

224.1-510 Legislative findings -- Inapplicability to licensed radioactive materials facilities.

KRS 224.1-510 to 224.1-532 and KRS 154.26-120, 154.28-130, 224.1-020, and 224A.013 are intended to establish an efficient and predictable process, within the context of KRS 224.1-400 and 224.1-405, to promote voluntary cleanup and redevelopment of properties suspected of environmental contamination. This process will further the public purposes of protecting human health, safety, and the environment while stimulating economic development and job creation through the construction of new residential, commercial, and industrial facilities. KRS 224.1-510 to 224.1-532 and KRS 154.26-120, 154.28-130, 224.1-020, and 224A.013 shall not apply to radioactive material facilities licensed under KRS 211.842 to 211.852 and the administrative regulations promulgated under these sections.

Effective: June 21, 2001

History: Created 2001 Ky. Acts ch. 128, sec. 1, effective June 21, 2001.

Formerly codified as KRS 224.01-510.
