

born infants at this stage can feel pain when subjected to painful stimuli and that their perception of this pain is even more intense than that of newborn infants and older children when subjected to the same stimuli. Thus, during a partial-birth abortion procedure, the child will fully experience the pain associated with piercing his or her skull and sucking out his or her brain.

“(N) Implicitly approving such a brutal and inhumane procedure by choosing not to prohibit it will further coarsen society to the humanity of not only newborns, but all vulnerable and innocent human life, making it increasingly difficult to protect such life. Thus, Congress has a compelling interest in acting—indeed it must act—to prohibit this inhumane procedure.

“(O) For these reasons, Congress finds that partial-birth abortion is never medically indicated to preserve the health of the mother; is in fact unrecognized as a valid abortion procedure by the mainstream medical community; poses additional health risks to the mother; blurs the line between abortion and infanticide in the killing of a partially-born child just inches from birth; and confuses the role of the physician in childbirth and should, therefore, be banned.”

2002—Pub. L. 107-273 substituted “to facilitate” for “to facility” in third par.

1994—Pub. L. 103-322, §330016(1)(G), which directed the amendment of this section by substituting “under this title” for “not more than \$500”, could not be executed because the words “not more than \$500” did not appear in text subsequent to amendment by Pub. L. 103-322, §130009(a)(1). See below.

Pub. L. 103-322, §130009(a)(1), substituted “under this title, imprisoned not more than 10 years” for “not more than \$500 or imprisoned not more than one year” in last par.
