

buildings, especially during the period 1946 through 1972;

(5) partial surveys in some States have indicated that (A) in a number of school buildings materials containing asbestos fibers have become damaged or friable, causing asbestos fibers to be dislodged into the air, and (B) asbestos concentration far exceeding normal ambient air levels have been found in school buildings containing such damaged materials;

(6) the presence in school buildings of friable or easily damaged asbestos creates an unwarranted hazard to the health of the school children and school employees who are exposed to such materials;

(7) the Department of Health and Human Services and the Environmental Protection Agency, as well as several States, have attempted to publicize the potential hazards to school children and employees from exposure to asbestos fibers, but there is no systematic program for remedying hazardous conditions in schools;

(8) because there is no Federal health standard regulating the concentration of asbestos fibers in noncommercial workplace environments such as schools, school employees and students may be exposed to hazardous concentrations of asbestos fibers in the school buildings which they use each day;

(9) without a program of information distribution, technical and scientific assistance, and financial support, many local educational agencies and States will not be able to mitigate the potential asbestos hazards in their schools; and

(10) the effective regulation of interstate commerce for the protection of the public health requires the establishment of programs under this subchapter to mitigate hazards from exposure to asbestos fibers and materials emitting such fibers.

(b) Purpose

It is the purpose of this subchapter to—

(1) direct the Administrator of the Environmental Protection Agency to establish a program to assist States and local educational agencies to ascertain the extent of the danger to the health of school children and employees from asbestos materials in schools;

(2) provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos hazards in schools;

(3) provide financial assistance for the abatement of asbestos threats to the health and safety of school children or employees; and

(4) assure that no employee of any local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.

(Pub. L. 98-377, title V, §502, Aug. 11, 1984, 98 Stat. 1287; Pub. L. 101-637, §14(a)(2), (b)(1), (2), Nov. 28, 1990, 104 Stat. 4594, 4595.)

AMENDMENTS

1990—Pub. L. 101-637, §14(a)(2), made technical amendment to section catchline.

Subsecs. (a), (b). Pub. L. 101-637, §14(b)(1), (2), inserted headings.

SHORT TITLE OF 1990 AMENDMENT

Section 1 of Pub. L. 101-637 provided that: “This Act [enacting section 2656 of Title 15, Commerce and Trade, amending this section, sections 4012 to 4022 of this title, and sections 2643, 2646, and 2647 of Title 15, enacting provisions set out as notes under this section and sections 2646 and 2656 of Title 15, and amending provisions set out as a note under this section] may be cited as the ‘Asbestos School Hazard Abatement Reauthorization Act of 1990’.”

SHORT TITLE

Section 501 of title V of Pub. L. 98-377, as amended by Pub. L. 101-637, §14(a)(1), Nov. 28, 1990, 104 Stat. 4594, provided that: “This title [enacting this subchapter] may be cited as the ‘Asbestos School Hazard Abatement Act of 1984’.”

FINDINGS AND PURPOSES

Section 2 of Pub. L. 101-637 provided that:

“(a) FINDINGS.—Congress finds the following:

“(1) The Environmental Protection Agency has estimated that more than forty-four thousand school buildings contain friable asbestos, exposing more than fifteen million school children and one million five hundred thousand school employees to unwarranted health hazards.

“(2) All elementary and secondary schools are required by the Asbestos Hazard Emergency Response Act [of 1986, see Short Title of 1986 Amendment note set out under section 2601 of Title 15, Commerce and Trade] to inspect for asbestos, develop an asbestos management plan, and implement such plan.

“(3) The Environmental Protection Agency has estimated it will cost local education agencies more than \$3,000,000,000 to comply with the Asbestos Hazard Emergency Response Act.

“(4) Without a continuing program of information assistance, technical and scientific assistance, training, and financial support, many local educational agencies will be unable to carry out sufficient response actions to prevent the release of asbestos fibers into the air.

“(5) Without the provisions of sufficient financial support, the cost to local educational agencies of implementing asbestos response actions may have an adverse impact in their educational mission.

“(6) The effective regulation of interstate commerce for the protection of human health and the environment requires the continuation of programs to mitigate hazards of asbestos fibers and materials emitting such fibers.

“(b) PURPOSES.—The purposes of this Act [see Short Title of 1990 Amendment note above] are the following:

“(1) To direct the Environmental Protection Agency to maintain a program to assist local schools in carrying out their responsibilities under the Asbestos Hazard Emergency Response Act.

“(2) To provide continuing scientific and technical assistance to State and local agencies to enable them to identify and abate asbestos health hazards.

“(3) To provide financial assistance to State and local agencies for training of persons involved with inspections and abatement of asbestos, for conducting necessary reinspections of school buildings, and for the actual abatement of asbestos threats to the health and safety of school children or employees.

