**(c) Major Federal actions significantly affecting the quality of the human environment**

(1) No action taken under the Clean Air Act [42 U.S.C. 7401 et seq.] shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.].

(2) No action under section 792 of this title for a period of one year after initiation of such action shall be deemed a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]. However, before any action under section 792 of this title that has a significant impact on the environment is taken, if practicable, or in any event within sixty days after such action is taken, an environmental evaluation with analysis equivalent to that required under section 102(2)(C) of the National Environmental Policy Act [42 U.S.C. 4332(2)(C)], to the greatest extent practicable within this time constraint, shall be prepared and circulated to appropriate Federal, State, and local government agencies and to the public for a thirty-day comment period after which a public hearing shall be held upon request to review outstanding environmental issues. Such an evaluation shall not be required where the action in question has been preceded by compliance with the National Environmental Policy Act by the appropriate Federal agency. Any action taken under section 792 of this title which will be in effect for more than a one-year period or any action to extend an action taken under section 792 of this title to a total period of more than one year shall be subject to the full provisions of the National Environmental Policy Act, notwithstanding any other provision of this chapter.

**(d) Importation of hydroelectric energy**

In order to expedite the prompt construction of facilities for the importation of hydroelectric energy thereby helping to reduce the shortage of petroleum products in the United States, the Federal Power Commission is hereby authorized and directed to issue a Presidential permit pursuant to Executive Order 10485 of September 3, 1953, for the construction, operation, maintenance, and connection of facilities for the transmission of electric energy at the borders of the United States without preparing an environmental impact statement pursuant to section 102 of the National Environmental Policy Act of 1969 [42 U.S.C. 4332] for facilities for the transmission of electric energy between Canada and the United States in the vicinity of Fort Covington, New York.

TRANSFER OF FUNCTIONS

Federal Power Commission terminated and functions, personnel, property, funds, etc., transferred to Secretary of Energy (except for certain functions transferred to Federal Energy Regulatory Commission) by sections 7151(b), 7171(a), 7172(a)(1), 7291, and 7293 of Title 42, The Public Health and Welfare.

**§ 794. Energy conservation study**

**(a) Study of conservation methods**

The Federal Energy Administrator shall conduct a study on potential methods of energy conservation and, not later than six months after June 22, 1974, shall submit to Congress a report on the results of such study. The study shall include, but not be limited to, the following:

(1) the energy conservation potential of restricting exports of fuels or energy-intensive products, or goods, including an analysis of balance-of-payments and foreign relations implications of any such restrictions;

(2) alternative requirements, incentives, or disincentives for increasing industrial recycling and resource recovery in order to reduce energy demand, including the economic costs and fuel consumption tradeoff which may be associated with such recycling and resource recovery in lieu of transportation and use of virgin materials; and

(3) means for incentives or disincentives to increase efficiency of industrial use of energy.

**(b) Emergency mass transportation assistance plan**

Within ninety days of June 22, 1974, the Secretary of Transportation, after consultation

with the Federal Energy Administrator, shall submit to the Congress for appropriate action an "Emergency Mass Transportation Assistance Plan" for the purpose of conserving energy by expanding and improving public mass transportation systems and encouraging increased ridership as alternatives to automobile travel.

**(c) Recommendations in plan**

Such plan shall include, but shall not be limited to—

(1) recommendations for emergency temporary grants to assist States and local public bodies and agencies thereof in the payment of operating expenses incurred in connection with the provision of expanded mass transportation service in urban areas;

(2) recommendations for additional emergency assistance for the purchase of buses and rolling stock for fixed rail, including the feasibility of accelerating the timetable for such assistance under section 142(a)(2) of title 23 for the purpose of providing additional capacity for and encouraging increased use of public mass transportation systems;

(3) recommendations for a program of demonstration projects to determine the feasibility of fare-free and low-fare urban mass transportation systems, including reduced rates for elderly and handicapped persons during nonpeak hours of transportation;

(4) recommendations for additional emergency assistance for the construction of fringe and transportation corridor parking facilities to serve bus and other mass transportation passengers;

(5) recommendations on the feasibility of providing tax incentives for persons who use public mass transportation systems.

**§ 796. Reporting of energy information**

**(a) Authority of Federal Energy Administrator to request, acquire, and collect energy information; rules and regulations**

For the purpose of assuring that the Federal Energy Administrator, the Congress, the States, and the public have access to and are able to obtain reliable energy information, the Federal Energy Administrator shall request, acquire, and collect such energy information as he determines to be necessary to assist in the formulation of energy policy or to carry out the purposes of this chapter or the Emergency Petroleum Allocation Act of 1973 [15 U.S.C. 751 et seq.].<sup>1</sup> The Federal Energy Administrator shall promptly promulgate rules pursuant to subsection (b)(1)(A) of this section requiring reports of such information to be submitted to the Federal Energy Administrator at least every ninety calendar days.

**(b) Powers of Federal Energy Administrator in obtaining energy information; verification of accuracy; compliance orders**

(1) In order to obtain energy information for the purpose of carrying out the provisions of subsection (a) of this section, the Federal Energy Administrator is authorized—

(A) to require, by rule, any person who is engaged in the production, processing, refining, transportation by pipeline, or distribution (at other than the retail level) of energy resources to submit reports;

(B) to sign and issue subpoenas for the attendance and testimony of witnesses and the production of books, records, papers, and other documents;

(C) to require any person, by general or special order, to submit answers in writing to interrogatories, requests for reports or for other information; and such answers or other submissions shall be made within such reasonable period, and under oath or otherwise, as the Federal Energy Administrator may determine; and

(D) to administer oaths.

(2) For the purpose of verifying the accuracy of any energy information requested, acquired, or collected by the Federal Energy Administrator, the Federal Energy Administrator, or any officer or employer<sup>2</sup> duly designated by him, upon presenting appropriate credentials and a written notice from the Federal Energy Administrator to the owner, operator, or agent in charge, may—

(A) enter, at reasonable times, any business premise or facility; and

(B) inspect, at reasonable times and in a reasonable manner, any such premise or facility, inventory and sample any stock of energy resources therein, and examine and copy books, records, papers, or other documents, relating to any such energy information.

(3) Any United States district court within the jurisdiction of which any inquiry is carried on may, upon petition by the Attorney General at the request of the Federal Energy Adminis-
