EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110-140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110-140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

STATE AUTHORITIES; CONSTRUCTION

Nothing in amendment by section 712 of Pub. L. 102-486 to be construed as affecting or intending to affect, or in any way to interfere with, authority of any State or local government relating to environmental protection or siting of facilities, see section 731 of Pub. L. 102-486, set out as a note under section 796 of this title.

REPORT TO PRESIDENT AND CONGRESS ON ENCOURAGEMENT OF INTEGRATED RESOURCE PLANNING AND INVESTMENTS IN CONSERVATION AND ENERGY EFFICIENCY BY ELECTRIC UTILITIES

Section 111(e) of Pub. L. 102-486 provided that: “Not later than 2 years after the date of the enactment of this Act [Oct. 24, 1992], the Secretary shall transmit a report to the President and to the Congress containing—

“(1) a survey of all State laws, regulations, practices, and policies under which State regulatory authorities implement the provisions of paragraphs (7), (8), and (9) of section 111(d) of the Public Utility Regulatory Policies Act of 1978 [16 U.S.C. 2621(d)(7)–(9)];

“(2) an evaluation by the Secretary of whether and to what extent, integrated resource planning is likely to result in—

“(A) higher or lower electricity costs to an electric utility’s ultimate consumers or to classes or groups of such consumers;

“(B) enhanced or reduced reliability of electric service; and

“(C) increased or decreased dependence on particular energy resources; and

“(3) a survey of practices and policies under which electric cooperatives prepare integrated resource plans, submit such plans to the Rural Electrification Administration and the extent to which such integrated resource planning is reflected in rates charged to customers.

The report shall include an analysis prepared in conjunction with the Federal Trade Commission, of the competitive impact of implementation of energy conservation, energy efficiency, and other demand side management programs by utilities on small businesses engaged in the design, sale, supply, installation, or servicing of similar energy conservation, energy efficiency, or other demand side management measures and whether any unfair, deceptive, or predatory acts exist, or are likely to exist, from implementation of such programs.”

[For provisions relating to further requirements as to subject matter contained in report under section 111(e) of Pub. L. 102-486, set out above, see section 115(e) of Pub. L. 102-486, set out as a note under section 3203 of Title 15, Commerce and Trade.]

STUDY CONCERNING ELECTRIC RATES OF STATE UTILITY AGENCIES

Section 601 of Pub. L. 95-617 directed the Secretary to conduct a study concerning the effects of provisions of Federal law on rates established by State utility agencies and to submit a report to Congress on the results of such study not later than 1 year after Nov. 9, 1978.

§ 2622. Obligations to consider and determine

(a) Request for consideration and determination

Each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility may undertake the consideration and make the determination referred to in section 2621 of this title with respect to any standard established by section 2621(d) of this title in any proceeding respecting the rates of the electric utility. Any participant or intervenor (including an intervenor referred to in section 2631 of this title) in such a proceeding may request, and shall obtain, such consideration and determination in such proceeding. In undertaking such consideration and making such determination in any such proceeding with respect to the application to any electric utility of any standard established by section 2621(d) of this title, a State regulatory authority (with respect to an electric utility for which it has ratemaking authority) or nonregulated electric utility may take into account in such proceeding—

(1) any appropriate prior determination with respect to such standard—

(A) which is made in a proceeding which takes place after November 9, 1978, or

(B) which was made before such date (or is made in a proceeding pending on such date) and complies, as provided in section 2634 of this title, with the requirements of this chapter; and

(2) the evidence upon which such prior determination was based (if such evidence is referenced in such proceeding).

(b) Time limitations

(1) Not later than 2 years after November 9, 1978 (or after October 24, 1992, in the case of standards under paragraphs (7), (8), and (9) of section 2621(d) of this title), each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 2621 of this title, or set a hearing date for such consideration, with respect to each standard established by section 2621(d) of this title.

(2) Not later than three years after November 9, 1978 (or after October 24, 1992, in the case of standards under paragraphs (7), (8), and (9) of section 2621(d) of this title), each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 2621 of this title with respect to each standard established by section 2621(d) of this title.

(3)(A) Not later than 2 years after August 8, 2005, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 2621 of this title, or set a hearing date for such consideration, with respect to each standard established by paragraphs (11) through (13) of section 2621(d) of this title.

(B) Not later than 3 years after August 8, 2005, each State regulatory authority (with respect to

each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 2621 of this title with respect to each standard established by paragraphs (11) through (13) of section 2621(d) of this title.

(4)(A) Not later than 1 year after August 8, 2005, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall commence the consideration referred to in section 2621 of this title, or set a hearing date for such consideration, with respect to the standard established by paragraph (14) of section 2621(d) of this title.

(B) Not later than 2 years after August 8, 2005, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 2621 of this title with respect to the standard established by paragraph (14) of section 2621(d) of this title.

(5)(A) Not later than 1 year after August 8, 2005, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated utility shall commence the consideration referred to in section 2621 of this title, or set a hearing date for consideration, with respect to the standard established by paragraph (15) of section 2621(d) of this title.

