

IC 8-24-12

Chapter 12. Operation of Public Transportation Facilities

IC 8-24-12-1

Powers supplement other powers granted by law

Sec. 1. The powers granted under this chapter supplement any other powers granted by another law.

As added by P.L.182-2009(ss), SEC.282.

IC 8-24-12-2

Service division power to provide public transportation services

Sec. 2. A service division may provide public transportation service by operating public transportation facilities.

As added by P.L.182-2009(ss), SEC.282.

IC 8-24-12-3

Operating agreements

Sec. 3. A service division may enter into operating agreements with any private or public person to operate transportation facilities on behalf of a service division.

As added by P.L.182-2009(ss), SEC.282.

IC 8-24-12-4

Fares and charges for public transportation services

Sec. 4. Whenever a service division provides any public transportation service by operating public transportation facilities, the service division shall establish the level and nature of fares or charges to be made for public transportation services, and the nature and standards of public transportation service to be provided within the jurisdiction of the service division.

As added by P.L.182-2009(ss), SEC.282.

IC 8-24-12-5

Standards for operating expense grants and purchase of service agreements

Sec. 5. A service board shall, to the extent it considers feasible, adopt uniform standards for the making of grants and purchase of service agreements. These grant contracts or purchase of service agreements may be for the number of years or duration agreed to by the service division and the transportation agency.

As added by P.L.182-2009(ss), SEC.282.

IC 8-24-12-6

Terms of operating expense grant contracts or purchase of service agreements

Sec. 6. If the district provides grants for operating expenses or participates in any purchase of service agreement, the purchase of service agreement or grant contract must state the level and nature of fares or charges to be made for public transportation services, and the nature and standards of public transportation to be so provided. In

addition, any purchase of service agreements or grant contracts must provide, among other matters, for:

- (1) the terms or cost of transfers or interconnections between different public transportation agencies;
- (2) schedules or routes of transportation service;
- (3) changes that may be made in transportation service;
- (4) the nature and condition of the facilities used in providing service;
- (5) the manner of collection and disposition of fares or charges;
- (6) the records and reports to be kept and made concerning transportation service; and
- (7) interchangeable tickets or other coordinated or uniform methods of collection of charges.

As added by P.L.182-2009(ss), SEC.282.
