

1998—Pub. L. 105-277 made technical amendment to directory language of Pub. L. 105-220, §405, which enacted this section.

Subsec. (a)(1). Pub. L. 105-394, §201(1), inserted “including programs relating to assistive technology research and research that incorporates the principles of universal design,” after “programs.”

Subsec. (b). Pub. L. 105-394, §201(2), designated existing provisions as par. (1), substituted “targeted individuals” for “individuals with disabilities and the individuals’ representatives”, inserted “(including assistive technology research and research that incorporates the principles of universal design)” after “research”, and added par. (2).

Subsec. (c). Pub. L. 105-394, §201(3), added subsec. (c) and struck out former subsec. (c) which read as follows: “The Committee shall annually submit to the President and to the appropriate committees of the Congress a report making such recommendations as the Committee deems appropriate with respect to coordination of policy and development of objectives and priorities for all Federal programs relating to the conduct of research related to rehabilitation of individuals with disabilities.”

Subsecs. (d), (e). Pub. L. 105-394, §201(4), added subsecs. (d) and (e).

CHANGE OF NAME

Committee on Labor and Human Resources of Senate changed to Committee on Health, Education, Labor, and Pensions of Senate by Senate Resolution No. 20, One Hundred Sixth Congress, Jan. 19, 1999.

§ 764. Research and other covered activities

(a) Federal grants and contracts for certain research projects and related activities

(1) To the extent consistent with priorities established in the 5-year plan described in section 762(h) of this title, the Director may make grants to and contracts with States and public or private agencies and organizations, including institutions of higher education, Indian tribes, and tribal organizations, to pay part of the cost of projects for the purpose of planning and conducting research, demonstration projects, training, and related activities, the purposes of which are to develop methods, procedures, and rehabilitation technology, that maximize the full inclusion and integration into society, employment, independent living, family support, and economic and social self-sufficiency of individuals with disabilities, especially individuals with the most significant disabilities, and improve the effectiveness of services authorized under this chapter.

(2)(A) In carrying out this section, the Director shall emphasize projects that support the implementation of subchapters I, III, V, VI, and VII of this chapter, including projects addressing the needs described in the State plans submitted under section 721 or 796c of this title by State agencies.

(B) Such projects, as described in the State plans submitted by State agencies, may include—

(i) medical and other scientific, technical, methodological, and other investigations into the nature of disability, methods of analyzing it, and restorative techniques, including basic research where related to rehabilitation techniques or services;

(ii) studies and analysis of industrial, vocational, social, recreational, psychiatric, psychological, economic, and other factors affect-

ing rehabilitation of individuals with disabilities;

(iii) studies and analysis of special problems of individuals who are homebound and individuals who are institutionalized;

(iv) studies, analyses, and demonstrations of architectural and engineering design adapted to meet the special needs of individuals with disabilities;

(v) studies, analyses, and other activities related to supported employment;

(vi) related activities which hold promise of increasing knowledge and improving methods in the rehabilitation of individuals with disabilities and individuals with the most significant disabilities, particularly individuals with disabilities, and individuals with the most significant disabilities, who are members of populations that are unserved or underserved by programs under this chapter; and

(vii) studies, analyses, and other activities related to job accommodations, including the use of rehabilitation engineering and assistive technology.

(b) Research grants

(1) In addition to carrying out projects under subsection (a) of this section, the Director may make grants under this subsection (referred to in this subsection as “research grants”) to pay part or all of the cost of the research or other specialized covered activities described in paragraphs (2) through (18). A research grant made under any of paragraphs (2) through (18) may only be used in a manner consistent with priorities established in the 5-year plan described in section 762(h) of this title.

(2)(A) Research grants may be used for the establishment and support of Rehabilitation Research and Training Centers, for the purpose of providing an integrated program of research, which Centers shall—

(i) be operated in collaboration with institutions of higher education or providers of rehabilitation services or other appropriate services; and

(ii) serve as centers of national excellence and national or regional resources for providers and individuals with disabilities and the individuals’ representatives.

(B) The Centers shall conduct research and training activities by—

(i) conducting coordinated and advanced programs of research in rehabilitation targeted toward the production of new knowledge that will improve rehabilitation methodology and service delivery systems, alleviate or stabilize disabling conditions, and promote maximum social and economic independence of individuals with disabilities, especially promoting the ability of the individuals to prepare for, secure, retain, regain, or advance in employment;

(ii) providing training (including graduate, pre-service, and in-service training) to assist individuals to more effectively provide rehabilitation services;

(iii) providing training (including graduate, pre-service, and in-service training) for rehabilitation research personnel and other rehabilitation personnel; and

(iv) serving as an informational and technical assistance resource to providers, individuals with disabilities, and the individuals' representatives, through conferences, workshops, public education programs, in-service training programs, and similar activities.

