## REFERENCES IN TEXT

This chapter, referred to in subsec. (c), was in the original "this Act", meaning Pub. L. 91-648, Jan. 5, 1971, 84 Stat. 1909, as amended, known as the Intergovernmental Personnel Act of 1970, which enacted this chapter and sections 3371 to 3376 of Title 5, Government Organization and Employees, amended section 246(f) of this title, section 1304 of Title 5, repealed sections 1881 to 1888 of Title 7, Agriculture, and section 869b of Title 20, Education, and enacted provisions set out as notes under section 3371 of Title 5. For complete classification of this Act to the Code, see Short Title note set out section 4701 of this title and Tables.

## TRANSFER OF FUNCTIONS

"Office", meaning Office of Personnel Management, substituted for "Commission", meaning Civil Service Commission, in subsec. (c) pursuant to Reorg. Plan No. 2 of 1978, §102, 43 F.R. 36037, 92 Stat. 3783, set out under section 1101 of Title 5, Government Organization and Employees, which transferred functions vested by statute in Civil Service Commission and Chairman thereof to Director of Office of Personnel Management (except as otherwise specified), effective Jan. 1, 1979, as provided by section 1-102 of Ex. Ord. No. 12107, Dec. 28, 1978, 44 F.R. 1055, set out under section 1101 of Title 5.

**§ 4743. Grants to State and local governments for training****(a) Amount of grants; executive certification; use restrictions; uses for non-Federal share; personnel training and education programs; innovation and diversity in development and execution**

If in its judgment training is not adequately provided for under grant-in-aid or other statutes, the Office is authorized to make grants to State and general local governments for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs, on the certification of the Governor of that State, or the mayor or chief executive officer of the general local government, that the programs are consistent with the applicable principles set forth in clauses (1)-(6) of the third paragraph of section 4701 of this title, to train and educate their professional, administrative, and technical employees and officials. Such grants may not be used to cover costs of full-time graduate-level study, provided for in section 4745 of this title, or the costs of the construction or acquisition of training facilities. The State and local government share of the cost of developing and carrying out training and education plans and programs may include, but shall not consist solely of, the reasonable value of facilities and of su-

pervisory and other personal services made available by such governments. The authority provided by this section shall be employed in such a manner as to encourage innovation and allow for diversity on the part of State and local governments in developing and carrying out training and education programs for their personnel.

**(b) Application; time of making; information; terms and conditions; waiver; development costs**

An application for a grant from a State or general local government shall be made at such time or times, and shall contain such information, as the Office may prescribe. The Office may make a grant under subsection (a) of this section, only if the application therefor meets requirements established by this subsection unless any requirement is specifically waived by the Office. Such grant to a State, or to a general local government under subsection (c) of this section, may cover the costs of developing the program covered by the application. The program covered by the application shall—

(1) provide for designation, by the Governor or chief executive authority, of the State office that will have primary authority and responsibility for the development and administration of the program at the State level;

(2) provide, to the extent feasible, for coordination with relevant training available under or supported by other Federal Government programs or grants;

(3) provide for training needs of the State government and of local governments in that State;

(4) provide, to the extent feasible, for intergovernmental cooperation in employee training matters, especially within metropolitan or regional areas; and

(5) provide assurance that the making of a Federal Government grant will not result in a reduction in relevant State or local government expenditures or the substitution of Federal funds for State or local funds previously made available for these purposes.

**(c) Population served; amount of grants; executive certification; State grant, conditions; terms and conditions; waiver**

A grant authorized by subsection (a) of this section may be made to a general local government, or a combination of such governments, that serve a population of fifty thousand or more, for up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, for up to 50 per centum) of the costs of developing and carrying out programs or projects, on the certification of the mayor(s), or chief executive officer(s), of the general local government or combination of local governments that the programs or projects are consistent with the applicable principles set forth in clauses (1)-(6) of the third paragraph of section 4701 of this title to train and educate their professional, administrative, and technical employees and officials. Such a grant may not be made—

(1) if, at the time of submission of an application, the State concerned has an approved

plan which, with the agreement of the particular local government concerned, provides for strengthening one or more aspects of training in that local government, unless the local government concerned has problems which are not met by the previously approved plan and for which, with the agreement of the State government concerned with respect to those aspects of training covered in the approved plan, it is submitting an application; or

(2) after the State concerned has a statewide plan which has been developed by an appropriate State agency designated or established pursuant to State law which provides such agency with adequate authority, administrative organization, and staffing to develop and administer such a statewide plan, and to provide technical assistance and other appropriate support in carrying out the local components of the plan, and which provides procedures insuring adequate involvement of officials of affected local governments in the development and administration of such a statewide plan, unless the local government concerned has special, unique, or urgent problems which are not met by the approved statewide plan and for which it submits an application for funds to be distributed under section 4766(a) of this title.

Upon the request of a Governor or chief executive authority, a grant to a general local government or combination of such governments in that State may not be made during a period not to exceed ninety days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later: *Provided*, That the request of the Governor or chief executive authority indicates that he is developing a plan under (1) above, or during a period not to exceed one hundred and eighty days commencing with the date provided in section 4772 of this title, or the date on which official regulations for this chapter are promulgated, whichever date is later, provided the request of the Governor or chief executive authority indicates that he is developing a statewide plan under (2) above. To be approved, an application for a grant under this subsection must meet requirements similar to those established in subsection (b) of this section for State applications, unless any such requirement is specifically waived by the Office, and the requirements of subsection (d) of this section. The Office may make grants to general local governments, or combinations of such governments that serve a population of less than fifty thousand if it finds that such grants will help meet essential needs in programs or projects of national interest and will assist general local governments experiencing special needs for personnel training and education related to such programs or projects.

**(d) Gubernatorial review of application; disapproval explanation**

An application to be submitted to the Office under subsection (c) of this section shall first be submitted by the general local government or combination of such governments to the Governor for review, comments, and recommendations. The Governor may refer the application

to the State office designated under subsection (b)(1) of this section for review. Comments and recommendations (if any) made as a result of the review and a statement by the general local government or combination of such governments that it has considered the comments and recommendations of the Governor shall accompany the application to the Office. The application need not be accompanied by the comments and recommendations of the Governor if the general local government or combination of such governments certifies to the Office that the application has been before the Governor for review and comment for a period of sixty days without comment by the Governor. An explanation in writing shall be sent to the Governor of a State by the Office whenever the Office does not concur with recommendations of the Governor in approving any local government applications.

**§ 4744. Grants to other organizations**

**(a) Amount of grants; conditions**

The Office is authorized to make grants to other organizations to pay up to 75 per centum (or, with respect to fiscal years commencing after the expiration of three years following the effective date of the grant provisions of this chapter, up to 50 per centum) of the costs of providing training to professional, administrative, or technical employees and officials of State or local governments if the Office—

(1) finds that State or local governments have requested the proposed program;

(2) determines that the capability to provide such training does not exist, or is not readily available, within the Federal or the State or local governments requesting such program or within associations of State or local governments, or if such capability does exist that such government or association is not disposed to provide such training; and

(3) approves the program as meeting such requirements as may be prescribed by the Office in its regulations pursuant to this chapter.
