4. Accept for examination, diagnosis, guidance, and treatment, insofar as funds permit, any resident of the state coming to the department of that person's own volition for advice and guidance. For purposes of this subsection, "any resident" includes veterans and nonveterans who have a brain injury.

When the department chooses to contract, the department shall select eligible vendors who can provide economical and appropriate treatment for alcohol and drug dependent persons. The department shall contract for these services on the basis of the same unit costs incurred by the department in delivering like services. Each contract entered into pursuant to this section must provide that the private vendor-contractor will accept and treat each chemically dependent or chemical-abusing client referred to the vendor pursuant to the contract. As used in this section, "standards of operations" includes a determination by the department that the vendor is financially responsible and will continue to provide services throughout the contract period.

No patient may be charged at a rate greater than actual cost of the care, treatment, or rehabilitation furnished the patient.