(C) The research to be carried out at each such Center may include—

(i) basic or applied medical rehabilitation research;

(ii) research regarding the psychological and social aspects of rehabilitation, including disability policy;

(iii) research related to vocational rehabilitation;

(iv) continuation of research that promotes the emotional, social, educational, and functional growth of children who are individuals with disabilities;

(v) continuation of research to develop and evaluate interventions, policies, and services that support families of those children and adults who are individuals with disabilities; and

(vi) continuation of research that will improve services and policies that foster the productivity, independence, and social integration of individuals with disabilities, and enable individuals with disabilities, including individuals with intellectual disabilities and other developmental disabilities, to live in their communities.

(D) Training of students preparing to be rehabilitation personnel shall be an important priority for such a Center.

(E) The Director shall make grants under this paragraph to establish and support both comprehensive centers dealing with multiple disabilities and centers primarily focused on particular disabilities.

(F) Grants made under this paragraph may be used to provide funds for services rendered by such a Center to individuals with disabilities in connection with the research and training activities.

(G) Grants made under this paragraph may be used to provide faculty support for teaching—

(i) rehabilitation-related courses of study for credit; and

(ii) other courses offered by the Centers, either directly or through another entity.

(H) The research and training activities conducted by such a Center shall be conducted in a manner that is accessible to and usable by individuals with disabilities.

(I) The Director shall encourage the Centers to develop practical applications for the findings of the research of the Centers.

(J) In awarding grants under this paragraph, the Director shall take into consideration the location of any proposed Center and the appropriate geographic and regional allocation of such Centers.

(K) To be eligible to receive a grant under this paragraph, each such institution or provider described in subparagraph (A) shall—

(i) be of sufficient size, scope, and quality to effectively carry out the activities in an efficient manner consistent with appropriate Federal and State law; and

(ii) demonstrate the ability to carry out the training activities either directly or through another entity that can provide such training.

(L) The Director shall make grants under this paragraph for periods of 5 years, except that the Director may make a grant for a period of less than 5 years if—

(i) the grant is made to a new recipient; or

(ii) the grant supports new or innovative research.

(M) Grants made under this paragraph shall be made on a competitive basis. To be eligible to receive a grant under this paragraph, a prospective grant recipient shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require.

(N) In conducting scientific peer review under section 762(f) of this title of an application for the renewal of a grant made under this paragraph, the peer review panel shall take into account the past performance of the applicant in carrying out the grant and input from individuals with disabilities and the individuals' representatives.

(O) An institution or provider that receives a grant under this paragraph to establish such a Center may not collect more than 15 percent of the amount of the grant received by the Center in indirect cost charges.

(3)(A) Research grants may be used for the establishment and support of Rehabilitation Engineering Research Centers, operated by or in collaboration with institutions of higher education or nonprofit organizations, to conduct research or demonstration activities, and training activities, regarding rehabilitation technology, including rehabilitation engineering, assistive technology devices, and assistive technology services, for the purposes of enhancing opportunities for better meeting the needs of, and addressing the barriers confronted by, individuals with disabilities in all aspects of their lives.

(B) In order to carry out the purposes set forth in subparagraph (A), such a Center shall carry out the research or demonstration activities by—

(i) developing and disseminating innovative methods of applying advanced technology, scientific achievement, and psychological and social knowledge to—

(I) solve rehabilitation problems and remove environmental barriers through planning and conducting research, including cooperative research with public or private agencies and organizations, designed to produce new scientific knowledge, and new or improved methods, equipment, and devices; and

(II) study new or emerging technologies, products, or environments, and the effectiveness and benefits of such technologies, products, or environments;

(ii) demonstrating and disseminating—

(I) innovative models for the delivery, to rural and urban areas, of cost-effective rehabilitation technology services that promote utilization of assistive technology devices; and

(II) other scientific research to assist in meeting the employment and independent

living needs of individuals with significant disabilities; or

(iii) conducting research or demonstration activities that facilitate service delivery systems change by demonstrating, evaluating, documenting, and disseminating—

(I) consumer responsive and individual and family-centered innovative models for the delivery to both rural and urban areas, of innovative cost-effective rehabilitation technology services that promote utilization of rehabilitation technology; and

(II) other scientific research to assist in meeting the employment and independent living needs of, and addressing the barriers confronted by, individuals with disabilities, including individuals with significant disabilities.

(C) To the extent consistent with the nature and type of research or demonstration activities described in subparagraph (B), each Center established or supported through a grant made available under this paragraph shall—

(i) cooperate with programs established under the Assistive Technology Act of 1998 [29 U.S.C. 3001 et seq.] and other regional and local programs to provide information to individuals with disabilities and the individuals' representatives to—

(I) increase awareness and understanding of how rehabilitation technology can address their needs; and

(II) increase awareness and understanding of the range of options, programs, services, and resources available, including financing options for the technology and services covered by the area of focus of the Center;

(ii) provide training opportunities to individuals, including individuals with disabilities, to become researchers of rehabilitation technology and practitioners of rehabilitation technology in conjunction with institutions of higher education and nonprofit organizations; and

(iii) respond, through research or demonstration activities, to the needs of individuals with all types of disabilities who may benefit from the application of technology within the area of focus of the Center.

(D)(i) In establishing Centers to conduct the research or demonstration activities described in subparagraph (B)(iii), the Director may establish one Center in each of the following areas of focus:

(I) Early childhood services, including early intervention and family support.

(II) Education at the elementary and secondary levels, including transition from school to postschool activities.

(III) Employment, including supported employment, and reasonable accommodations and the reduction of environmental barriers as required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and subchapter V of this chapter.

(IV) Independent living, including transition from institutional to community living, maintenance of community living on leaving the workforce, self-help skills, and activities of daily living.

(ii) Each Center conducting the research or demonstration activities described in subparagraph (B)(iii) shall have an advisory committee, of which the majority of members are individuals with disabilities who are users of rehabilitation technology, and the individuals' representatives.

(E) Grants made under this paragraph shall be made on a competitive basis and shall be for a period of 5 years, except that the Director may make a grant for a period of less than 5 years if—

(i) the grant is made to a new recipient; or

(ii) the grant supports new or innovative research.

(F) To be eligible to receive a grant under this paragraph, a prospective grant recipient shall submit an application to the Director at such time, in such manner, and containing such information as the Director may require.

(G) Each Center established or supported through a grant made available under this paragraph shall—

(i) cooperate with State agencies and other local, State, regional, and national programs and organizations developing or delivering rehabilitation technology, including State programs funded under the Assistive Technology Act of 1998 [29 U.S.C. 3001 et seq.]; and

(ii) prepare and submit to the Director as part of an application for continuation of a grant, or as a final report, a report that documents the outcomes of the program of the Center in terms of both short- and long-term impact on the lives of individuals with disabilities, and such other information as may be requested by the Director.

(4)(A) Research grants may be used to conduct a program for spinal cord injury research, including conducting such a program by making grants to public or private agencies and organizations to pay part or all of the costs of special projects and demonstration projects for spinal cord injuries, that will—

(i) ensure widespread dissemination of research findings among all Spinal Cord Injury Centers, to rehabilitation practitioners, individuals with spinal cord injury, the individuals' representatives, and organizations receiving financial assistance under this paragraph;

(ii) provide encouragement and support for initiatives and new approaches by individual and institutional investigators; and

(iii) establish and maintain close working relationships with other governmental and voluntary institutions and organizations engaged in similar efforts in order to unify and coordinate scientific efforts, encourage joint planning, and promote the interchange of data and reports among spinal cord injury investigations.

(B) Any agency or organization carrying out a project or demonstration project assisted by a grant under this paragraph that provides services to individuals with spinal cord injuries shall—

(i) establish, on an appropriate regional basis, a multidisciplinary system of providing vocational and other rehabilitation services,

specifically designed to meet the special needs of individuals with spinal cord injuries, including acute care as well as periodic inpatient or outpatient followup and services;

(ii) demonstrate and evaluate the benefits to individuals with spinal cord injuries served in, and the degree of cost-effectiveness of, such a regional system;

(iii) demonstrate and evaluate existing, new, and improved methods and rehabilitation technology essential to the care, management, and rehabilitation of individuals with spinal cord injuries; and

(iv) demonstrate and evaluate methods of community outreach for individuals with spinal cord injuries and community education in connection with the problems of such individuals in areas such as housing, transportation, recreation, employment, and community activities.

