

September 30, 1996, except that the authority of the Secretary to perform groundwater restoration activities under this subchapter is without limitation.”

1992—Subsec. (a). Pub. L. 102-486 substituted “1996” for “1994”.

1988—Subsec. (a). Pub. L. 100-616 amended subsec. (a) generally. Prior to amendment, subsec. (a) read as follows: “The authority of the Secretary to perform remedial action under this subchapter shall terminate on the date seven years after the date of promulgation by the Administrator of general standards applicable to such remedial action unless such termination date is specifically extended by an Act of Congress enacted after November 8, 1978.”

§ 7923. Limitation of contractual authority

The authority under this subchapter to enter into contracts or other obligations requiring the United States to make outlays may be exercised only to the extent provided in advance in annual authorization and appropriation Acts.

(Pub. L. 95-604, title I, § 113, Nov. 8, 1978, 92 Stat. 3031.)

§ 7924. Reports to Congress

(a) Information; consultations; separate official views; partial report concerning uranium mill tailings provisions

Beginning on January 1, 1980, and each year thereafter until January 1, 1986, the Secretary shall submit a report to the Congress with respect to the status of the actions required to be taken by the Secretary, the Commission, the Secretary of the Interior, the Administrator, and the States and Indian tribes under this chapter and any amendments to other laws made by this Act. Each report shall—

- (1) include data on the actual and estimated costs of the program authorized by this subchapter;
- (2) describe the extent of participation by the States and Indian tribes in this program;
- (3) evaluate the effectiveness of remedial actions, and describe any problems associated with the performance of such actions; and
- (4) contain such other information as may be appropriate.

Such report shall be prepared in consultation with the Commission, the Secretary of the Interior, and the Administrator and shall contain their separate views, comments, and recommendations, if any. The Commission shall submit to the Secretary and Congress such portion of the report under this subsection as relates to the authorities of the Commission under title II of this Act.

(b) Identification of sites; Federal agency jurisdiction; contents; duplication prohibition; use and cooperation respecting other Federal agency information

Not later than July 1, 1979, the Secretary shall provide a report to the Congress which identifies all sites located on public or acquired lands of the United States containing residual radioactive materials and other radioactive¹ waste (other than waste resulting from the production of electric energy) and specifies which Federal agency has jurisdiction over such sites. The re-

port shall include the identity of property and other structures in the vicinity of such site that are contaminated or may be contaminated by such materials and the actions planned or taken to remove such materials. The report shall describe in what manner such sites are adequately stabilized and otherwise controlled to prevent radon diffusion from such sites into the environment and other environmental harm. If any site is not so stabilized or controlled, the report shall describe the remedial actions planned for such site and the time frame for performing such actions. In preparing the reports under this section, the Secretary shall avoid duplication of previous or ongoing studies and shall utilize all information available from other departments and agencies of the United States respecting the subject matter of such report. Such agencies shall cooperate with the Secretary in the preparation of such report and furnish such information as available to them and necessary for such report.

(c) Uranium mine wastes hazards elimination program

Not later than January 1, 1980, the Administrator, in consultation with the Commission, shall provide a report to the Congress which identifies the location and potential health, safety, and environmental hazards of uranium mine wastes together with recommendations, if any, for a program to eliminate these hazards.

(d) Reports to Congressional committees

Copies of the reports required by this section to be submitted to the Congress shall be separately submitted to the Committees on Interior and Insular Affairs and on Energy and Commerce of the House of Representatives and the Committee on Energy and Natural Resources of the Senate.

(e) Documentation of information; public availability; trade secrets and other disclosure exempt information

The Commission, in cooperation with the Secretary, shall ensure that any relevant information, other than trade secrets and other proprietary information otherwise exempted from mandatory disclosure under any other provision of law, obtained from the conduct of each of the remedial actions authorized by this subchapter and the subsequent perpetual care of those residual radioactive materials is documented systematically, and made publicly available conveniently for use.

(Pub. L. 95-604, title I, § 114, Nov. 8, 1978, 92 Stat. 3032; H. Res. 549, Mar. 25, 1980.)

¹ So in original. Probably should be “radioactive”.

CHANGE OF NAME

Committee on Interior and Insular Affairs of the House of Representatives changed to Committee on Natural Resources of the House of Representatives on Jan. 5, 1993, by House Resolution No. 5, One Hundred Third Congress.

