

United States and allied military forces and to the protection of the national security interests of the United States.

“(3) In addition to having military uses, the Global Positioning System has essential civil, commercial, and scientific uses.

“(4) As a result of the increasing demand of civil, commercial, and scientific users of the Global Positioning System—

“(A) there has emerged in the United States a new commercial industry to provide Global Positioning System equipment and related services to the many and varied users of the system; and

“(B) there have been rapid technical advancements in Global Positioning System equipment and services that have contributed significantly to reductions in the cost of the Global Positioning System and increases in the technical capabilities and availability of the system for military uses.

“(5) It is in the national interest of the United States for the United States—

“(A) to support continuation of the multiple-use character of the Global Positioning System;

“(B) to promote broader acceptance and use of the Global Positioning System and the technological standards that facilitate expanded use of the system for civil purposes;

“(C) to coordinate with other countries to ensure (i) efficient management of the electromagnetic spectrum used by the Global Positioning System, and (ii) protection of that spectrum in order to prevent disruption of signals from the system and interference with that portion of the electromagnetic spectrum used by the system; and

“(D) to encourage open access in all international markets to the Global Positioning System and supporting equipment, services, and techniques.

“(b) INTERNATIONAL COOPERATION.—Congress urges the President to promote the security of the United States and its allies, the public safety, and commercial interests by taking the following steps:

“(1) Undertaking a coordinated effort within the executive branch to seek to establish the Global Positioning System, and augmentations to the system, as a worldwide resource.

“(2) Seeking to enter into international agreements to establish signal and service standards that protect the Global Positioning System from disruption and interference.

“(3) Undertaking efforts to eliminate any barriers to, and other restrictions of foreign governments on, peaceful uses of the Global Positioning System.

“(4) Requiring that any proposed international agreement involving nonmilitary use of the Global Positioning System or any augmentation to the system not be agreed to by the United States unless the proposed agreement has been reviewed by the Secretary of State, the Secretary of Defense, the Secretary of Transportation, and the Secretary of Commerce (acting as the Interagency Global Positioning System Executive Board established by Presidential Decision Directive NSTC-6, dated March 28, 1996).”

#### ACCESS TO GLOBAL POSITIONING SYSTEM

Pub. L. 104-106, div. A, title II, §279, Feb. 10, 1996, 110 Stat. 243, provided that:

“(a) CONDITIONAL PROHIBITION ON USE OF SELECTIVE AVAILABILITY FEATURE.—Except as provided in subsection (b), after May 1, 1996, the Secretary of Defense may not (through use of the feature known as ‘selective availability’) deny access of non-Department of Defense users to the full capabilities of the Global Positioning System.

“(b) PLAN.—Subsection (a) shall cease to apply upon submission by the Secretary of Defense to the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives of a plan for enhancement of the Global Positioning System that provides for—

“(1) development and acquisition of effective capabilities to deny hostile military forces the ability to

use the Global Positioning System without hindering the ability of United States military forces and civil users to have access to and use of the system, together with a specific date by which those capabilities could be operational; and

“(2) development and acquisition of receivers for the Global Positioning System and other techniques for weapons and weapon systems that provide substantially improved resistance to jamming and other forms of electronic interference or disruption, together with a specific date by which those receivers and other techniques could be operational with United States military forces.”

#### LIMITATION ON PROCUREMENT OF SYSTEMS NOT GPS-EQUIPPED

Pub. L. 103-160, div. A, title I, §152(b), Nov. 30, 1993, 107 Stat. 1578, as amended by Pub. L. 105-261, div. A, title II, §218(e), Oct. 17, 1998, 112 Stat. 1952; Pub. L. 109-163, div.