(C) In awarding grants under this paragraph, the Director shall take into account the location of any proposed Spinal Cord Injury Center and the appropriate geographic and regional allocation of such Centers.

(5) Research grants may be used to conduct a program for end-stage renal disease research, to include support of projects and demonstrations for providing special services (including transplantation and dialysis), artificial kidneys, and supplies necessary for the rehabilitation of individuals with such disease and which will—

(A) ensure dissemination of research findings;

(B) provide encouragement and support for initiatives and new approaches by individuals and institutional investigators; and

(C) establish and maintain close working relationships with other governmental and voluntary institutions and organizations engaged in similar efforts,

in order to unify and coordinate scientific efforts, encourage joint planning, and promote the interchange of data and reports among investigators in the field of end-stage renal disease. No person shall be selected to participate in such program who is eligible for services for such disease under any other provision of law.

(6) Research grants may be used to conduct a program for international rehabilitation research, demonstration, and training for the purpose of developing new knowledge and methods in the rehabilitation of individuals with disabilities in the United States, cooperating with and assisting in developing and sharing information found useful in other nations in the rehabilitation of individuals with disabilities, and initiating a program to exchange experts and technical assistance in the field of rehabilitation of individuals with disabilities with other nations as a means of increasing the levels of skill of rehabilitation personnel.

(7) Research grants may be used to conduct a research program concerning the use of existing telecommunications systems (including telephone, television, satellite, radio, and other similar systems) which have the potential for substantially improving service delivery methods, and the development of appropriate programming to meet the particular needs of individuals with disabilities.

(8) Research grants may be used to conduct a program of joint projects with the National Institutes of Health, the National Institute of Mental Health, the Health Services Administration, the Administration on Aging, the National Science Foundation, the Veterans' Administration, the Department of Health and Human Services, the National Aeronautics and Space Administration, other Federal agencies, and private industry in areas of joint interest involving rehabilitation.

(9) Research grants may be used to conduct a program of research related to the rehabilitation of children, or older individuals, who are individuals with disabilities, including older American Indians who are individuals with disabilities. Such research program may include projects designed to assist the adjustment of, or maintain as residents in the community, older workers who are individuals with disabilities on leaving the workforce.

(10) Research grants may be used to conduct a research program to develop and demonstrate innovative methods to attract and retain professionals to serve in rural areas in the rehabilitation of individuals with disabilities, including individuals with significant disabilities.

(11) Research grants may be used to conduct a model research and demonstration project designed to assess the feasibility of establishing a center for producing and distributing to individuals who are deaf or hard of hearing captioned video cassettes providing a broad range of educational, cultural, scientific, and vocational programming.

(12) Research grants may be used to conduct a model research and demonstration program to develop innovative methods of providing services for preschool age children who are individuals with disabilities, including—

(A) early intervention, assessment, parent counseling, infant stimulation, early identification, diagnosis, and evaluation of children who are individuals with significant disabilities up to the age of five, with a special emphasis on children who are individuals with significant disabilities up to the age of three;

(B) such physical therapy, language development, pediatric, nursing, psychological, and psychiatric services as are necessary for such children; and

(C) appropriate services for the parents of such children, including psychological and psychiatric services, parent counseling, and training.

(13) Research grants may be used to conduct a model research and training program under which model training centers shall be established to develop and use more advanced and effective methods of evaluating and addressing the employment needs of individuals with disabilities, including programs that—

(A) provide training and continuing education for personnel involved with the employment of individuals with disabilities;

(B) develop model procedures for testing and evaluating the employment needs of individuals with disabilities;

(C) develop model training programs to teach individuals with disabilities skills which will lead to appropriate employment;

(D) develop new approaches for job placement of individuals with disabilities, including new followup procedures relating to such placement;

(E) provide information services regarding education, training, employment, and job placement for individuals with disabilities; and

(F) develop new approaches and provide information regarding job accommodations, including the use of rehabilitation engineering and assistive technology.

(14) Research grants may be used to conduct a rehabilitation research program under which financial assistance is provided in order to—

(A) test new concepts and innovative ideas;

(B) demonstrate research results of high potential benefits;

(C) purchase prototype aids and devices for evaluation;

(D) develop unique rehabilitation training curricula; and

(E) be responsive to special initiatives of the Director.