Committee on Interstate and Foreign Commerce of the House of Representatives changed to Committee on Energy and Commerce immediately prior to noon on Jan. 3, 1981, by House Resolution No. 549, Ninety-sixth Congress, Mar. 25, 1980. Committee on Energy and Commerce of House of Representatives treated as referring to Committee on Commerce of House of Representatives by section 1(a) of Pub. L. 104-14, set out as a note preceding section 21 of Title 2. Committee on Commerce of House of Representatives changed to Committee on Energy and Commerce of House of Representatives, and jurisdiction over matters relating to securities and exchanges and insurance generally transferred to Committee on Financial Services of House of Representatives by House Resolution No. 5, One Hundred Seventh Congress, Jan. 3, 2001.

§ 7925. Active operations; liability for remedial action

(a) No amount may be expended under this subchapter with respect to any site licensed by the Commission under the Atomic Energy Act of 1954 [42 U.S.C. 2011 et seq.] or by a State as permitted under section 274 of such Act [42 U.S.C. 2021] at which production of any uranium product from ores (other than from residual radioactive materials) takes place. This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal.

(b) In the case of each processing site designated under this subchapter, the Attorney General shall conduct a study to determine the identity and legal responsibility which any person (other than the United States, a State, or Indian tribe) who owned or operated or controlled (as determined by the Attorney General) such site before November 8, 1978, may have under any law or rule of law for reclamation or other remedial action with respect to such site. The Attorney General shall publish the results of such study, and provide copies thereof to the Congress, as promptly as practicable following November 8, 1978. The Attorney General, based on such study, shall, to the extent he deems it appropriate and in the public interest, take such action under any provision of law in effect when uranium was produced at such site to require payment by such person of all or any part of the costs incurred by the United States for such remedial action for which he determines such person is liable.

(Pub. L. 95-604, title I, § 115, Nov. 8, 1978, 92 Stat. 3033; Pub. L. 104-259, § 4(c), Oct. 9, 1996, 110 Stat. 3174.)

Title II, referred to in subsec. (a), is title II (§§201-209) of Pub. L. 95-604, Nov. 8, 1978, 92 Stat. 3033, as amended,

which enacted sections 2022, 2113, 2114 of this title, amended sections 2014, 2021, 2111, and 2201 of this title, and enacted provisions set out as notes under sections 2014, 2021, and 2113 of this title. For complete classification of title II to the Code, see Tables.

AMENDMENTS

1996—Subsec. (a). Pub. L. 104-259 inserted at end “This subsection does not prohibit the disposal of residual radioactive material from a processing site under this subchapter at a site licensed under title II or the expenditure of funds under this subchapter for such disposal.”

SUBCHAPTER II—STUDY AND DESIGNATION OF TWO MILL TAILING SITES IN NEW MEXICO

§ 7941. Study of authority for regulation and control of residual radioactive materials at New Mexico sites for protection of public health, safety, and the environment; report to Congress and Secretary; basis for determination of inadequacy of authority; interim regulation pending completion of study

The Commission, in consultation with the Attorney General and the Attorney General of the State of New Mexico, shall conduct a study to determine the extent and adequacy of the authority of the Commission and the State of New Mexico to require, under the Atomic Energy Act of 1954 (as amended by title II of this Act) [42 U.S.C. 2011 et seq.] or under State authority as permitted under section 274 of such Act [42 U.S.C. 2021] or under other provision of law, the owners of the following active uranium mill sites to undertake appropriate action to regulate and control all residual radioactive materials at such sites to protect public health, safety, and the environment: the former Homestake-New Mexico Partners site near Milan, New Mexico, and the Anaconda carbonate process tailings site near Bluewater, New Mexico. Such study shall be completed and a report thereof submitted to the Congress and to the Secretary within one year after November 8, 1978, together with such recommendations as may be appropriate. If the Commission determines that such authority is not adequate to regulate and control such materials at such sites in the manner provided in the first sentence of this section, the Commission shall include in the report a statement of the basis for such determination. Nothing in this chapter shall be construed to prevent or delay action by a State as permitted under section 274 of the Atomic Energy Act of 1954 [42 U.S.C. 2021] or under any other provision of law or by the Commission to regulate such residual radioactive materials at such sites prior to completion of such study.
