REFERENCES IN TEXT

The Communications Act of 1934, referred to in text, is act June 19, 1934, ch. 652, 48 Stat. 1064, as amended, which is classified principally to chapter 5 (§151 et seq.) of Title 47, Telecommunications. For complete classification of this Act to the Code, see section 609 of Title 47 and Tables.

CHAPTER 179—ALASKA FEDERAL-CIVILIAN ENERGY EFFICIENCY SWAP

- Sec. 17901. Definitions. 17902. Sale of electric energy. 17903. Purchase of electric power. 17904. Implementation powers and limitations.

§ 17901. Definitions

In this chapter, the following definitions apply:

(1) FEDERAL AGENCY.—The term “federal agency” means a department, agency, or instrumentality of the Federal Government.

(2) FEDERALLY GENERATED ELECTRIC ENERGY.—The term “federally generated electric energy” means any electric power generated by an electric generating facility owned and operated by a federal agency.

(3) NON-FEDERAL PERSON.—The term “non-federal person” means a corporation, cooperative, municipality, or other non-federal entity that generates electric energy through a facility other than a federally owned electric generating facility.

(Pub. L. 107–217, Aug. 21, 2002, 116 Stat. 1288.)

In clause (1), the definition of “agency” as referring to the head of any department, agency, or instrumentality of the United States Government is rewritten as a definition of “federal agency” to avoid confusion between the role of the “agency” and the “head of the agency”. Throughout the chapter, the words “head of

the federal agency” are used when the source provision is referring to action taken by an official as opposed to the concept of the agency as an institution.

In clause (3), the text of 40:795(1) and (4) is combined to eliminate a definition (40:795(1)) that is used only once.

§ 17902. Sale of electric energy

(a) IN GENERAL.—To conserve oil and natural gas and better utilize coal, the head of a federal agency may sell, or enter into a contract to sell, to any non-federal person electric energy generated by coal-fired electric generating facilities of that agency in Alaska without regard to any provision of law that precludes the sale when the electric energy to be sold is available from other local sources, if the head of the federal agency determines that—

(1) the electric energy to be sold is generated by an existing coal-fired generating facility;

(2) the electric energy to be sold is surplus to the federal agency’s needs and is in excess of the electric energy specifically generated for consumption by, or necessary to serve the requirements of, another federal agency;

(3) the cost to the ultimate consumers of the electric energy to be sold is less than the cost that, in the absence of the sale, would be incurred by those consumers for the purchase of an equivalent amount of energy; and

(4) the sale will reduce the total consumption of oil or natural gas by the non-federal person purchasing the electric energy below the level of consumption that would occur in the absence of the sale.

(b) PRICING POLICIES.—Federally generated electric energy sold by the head of a federal agency under subsection (a) shall be priced to recover the fuel and variable operation and maintenance costs of the facility generating the energy that are attributable to that sale, plus an amount equal to one-half the difference between—

(1) the costs of producing the electric energy by coal generation; and

(2) the costs of producing electric energy by the oil or gas generation being displaced.

(Pub. L. 107–217, Aug. 21, 2002, 116 Stat. 1289.)

In subsection (a), the words “to be sold” are added for clarity. In clause (4), the words “below the level of consumption that” are substituted for “below that consumption which” for clarity.

In subsection (b), before clause (1), the words “fuel and variable operation and maintenance costs of the facility generating the energy that are attributable to that sale” are substituted for “fuel costs and variable operation and maintenance costs of the Federal generating facility concerned which costs are attributable to such sale” for clarity.

§ 17903. Purchase of electric power

For purposes of economy, efficiency, and conserving oil and natural gas, the head of a federal agency, when practicable and consistent with other laws and requirements applicable to that

agency, shall endeavor to purchase electric energy from a non-federal person for consumption in Alaska by a facility of that agency when (taking into account the remaining useful life of any facility available to that agency to generate electric energy for that agency and the cost of maintaining the facility on a standby basis) the purchase will result in—

- (1) a savings to other consumers of electric energy sold by that non-federal person without increasing the cost incurred by any federal agency for electric energy; or
- (2) a cost savings to the federal agency purchasing the electric energy without increasing costs to other consumers of electric energy.

