

262.350 Land-use regulations, what they may include.

- (1) Whenever the board determines that uncontrolled soil erosion on some lands within the district is causing damage to other lands within the district, it may propose regulations governing the use of lands within the district in the interest of conserving soil and soil resources and preventing and controlling soil erosion. The board may conduct such public meetings and public hearings upon tentative regulations as may be necessary to assist it in this work.
- (2) Land-use regulations may include:
 - (a) Requirements for the carrying out of necessary engineering operations, including the construction of terraces, terrace outlets, check dams, dikes, ponds, ditches and other necessary structures;
 - (b) Requirements for the observance of particular methods of cultivation, including contour cultivating, contour furrowing, lister furrowing, sowing, planting, strip cropping, seeding and planting of lands to water-conserving and erosion-preventing plants, trees and grasses, forestation and reforestation;
 - (c) Specifications of cropping programs and tillage practices to be observed;
 - (d) Requirements for the retirement from cultivation of highly erosive areas or of areas on which erosion may not be adequately controlled if cultivation is carried on; and
 - (e) Provisions for such other measures and programs as may assist conservation of soil resources and prevent or control soil erosion in the district, with regard to KRS 262.020.

Effective: October 1, 1942

History: Recodified 1942 Ky. Acts ch. 208, sec. 1, effective October 1, 1942, from Ky. Stat. sec. 42i-9.
