

REFERENCES IN TEXT

This Act, referred to in text, is Pub. L. 103-3, Feb. 5, 1993, 107 Stat. 6, known as the Family and Medical Leave Act of 1993, which enacted this chapter, sections 60m and 60n of Title 2, The Congress, and sections 6381 to 6387 of Title 5, Government Organization and Employees, amended section 2105 of Title 5, and enacted provisions set out as notes under section 2601 of this title. For complete classification of this Act to the Code, see Short Title note set out under section 2601 of this title and Tables.

§ 2654. Regulations

The Secretary of Labor shall prescribe such regulations as are necessary to carry out subchapter I of this chapter and this subchapter not later than 120 days after February 5, 1993.

(Pub. L. 103-3, title IV, §404, Feb. 5, 1993, 107 Stat. 26.)

CHAPTER 29—WORKERS TECHNOLOGY SKILL DEVELOPMENT

Sec.	
2701.	Findings.
2702.	Purposes.
2703.	Definitions.
2704.	Grants.
2705.	Identification and dissemination of best practices.
2706.	Authorization of appropriations.

§ 2701. Findings

The Congress finds and declares the following:

(1) In an increasingly competitive world economy, the companies and nations that lead in the rapid development, commercialization, and application of new and advanced technologies, and in the high-quality, competitively priced production of goods and services, will lead in economic growth, employment, and high living standards.

(2) While the United States remains the world leader in science and invention, it has not done well in rapidly making the transition from achievement in its research laboratories to high-quality, competitively priced production of goods and services. This lag and the unprecedented competitive challenge that the United States has faced from abroad have contributed to a drop in real wages and living standards.

(3) Companies that are successfully competitive in the rapid development, commercialization, application, and implementation of advanced technologies, and in the successful delivery of goods and services, recognize that worker participation and labor-management cooperation in the deployment, application, and implementation of advanced workplace technologies make an important contribution to high-quality, competitively priced production of goods and services and in maintaining and improving real wages for workers.

(4) The Federal Government has an important role in encouraging and augmenting private sector efforts relating to the development, application, manufacture, and deployment of new and advanced technologies. The role should be to—

(A) work with private companies, States, worker organizations, nonprofit organiza-

tions, and institutions of higher education to ensure the development, application, production, and implementation of new and advanced technologies to promote the improvement of workers' skills, wages, job security, and working conditions, and a healthy environment;

(B) encourage worker and worker organization participation in the development, commercialization, evaluation, selection, application, and implementation of new and advanced technologies in the workplace; and

(C) promote the use and integration of new and advanced technologies in the workplace that enhance workers' skills.

(5) In working with the private sector to promote the technological leadership and economic growth of the United States, the Federal Government has a responsibility to ensure that Federal technology programs help the United States to remain competitive and to maintain and improve living standards and to create and retain secure jobs in economically stable communities.

(Pub. L. 103-382, title V, §542, Oct. 20, 1994, 108 Stat. 4051.)

SHORT TITLE

Section 541 of Pub. L. 103-382 provided that: "This part [part D (§§541-547) of title V of Pub. L. 103-382, enacting this chapter] may be cited as the 'Workers Technology Skill Development Act'."

STUDY AND REPORT ON THE "DIGITAL DIVIDE"

Pub. L. 106-313, title I, §115, Oct. 17, 2000, 114 Stat. 1262, provided that:

"(a) STUDY.—The Secretary of Commerce shall conduct a review of existing public and private high-tech workforce training programs in the United States.

"(b) REPORT.—Not later than 18 months after the date of enactment of this Act [Oct. 17, 2000], the Secretary of Commerce shall submit a report to Congress setting forth the findings of the study conducted under subsection (a)."

REPORT ON OLDER WORKERS IN INFORMATION TECHNOLOGY FIELD

Pub. L. 105-277, div. C, title IV, §417, Oct. 21, 1998, 112 Stat. 2681-656, provided that:

"(a) STUDY.—The Director of the National Science Foundation shall enter into a contract with the President of the National Academy of Sciences to conduct a study, using the best available data, assessing the status of older workers in the information technology field. The study shall consider the following:

"(1) The existence and extent of age discrimination in the information technology workplace.

"(2) The extent to which there is a difference, based on age, in—

"(A) promotion and advancement;

"(B) working hours;

"(C) telecommuting;

"(D) salary; and

"(E) stock options, bonuses, and other benefits.

"(3) The relationship between rates of advancement, promotion, and compensation to experience, skill level, education, and age.

"(4) Differences in skill level on the basis of age.

"(b) REPORT.—Not later than October 1, 2000, the Director of the National Science Foundation shall submit to the Committees on the Judiciary of the United States House of Representatives and the Senate a report containing the results of the study described in subsection (a)."

REPORT ON HIGH TECHNOLOGY LABOR MARKET NEEDS

Pub. L. 105-277, div. C, title IV, §418(a), Oct. 21, 1998, 112 Stat. 2681-656, provided that:
