

this subchapter until it is satisfied that there will no longer be any such failure. Until the Council is so satisfied, it shall make no further payments to such State under this subchapter.

(Pub. L. 89-80, title III, §304, July 22, 1965, 79 Stat. 252.)

§ 1962c-4. Payments to States; computation of amount

The method of computing and paying amounts pursuant to this subchapter shall be as follows:

(1) The Council shall, prior to the beginning of each calendar quarter or other period prescribed by it, estimate the amount to be paid to each State under the provisions of this subchapter for such period, such estimate to be based on such records of the State and information furnished by it, and such other investigation, as the Council may find necessary.

(2) The Council shall pay to the State, from the allotment available therefor, the amount so estimated by it for any period, reduced or increased, as the case may be, by any sum (not previously adjusted under this paragraph) by which it finds that its estimate of the amount to be paid such State for any prior period under this subchapter was greater or less than the amount which should have been paid to such State for such prior period under this subchapter. Such payments shall be made through the disbursing facilities of the Treasury Department, at such times and in such installments as the Council may determine.

AMENDMENTS

1976—Pub. L. 94-285 inserted reference to Guam.

§ 1962c-6. Records; audit and examination

(a) Each recipient of a grant under this chapter shall keep such records as the Chairman of the Council shall prescribe, including records which fully disclose the amount and disposition of the funds received under the grant, and the total cost of the project or undertaking in connection with which the grant was made and the amount and nature of that portion of the cost of the project or undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(b) The Chairman of the Council and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit and examination to any books, documents, papers, and records of the recipient of the grant that are pertinent to the determination that funds granted are used in accordance with this chapter.

§ 1962d-4. Northeastern United States water supply**(a) Plans for Federal construction, operation, and maintenance of reservoir system within certain river basins and conveyance and purification facilities through cooperation of Secretary of the Army and government agencies; financial participation of States**

Congress hereby recognizes that assuring adequate supplies of water for the great metropolitan centers of the United States has become a problem of such magnitude that the welfare and prosperity of this country require the Federal Government to assist in the solution of water supply problems. Therefore, the Secretary of the Army, acting through the Chief of Engineers, is authorized to cooperate with Federal, State, and local agencies in preparing plans in accordance with the Water Resources Planning Act [42 U.S.C. 1962 et seq.] to meet the long-range water needs of the northeastern United States. This plan may provide for the construction, operation, and maintenance by the United States of (1) a system of major reservoirs to be located within those river basins of the northeastern United States which drain into the Chesapeake Bay, those that drain into the Atlantic Ocean north of the Chesapeake Bay, those that drain into Lake Ontario, and those that drain into the Saint Lawrence River, (2) major conveyance facilities by which water may be exchanged between these river basins to the extent found desirable in the national interest, and (3) major purification facilities. Such plans shall provide for appropriate financial participation by the States, political subdivisions thereof, and other local interests.

(b) Construction, operation, and maintenance of reservoirs and conveyance and purification facilities

The Secretary of the Army, acting through the Chief of Engineers, shall construct, operate, and maintain those reservoirs, conveyance facilities, and purification facilities, which are recommended in the plan prepared in accordance with subsection (a) of this section, and which are specifically authorized by law enacted after October 27, 1965.

(c) Reservoirs as components of river basin and water supply plans

Each reservoir included in the plan authorized by this section shall be considered as a component of a comprehensive plan for the optimum development of the river basin in which it is situated, as well as a component of the plan established in accordance with this section.
