§ 802. Jose U. Atoigue Memorial Park.

The Legislature finds that many of the younger generation are unfamiliar with the athletic feats and accomplishments of their fathers and grandfathers, particularly those baseball players who performed so admirably in those halcyon days prior to the Second World War. Accordingly, the Legislature deems it appropriate to forever memorialize these athletic heroes by naming baseball fields and other public recreational areas after them in commemoration of their contributions to island sport. Jose U. Atoigue was famous throughout the island as probably the best third baseman who ever played on Guam at least before the Second World War. Being a resident of Chalan Pago, the Legislature therefore concludes that naming the ball field there for him would be an appropriate and proper recognition of his contributions to baseball and to the community. Accordingly, the public baseball field in the municipality of Chalan Pago-Ordot is hereby renamed the Jose U. Atoigue Memorial Park.

§ 849.7. Chalan Maga'håga.

(a) (1) Chamorro women have always held powerful roles in their families and in our society. The most powerful woman in ancient Chamorro society was the Maga'håga, or the first-born daughter of the highest ranking person in a clan. Clans were governed equally by a Maga'håga and a Maga'låhi (the first-born son). When decisions were made, the Maga'håga always had the final say. Unfortunately, this power was not respected by Europeans, who wrote the first accounts of Chamorro history and purposely left out the names of women. They were critical of the roles women played in ancient Chamorro society, noting that women held power reserved for men in the rest of the world.

(2) Although Chamorro women are largely unnamed throughout written history, the sacrifices they made to keep the culture alive have not gone unnoticed. Since Chamorro culture is matrilineal, and family lines are traced through mothers, many scholars attribute the survival of the culture to women. People's identity and place in society were determined by who their mothers were. Thus, women shaped the destiny of their children, and ultimately of future generations of Chamorros. They also educated younger Chamorros about their genealogy, ensuring that they would always understand their connections to those around them, to their land, and to the history of their clan.

(3) Just as Tiyan is located at the center of the island, the Maga'håga is a central figure in our society. Naming the Tiyan Parkway in honor of our island's powerful women gives tribute to the important roles women have assumed throughout Guam's history and today. They carry life in their wombs, nurture their children, and lead their families and our island with respect and dignity.

(b) Thus, the Tiyan Parkway located on the Tiyan plateau in the central part of Guam, bordering the municipalities of Barrigada, Maite, and Tamuning, shall hereinafter be known as

- § 851. Definitions.
- § 852. Arts in Public Buildings and Buildings Supported by Public Funds.
- § 853. Inclusion of Chamorro Artistry or Guam History Elements in Government Buildings.

§ 850. Purpose.

The government of Guam recognizes its responsibility to foster culture and the arts and the necessity for the development of the arts, beginning with our young children and throughout the community. *Liheslatura* (the Legislature) declares it to be policy that a portion of appropriations for capital expenditures for public buildings be set aside for the acquisition of works of art to be used in such buildings and in any buildings intended for use of the general public to the extent that the construction or improvement of such non-public buildings is supported by either federal or government of Guam tax incentives or other subsidy arrangement.

§ 851. Definitions.

As used in this Chapter --

- (a) art and arts means the graphic arts and other arts having aesthetic value that is acceptable to the public;
- (b) artist means one who produces or aids in the production of art;
- (c) public building or public facility means a building or facility owned by the government of Guam or any of its instrumentalities;
- (d) department means the Department of Public Works or that agency of the government which supervises the design of a public building or public facility;
- (e) native art means art produced by the pre-hispanic indigenous people of Guam and any art work that is indigenous to Guam; and

1 GCA GENERAL PROVISIONS
CH. 8 GOVERNMENT FACILITIES

(f) public area means that part of a public building or facility to which the public is generally admitted during certain hours of the day. Public area does not include any office space, shop space, warehouse space of similar space to which the public generally has no access; and

(g) local artists means artists who are residents of Guam.

(h) Literature, in its broadest sense, is any single body of written works. More restrictively, it is writing considered as an art form, or any single writing deemed to have artistic or intellectual value, often due to deploying language in ways that differ from ordinary usage. Contemporary definitions extend the term to include texts that are spoken (oratory) or sung (oral literature). Literature can be classified according to whether it is fiction or non-fiction and whether it is poetry or prose; it can be further distinguished according to major forms such as the novel, short story, or drama; and works are often categorized according to historical periods or their adherence to certain aesthetic features or expectations (genre). Literature is divided into the classic three (3) forms of ancient Greece, namely poetry, drama, and prose. Poetry may then be subdivided into the genres of lyric, epic, and dramatic. *Kantan Chamorita*, for example, can be classified under any of these genres, or as performing art. The lyric includes all the shorter forms of poetry, e.g., song, ode, ballad, elegy, sonnet.

(i) Media art is a genre that encompasses artworks created with new media technologies, including digital art, computer graphics, computer animation, virtual art, internet art, interactive art, video games, computer robotics, 3D printing, cyborg art, and art as biotechnology. The term differentiates itself by its resulting cultural objects and social events, which can be seen in opposition to those deriving from old visual arts (i.e. traditional painting, sculpture, etc.). This concern with medium is a key feature of much contemporary art and indeed many art schools and major universities now offer majors in “New Genres” or “New Media” and a growing number of graduate programs have emerged internationally. New Media Art often involves

1 GCA GENERAL PROVISIONS
CH. 8 GOVERNMENT FACILITIES

interaction between artist and observer or between observers and the artwork, which responds to them. Yet, as several theorists and curators have noted, such forms of interaction, social exchange, participation, and transformation do not distinguish new media art but rather serve as a common ground that has parallels in other strands of contemporary art practice. Such insights emphasize the forms of cultural practice that arise concurrently with emerging technological platforms, and question the focus on technological media, per se.

