excluding any interest coupon, is manually subscribed. An officer's facsimile signature has the same legal effect as his manual signature.

(8) The clerk of the municipality may cause the seal of the municipality to be printed, engraved, stamped, or otherwise placed in facsimile on any bond. The facsimile seal has the same legal effect as the impression of the seal.

(9) The ordinance or resolution authorizing any bonds or other instrument appertaining thereto may contain any agreement or provision customarily contained in instruments securing revenue bonds, including, without limiting the generality of the foregoing, covenants designated in section 31-35-407.

31-35-405. Signatures on bonds. (1) The bonds and any coupons bearing the signatures of officers in office on the date of the signing thereof shall be valid and binding obligations of the municipality, notwithstanding that before the delivery thereof and payment therefor any or all of the persons whose signatures appear thereon have ceased to be officers of the municipality issuing the same.

(2) Any officer authorized or permitted to sign any bond or interest coupon, at the time of its execution and of the execution of a signature certificate, may adopt as and for his own facsimile signature the facsimile signature of his predecessor in office in the event that such facsimile signature appears upon the bond or coupons appertaining thereto or upon both the bond and such coupons.

(a) The rates, fees, tolls, or charges or combination thereof to be charged for the services, facilities, and commodities of said water facilities or sewerage facilities or both, and the use and disposition thereof, including but not limited to the foreclosure of liens for and collection of delinquencies; the discontinuance of services, facilities, or commodities or use of any water system, any sewer system, or any joint system; prohibition against free service; the collection of penalties and collection costs, including disconnection and reconnection fees; and the use and disposition of any revenues of the municipality derived or to be derived from any water facilities or sewerage facilities or both;

(c) A fair and reasonable payment by the municipality to the account of said water facilities or sewerage facilities or both for the services, commodities, or facilities furnished said municipality or any of its departments by said water facilities or sewerage facilities or both;

31-35-408. No municipal liability on bonds. Revenue bonds issued under this part 4 shall not constitute an indebtedness of the municipality within the meaning of any constitutional or statutory limitations. 31-35-409. Remedies of bondholders. (1) Subject to any contractual limitations binding upon the holders of any issue of bonds or the trustee therefor, including but not limited to the restriction of the exercise of any remedy to a specified proportion or percentage of such holders, any holder of bonds or trustee therefor has the right and power, for the equal benefit and protection of all holders of bonds similarly situated:

(a) To enforce his rights against the municipality and its governing body and any of its officers, agents, and employees by an action in the nature of mandamus or other suit, action, or proceeding at law or in equity and to require and compel such municipalities or such governing body or any such officers, agents, or employees to perform and carry out their duties and obligations under this part 4 and their covenants and agreements with the bondholders;

(b) To require the municipality and the governing body thereof to account as if they were the trustee of an express trust by action or suit in equity;

(c) To enjoin any acts or things which may be unlawful or in violation of the rights of the bondholders by action or suit in equity; and

(d) To bring suit upon the bonds.

(2) No right or remedy conferred by this part 4 upon any holder of bonds or any trustee therefor is intended to be exclusive of any other right or remedy, but each such right or remedy is cumulative and in addition to every other right or remedy and may be exercised without exhausting and without regard to any other remedy conferred by this part 4 or by any other law.

31-35-410. Construction of part 4. The powers conferred by this part 4 are in addition and supplemental to and not in substitution for, and the limitations imposed by this part 4 shall not affect, the powers conferred by any other law. Bonds may be issued under this part 4 without regard to the provisions of any other law. The water facilities or sewerage facilities or both may be acquired, purchased, constructed, reconstructed, improved, bettered, and extended, and bonds may be issued under this part 4 for said purposes, notwithstanding that any law may provide for the acquisition, purchase, construction, reconstruction, improvement, betterment, and extension for like purposes, and without regard to the requirements, restrictions, debt, or other limitations or other provisions contained in any other law, including, but not limited to, any requirement for any restriction or limitation on the incurring of indebtedness or the issuance of bonds. Insofar as the provisions of this part 4 are inconsistent with the provisions of any other law, the provisions of this part 4 shall be controlling.

31-35-412. Refunding bonds. (1) Any bonds issued for any refunding purpose authorized in section 31-35-402 (1)(j) may either be delivered in exchange for the outstanding bonds authorized to be refunded or may be sold as provided for in section 31-35-404.

(2) No bonds may be refunded under this part 4 unless they either mature or are callable for prior redemption under their terms within fifteen years from the date of issuance of the refunding bonds or unless the holders thereof voluntarily surrender them for exchange or payment. The final maturity of the bonds refunded may not be extended over fifteen years. The rates of interest on such refunding bonds shall be determined by the governing body. The principal amount of the refunding bonds may exceed the principal amount of the refunded bonds by such amount or amounts as are useful to effect the refunding if the aggregate principal and interest costs of the refunding bonds for the period ending on the scheduled final maturity date of the bonds refunded, without regard to any redemptions that may be made prior to such scheduled maturity date, do not exceed such unaccrued costs of the bonds refunded for the same time period, excluding from the computation of the aggregate principal and interest cost of the refunding bonds the amount of the principal of any refunding bonds issued to pay any interest in arrears or about to become due on the bonds refunded and to pay any interest on the refunding bonds.

(3) The proceeds of refunding bonds shall either be immediately applied to the retirement of the bonds to be refunded or be placed in escrow to be applied to the payment of the bonds upon their presentation therefor. Any escrowed proceeds, pending such use, may be invested or reinvested in securities meeting the investment requirements established in part 6 of article 75 of title 24, C.R.S. Such escrowed proceeds and investments, together with any interest to be derived from any such investment, shall be in an amount at all times sufficient to pay the bonds refunded as they become due at their respective maturities or due at prior redemption dates, as to principal, interest, any prior redemption premium due, and any charges of the escrow agent payable therefrom.

(4) Refunding revenue bonds may be made payable from any revenues derived from the operation of any water facilities or sewerage facilities or of both water facilities and sewerage facilities comprising a joint water and sewer system, notwithstanding that the pledge of any such revenues for the payment of the outstanding bonds issued by the municipality which are to be refunded is thereby modified.

(5) Bonds for refunding and bonds for any other purpose authorized in this part 4 may be issued separately or issued in combination in one series or more.

(6) Except as expressly provided or necessarily implied in this section and in section 31-35-402 (1)(j), the relevant provisions in this part 4 pertaining to revenue bonds not issued for refunding purposes shall be equally applicable in the authorization and issuance of refunding

revenue bonds, including their terms and security, the bond ordinance or resolution, rates, fees, tolls, service charges, and other aspects of the bonds; except that the governing body may include, in determining the amount of the refunding bonds, an amount sufficient to pay interest, which is estimated will accrue on the refunding bonds for a period not exceeding five years from the date of the refunding bonds, and the governing body may pay such interest on the refunding bonds from the proceeds of the refunding bonds.

(7) The determination of the governing body that the limitations under this part 4 imposed upon the issuance of refunding bonds have been met shall be conclusive in the absence of fraud or arbitrary and gross abuse of discretion.

31-35-413. Incontestable recital in bonds. Any ordinance or resolution authorizing or any trust indenture or other instrument appertaining to any bonds under this part 4 may provide that each bond therein authorized shall recite that it is issued under authority of this part 4. Such recital shall conclusively impart full compliance with all of the provisions of this part 4, and all bonds issued containing such recital shall be incontestable for any cause whatsoever after their delivery for value.
