(1) Any fishing vessel (including its fishing gear, furniture, appurtenances, stores, and cargo) used, and any fish (or a fair market value thereof) taken or retained, in any manner, in connection with or as a result of the commission of any act prohibited by section 5009 of this title shall be subject to forfeiture to the United States. All or part of such vessel may, and all such fish shall, be forfeited to the United States pursuant to a civil proceeding under this section.

(2) Any district court of the United States shall have jurisdiction, upon application of the Attorney General on behalf of the United States, to order any forfeiture authorized under paragraph (1) and any action provided for under paragraph (4).

The provisions of the customs laws relating to—

- (A) the seizure, forfeiture, and condemnation of property for violation of the customs law;
- (B) the disposition of such property or the proceeds from the sale thereof; and

shall apply to seizures and forfeitures incurred, or alleged to have been incurred, under the provisions of this chapter, unless such provisions are inconsistent with the purposes, policy, and provisions of this chapter.

(4)(A) Any officer authorized to serve any process in rem that is issued by a court having jurisdiction under section 5008(b) of this title shall—

upon receipt of a satisfactory bond or other security from any person claiming such property. Such bond or other security shall be conditioned upon such person delivering such property to the appropriate court upon order thereof, without any impairment of its value, or paying the monetary value of such property pursuant to an order of such court. Judgment shall be recoverable on such bond or other security against both the principal and any sureties in the event that any condition thereof is breached, as determined by such court.

(B) Any fish seized pursuant to this chapter may be sold, subject to the approval and direction of the appropriate court, for not less than the fair market value thereof. The proceeds of any such sale shall be deposited with such court pending the disposition of the matter involved.

(5) For purposes of this section, it shall be a rebuttable presumption that all fish found on board a fishing vessel and which is seized in connection with an act prohibited by section 5009 of this title were taken or retained in violation of the Convention and this chapter.

**§ 5101. Findings and purpose****(a) Findings**

The Congress finds the following:

(1) Coastal fishery resources that migrate, or are widely distributed, across the jurisdictional boundaries of two or more of the Atlantic States and of the Federal Government are of substantial commercial and recreational importance and economic benefit to the Atlantic coastal region and the Nation.

(2) Increased fishing pressure, environmental pollution, and the loss and alteration of habitat have reduced severely certain Atlantic coastal fishery resources.

(3) Because no single governmental entity has exclusive management authority for Atlantic coastal fishery resources, harvesting of such resources is frequently subject to disparate, inconsistent, and intermittent State and Federal regulation that has been detrimental to the conservation and sustainable use of such resources and to the interests of fishermen and the Nation as a whole.

(4) The responsibility for managing Atlantic coastal fisheries rests with the States, which carry out a cooperative program of fishery oversight and management through the Atlantic States Marine Fisheries Commission. It is the responsibility of the Federal Government to support such cooperative interstate management of coastal fishery resources.

(5) The failure by one or more Atlantic States to fully implement a coastal fishery management plan can affect the status of Atlantic coastal fisheries, and can discourage other States from fully implementing coastal fishery management plans.

(6) It is in the national interest to provide for more effective Atlantic State fishery resource conservation and management.

**(b) Purpose**

The purpose of this chapter is to support and encourage the development, implementation, and enforcement of effective interstate conservation and management of Atlantic coastal fishery resources.
