### § 3182. Federal Coordination Committee

There is hereby established a Federal Coordination Committee composed of the Secretaries (or their designees) of Agriculture, Energy, the Interior, and Transportation; the Administrators of the Environmental Protection Agency, and the National Oceanic and Atmospheric Administration; and the Federal and State Co-chairmen of the Council. Such Committee shall meet at least once every four months in order to coordinate those programs and functions of their respective agencies which could affect the administration of lands and resources in Alaska. The Federal Cochairman shall be the Chairman of the Committee. He shall be responsible for formulating an agenda for each meeting, after consultation with the other agency heads referred to herein, for providing any necessary staff support, and for preparing a brief summary of the disposition of matters discussed at each meeting. Such summary shall be published in the Federal Register.

### § 3183. Bristol Bay Cooperative Region

#### (a) Definitions

For purposes of this section—

(1) The term "Governor" means the Governor of the State of Alaska.

(2) The term "region" means the land (other than any land within the National Park System) within the Bristol Bay Cooperative Region as generally depicted on the map entitled "Bristol Bay-Alaska Peninsula", dated October 1979.

#### (b) Purpose

The purpose of this section is to provide for the preparation and implementation of a comprehensive and systematic cooperative management plan (hereinafter in this section referred to as the "plan"), agreed to by the United States and the State—

(1) to conserve the fish and wildlife and other significant natural and cultural resources within the region;

(2) to provide for the rational and orderly development of economic resources within the region in an environmentally sound manner;

(3) to provide for such exchanges of land among the Federal Government, the State, and other public or private owners as will facilitate the carrying out of paragraphs (1) and (2);

(4) to identify any further lands within the region which are appropriate for selections by the State under section 6 of the Alaska Statehood Act and this Act; and

(5) to identify any further lands within the region which may be appropriate for congressional designation as national conservation system units.

#### (c) Federal-State cooperation in preparation of plans

(1) If within three months after December 2, 1980, the Governor notifies the Secretary that the State wishes to participate in the preparation of the plan, and that the Governor will, to the extent of his authority, manage State lands within the region to conserve fish and wildlife during such preparation, the Secretary and the Governor shall undertake to prepare the plan which shall contain such provisions as are necessary and appropriate to achieve the purposes set forth in subsection (b) of this section, including but not limited to—

(A) the identification of the significant resources of the region;

(B) the identification of present and potential uses of land within the region;

(C) the identification of areas within the region according to their significant resources and the present or potential uses within each such area;

(D) the identification of land (other than any land within the National Park System) which should be exchanged in order to facilitate the conserving of fish and wildlife and the management and development of other resources within the region; and

(E) the specification of the uses which may be permitted in each area identified under paragraph (C) and the manner in which these uses shall be regulated by the Secretary or the State, as appropriate, if such plan is approved.

(2) The plan shall also—

(A) specify those elements of the plan, and its implementation, which the Secretary or the Governor:

(i) may modify without prior approval of both parties to the plan; and

(ii) may not modify without such prior approval; and

(B) include a description of the procedures which will be used to make modifications to which paragraph (A)(i) applies.

#### (d) Action by Secretary if State does not participate in plan

If—

(1) the Secretary does not receive notification under subsection (c) of this section that the State will participate in the preparation of the plan; or

(2) after the State agrees to so participate, the Governor submits to the Secretary written notification that the State is terminating its participation;

the Secretary shall prepare a plan containing the provisions referred to in subsection (c)(1) of this section (and containing a specification of those elements in the plan which the Secretary may modify without prior approval of Congress), and submit copies of such plan to the Congress, as provided in subsection (e)(2) of this section, within three years after December 2, 1980.

#### (e) Taking effect of plan

(1) If within three years after December 2, 1980, a plan has been prepared under subsection (c) of this section which is agreed to by the Secretary and the Governor, the plan shall take effect with respect to the United States and the State.

(2) If the plan prepared pursuant to this section is agreed to by the Secretary and the Governor includes any recommendations regarding (i) the exchange of State lands, (ii) the management of Federal lands within any conservation system unit, or (iii) any other actions which require the approval of either the Congress or the Alaska State Legislature, then the Secretary and the Governor shall submit to the Congress and the State Legislature as appropriate, their proposals for legislation necessary to carry out the recommendations contained in the plan.

**(f) Transitional provisions**

On December 2, 1980, and for a period of three years thereafter, all Federal land within the region (except that land conveyed by title IX of this Act to the State of Alaska and Federal lands located within the boundaries of conservation system units) shall be withdrawn from all forms of appropriation under the public land laws, including selections by the State, and from location and entry under the mining laws and from leasing under the Mineral Leasing Act [30 U.S.C. 181 et seq.], and shall be managed by the Bureau of Land Management under its existing statutory authority and consistent with provisions of this section.

SUBCHAPTER VI—ADMINISTRATIVE PROVISIONS

**§ 3191. Management plans**

**(a) Development; transmittal to Congressional committees**

Within five years from December 2, 1980, the Secretary shall develop and transmit to the appropriate Committees of the Congress a conservation and management plan for each of the units of the National Park System established or to which additions are made by this Act.

**(b) National Park service plan requirements**

Each plan for a unit established, redesignated, or expanded by subchapter LIX-F of chapter 1 of this title shall identify management practices which will carry out the policies of this Act and will accomplish the purposes for which the concerned National Park System unit was estab-

lished or expanded and shall include at least the following:

(1) Maps indicating areas of particular importance as to wilderness, natural, historical, wildlife, cultural, archeological, paleontological, geological, recreational, and similar resources and also indicating the areas into which such unit will be divided for administrative purposes.

(2) A description of the programs and methods that will be employed to manage fish and wildlife resources and habitats, cultural, geological, recreational, and wilderness resources, and how each conservation system unit will contribute to overall resources management goals of that region. Such programs should include research, protection, restoration, development, and interpretation as appropriate.

(3) A description of any areas of potential or proposed development, indicating types of visitor services and facilities to be provided, the estimated costs of such services and facilities, and whether or not such services and facilities could and should be provided outside the boundaries of such unit.

(4) A plan for access to, and circulation within, such unit, indicating the type and location of transportation routes and facilities, if any.

(5) A description of the programs and methods which the Secretary plans to use for the purposes of (A) encouraging the recognition and protection of the culture and history of the individuals residing, on December 2, 1980, in such unit and areas in the vicinity of such unit, and (B) providing and encouraging employment of such individuals.

(6) A plan for acquiring land with respect to such unit, including proposed modifications in the boundaries of such unit.

(7) A description (A) of privately owned areas, if any, which are within such unit, (B) of activities carried out in, or proposed for, such areas, (C) of the present and potential effects of such activities on such unit, (D) of the purposes for which such areas are used, and (E) of methods (such as cooperative agreements and issuance or enforcement of regulations) of controlling the use of such activities to carry out the policies of this Act and the purposes for which such unit is established or expanded.

(8) A plan indicating the relationship between the management of such unit and activities being carried out in, or proposed for, surrounding areas and also indicating cooperative agreements which could and should be entered into for the purpose of improving such management.

**(c) Consideration of factors**

In developing, preparing, and revising a plan under this section the Secretary shall take into consideration at least the following factors:

(1) The specific purposes for which the concerned conservation system unit was established or expanded.

(2) Protection and preservation of the ecological, environmental, wildlife, cultural, historical, archeological, geological, recreational, wilderness, and scenic character of the concerned unit and of areas in the vicinity of such unit.
