

39E.210 Report of inventories and location of extremely hazardous substances.

The division shall, upon direction of the commission, promulgate administrative regulations requiring manufacturers, users, or storers of hazardous substances to report information concerning inventories and locations of those substances. These administrative regulations shall use, by reference, lists of extremely hazardous substances and forms issued by the United States Environmental Protection Agency or by the Kentucky Emergency Response Commission.

Effective: July 15, 1998

History: Created 1998 Ky. Acts ch. 226, sec. 78, effective July 15, 1998.
