

§ 1866. Shark feeding

Except to the extent determined by the Secretary, or under State law, as presenting no public health hazard or safety risk, or when conducted as part of a research program funded in whole or in part by appropriated funds, it is unlawful to introduce, or attempt to introduce, food or any other substance into the water to attract sharks for any purpose other than to harvest sharks within the Exclusive Economic Zone seaward of the State of Hawaii and of the Commonwealths, territories, and possessions of the United States in the Pacific Ocean Area.

(Pub. L. 94-265, title III, §317, as added Pub. L. 109-479, title I, §119, Jan. 12, 2007, 120 Stat. 3607.)

§ 1867. Cooperative research and management program**(a) In general**

The Secretary of Commerce, in consultation with the Councils, shall establish a cooperative research and management program to address needs identified under this chapter and under any other marine resource laws enforced by the Secretary. The program shall be implemented on a regional basis and shall be developed and conducted through partnerships among Federal, State, and Tribal managers and scientists (including interstate fishery commissions), fishing industry participants (including use of commercial charter or recreational vessels for gathering data), and educational institutions.

(b) Eligible projects

The Secretary shall make funds available under the program for the support of projects to address critical needs identified by the Councils in consultation with the Secretary. The program shall promote and encourage efforts to utilize sources of data maintained by other Federal agencies, State agencies, or academia for use in such projects.

(c) Funding

In making funds available the Secretary shall award funding on a competitive basis and based on regional fishery management needs, select programs that form part of a coherent program of research focused on solving priority issues identified by the Councils, and shall give priority to the following projects:

- (1) Projects to collect data to improve, supplement, or enhance stock assessments, including the use of fishing vessels or acoustic or other marine technology.
- (2) Projects to assess the amount and type of bycatch or post-release mortality occurring in a fishery.
- (3) Conservation engineering projects designed to reduce bycatch, including avoidance of post-release mortality, reduction of bycatch in high seas fisheries, and transfer of such fishing technologies to other nations.
- (4) Projects for the identification of habitat areas of particular concern and for habitat conservation.
- (5) Projects designed to collect and compile economic and social data.

(d) Experimental permitting process

Not later than 180 days after January 12, 2007, the Secretary, in consultation with the Councils,

shall promulgate regulations that create an expedited, uniform, and regionally-based process to promote issuance, where practicable, of experimental fishing permits.

(e) Guidelines

The Secretary, in consultation with the Councils, shall establish guidelines to ensure that participation in a research project funded under this section does not result in loss of a participant's catch history or unexpended days-at-sea as part of a limited entry system.

(f) Exempted projects

The procedures of this section shall not apply to research funded by quota set-asides in a fishery.

(Pub. L. 94-265, title III, §318, as added Pub. L. 109-479, title II, §204, Jan. 12, 2007, 120 Stat. 3614.)

REFERENCES IN TEXT

This chapter, referred to in subsec. (a), was in the original "this Act", meaning Pub. L. 94-265, Apr. 13, 1976, 90 Stat. 331, as amended, known as the Magnuson-Stevens Fishery Conservation and Management Act, which is classified principally to this chapter. For complete classification of this Act to the Code, see Short Title note set out under section 1801 of this title and Tables.

§ 1868. Herring study**(a) In general**

The Secretary may conduct a cooperative research program to study the issues of abundance, distribution and the role of herring as forage fish for other commercially important fish stocks in the Northwest Atlantic, and the potential for local scale depletion from herring harvesting and how it relates to other fisheries in the Northwest Atlantic. In planning, designing, and implementing this program, the Secretary shall engage multiple fisheries sectors and stakeholder groups concerned with herring management.

(b) Report

The Secretary shall present the final results of this study to Congress within 3 months following the completion of the study, and an interim report at the end of fiscal year 2008.

(c) Authorization of appropriations

There are authorized to be appropriated \$2,000,000 for fiscal year 2007 through fiscal year 2009 to conduct this study.

(Pub. L. 94-265, title III, §319, as added Pub. L. 109-479, title II, §205, Jan. 12, 2007, 120 Stat. 3615.)

§ 1869. Restoration study**(a) In general**

The Secretary may conduct a study to update scientific information and protocols needed to improve restoration techniques for a variety of coast habitat types and synthesize the results in a format easily understandable by restoration practitioners and local communities.

(b) Authorization of appropriations

There are authorized to be appropriated \$500,000 for fiscal year 2007 to conduct this study.

(Pub. L. 94-265, title III, §320, as added Pub. L. 109-479, title II, §206, Jan. 12, 2007, 120 Stat. 3615.)