(B) Not later than two years after August 8, 2005, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 2621 of this title with respect to each standard established by paragraph (15) of section 2621(d) of this title.

(6)(A) Not later than 1 year after December 19, 2007, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated utility shall commence the consideration referred to in section 2621 of this title, or set a hearing date for consideration, with respect to the standards established by paragraphs (16) through (19) of section 2621(d) of this title.

(B) Not later than 2 years after December 19, 2007, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall complete the consideration, and shall make the determination, referred to in section 2621 of this title with respect to each standard established by paragraphs (16) through (19) of section 2621(d) of this title.

(c) Failure to comply

Each State regulatory authority (with respect to each electric utility for which it has ratemaking authority) and each nonregulated electric utility shall undertake the consideration, and make the determination, referred to in section 2621 of this title with respect to each standard established by section 2621(d) of this title in the first rate proceeding commenced after the

date three years after November 9, 1978, respecting the rates of such utility if such State regulatory authority or nonregulated electric utility has not, before such date, complied with subsection (b)(2) of this section with respect to such standard. In the case of each standard established by paragraphs (11) through (13) of section 2621(d) of this title, the reference contained in this subsection to November 9, 1978, shall be deemed to be a reference to August 8, 2005. In the case of the standard established by paragraph (14) of section 2621(d) of this title, the reference contained in this subsection to November 9, 1978, shall be deemed to be a reference to August 8, 2005. In the case of the standard established by paragraph (15),¹ the reference contained in this subsection to November 9, 1978, shall be deemed to be a reference to August 8, 2005. In the case of the standards established by paragraphs (16) through (19) of section 2621(d) of this title, the reference contained in this subsection to November 9, 1978, shall be deemed to be a reference to December 19, 2007.

(d) Prior State actions relating to standard under certain paragraphs of section 2621(d)

Subsections (b) and (c) of this section shall not apply to the standards established by paragraphs (11) through (13) and paragraphs (16) through (19) of section 2621(d) of this title in the case of any electric utility in a State if, before August 8, 2005—

(1) the State has implemented for such utility the standard concerned (or a comparable standard);

(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.

(e) Prior State actions relating to standard under section 2621(d)(14)

Subsections (b) and (c) of this section shall not apply to the standard established by paragraph (14) of section 2621(d) of this title in the case of any electric utility in a State if, before August 8, 2005—

(1) the State has implemented for such utility the standard concerned (or a comparable standard);

(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility within the previous 3 years; or

(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility within the previous 3 years.

(f) Prior State actions relating to standard under section 2621(d)(15)

Subsections (b) and (c) of this section shall not apply to the standard established by paragraph

¹ So in original. Probably should be "paragraph (15) of section 2621(d) of this title."

(15) of section 2621(d) of this title in the case of any electric utility in a State if, before August 8, 2005—

(1) the State has implemented for such utility the standard concerned (or a comparable standard);

(2) the State regulatory authority for such State or relevant nonregulated electric utility has conducted a proceeding to consider implementation of the standard concerned (or a comparable standard) for such utility; or

(3) the State legislature has voted on the implementation of such standard (or a comparable standard) for such utility.

EFFECTIVE DATE OF 2007 AMENDMENT

Amendment by Pub. L. 110-140 effective on the date that is 1 day after Dec. 19, 2007, see section 1601 of Pub. L. 110-140, set out as an Effective Date note under section 1824 of Title 2, The Congress.

§ 2623. Adoption of certain standards

(a) Adoption of standards

Not later than two years after November 9, 1978, each State regulatory authority (with respect to each electric utility for which it has ratemaking authority), and each nonregulated electric utility, shall provide public notice and conduct a hearing respecting the standards established by subsection (b) of this section and, on the basis of such hearing, shall—

(1) adopt the standards established by subsection (b) of this section (other than paragraph (4) thereof) if, and to the extent, such authority or nonregulated electric utility determines that such adoption is appropriate to carry out the purposes of this chapter, is otherwise appropriate, and is consistent with otherwise applicable State law, and

(2) adopt the standard established by subsection (b)(4) of this section if, and to the extent, such authority or nonregulated electric utility determines that such adoption is appropriate and consistent with otherwise applicable State law.

For purposes of any determination under paragraphs (1) or (2) and any review of such determination in any court in accordance with section 2633 of this title, the purposes of this chapter supplement otherwise applicable State law. Nothing in this subsection prohibits any State regulatory authority or nonregulated electric utility from making any determination that it is not appropriate to adopt any such standard, pursuant to its authority under otherwise applicable State law.

(b) Establishment

The following Federal standards are hereby established:

(1) Master metering

To the extent determined appropriate under section 2625(d) of this title, master metering of electric service in the case of new buildings shall be prohibited or restricted to the extent necessary to carry out the purposes of this chapter.

(2) Automatic adjustment clauses

No electric utility may increase any rate pursuant to an automatic adjustment clause unless such clause meets the requirements of section 2625(e) of this title.

(3) Information to consumers

Each electric utility shall transmit to each of its electric consumers information regard-