No single grant under this paragraph may exceed \$50,000 in any fiscal year and all payments made under this paragraph in any fiscal year may not exceed 5 percent of the amount available for this section to the National Institute on Disability and Rehabilitation Research in any fiscal year. Regulations and administrative procedures with respect to financial assistance under this paragraph shall, to the maximum extent possible, be expedited.

(15) Research grants may be used to conduct studies of the rehabilitation needs of American Indian populations and of effective mechanisms for the delivery of rehabilitation services to Indians residing on and off reservations.

(16) Research grants may be used to conduct a demonstration program under which one or more projects national in scope shall be established to develop procedures to provide incentives for the development, manufacturing, and marketing of orphan technological devices, including technology transfer concerning such devices, designed to enable individuals with disabilities to achieve independence and access to gainful employment.

(17)(A) Research grants may be used to conduct a research program related to quality assurance in the area of rehabilitation technology.

(B) Activities carried out under the research program may include—

(i) the development of methodologies to evaluate rehabilitation technology products and services and the dissemination of the methodologies to consumers and other interested parties;

(ii) identification of models for service provider training and evaluation and certification of the effectiveness of the models;

(iii) identification and dissemination of outcome measurement models for the assessment of rehabilitation technology products and services; and

(iv) development and testing of research-based tools to enhance consumer decision-making about rehabilitation technology products and services.

(18) Research grants may be used to provide for research and demonstration projects and related activities that explore the use and effectiveness of specific alternative or complementary medical practices for individuals with disabilities. Such projects and activities may include projects and activities designed to—

(A) determine the use of specific alternative or complementary medical practices among individuals with disabilities and the perceived effectiveness of the practices;

(B) determine the specific information sources, decisionmaking methods, and methods of payment used by individuals with disabilities who access alternative or complementary medical services;

(C) develop criteria to screen and assess the validity of research studies of such practices for individuals with disabilities; and

(D) determine the effectiveness of specific alternative or complementary medical practices that show promise for promoting increased functioning, prevention of secondary disabilities, or other positive outcomes for individuals with certain types of disabilities, by conducting controlled research studies.

(c) Site visits; grant limitations

(1) In carrying out evaluations of covered activities under this section, the Director is authorized to make arrangements for site visits to obtain information on the accomplishments of the projects.

(2) The Director shall not make a grant under this section that exceeds \$500,000 unless the peer review of the grant application has included a site visit.

REFERENCES IN TEXT

The Assistive Technology Act of 1998, referred to in subsec. (b)(3)(C)(i), (G)(i), is Pub. L. 105-394, Nov. 13, 1998, 112 Stat. 3627, which is classified principally to chapter 31 (§3001 et seq.) of this title. For complete classification of this Act to the Code, see Short Title note set out under section 3001 of this title and Tables.

The Americans with Disabilities Act of 1990, referred to in subsec. (b)(3)(D)(i)(III), is Pub. L. 101-336, July 26, 1990, 104 Stat. 327, as amended, which is classified principally to chapter 126 (§12101 et seq.) of Title 42, The Public Health and Welfare. For complete classification of this Act to the Code, see Short Title note set out under section 12101 of Title 42 and Tables.

PRIOR PROVISIONS

Provisions similar to this section were contained in section 762 of this title prior to the general amendment of this subchapter by Pub. L. 105-220.

A prior section 764, Pub. L. 93-112, title II, §204, Sept. 26, 1973, 87 Stat. 376, provided that a full report on research and training activities be included in annual report to Congress, prior to repeal by Pub. L. 95-602, title I, §109(3), Nov. 6, 1978, 92 Stat. 2963.

AMENDMENTS

2010—Subsec. (b)(2)(C)(vi). Pub. L. 111-256 substituted “intellectual disabilities and other developmental dis-

abilities” for “mental retardation and other developmental disabilities”.

1998—Pub. L. 105-277 made technical amendment to directory language of Pub. L. 105-220, §405, which enacted this section.

Subsec. (b)(3)(C)(i), (G)(i). Pub. L. 105-394 substituted “the Assistive Technology Act of 1998” for “the Technology-Related Assistance for Individuals With Disabilities Act of 1988 (29 U.S.C. 2201 et seq.)”.

DEFINITIONS

For meaning of references to an intellectual disability and to individuals with intellectual disabilities in provisions amended by section 2 of Pub. L. 111-256, see section 2(k) of Pub. L. 111-256, set out as a note under section 1400 of Title 20, Education.

