To encourage the alleviation of natural resource conservation problems that reduce the productive capacity of the Nation's land and water resources or that cause degradation of environmental quality, the Corporation may, beginning December 22, 1981, make loans to any agricultural producer for those natural resource conservation and environmental enhancement measures that are recommended by the applicable county and State committees established under section 590h(b) of title 16 and are included in the producer's conservation plan approved by the local soil and water conservation district; such loans shall be for a period not to exceed ten years at a rate

of interest based upon the rate of interest charged the Corporation by the United States Treasury; the Corporation may make loans to any one producer in any fiscal year in an amount not to exceed \$25,000; loans up to \$10,000 in amount may be unsecured and loans in excess of \$10,000 shall be secured; and the total of such unsecured and secured loans made in each fiscal year shall not exceed \$200,000,000: *Provided*, That the authority provided by this sentence to make loans shall be effective only to the extent and in such amounts as may be provided for in prior appropriation Acts. Notwithstanding any other provision of law, the Commodity Credit Corporation shall, to the maximum extent practicable, in consultation with the Secretary of State, and upon terms and conditions prescribed or approved by the Secretary of Agriculture, accept strategic and critical materials produced abroad in exchange for agricultural commodities acquired by the Corporation. Insofar as practicable, in effecting such exchange of goods, the Secretary shall: (1) use normal commercial trade channels; (2) take action to avoid displacing usual marketings of United States agricultural commodities and the products thereof; (3) take reasonable precautions to prevent the resale or transshipment to other countries, or use for other than domestic use in the importing country, of agricultural commodities used for such exchange; and (4) give priority to commodities easily storable and those which serve as prime incentive goods to stimulate production of critical and strategic materials. The Corporation may solicit bids from, and utilize, private trading firms to effect such exchange of goods. The determination of the quantities and qualities of such materials which are desirable for stock piling and the determination of which materials are strategic and critical shall be made in the manner prescribed by section 3 of the Strategic and Critical Materials Stock Piling Act [50 U.S.C. 98b]. Strategic and critical materials acquired by Commodity Credit Corporation in exchange for agricultural commodities shall, to the extent approved by the President, be transferred to the stock pile provided for by the Strategic and Critical Materials Stock Piling Act [50 U.S.C. 98 et seq.]; and in the same fiscal year such materials are transferred to the stock pile the Commodity Credit Corporation shall be reimbursed for the strategic and critical materials so transferred to the stock pile from the funds made available for the purpose of the Strategic and Critical Materials Stock Piling Act, in an amount equal to the fair market value, as determined by the Secretary of the Treasury, of the material transferred to the stock pile. If the volume of petroleum products (including crude oil) stored in the Strategic Petroleum Reserve is less than the level prescribed under section 6234 of title 42, the Corporation shall, to the maximum extent practicable and with the approval of the Secretary of Agriculture, make available annually to the Secretary of Energy, upon the request of the Secretary of Energy, a quantity of agricultural products owned by the Corporation with a market value at the time of such request of at least \$300,000,000 for use by the Secretary of Energy in acquiring petroleum products (including crude

oil) produced abroad for placement in the Strategic Petroleum Reserve through an exchange of such agricultural products. The terms and conditions of each such exchange, including provisions for full reimbursement to the Commodity Credit Corporation, shall be determined by the Secretary of Energy and the Secretary of Agriculture. Nothing contained herein shall limit the authority of the Commodity Credit Corporation to acquire, hold, or dispose of such quantity of strategic and critical materials as it deems advisable in carrying out its functions and protecting its assets: *Provided*, That, notwithstanding any other provision of law, where a grain storage facility owned by the Corporation is not needed by the Corporation and, upon being offered for sale no person offers to pay the minimum price set by the Corporation for such facility for use in connection with storage or handling of agricultural commodities, then the Corporation may, without declaring such facility to be excess property, sell it by bids at not less than such minimum price to any public or private nonprofit agency or organization for use for the purposes of such agency or organization. This provision shall apply also to facilities which on the effective date of this Act have been declared excess to the needs of the Commodity Credit Corporation but have not been claimed by any other Government agency, or surplus to the needs of the Government but not disposed of pursuant to the provisions of chapters 1 to 11 of title 40 and division C (except sections 3302, 3307(e), 3501(b), 3509, 3906, 4710, and 4711) of subtitle I of title 41.

The Corporation shall at all times reserve a sufficient amount of its authorized borrowing power which, together with other funds available to the Corporation, will enable it to purchase, in accordance with its contracts with lending agencies, notes, or other obligations evidencing loans made by such agencies under the Corporation's programs.

(j) Shall determine the character of and the necessity for its obligations and expenditures and the manner in which they shall be incurred, allowed, and paid.

(k) Shall have authority to make final and conclusive settlement and adjustment of any claims by or against the Corporation or the accounts of its fiscal officers.

(l) May make such loans and advances of its funds as are necessary in the conduct of its business.

(m) Shall have such powers as may be necessary or appropriate for the exercise of the powers specifically vested in the Corporation, and all such incidental powers as are customary in corporations generally; but any research financed by the Corporation shall relate to the conservation or disposal of commodities owned or controlled by the Corporation and shall be conducted in collaboration with research agencies of the Department of Agriculture. Notwithstanding any other provision of this subchapter,

the Corporation may, in the exercise of its power to remove and dispose of surplus agricultural commodities, export, or cause to be exported, not to exceed such amounts of commodities owned by the Corporation as will enable the Corporation to finance research and development of external combustion engines using fuel other than that derived from petroleum and petroleum products. The total value of commodities exported annually for the purposes of the research authorized by the preceding sentence may not exceed \$30,000,000.

The Federal Tort Claims Act is also commonly used to refer to chapter 171 of Title 28, Judiciary and Judicial Procedure. For complete classification of title IV to the Code, see Tables. For distribution of former sections of Title 28 into the revised Title 28, see Table at the beginning of Title 28.

The Strategic and Critical Materials Stock Piling Act, referred to in subsec. (h), is act June 7, 1939, ch. 190, as revised generally by Pub. L. 96-41, §2, July 30, 1979, 93 Stat. 319, which is classified generally to subchapter III (§98 et seq.) of chapter 5 of Title 50, War and National Defense. For complete classification of this Act to the Code, see section 98 of Title 50 and Tables.

The effective date of this Act, referred to in subsec. (h), probably refers to the effective date of Pub. L. 89-758, which was approved on Nov. 5, 1966.
