

that all resources are utilized in the combination that will best meet the needs of the American people.

“(5) forest and rangeland protection programs should be improved to more adequately protect forest and rangeland resources from fire, erosion, insects, disease, and the introduction or spread of noxious weeds, insects, and animals.

“(6) the Federal agencies carrying out the policies contained in this Statement will cooperate and coordinate their efforts to accomplish the goals contained in this Statement and will consult, coordinate, and cooperate with the planning efforts of the States.

“(7) in carrying out the Assessment and the Program under the Forest and Rangeland Renewable Resources Planning Act of 1974 [this subchapter] and the Appraisal and the Program under the Soil and Water Resources Conservation Act of 1977 [section 2001 et seq. of this title], the Secretary of Agriculture shall assure that resources and economic information and evaluation data will be continually improved so that the best possible information is always available for use by Federal agencies and the public.

“RANGE LAND DATA BASE AND ITS IMPROVEMENT

“The data on and understanding of the cover and condition of range lands is less refined than the data on and understanding of commercial forest land. Range lands have significant value in the production of water and protection of watersheds; the production of fish and wildlife food and habitat; recreation; and the production of livestock forage. An adequate data base on the cover and condition of range lands should be developed by the year 1990. Currently, cattle production from these lands is annually estimated at 213 million animal unit months of livestock forage. These lands should be maintained and enhanced, including their water and other resource values, so that they can annually provide 310 million animal units months of forage by the year 2030, along with other benefits.

“GENERAL ACCEPTANCE OF HIGH BOUND PROGRAM

“Congress generally accepts the ‘high-bound’ program described on pages 7 through 18 of the 1980 Report to Congress on the Nation’s Renewable Resources prepared by the Secretary of Agriculture. However, Congress finds that the ‘high-bound’ program may not be sufficient to accomplish the goals contained in this statement, particularly in the area of range and watershed resources, State and private forest cooperation and timber management.

“STATE AND PRIVATE LANDS

“States and owners of private forest and rangelands will be encouraged, consistent with their individual objectives, to manage their land in support of this Statement of Policy. The State and private forestry and range programs of the Forest Service will be essential to the furtherance of this Statement of Policy.

“FUNDING THE GOALS

“In order to accomplish the policy goals contained in this statement by the year 2030, the Federal Government should adequately fund programs of research (including cooperative research), extension, cooperative forestry assistance and protection, and improved management of the forest and rangelands. The Secretary of Agriculture shall continue his efforts to evaluate the cost-effectiveness of the renewable resource programs.”

STATEMENT OF PURPOSES OF AMENDMENT BY COOPERATIVE FORESTRY ASSISTANCE ACT OF 1978

Section 15, formerly section 12 of Pub. L. 95-313, renumbered §15, Pub. L. 101-624, title XII, §1215(1), Nov. 28, 1990, 104 Stat. 3525, provided in part that the amendment of subsec. (c) of this section by Pub. L. 95-313 is to insure that Congress has adequate information to implement its oversight responsibilities and to provide accountability for expenditures and activities under the Cooperative Forestry Assistance Act of 1978. See

Short Title note set out under section 2101 of this title for classification of the Cooperative Forestry Assistance Act of 1978 in the Code.

§ 1606a. Reforestation Trust Fund

(a) Establishment; source of funds

There is established in the Treasury of the United States a trust fund, to be known as the Reforestation Trust Fund (hereinafter in this section referred to as the “Trust Fund”), consisting of such amounts as are transferred to the Trust Fund under subsection (b)(1) of this section and any interest earned on investment of amounts in the Trust Fund under subsection (c)(2) of this section.

(b) Transfer of certain tariff receipts to Trust Fund; fiscal year limitation; quarterly transfers; adjustment of estimates

(1) Subject to the limitation in paragraph (2), the Secretary of the Treasury shall transfer to the Trust Fund an amount equal to the sum of the tariffs received in the Treasury after January 1, 1989, under headings 4401 through 4412 and subheadings 4418.50.00, 4418.90.20, 4420.10.00, 4420.90.80, 4421.90.10 through 4421.90.20, and 4421.90.70 of chapter 44, subheadings 6808.00.00 and 6809.11.00 of chapter 68 and subheading 9614.10.00 of chapter 96 of the Harmonized Tariff Schedule of the United States.

(2) The Secretary shall not transfer more than \$30,000,000 to the Trust Fund for any fiscal year.

(3) The amounts required to be transferred to the Trust Fund under paragraph (1) shall be transferred at least quarterly from the general fund of the Treasury to the Trust Fund on the basis of estimates made by the Secretary of the Treasury. Proper adjustment shall be made in the amounts subsequently transferred to the extent prior estimates were in excess of or less than the amounts required to be transferred.

