

shall require the lessee to describe exploration activities in an exploration plan. He shall approve such plan if such activities can be conducted in conformity with such requirements as may be made by the Secretary for the protection and use of the land for the purpose for which it is managed under applicable law.

**(g) Development and production plan**

Subsequent to a discovery of oil or gas in paying quantities, and prior to developing and producing such oil and gas, the Secretary shall require the lessee to describe development and production activities in a development and production plan. He shall approve such plan if such activities may be conducted in conformity with such requirements as may be made by the Secretary for the protection and use of the land for the purpose for which it is managed under applicable law.

**(h) Revised development and production plan**

The Secretary shall monitor the performance of the lessee and, if he determines that due to significant changes in circumstances regarding that operation, including environmental or economic changes, new requirements are needed, he may require a revised development and production plan.

**(i) Suspension and cancellation of lease**

If the Secretary determines that immediate and irreparable damage will result from continuation in force of a lease, that the threat will not disappear and that the advantages of cancellation outweigh the advantages of continuation in force of a lease, he shall suspend operations for up to five years. If such a threat persists beyond such five-year suspension period, he shall cancel a lease and provide compensation to the lease under such terms as the Secretary establishes, by regulation, to be appropriate.

REFERENCES IN TEXT

The Mineral Leasing Act of 1920, as amended, referred to in subsecs. (a) and (d), is act Feb. 25, 1920, ch. 85, 41 Stat. 437, as amended, known as the Mineral Leasing Act, which is classified generally to chapter 3A (§181 et seq.) of Title 30, Mineral Lands and Mining. For complete classification of this Act to the Code, see Short Title note set out under section 181 of Title 30 and Tables.

CODIFICATION

Subsec. (b)(4) of this section, which required the Secretary to report yearly to Congress on efforts pursuant to Pub. L. 96-487 regarding the leasing of, and exploration and development activities on, certain lands, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, page 111 of House Document No. 103-7.

AMENDMENTS

1987—Subsec. (c). Pub. L. 100-203, §5105(1), struck out subsec. (c) which read as follows: “At such time as the studies requested in subsection (b)(4) of this section are completed by the Secretary, or at such time as the Secretary determines that sufficient interest has been indicated in exploring an area for oil or gas, and leasing should be commenced, he shall identify those areas

which he determines to be favorable for the discovery of oil or gas (hereinafter referred to as ‘favorable petroleum geological provinces’). In making such determination, the Secretary shall utilize all information obtained in studies conducted under subsection (b) of this section as well as any other information he may develop or require by regulation to be transmitted.”

Subsec. (d). Pub. L. 100-203, §5105(2), struck out at end “Areas which are determined by the Secretary to be within favorable petroleum geological provinces shall be leased only by competitive bidding.”

Subsec. (e). Pub. L. 100-203, §5105(1), struck out subsec. (e) which read as follows: “At such time as paying quantities of oil or gas are discovered under a non-competitive lease issued pursuant to the Mineral Leasing Act of 1920, the Secretary shall suspend all further noncompetitive leasing in the area and shall determine the favorable petroleum geological province in proximity to such discovery. All further leasing in such area shall be in accordance with the requirements of subsection (d) of this section.”

**§ 3149. Oil and gas lease applications**

**(a) Lands within National Wildlife Refuge System but not part of National Wilderness Preservation System**

Notwithstanding any other provision of law or regulation, whenever the Secretary receives an application for an oil and gas lease pursuant to the Mineral Leasing Act of 1920 [30 U.S.C. 181 et seq.] for lands in Alaska within a unit of the National Wildlife Refuge System which are not also part of the national Wilderness Preservation System he shall, in addition to any other requirements of applicable law, follow the procedures set forth in this section.

**(b) Statement of reasons for decision to issue or not to issue lease**

Any decision to issue or not to issue a lease shall be accompanied by a statement setting forth the reasons for the decision, including the reasons why oil and gas leasing would be compatible or incompatible with the purposes of the refuge.

**(c) Environmental impact statement**

If the Secretary determines that the requirements of section 4332(2)(C) of title 42 do not apply to his decision, the Secretary shall render his decision within six months after receipt of a lease application. If such requirements are applicable to the Secretary’s decision, he shall render his decision within three months after publication of the final environmental impact statement.

