

§ 2902. Definitions

As used in this chapter—

(1) The term “approved conservation plan” means the conservation plan of a State approved by the Secretary pursuant to section 2904(a) of this title.

(2) The term “conservation plan” means a plan developed by a State for the conservation of fish and wildlife which meets the requirements set forth in section 2903 of this title.

(3) The terms “conserve”, “conserving”, and “conservation” mean to use, and the use of, such methods and procedures which are necessary to ensure, to the maximum extent practicable, the well being and enhancement of fish and wildlife and their habitats for the ecological, educational, esthetic, cultural, recreational, and scientific enrichment of the public. Such methods and procedures may include, but are not limited to, any activity associated with scientific resources management, such as research, census, law enforcement, habitat acquisition, maintenance, development, information, education, population manipulation, propagation, technical assistance to private landowners, live trapping, and transplantation.

(4) The term “designated State agency” means the commission, department, division, or other agency of a State which has primary legal authority for the conservation of fish and wildlife. If any State has placed such authority in more than one agency, such term means each such agency acting with respect to its assigned responsibilities but such agencies, for purposes of this chapter, shall submit a single conservation plan.

(5) The term “fish and wildlife” means wild vertebrate animals that are in an unconfined state, including, but not limited to, nongame fish and wildlife.

(6) The term “nongame fish and wildlife” means wild vertebrate animals that are in an unconfined state and that—

(A) are not ordinarily taken for sport, fur, or food, except that if under applicable State law, any of such animals may be taken for sport, fur, or food in some, but not all, areas of the State, any of such animals within any area of the State in which such taking is not permitted may be deemed to be nongame fish and wildlife;

(B) are not listed as endangered species or threatened species under the Endangered Species Act of 1973 (16 U.S.C. 1531-1543); and

(C) are not marine mammals within the meaning of section 1362(5)¹ of this title.

Such term does not include any domesticated species that has reverted to a feral existence.

(7) The term “Secretary” means the Secretary of the Interior.

(8) The term “State” means any of the several States, the District of Columbia, the Commonwealth of Puerto Rico, American Samoa, the Virgin Islands, Guam, the Trust Territory of the Pacific Islands, and the Commonwealth of the Northern Mariana Islands.

TERMINATION OF TRUST TERRITORY OF THE PACIFIC ISLANDS

For termination of Trust Territory of the Pacific Islands, see note set out preceding section 1681 of Title 48, Territories and Insular Possessions.

§ 2903. Conservation plans

The conservation plan for any State must—

(1) provide for the vesting in the designated State agency of the overall responsibility for the development and revision of the conservation plan;

(2) provide for an inventory of the nongame fish and wildlife, and such other fish and wildlife as the designated State agency deems appropriate, that are within the State and are valued for ecological, educational, esthetic, cultural, recreational, economic, or scientific benefits by the public;

(3) with respect to those species identified under paragraph (2) (hereinafter in this section referred to as “plan species”), provide for—

(A) the determination of the size, range, and distribution of their populations, and

(B) the identification of the extent, condition, and location of their significant habitats;

(4) identify the significant problems which may adversely affect the plan species and their significant habitats;

(5) determine those actions which should be taken to conserve the plan species and their significant habitats;

(6) establish priorities for implementing the conservation actions determined under paragraph (5);

(7) provide for the monitoring, on a regular basis, of the plan species and the effectiveness of the conservation actions determined under paragraph (5);

(8) provide for plan review and revision, if appropriate, at intervals of not more than 3 years;

(9) ensure that the public be given opportunity to make its views known and considered during the development, revision, and implementation of the plan; and

(10) provide that the designated State agency consult, as appropriate, with Federal agencies, and other State agencies during the development, revision, and implementation of the plan, in order to minimize duplication of efforts and to ensure that the best information is available to all such agencies.