(c) Report to Congress; printing as House and Senate document; investments; sale and redemption of obligations; credits for Trust Fund

(1) It shall be the duty of the Secretary of the Treasury to hold the Trust Fund, and (after consultation with the Secretary of Agriculture) to report to the Congress each year on the financial condition and the results of the operations of the Trust Fund during the preceding fiscal year and on its expected condition and operations during the next fiscal year. Such report shall be printed as both a House and Senate document of the session of the Congress to which the report is made.

(2)(A) It shall be the duty of the Secretary of the Treasury to invest such portion of the Trust Fund as is not, in his judgment, required to meet current withdrawals. Such investments may be made only in interest-bearing obligations of the United States or in obligations guaranteed as to both principal and interest by the United States. For such purpose, such obligations may be acquired (i) on original issue at the issue price, or (ii) by purchase of outstanding obligations at the market price. The purposes for which obligations of the United States may be issued under chapter 31 of title 31 are hereby extended to authorize the issuance at par

of special obligations exclusively to the Trust Fund. Such special obligations shall bear interest at a rate equal to the average rate of interest, computed as to the end of the calendar month next preceding the date of such issue, borne by all marketable interest-bearing obligations of the United States then forming a part of the Public Debt; except that where such average rate is not a multiple of one-eighth of 1 percent, the rate of interest of such special obligations shall be the multiple of one-eighth of 1 percent next lower than such average rate. Such special obligations shall be issued only if the Secretary of the Treasury determines that the purchase of other interest-bearing obligations of the United States, or of obligations guaranteed as to both principal and interest by the United States on original issue or at the market price, is not in the public interest.

(B) Any obligation acquired by the Trust Fund (except special obligations issued exclusively to the Trust Fund) may be sold by the Secretary of the Treasury at the market price, and such special obligations may be redeemed at par plus accrued interest.

(C) The interest on, and the proceeds from the sale or redemption of, any obligations held in Trust Fund shall be credited to and form a part of the Trust Fund.

(d) Obligations from Trust Fund

The Secretary of Agriculture is on and after December 19, 1985, authorized to obligate such sums as are available in the Trust Fund (including any amounts not obligated in previous fiscal years) for—

(1) reforestation and timber stand improvement as specified in section 1601(d) of this title and other forest stand improvement activities to enhance forest health and reduce hazardous fuel loads of forest stands in the National Forest System; and

(2) properly allocable administrative costs of the Federal Government for the activities specified above.

§ 1607. National Forest System renewable resources; development and administration by Secretary of Agriculture in accordance with multiple use and sustained yield concepts for products and services; target year for operational posture of resources; budget requests

The Secretary of Agriculture shall take such action as will assure that the development and administration of the renewable resources of the National Forest System are in full accord with the concepts for multiple use and sustained yield of products and services as set forth in the Multiple-Use Sustained-Yield Act of 1960 [16 U.S.C. 528-531]. To further these concepts, the Congress hereby sets the year 2000 as the target year when the renewable resources of the National Forest System shall be in an operating posture whereby all backlogs of needed treatment for their restoration shall be reduced to a current basis and the major portion of planned intensive multiple-use sustained-yield management procedures shall be installed and operating on an environmentally-sound basis. The annual budget shall contain requests for funds for an orderly program to eliminate such backlogs: *Provided*, That when the Secretary finds that (1) the backlog of areas that will benefit by such treatment has been eliminated, (2) the cost of treating the remainder of such area exceeds the economic and environmental benefits to be secured from their treatment, or (3) the total supplies of the renewable resources of the United States are adequate to meet the future needs of the American people, the budget request for these elements of restoration may be adjusted accordingly.

§ 1608. National Forest Transportation System

(a) Congressional declaration of policy; time for development; method of financing; financing of forest development roads

The Congress declares that the installation of a proper system of transportation to service the National Forest System, as is provided for in sections 532 to 538 of this title, shall be carried forward in time to meet anticipated needs on an economical and environmentally sound basis, and the method chosen for financing the construction and maintenance of the transportation system should be such as to enhance local, re-

gional, and national benefits: *Provided*, That limitations on the level of obligations for construction of forest roads by timber purchasers shall be established in annual appropriation Acts.

(b) Construction of temporary roadways in connection with timber contracts, and other permits or leases

Unless the necessity for a permanent road is set forth in the forest development road system plan, any road constructed on land of the National Forest System in connection with a timber contract or other permit or lease shall be designed with the goal of reestablishing vegetative cover on the roadway and areas where the vegetative cover has been disturbed by the construction of the road, within ten years after the termination of the contract, permit, or lease either through artificial or natural means. Such action shall be taken unless it is later determined that the road is needed for use as a part of the National Forest Transportation System.

(c) Standards of roadway construction

Roads constructed on National Forest System lands shall be designed to standards appropriate for the intended uses, considering safety, cost of transportation, and impacts on land and resources.