“(4) To assure that no employee of a local educational agency suffers any disciplinary action as a result of calling attention to potential asbestos hazards which may exist in schools.”

§ 4012. Asbestos hazard abatement program

(a) Abatement program

There is hereby established a program within the Environmental Protection Agency to be known as the Asbestos Hazards Abatement Pro-

gram (hereinafter in this subchapter referred to as “Program”).

(b) Duties

The duties of the Administrator in implementing and effectuating the Program shall include—

(1) the compilation of medical, scientific, and technical information including, but not limited to—

(A) the health and safety hazards associated with asbestos materials;

(B) the means of identifying, sampling, and testing materials suspected of emitting asbestos fibers; and

(C) the means of abating the threat posed by asbestos and asbestos containing materials;

(2) the distribution of the information described in paragraph (1) (in any appropriate form such as pamphlets, reports, or instructions) to State and local educational agencies and to other institutions, including parent and employee organizations, for the purpose of carrying out activities described in this subchapter;

(3) not later than November 15 of each year for which this subchapter is authorized, the development and distribution of applications, or notifications to all local educational agencies of the availability of application forms including information for obtaining such forms; and

(4) the review of applications for financial assistance, and the approval or disapproval of such applications, in accordance with the provisions of section 4014 of this title.

(Pub. L. 98-377, title V, §503, Aug. 11, 1984, 98 Stat. 1288; Pub. L. 101-637, §§ 4, 14(a)(3), (b)(3), (4), Nov. 28, 1990, 104 Stat. 4590, 4594, 4595.)

AMENDMENTS

1990—Pub. L. 101-637, §14(a)(3), made technical amendment to section catchline.

Subsec. (a). Pub. L. 101-637, §14(b)(3), inserted heading and struck out par. (1) designation before “There is hereby established”.

Subsec. (b). Pub. L. 101-637, §14(b)(4), inserted heading.

Subsec. (b)(2). Pub. L. 101-637, §4(1), (2), substituted “educational agencies” for “agencies” and “institutions, including parent and employee organizations,” for “institutions”.

Subsec. (b)(3). Pub. L. 101-637, §4(3), amended par. (3) generally. Prior to amendment, par. (3) read as follows: “the development within forty-five days of August 11, 1984, of an interim or final application form, which shall be distributed promptly to local educational agencies; and”.

§ 4013. State records and priority lists

(a) Records

The Governor of each State shall maintain records on—

(1) the presence of asbestos materials in school buildings of local educational agencies;

(2) the asbestos detection and abatement activities and other response actions conducted by local educational agencies (including activities relating to the replacement of the asbestos materials removed from school buildings with other appropriate building materials); and

(3) repairs made to restore school buildings to conditions comparable to those which existed before the abatement activities referred to in paragraph (2) were undertaken.

(b) Priority list

(1) Each year, in accordance with procedures established by the Administrator, the Governor of each State shall:

(A) submit to the Administrator a priority list of all schools under the authority of a local educational agency within the State, without regard to the public or private nature of the school involved, that are candidates for abatement activities and other response actions; and

(B) forward to the Administrator for each candidate for abatement activities and other response actions all applications for financial assistance prepared by the local educational agencies in accordance with the provisions of section 4014 of this title; and¹

(2) The priority list shall rank the potential candidates for abatement action based on the nature and magnitude of the existing and potential exposure presented by the asbestos materials.

(3) For each school listed, the Governor shall certify that the statement of need contained in the application for assistance accurately reflects the financial resources available to the local educational agency for the asbestos abatement program.

(4) For the purpose of determining the adequacy of the financial resources available to a local educational agency for the abatement of asbestos threats the Governor shall, to the extent practicable, consider the following:

(A) A measure of financial need used by the State in which the local educational agency is located.

(B) The estimated per capita income of the locality of such agency or of those directly or indirectly providing financial support for such agency.

(C) The extent to which the local school millage rate falls above or below (i) the millage rate average of the State and (ii) the millage rate of other local educational agencies with comparable enrollment, per capita income, and resource base.

(D) The ratio, expressed as a percentage, of the estimated cost of the project to the total budget of the local educational agency.

(E) The borrowing capacity of the local educational agency.

(F) Any additional costs to the local educational agency of meeting the special needs of disadvantaged students.

(G) Any other factor that demonstrates that the local educational agency has limited financial resources.

(Pub. L. 98-377, title V, §504, Aug. 11, 1984, 98 Stat. 1289; Pub. L. 101-637, §§ 5, 14(a)(4), (b)(5), (6), Nov. 28, 1990, 104 Stat. 4590, 4594, 4595.)

AMENDMENTS

1990—Pub. L. 101-637, §14(a)(4), substituted “State records and priority lists” for “State plans” in section catchline.

¹So in original. Probably should end with a period instead of “; and”.