(j) Performing arts are forms of creative activity that are performed in front of an audience, such as drama, music, song, dance, poetry, and oratory, to include recording(s) and in all media platforms. Performing arts may be further distinguished according to genre of dance, song, and chant, in traditional/folk or contemporary styles.

(k) Traditional arts is part of the culture of a group of people, skills, and knowledge of which are passed down through generations from master craftsmen to apprentices. In an online art archive, any art created through the use of real or natural media, such as the following:

(1) Canoe and Navigation – Demonstrations. Carving and modern adaptation of canoes; paddles and other general seafaring items; rope and binding displays, such as rope making and knot tying; adze skills and use; and weaving techniques used in creating traditional sails and woven containers used during open-ocean voyages. The art of navigation must record history of seafaring through storytelling of seafaring legends and lore; and recounts of voyages past, toward developing an apprenticeship program;

(2) Fishing and Hunting Traditions – Demonstrations. The knowledge and tradition of fishing (*Peskadot Tasi*) and hunting (*Peskadot Tano*) through the use of nets and tools of the ways of the *Peskadot Tasi* and *Peskadot Tano*, also to develop an apprenticeship program;

1 GCA GENERAL PROVISIONS
CH. 8 GOVERNMENT FACILITIES

(3) Culinary – Food Preparation.

(A) *Hotnu* (Oven) – Demonstrations. The building and development of the *Hotnu* oven and the use of it through an apprenticeship program.

(B) *Chahan*. The making, cooking, and sharing of food cooked in an underground oven.

(C) Other forms of food preparation will be determined by the CAHA presiding panel and must go through a justification and approval process that is passed by the CAHA Board of Directors before being added to the list of approved art forms. The arts of food preparation must develop as an apprenticeship program;

(4) Healing Arts – Demonstrations. Healing arts practitioners are to gather, share, and perpetuate the art of healing and the use of local plant materials, etc., and the variety of tools used in the healing traditions, and to provide health and comfort information to everyday life of the *Chamorro* people. The arts of healing must develop an apprenticeship program;

(5) Weaving/Plaiting – Demonstrations. Weaving traditions that arise from the use of local plant materials to provide utility in everyday life of the *Chamorro* people. These plants include, but are not limited to, the *åkgak* (pandanus spp., cultivated pandanus tree); *nipa* (*nypa fruticans*, nipa palm); *niyok* (*cocos nucifera*, coconut palm); and the *pi'ao* (*bambusa vulgaris*, bamboo). Sharing the knowledge and tradition of weaving through, and the type of weaving tools used through an apprenticeship program;

(6) Wood, Stone, Shell, and Bone Carving – Demonstrations. Carvers must continue to incorporate ancient and historic designs and symbols into their pieces and practice carving to produce objects of artistic excellence. Practitioners must develop an apprenticeship program;

1 GCA GENERAL PROVISIONS
CH. 8 GOVERNMENT FACILITIES

(7) Blacksmithing – Demonstrations. Blacksmithing is when an object is created from wrought iron or steel by forging the metal by using tools such as a hammer to bend, and cut into a certain form. Practitioners of blacksmithing must develop an apprenticeship program;

(8) Performing arts are forms of creative activity that take place in front of an audience, who may participate and/or watch. These can include traditional music and making of musical instruments (such as *bilembaotuyan*), dance, chant, and poetry (such as *kantan chamorita*). Practitioners must develop an apprenticeship program; and

(9) Other forms of traditional/folk arts submitted will be determined by the CAHA presiding panel and must go through a justification and approval process that is passed by the CAHA Board of Directors before being added to the list of approved art forms.

(l) Public educational institution means the Guam Department of Education, the University of Guam, or the Guam Community College.

(m) Visual arts are art forms such as ceramics, drawing, painting, sculpture, printmaking, design, crafts, photography, video, filmmaking, literature, and architecture. Many artistic disciplines (performing arts, conceptual arts, textile arts) involve aspects of the visual arts as well as arts of other types.

(n) Works of art *shall* include the arts as defined in Subsections (a), (e), (h), (i), (j), (k), and (m) of this Section.

SOURCE: GC § 321. Subsections (h) through (m) added by P.L. 33-235 (Jan. 9, 2017). Subsection (n) added by P.L.35-060:3 (Jan. 2, 2020).

(1) Such elements may be made part of the internal or external physical structure of the building or structure and may be within the main part of the building or structure or separated from the main part. NOTE: The Legislative Intent, enacted by § 1 of P.L. 22-071, states:

The Legislature is aware of the increasing number of government buildings and structures being constructed or renovated which contain little or no historical Chamorro structural elements. In order to preserve and enhance the Chamorro culture, the Legislature finds a need to insure that government buildings contain elements of Chamorro artistry or of Guam history, and finds that making such elements part of government buildings would enhance the unique beauty of Guam, as well as improve the appearance and image of the island as a tourist destination.
