

211.751 Goals, benchmarks, and plans to reduce incidence of diabetes, improve care, and control complications.

The Department for Medicaid Services, the Department for Public Health, the Office of Health Policy, and the Personnel Cabinet shall collaborate to identify goals and benchmarks while also developing individual entity plans to reduce the incidence of diabetes in Kentucky, improve diabetes care, and control complications associated with diabetes.

Effective: June 8, 2011

History: Created 2011 Ky. Acts ch. 83, sec. 1, effective June 8, 2011.
