Chapter 1. Indiana Housing and Community Development Authority

IC 5-20-1-1

Legislative findings and declaration of public policy

Sec. 1. Legislative Findings and Declaration of Public Policy. It is hereby declared:

- (1) that there exists in the state of Indiana a need for safe and sanitary residential housing within the financial means of low and moderate income persons and families, a need which unmet is a threat to the health, safety, morals and welfare of Indiana residents and which will require an excessive expenditure of public funds for the social problems thus created;
- (2) that private enterprise and investment will more adequately be able to produce the needed construction of decent, safe and sanitary residential housing at prices or rentals which persons and families of low and moderate income can afford, or to achieve the urgently needed rehabilitation of much of the present low and moderate income housing; that it is imperative that the supply of residential housing for persons and families of low and moderate income displaced by public actions or natural disaster be increased; and that private enterprise and investment be encouraged to sponsor, build and rehabilitate residential housing for such persons and families;
- (3) that the provision of decent, safe and sanitary housing for persons and families of low and moderate income who would otherwise be unable to obtain adequate housing at costs they could afford is a valid public purpose for which public money may be spent;
- (4) that there exists a need in Indiana to stimulate the residential housing industry; that public employees have unmet needs with regard to residential housing; that state retirement plans need additional, safe avenues for investment; and that the provision of money for mortgage loans through the issuance of mortgage-backed bonds or notes will in part meet these needs; and
- (5) that the necessity in the public interest and welfare for the provisions of this chapter is hereby declared a matter of legislative determination.

The principal of, and the interest on, such bonds or notes shall be payable solely from the funds provided for such payment in this chapter. The authority may secure the repayment of such bonds and notes by the pledge of mortgages and notes of others, revenues derived from operations and loan repayments, the proceeds of its bonds, and any available revenues or assets of the authority. The bonds or notes of each issue shall be dated and may be made redeemable before maturity at the option of the authority, at such price or prices and under such terms and conditions as may be determined by the authority. In case any officer whose signature, or a facsimile of whose signature, shall appear on any bonds or notes or coupons attached thereto shall cease to be such officer before the delivery thereof, such signature or such facsimile shall nevertheless be valid and sufficient for all purposes the same as if the person had remained in office until such delivery. The authority may also provide for the authentication of the bonds or notes by a trustee or fiscal agent. The bonds or notes may be issued in coupon or registered form, or both, as the authority may determine, and provision may be made for the registration of any coupon bonds or notes as to principal alone and also as to both principal and interest, and for the reconversion into coupon bonds or notes of any bonds or notes registered as to both principal and interest, and for the interchange of registered and coupon bonds or notes. Trust agreements to secure authority obligations

Sec. 9. Trust Agreement to Secure Authority Obligations. In the discretion of the authority, any obligations issued under the provisions of this chapter may be secured by a trust agreement by and between the authority and a corporate trustee, which may be any trust company or bank having the powers of a trust company within or outside the state of Indiana. Such trust agreement or the resolution providing for the issuance of such obligations, whether or not

secured, may pledge or assign all or any part of the revenues or assets of the authority, including, without limitation, mortgage loans, mortgage loan commitments, construction loans, loans to lenders, contracts, agreements and other security or investment obligations, the fees or charges made or received by the authority, the moneys received in payment of loans and interest thereon, and any other moneys received or to be received by the authority. Such trust agreement or resolution may contain such provisions for protecting and enforcing the rights and remedies of the holders of any such obligations as may be reasonable and proper and not in violation of law, including covenants setting forth the duties of the authority in relation to the purposes to which obligation proceeds may be applied, the disposition or pledging of the revenues or assets of the authority, the terms and conditions for the issuance of additional obligations, and the custody, safeguarding and application of all moneys. It shall be lawful for any bank or trust company incorporated under the laws of the state which may act as depository of the proceeds of obligations, revenues, or other money to furnish such indemnifying bonds or to pledge such securities as may be required by the authority. Any such trust agreement or resolution may set forth the rights and remedies of the holders of any obligations and of the trustee, and may restrict the individual right of action by any such holders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the holders of any obligations. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be paid from the revenues or assets pledged or assigned to the payment of the principal of and the interest on obligations, or from any other funds available to the authority.

Authorization for issuance of refunding obligations

Sec. 15. Authorization for Issuance of Refunding Obligations. (a) The authority is authorized to provide for the issuance of refunding obligations for the purpose of refunding any obligations then outstanding which shall have been issued under the provisions of this chapter, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such obligations, and for any corporate purpose of the authority. The issuance of such obligations, the maturities and other details thereof, the rights of the holders thereof, and the rights, duties and obligations of the authority in respect of the same shall be governed by the provisions of this chapter which relate to the issuance of obligations, insofar as such provisions may be appropriate therefor.