(Pub. L. 96-487, title X, §1009, Dec. 2, 1980, 94 Stat. 2456.)

**§ 3150. Alaska mineral resource assessment program**

**(a) Mineral assessments**

The Secretary shall, to the full extent of his authority, assess the oil, gas, and other mineral

potential on all public lands in the State of Alaska in order to expand the data base with respect to the mineral potential of such lands. The mineral assessment program may include, but shall not be limited to, techniques such as side-looking radar imagery and, on public lands other than such lands within the national park system, core and test drilling for geologic information, notwithstanding any restriction on such drilling under the Wilderness Act [16 U.S.C. 1131 et seq.]. For purposes of this Act, core and test drilling means the extraction by drilling of subsurface geologic samples in order to assess the metalliferous or other mineral values of geologic terrain, but shall not be construed as including exploratory drilling of oil and gas test wells. To the maximum extent practicable, the Secretary shall consult and exchange information with the State of Alaska regarding the responsibilities of the Secretary under this section and similar programs undertaken by the State. In order to carry out mineral assessments authorized under this or any other law, including but not limited to the National Uranium Resource Evaluation program, the Secretary shall allow for access by air for assessment activities permitted in this subsection to all public lands involved in such study. He shall consult with the Secretary of Energy and heads of other Federal agencies carrying out such programs, to determine such reasonable requirements as may be necessary to protect the resources of such area, including fish and wildlife. Such requirements may provide that access will not occur during nesting, calving, spawning or such other times as fish and wildlife in the specific area may be especially vulnerable to such activities. The Secretary is authorized to enter into contracts with public or private entities to carry out all or any portion of the mineral assessment program. This section shall not apply to the lands described in section 3141 of this title.

**(b) Regulations**

Activities carried out in conservation system units under subsection (a) of this section shall be subject to regulations promulgated by the Secretary. Such regulations shall ensure that such activities are carried out in an environmentally sound manner—

(1) which does not result in lasting environmental impacts which appreciably alter the natural character of the units or biological or ecological systems in the units; and

(2) which is compatible with the purposes for which such units are established.

**§ 3151. Omitted**

CODIFICATION

Section, Pub. L. 96-487, title X, §1011, Dec. 2, 1980, 94 Stat. 2457; Pub. L. 102-285, §10(b), May 18, 1992, 106 Stat. 172, which required the President to annually transmit to Congress all pertinent public information relating to minerals in Alaska gathered by the United States Geological Surveys, United States Bureau of Mines, and any other Federal agency, terminated, effective May 15, 2000, pursuant to section 3003 of Pub. L. 104-66, as amended, set out as a note under section 1113 of Title 31, Money and Finance. See, also, page 32 of House Document No. 103-7.

SUBCHAPTER IV—TRANSPORTATION AND UTILITY SYSTEMS IN AND ACROSS, AND ACCESS INTO, CONSERVATION SYSTEM UNITS

**§ 3161. Congressional declaration of findings**

Congress finds that—

(a) Alaska's transportation and utility network is largely undeveloped and the future needs for transportation and utility systems in Alaska would best be identified and provided for through an orderly, continuous decisionmaking process involving the State and Federal Governments and the public;

(b) the existing authorities to approve or disapprove applications for transportation and utility systems through public lands in Alaska are diverse, dissimilar, and, in some cases, absent; and

(c) to minimize the adverse impacts of siting transportation and utility systems within units established or expanded by this Act and to insure the effectiveness of the decisionmaking process, a single comprehensive statutory authority for the approval or disapproval of applications for such systems must be provided in this Act.

(Pub. L. 96-487, title XI, §1101, Dec. 2, 1980, 94 Stat. 2457.)

**§ 3162. Definitions**

For purposes of this subchapter—

(1) The term "applicable law" means any law of general applicability (other than this subchapter) under which any Federal department or agency has jurisdiction to grant any authorization (including but not limited to, any right-of-way, permit, license, lease, or certificate) without which a transportation or utility system cannot, in whole or in part, be established or operated.

(2) The term "applicant" means any public or private person, including, but not limited to, any Federal department or agency.

(3) The term "Federal agency" means any Federal department or agency that has any function or duty under applicable law.

(4)(A) The term "transportation or utility system" means any type of system described in
