

211.351 Administrative regulations that update daily waste flow charts and include methodology for using conservation credits for greywater systems -- State primacy in allowable greywater use.

- (1) Ninety (90) days from July 15, 2016, the cabinet shall promulgate administrative regulations that update the daily waste flow charts to account for technological improvements in water-using fixtures and appliances that reduce water usage. The cabinet also shall include a methodology for using conservation credits for greywater systems that reduce total daily waste flows.
- (2) No political subdivision of the state shall prohibit the use of greywater reduction of average daily waste flows by policy, rule, or ordinance if the greywater use is allowed pursuant to a permit issued under KRS 211.350.

Effective: July 15, 2016

History: Created 2016 Ky. Acts ch. 108, sec. 2, effective July 15, 2016.
