§ 2404. Permits

(a) In general

The Director may issue permits which authorize acts otherwise prohibited by section 2403(b) of this title.

(b) Applications for permits

(1) Applications for permits under this section shall be made in such manner and form, and shall contain such information, as the Director shall by regulation prescribe.

(2) The Director shall publish notice in the Federal Register of each application which is made for a permit under this section. The notice shall invite the submission by interested parties, within 30 days after the date of publication of the notice, of written data, comments, or views with respect to the application. Information received by the Director as a part of any application shall be available to the public as a matter of public record.

(c) Action by appropriate Secretaries on certain permit applications

(1) If the Director receives an application for a permit under this section requesting authority to undertake any action with respect to—

(A) any native mammal which is a marine mammal within the meaning of section 1362(5)¹ of this title;

(B) any native mammal, native bird, or native plant which is an endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.); or

(C) any native bird which is protected under the Migratory Bird Treaty Act (16 U.S.C. 701 et seq.);

the Director shall submit a copy of the application to the Secretary of Commerce or to the Secretary of the Interior, as appropriate (hereinafter in this subsection referred to respectively as the “appropriate Secretary”).

(2) After receiving a copy of any application from the Director under paragraph (1) the appropriate Secretary shall promptly determine, and notify the Director, whether or not any action proposed in the application also requires a permit or other authorization under any law administered by the appropriate Secretary.

(3) If the appropriate Secretary notifies the Director that any action proposed in the application requires a permit or other authorization under any law administered by the appropriate Secretary, the Director may not issue a permit under this section with respect to such action unless such other required permit or authorization is issued by the appropriate Secretary and a copy thereof is submitted to the Director. The issuance of any permit or other authorization by the appropriate Secretary for the carrying out of any action with respect to any native mammal, native bird, or native plant shall not be deemed to entitle the applicant concerned to the

issuance by the Director of a permit under this section.

(d) Issuance of permits

As soon as practicable after receiving any application for a permit under this section, or, in the case of any application to which subsection (c) of this section applies, as soon as practicable after the applicable requirements of such subsection are complied with, the Director shall issue, or deny the issuance of, the permit. Within 10 days after the date of the issuance or denial of a permit under this subsection, the Director shall publish notice of the issuance or denial in the Federal Register.

(e)² Terms and conditions of permits

(1) Each permit issued under this section shall—

(A) if applicable, specify—

(i) the number and species of native mammals, native birds, native plants, or native invertebrates to which the permit applies, and

(ii) the manner in which the taking or harmful interference shall be conducted (which manner shall be determined by the Director to be humane) and the area in which it will be conducted;

(B) the period during which the permit is valid; and

(C) such other terms and conditions as the Director deems necessary and appropriate to ensure that any act authorized under the permit is carried out in a manner consistent with the purpose of this chapter, the criteria set forth in paragraph (2), if applicable, and the regulations prescribed under this chapter.

(2) The terms and conditions imposed by the Director in any permit issued under this section that authorizes any of the following acts shall be consistent with the following criteria:

(A) Permits authorizing the taking or harmful interference within Antarctica of any native mammal or native bird (other than a Specially Protected Species of any such mammal or bird)—

(i) may be issued only for the purpose of providing—

(I) specimens for scientific study or scientific information, or

(II) specimens for museums, zoological gardens, or other educational or cultural institutions or uses, or

(III) for unavoidable consequences of scientific activities or the construction and operation of scientific support facilities; and

(ii) shall ensure, as far as possible, that—

(I) no more native mammals and native birds are taken in any year than can normally be replaced by net natural reproduction in the following breeding season, and

(II) the variety of species and the balance of the natural ecological systems within Antarctica are maintained.

(B) Permits authorizing the taking of Specially Protected Species may be issued only if—

(i) there is a compelling scientific purpose for such taking; and

(ii) the actions allowed under any such permit will not jeopardize any existing natural ecological system, or the survival, of such species.

(C) A permit authorizing the entry into an Antarctic Specially Protected Area shall be issued only—

(i) if the entry is consistent with an approved management plan, or

(ii) if a management plan relating to the area has not been approved but—

(I) there is a compelling purpose for such entry which cannot be served elsewhere, and

(II) the actions allowed under the permit will not jeopardize the natural ecological system existing in such area.

(e)³ Judicial review

Any applicant for a permit may obtain judicial review of the terms and conditions of any permit issued by the Director under this section or of the refusal of the Director to issue such a permit. Such review, which shall be pursuant to chapter 7 of title 5, may be initiated by filing a petition for review in the United States district court for the district wherein the applicant for a permit resides, or has his principal place of business, or in the United States District Court for the District of Columbia, within 60 days after the date on which such permit is issued or denied.

(f) Modification, suspension, and revocation

(1) The Director may modify, suspend, or revoke, in whole or part, any permit issued under this section—

(A) in order to make the permit consistent with any change made after the date of issuance of the permit, to any regulation prescribed under section 2405 of this title;

(B) if there is any change in conditions which makes the permit inconsistent with the purpose of this chapter; or

(C) in any case in which there has been any violation of any term or condition of the permit, any regulation prescribed under this chapter, or any provision of this chapter.

(2) Whenever the Director proposes any modification, suspension, or revocation of a permit under this subsection, the permittee shall be afforded opportunity, after due notice, for a hearing by the Director with respect to such proposed modification, suspension, or revocation. If a hearing is requested, the action proposed by the Director shall not take effect before a decision is issued by him after the hearing, unless the proposed action is taken by the Director to meet an emergency situation. Any action taken by the Director after such a hearing is subject to judicial review on the same basis as is provided for with respect to permit applications under subsection (e) of this section.

(3) Notice of the modification, suspension, or revocation of any permit by the Director shall be published in the Federal Register within 10 days from the date of the Director's decision.