(b) Refunding obligations may be sold or exchanged for outstanding obligations issued under this chapter and, if sold, the proceeds thereof may be applied, in addition to any other authorized purposes, to the purchase, redemption or payment of such outstanding obligations. Pending the application of the proceeds of any such refunding obligations (together with any other available funds) to the payment of the principal, accrued interest and any redemption premium on the obligations being refunded, or if so provided or permitted in the resolution authorizing the issuance of such refunding obligations or in the trust agreement securing the same to the payment of any interest on such refunding obligations and any expenses in connection with such refunding, such proceeds shall be invested in: (1) direct obligations of, or obligations the principal of and the interest on which are unconditionally guaranteed by, the United States of America and agencies of the United States of America; or (2) general obligations of the state, which shall mature or which shall be subject to redemption by the holders thereof, at the option of such holders, not later than the respective dates when the proceeds, together with the interest accruing thereon, will be required for the purposes intended.

IC 5-20-1-16

Capital reserve fund

Sec. 16. Capital Reserve Fund. (a) The authority may create and establish one (1) or more special funds, herein referred to as capital reserve funds, to secure the notes and bonds. The authority shall pay into each such capital reserve fund: (1) any moneys appropriated and

made available by the state for the purposes of such fund; (2) any proceeds of sale of notes or bonds, to the extent provided in the resolution of the authority authorizing the issuance thereof; and (3) any other moneys which may be made available to the authority for the purpose of such fund from any other source or sources.

(b) All moneys held in any capital reserve fund, except as otherwise specifically provided, shall be used, as required, solely: (1) for the payment of the principal of bonds of the authority secured in whole or in part by such fund; (2) for payment of the sinking fund payments mentioned in this section with respect to such bonds; (3) for the purchase or redemption of such bonds; (4) for the payment of interest on such bonds; or (5) for the payment of any redemption premium required to be paid when such bonds are redeemed prior to maturity. However, if moneys in such fund at any time are less than the capital reserve fund requirement established for such fund as provided in this section, the authority shall not use such moneys for any optional purchase or optional redemption of such bonds. Any income or interest earned by, or increment to, any capital reserve fund due to the investment thereof may be transferred by the authority to other funds or accounts of the authority to the extent such transfer does not reduce the amount of such capital reserve fund below the capital reserve fund requirement for such fund.

(c) The authority shall not at any time issue bonds secured in whole or in part by a capital reserve fund, if, upon the issuance of such bonds, the amount in such capital reserve fund will be less than the capital reserve fund requirement of such fund, unless the authority, at the time of issuance of such bonds, deposits in such fund from the proceeds of the bonds to be issued, or from other sources, an amount which, together with the amount then in such fund, will not be less than the capital reserve fund requirement for such fund. For purposes of this section, "capital reserve fund requirement" means, as of any particular date of computation, an amount of money, as provided in the resolutions of the authority authorizing the bonds with respect to which such fund is established, which amount shall not exceed the average of the annual debt service on the bonds of the authority for that calendar year and succeeding calendar years secured in whole or in part by such fund. The annual debt service for any calendar year is the amount of money equal to the aggregate of (1) all interest payable during such calendar year on all bonds secured in whole or in part by such fund outstanding on the date of computation, plus (2) the principal amount of all such bonds outstanding on said date of computation which mature during such calendar year, plus (3) all amounts specified as payable during such calendar year as a sinking fund payment with respect to any of such bonds which mature after such calendar year. This calculation shall embody the assumption that such bonds will, after such date of computation, cease to be outstanding by reason, but only by reason, of (1) the payment of bonds when due, and (2) the payment when due of all such sinking fund payments payable at or after such date of computation. However, in computing the annual debt service for any

calendar year, bonds deemed to have been paid in accordance with the defeasance provisions of the resolution of the authority authorizing the issuance thereof shall not be included in bonds outstanding on such date of computation.

(d) To assure the continued operation and solvency of the authority for the carrying out of the public purposes of this chapter, the authority shall accumulate in each capital reserve fund an amount equal to the capital reserve fund requirement for such fund.

(e) In computing the amount of any capital reserve fund for the purposes of this section, securities in which all or a portion of such capital reserve fund is invested shall be valued at par, or if purchased at less than par, at their cost to the authority.

(f) Notwithstanding subsections (a) through (e), the authority, subject to such agreements with noteholders or bondholders as may then exist, may elect not to secure any particular issue of its bonds with a capital reserve fund. Such election shall be made in the resolution authorizing such issue. In this event, subsections (b) and (c) shall not apply to the bonds of such issue in that they shall not be entitled to payment out of, or be eligible for purchase by, any such fund, nor shall they be taken into account in computing or applying any capital reserve fund requirement.

However, the state pledges and agrees with the holders of any obligations issued pursuant to this chapter that the state will not limit or alter the rights vested in the authority to fulfill the terms of any agreements made with the holders thereof, or in any way impair the right and remedy of the holders until the notes or bonds, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses in connection with any action or proceeding by or on behalf of such holders are fully met and discharged. The authority is authorized to include this pledge and agreement of the state in any agreement with the holders of such notes or bonds.

Real property owned by the authority shall be exempt from all property taxation and special assessments of the state or political subdivisions thereof, but the authority may agree to pay, in lieu of such taxes, such amounts as the authority finds consistent with the cost to the state or political subdivision of supplying municipal services for such real property and any housing development constructed thereon, which payments such bodies are authorized to accept.
