(b) Cash value accumulation test for subsection (a)(1)

(1) In general

A contract meets the cash value accumulation test of this subsection if, by the terms of the contract, the cash surrender value of such contract may not at any time exceed the net single premium which would have to be paid at such time to fund future benefits under the contract.

(2) Rules for applying paragraph (1)

Determinations under paragraph (1) shall be made—

(A) on the basis of interest at the greater of an annual effective rate of 4 percent or the rate or rates guaranteed on issuance of the contract,

(B) Basis on which determination is made

The determination under subparagraph (A) shall be based on—

(i) reasonable mortality charges which meet the requirements (if any) prescribed in regulations and which (except as provided in regulations) do not exceed the mortality charges specified in the prevailing commissioners’ standard tables (as defined in section 807(d)(5)) as of the time the contract is issued,

(ii) any reasonable charges (other than mortality charges) which (on the basis of the company’s experience, if any, with respect to similar contracts) are reasonably expected to be actually paid, and

(iii) interest at the greater of an annual effective rate of 6 percent or the rate or rates guaranteed on issuance of the contract.

(C) When determination made

Except as provided in subsection (f)(7), the determination under subparagraph (A) shall be made as of the time the contract is issued.

tion under subparagraph (B)(ii), to the extent provided in regulations, such determination shall be made on the basis of the industry-wide experience.

(4) Guideline level premium

The term “guideline level premium” means the level annual amount, payable over a period not ending before the insured attains age 95, computed on the same basis as the guideline single premium, except that paragraph (3)(B)(iii) shall be applied by substituting “4 percent” for “6 percent”.

(D) the amount of any endowment benefit (or sum of endowment benefits, including any cash surrender value on the maturity date determined by taking into account subparagraph (B)) shall be deemed not to exceed the least amount payable as a death benefit at any time under the contract.

(2) Limited increases in death benefit permitted

Notwithstanding paragraph (1)(A)—

(A) for purposes of computing the guideline level premium, an increase in the death

benefit which is provided in the contract may be taken into account but only to the extent necessary to prevent a decrease in the excess of the death benefit over the cash surrender value of the contract,

(B) for purposes of the cash value accumulation test, the increase described in subparagraph (A) may be taken into account if the contract will meet such test at all times assuming that the net level reserve (determined as if level annual premiums were paid for the contract over a period not ending before the insured attains age 95) is substituted for the net single premium, and

(C) for purposes of the cash value accumulation test, the death benefit increases may be taken into account if the contract—

(i) has an initial death benefit of \$5,000 or less and a maximum death benefit of \$25,000 or less,

(ii) provides for a fixed predetermined annual increase not to exceed 10 percent of the initial death benefit or 8 percent of the death benefit at the end of the preceding year, and

For purposes of subparagraph (C), the initial death benefit of a contract shall be determined by treating all contracts issued to the same contract owner as 1 contract.

(f) Other definitions and special rules

For purposes of this section—

(1) Premiums paid

(A) In general

The term “premiums paid” means the premiums paid under the contract less amounts (other than amounts includible in gross income) to which section 72(e) applies and less any excess premiums with respect to which there is a distribution described in subparagraph (B) or (E) of paragraph (7) and any other amounts received with respect to the contract which are specified in regulations.

(B) Treatment of certain premiums returned to policyholder

If, in order to comply with the requirements of subsection (a)(2)(A), any portion of any premium paid during any contract year is returned by the insurance company (with interest) within 60 days after the end of a contract year, the amount so returned (excluding interest) shall be deemed to reduce the sum of the premiums paid under the contract during such year.

(C) Interest returned includible in gross income

Notwithstanding the provisions of section 72(e), the amount of any interest returned as provided in subparagraph (B) shall be includible in the gross income of the recipient.

(C) Treatment of other additional benefits

In the case of any additional benefit which is not a qualified additional benefit—

- (i) such benefit shall not be treated as a future benefit, and
- (ii) any charge for such benefit which is not prefunded shall not be treated as a premium.

(6) Premium payments not disqualifying contract

The payment of a premium which would result in the sum of the premiums paid exceeding the guideline premium limitation shall be disregarded for purposes of subsection (a)(2) if the amount of such premium does not exceed the amount necessary to prevent the termination of the contract on or before the end of the contract year (but only if the contract will have no cash surrender value at the end of such extension period).

(7) Adjustments**(A) In general**

If there is a change in the benefits under (or in other terms of) the contract which was not reflected in any previous determination or adjustment made under this section, there shall be proper adjustments in future determinations made under this section.

(B) Rule for certain changes during first 15 years

If—

- (i) a change described in subparagraph (A) reduces benefits under the contract,

section 72 (other than subsection (e)(5) thereof) shall apply to such cash distribution to the extent it does not exceed the recapture ceiling determined under subparagraph (C) or (D) (whichever applies).

(C) Recapture ceiling where change occurs during first 5 years

If the change referred to in subparagraph (B)(ii) occurs during the 5-year period beginning on the issue date of the contract, the recapture ceiling is—

(I) the cash surrender value of the contract, immediately before the reduction, over

(II) the net single premium (determined under subsection (b)), immediately after the reduction, or

(ii) in the case of a contract to which subsection (a)(2) applies, the greater of—

(I) the excess of the aggregate premiums paid under the contract, immediately before the reduction, over the guideline premium limitation for the contract (determined under subsection (c)(2), taking into account the adjustment described in subparagraph (A)), or

(II) the excess of the cash surrender value of the contract, immediately before the reduction, over the cash value corridor of subsection (d) (determined immediately after the reduction).

(D) Recapture ceiling where change occurs after 5th year and before 16th year

If the change referred to in subparagraph (B) occurs after the 5-year period referred to under subparagraph (C), the recapture ceiling is the excess of the cash surrender value of the contract, immediately before the reduction, over the cash value corridor of subsection (d) (determined immediately after the reduction and whether or not subsection (d) applies to the contract).

(E) Treatment of certain distributions made in anticipation of benefit reductions

Under regulations prescribed by the Secretary, subparagraph (B) shall apply also to any distribution made in anticipation of a reduction in benefits under the contract. For purposes of the preceding sentence, appropriate adjustments shall be made in the provisions of subparagraphs (C) and (D); and any distribution which reduces the cash surrender value of a contract and which is made within 2 years before a reduction in benefits under the contract shall be treated as made in anticipation of such reduction.

(8) Correction of errors

If the taxpayer establishes to the satisfaction of the Secretary that—

the Secretary may waive the failure to satisfy such requirements.

(9) Special rule for variable life insurance contracts

In the case of any contract which is a variable contract (as defined in section 817), the determination of whether such contract meets the requirements of subsection (a) shall be made whenever the death benefits under such contract change but not less frequently than once during each 12-month period.

(g) Treatment of contracts which do not meet subsection (a) test

(1) Income inclusion

(A) In general

If at any time any contract which is a life insurance contract under the applicable law does not meet the definition of life insurance contract under subsection (a), the income on the contract for any taxable year of the policyholder shall be treated as ordinary income received or accrued by the policyholder during such year.

(ii) the mortality charge (if any) stated in the contract.

(2) Treatment of amount paid on death of insured

If any contract which is a life insurance contract under the applicable law does not meet the definition of life insurance contract under subsection (a), the excess of the amount paid by the reason of the death of the insured over the net surrender value of the contract shall

be deemed to be paid under a life insurance contract for purposes of section 101 and subtitle B.

(3) Contract continues to be treated as insurance contract