§ 765. Rehabilitation Research Advisory Council

(a) Establishment

Subject to the availability of appropriations, the Secretary shall establish in the Department of Education a Rehabilitation Research Advisory Council (referred to in this section as the “Council”) composed of 12 members appointed by the Secretary.

(b) Duties

The Council shall advise the Director with respect to research priorities and the development and revision of the 5-year plan required by section 762(h) of this title.

(c) Qualifications

Members of the Council shall be generally representative of the community of rehabilitation professionals, the community of rehabilitation researchers, the community of individuals with disabilities, and the individuals’ representatives. At least one-half of the members shall be individuals with disabilities or the individuals’ representatives.

(d) Terms of appointment

(1) Length of term

Each member of the Council shall serve for a term of up to 3 years, determined by the Secretary, except that—

(A) a member appointed to fill a vacancy occurring prior to the expiration of the term for which a predecessor was appointed, shall be appointed for the remainder of such term; and

(B) the terms of service of the members initially appointed shall be (as specified by the Secretary) for such fewer number of years as will provide for the expiration of terms on a staggered basis.

(2) Number of terms

No member of the Council may serve more than two consecutive full terms. Members may serve after the expiration of their terms until their successors have taken office.

(e) Vacancies

Any vacancy occurring in the membership of the Council shall be filled in the same manner as the original appointment for the position being vacated. The vacancy shall not affect the power of the remaining members to execute the duties of the Council.

(f) Payment and expenses

(1) Payment

Each member of the Council who is not an officer or full-time employee of the Federal

Government shall receive a payment of \$150 for each day (including travel time) during which the member is engaged in the performance of duties for the Council. All members of the Council who are officers or full-time employees of the United States shall serve without compensation in addition to compensation received for their services as officers or employees of the United States.

(2) Travel expenses

Each member of the Council may receive travel expenses, including per diem in lieu of subsistence, as authorized by section 5703 of title 5 for employees serving intermittently in the Government service, for each day the member is engaged in the performance of duties away from the home or regular place of business of the member.

(g) Detail of Federal employees

On the request of the Council, the Secretary may detail, with or without reimbursement, any of the personnel of the Department of Education to the Council to assist the Council in carrying out its duties. Any detail shall not interrupt or otherwise affect the civil service status or privileges of the Federal employee.

(h) Technical assistance

On the request of the Council, the Secretary shall provide such technical assistance to the Council as the Council determines to be necessary to carry out its duties.

(i) Termination

Section 14 of the Federal Advisory Committee Act (5 U.S.C. App.) shall not apply with respect to the Council.

(Pub. L. 93-112, title II, §205, as added Pub. L. 105-220, title IV, §405, Aug. 7, 1998, 112 Stat. 1182; amended Pub. L. 105-277, div. A, §101(f) [title VIII, §§401(16), 402(b)(11)], Oct. 21, 1998, 112 Stat. 2681-337, 2681-412, 2681-414.)

REFERENCES IN TEXT

Section 14 of the Federal Advisory Committee Act, referred to in subsec. (i), is section 14 of Pub. L. 92-463, which is set out in the Appendix to Title 5, Government Organization and Employees.

PRIOR PROVISIONS

A prior section 765, Pub. L. 93-112, title II, §205, as added Pub. L. 102-569, title II, §206(a), Oct. 29, 1992, 106 Stat. 4409, related to the Rehabilitation Research Advisory Council, prior to the general amendment of this subchapter by Pub. L. 105-220.

A prior section 770, Pub. L. 93-112, title III, §301, formerly §300, Sept. 26, 1973, 87 Stat. 377; Pub. L. 95-602, title I, §122(c)(1), Nov. 6, 1978, 92 Stat. 2987; Pub. L. 99-506, title I, §103(d)(2)(C), Oct. 21, 1986, 100 Stat. 1810; Pub. L. 100-630, title II, §204(a), Nov. 7, 1988, 102 Stat. 3308; renumbered §301 and amended Pub. L. 102-569, title I, §102(p)(15), title III, §301(a), (b)(3), Oct. 29, 1992, 106 Stat. 4358, 4410, 4411, contained congressional declaration of purpose, prior to the general amendment of subchapter III of this chapter by Pub. L. 105-220.

AMENDMENTS

1998—Pub. L. 105-277, §101(f) [title VIII, §402(b)(11)], made technical amendment to section designation and catchline in original.

Pub. L. 105-277, §101(f) [title VIII, §401(16)], made technical amendment to directory language of Pub. L. 105-220, §405, which enacted this section.