(Pub. L. 107-217, Aug. 21, 2002, 116 Stat. 1289.)

17903	40:795b.	Pub. L. 96-571, §4, Dec. 22, 1980, 94 Stat. 3342.

In this section, before clause (1), the words “electric energy” are substituted for “electric power” for consistency in the revised section.

§ 17904. Implementation powers and limitations

(a) ACCOMMODATION OF NEEDS FOR ELECTRIC ENERGY.—This chapter does not require or authorize a federal agency to construct a new electric generating facility or related facility, to modify an existing facility, or to employ reserve or standby equipment to accommodate the needs of a non-federal person for electric energy.

(b) AVAILABILITY OF REVENUE FROM SALES.—Revenue received by a federal agency pursuant to section 17902 of this title from the sale of electric energy generated from a facility of that agency is available to the agency without fiscal year limitation to purchase fuel and for operation, maintenance, and other costs associated with that facility.

(c) EXERCISE OF AUTHORITIES.—The authority under this chapter shall be exercised for those periods and pursuant to terms and conditions that the head of the federal agency concerned decides are necessary consistent with—

- (1) this chapter; and
- (2) responsibilities of the head of the federal agency under other law.

(d) NEGOTIATION AND EXECUTION OF CONTRACTS AND OTHER AGREEMENTS.—A contract or other agreement executed under this chapter shall be negotiated and executed by the head of the federal agency selling or purchasing electric energy under this chapter.

(Pub. L. 107-217, Aug. 21, 2002, 116 Stat. 1290.)

17904	40:795c.	Pub. L. 96-571, §5, Dec. 22, 1980, 94 Stat. 3342.

In subsection (a), the words “federal agency” are substituted for “department, agency, or instrumentality of the United States Government” because of the definition of “federal agency” in section 17901 of this title.

In subsection (d), the words “notwithstanding any other provision of law” are omitted as unnecessary.

CHAPTER 181—TELECOMMUNICATIONS ACCESSIBILITY FOR HEARING-IMPAIRED AND SPEECH-IMPAIRED INDIVIDUALS

- Sec. 18101. Definitions.
- 18102. Federal telecommunications system.
- 18103. Research and development.
- 18104. TTY installation by Congress.

§ 18101. Definitions

In this chapter—

- (1) FEDERAL AGENCY.—The term “federal agency” has the same meaning given that term in section 102 of this title.
- (2) TTY.—The term “TTY” means a text-telephone used in the transmission of coded signals through the nationwide telecommunications system.

§ 18102. Federal telecommunications system

(a) REGULATIONS TO ENSURE ACCESSIBILITY.—The Administrator of General Services, after consultation with the Architectural and Transportation Barriers Compliance Board, the Inter-agency Committee on Computer Support of Handicapped Employees, the Federal Communications Commission, and affected federal agencies, shall prescribe regulations to ensure that the federal telecommunications system is fully accessible to hearing-impaired and speech-impaired individuals, including federal employees, for communications with and within federal agencies.

(b) FEDERAL RELAY SYSTEM.—The Administrator shall provide for the continuation of the existing federal relay system for users of TTY’s.

(c) DIRECTORY.—The Administrator shall assemble, publish, and maintain a directory of TTY’s and other devices used by federal agencies to comply with regulations prescribed under subsection (a).

(d) PUBLICATION OF ACCESS NUMBERS.—The Administrator shall publish access numbers of TTY’s and such other devices in federal agency directories.

(e) LOGO.—After consultation with the Board, the Administrator shall adopt the design of a standard logo to signify the presence of a TTY or other device used by a federal agency to comply with regulations prescribed under subsection (a).
