

and stolen vessel tracking, this fee is designed as a maintenance charge to owners for this service. The collection of the annual fee may be delayed by the Secretary, and an agency, State, or person may be employed to collect the fee under subsection (c). The Committee expects that the Secretary will make agreements with States to collect this fee at the time of vessel registrations. The term of these registrations varies from one to three years as permitted by chapter 123 of title 46.

Under subsection (d) of this section, if a State is employed to collect the fee, the State may retain one-half of the amounts collected, and must transfer the remainder to the Secretary. The amounts retained by a State may be used to cover the costs of making vessel identification information available to the Secretary. This includes upgrading or establishing titling systems as well as making improvements and other changes to vessel numbering systems to make information available. Because States are allowed to make improvements to their vessel titling and numbering systems with the amounts retained under this section, the costs of those programs may decrease. This could result in a corresponding decrease in State numbering fees and offset vessel identification system fees paid by vessel owners.
