

(9) develop an institutional means for IAEA member nations to share intelligence material with the IAEA on possible safeguards violations without compromising national security or intelligence sources or methods;

(10) require any exporter of a sensitive nuclear facility or sensitive nuclear technology to a non-nuclear-weapon state to notify the IAEA prior to export and to require safeguards over that facility or technology, regardless of its destination; and

(11) seek agreement among the parties to the Treaty to apply IAEA safeguards in perpetuity and to establish new limits on the right to withdraw from the Treaty.

(Pub. L. 103–236, title VIII, § 841, Apr. 30, 1994, 108 Stat. 522.)

PROMOTION OF DISCUSSIONS ON NUCLEAR AND RADIOLOGICAL SECURITY AND SAFETY BETWEEN THE INTERNATIONAL ATOMIC ENERGY AGENCY AND THE ORGANIZATION FOR ECONOMIC COOPERATION AND DEVELOPMENT

Pub. L. 108–136, div. C, title XXXVI, § 3631, Nov. 24, 2003, 117 Stat. 1825, provided that:

“(a) SENSE OF CONGRESS REGARDING INITIATION OF DIALOGUE BETWEEN THE IAEA AND THE OECD.—It is the sense of Congress that—

“(1) the United States should seek to initiate discussions between the International Atomic Energy Agency and the Organization for Economic Cooperation and Development for the purpose of exploring issues of nuclear and radiological security and safety, including the creation of new sources of revenue (including debt reduction) for states to provide nuclear security; and

“(2) the discussions referred to in paragraph (1) should also provide a forum to explore possible sources of funds in support of the G–8 Global Partnership Against the Spread of Weapons and Materials of Mass Destruction.

“(b) CONTINGENT REPORT.—(1) Except as provided in paragraph (2), the President shall, not later than 12 months after the date of the enactment of this Act [Nov. 24, 2003], submit to Congress a report on—

“(A) the efforts made by the United States to initiate the discussions described in subsection (a);

“(B) the results of those efforts; and

“(C) any plans for further discussions and the purposes of such discussions.

“(2) Paragraph (1) shall not apply if no efforts referred to in paragraph (1)(A) have been made.”

§ 6322. IAEA internal reforms

In order to promote the early adoption of reforms in the implementation of the safeguards responsibilities of the IAEA, the Congress urges the President to negotiate with other nations and groups of nations, including the IAEA Board of Governors and the Nuclear Suppliers Group, to—

(1) improve the access of the IAEA within nuclear facilities that are capable of producing, processing, or fabricating special nuclear material suitable for use in a nuclear explosive device;

(2)(A) facilitate the IAEA’s efforts to meet and to maintain its own goals for detecting the diversion of nuclear materials and equipment, giving particular attention to facilities in which there are bulk quantities of plutonium; and

(B) if it is not technically feasible for the IAEA to meet those detection goals in a par-

ticular facility, require the IAEA to declare publicly that it is unable to do so;

(3) enable the IAEA to issue fines for violations of safeguards procedures, to pay rewards for information on possible safeguards violations, and to establish a “hot line” for the reporting of such violations and other illicit uses of weapons-grade nuclear material;

(4) establish safeguards at facilities engaged in the manufacture of equipment or material that is especially designated or prepared for the processing, use, or production of special fissionable material or, in the case of non-nuclear-weapon states, of any nuclear explosive device;

(5) establish safeguards over nuclear research and development activities and facilities;

(6) implement special inspections of undeclared nuclear facilities, as provided for under existing safeguards procedures, and seek authority for the IAEA to conduct challenge inspections on demand at suspected nuclear sites;

(7) expand the scope of safeguards to include tritium, uranium concentrates, and nuclear waste containing special fissionable material, and increase the scope of such safeguards on heavy water;

(8) revise downward the IAEA’s official minimum amounts of nuclear material (“significant quantity”) needed to make a nuclear explosive device and establish these amounts as national rather than facility standards;

(9) expand the use of full-time resident IAEA inspectors at sensitive fuel cycle facilities;

(10) promote the use of near real time material accountancy in the conduct of safeguards at facilities that use, produce, or store significant quantities of special fissionable material;

(11) develop with other IAEA member nations an agreement on procedures to expedite approvals of visa applications by IAEA inspectors;

(12) provide the IAEA the additional funds, technical assistance, and political support necessary to carry out the goals set forth in this subsection;¹ and

(13) make public the annual safeguards implementation report of the IAEA, establishing a public registry of commodities in international nuclear commerce, including dual-use goods, and creating a public repository of current nuclear trade control laws, agreements, regulations, and enforcement and judicial actions by IAEA member nations.

(Pub. L. 103–236, title VIII, § 842, Apr. 30, 1994, 108 Stat. 523.)

§ 6323. Reporting requirement

(a) Report required

The President shall, in the report required by section 3281(a) of this title, describe—

(1) the steps he has taken to implement sections 6321 and 6322 of this title, and

(2) the progress that has been made and the obstacles that have been encountered in seeking to meet the objectives set forth in sections 6321 and 6322 of this title.

¹ So in original. Probably should be “section;”.
