(b) A:

(1) prosecuting attorney may seek to obtain access to a defendant's medical information if the defendant has been charged with a potentially disease transmitting offense; and

(2) defendant who has been charged with a potentially disease transmitting offense may seek access to the medical information of another person if the medical information would be relevant

to the defendant's defense;
by filing a verified petition for the release of medical information with the court.

(c) The prosecuting attorney or defendant who files a petition under subsection (b) shall serve a copy of the petition on:

- (1) the person whose medical information is sought;
- (2) the guardian, guardian ad litem, or court appointed special advocate appointed for a minor, parent, or custodian of a person who is incompetent, if applicable; and

(e) If, following a hearing for release of a person's medical information, the court finds probable cause to believe that the medical information may be relevant to the prosecution or defense of a person who has been charged with a potentially disease transmitting offense, the court shall order the person having custody of the person's medical information to release the medical information to the court.

(f) The court shall examine the person's medical information in camera. If, after examining the medical information in camera and considering the evidence presented at the hearing, the court finds probable cause to believe that the medical information is relevant to the prosecution or defense of a person who has been charged with a potentially disease transmitting offense, the court may order the release of a person's medical information to the petitioner.

(g) In an order issued under subsection (f), the court shall:

At the request of an alleged victim of the offense, the parent, guardian, or custodian of an alleged victim who is less than eighteen (18) years of age, or the parent, guardian, or custodian of an alleged victim who is an endangered adult (as defined in IC 12-10-3-2), the prosecuting attorney shall petition a court to order a defendant charged with the commission of a potentially disease transmitting offense to submit to a screening test to determine whether the defendant is infected with a dangerous disease. In the petition, the prosecuting attorney must set forth information demonstrating that the defendant has committed a potentially disease transmitting offense. The court shall set the matter for hearing not later than forty-eight (48) hours after the prosecuting attorney files a petition under this subsection. The court shall set the matter for hearing not later than forty-eight (48) hours after the prosecuting attorney files a petition under this subsection. The alleged victim of the offense, the parent, guardian, or custodian of an alleged victim who is less than eighteen (18) years of age, and the parent, guardian, or custodian of an alleged victim who is an endangered adult (as defined in IC 12-10-3-2) are entitled to receive notice of the hearing and are entitled to attend the hearing. The defendant and the defendant's counsel are entitled to receive notice of the hearing and are entitled to attend the hearing. If the defendant is charged with battery (IC 35-42-2-1(b)(2)), the court may limit testing under this subsection to a test only for human immunodeficiency virus (HIV). However, the court may order additional testing for human immunodeficiency virus (HIV) as may be medically appropriate. The court shall take actions to ensure the confidentiality of evidence introduced at the hearing.

(e) The testimonial privileges applying to communication between a husband and wife and between a health care provider and the health care provider's patient are not sufficient grounds for not testifying or providing other information at a hearing conducted in accordance with this section.

(g) The results of a screening test conducted under this section shall be kept confidential if the defendant ordered to submit to the screening test under this section has not been convicted of the potentially disease transmitting offense or offense involving the
