

and (2) to avoid repeating the substance of the definition twice in the section.

In subsection (b), the words “Notwithstanding any other provision of law” and “directly or by way of a foreign port” are omitted as unnecessary.

§ 55105. Transportation of hazardous waste

(a) IN GENERAL.—The transportation of hazardous waste, as defined in section 1004(5) of the Resource Conservation and Recovery Act of 1976 (42 U.S.C. 6903(5)), from a point in the United States to sea for incineration is deemed to be transportation of merchandise under section 55102 of this title.

(b) NONAPPLICATION TO CERTAIN FOREIGN VESSELS.—

(1) IN GENERAL.—Subsection (a) does not apply to transportation performed by a foreign ocean incineration vessel owned by or under construction on May 1, 1982, for a corporation wholly owned by citizens of the United States under section 50501(a)–(c) of this title.

(2) STANDARDS FOR INCINERATION EQUIPMENT.—Incineration equipment on a vessel described in paragraph (1) must meet standards of the Coast Guard and the Environmental Protection Agency.

(3) INSPECTION.—A vessel described in paragraph (1) shall be inspected by the Coast Guard, regardless of whether inspected by the nation in which it is registered. The inspection shall be the same as would be required of a vessel of the United States, including dry-dock inspection and internal examination of tanks and void spaces. The inspection may be made concurrently with an inspection by that nation or within one year after the initial issuance or next scheduled issuance of the Safety of Life at Sea Safety Construction Certificate. In making the inspection, the Coast Guard shall refer to the condition of the hull and superstructure established by the initial foreign certification as the basis for evaluating the current condition of the hull and superstructure. The Coast Guard shall allow the substitution of fittings, material, apparatus, equipment, and appliances different from those required for vessels of the United States if satisfied they are equivalent and at least as effective as those required for vessels of the United States. A satisfactory inspection under this paragraph shall be certified in writing by the Secretary of Homeland Security.

(c) EFFECTIVE DATE.—Subsection (a) is not effective until an appropriate vessel has been built and documented under chapter 121 of this title.

Subsec. (b)(3). Pub. L. 110–181, §3525(a)(4), incorporated the substance of the amendment by Pub. 2006—Pub. L. 109–241, §902(o), which directed the amendment of section 883 of the former Appendix to this title from which this section was derived, was repealed by Pub. L. 110–181, §3525(b). See 2008 Amendment note for subsec. (b)(3) and Historical and Revision notes above.

§ 55106. Merchandise transferred between barges

(a) IN GENERAL.—On terms and conditions the Secretary of Homeland Security may prescribe by regulation, the Secretary may suspend the application of section 55102 of this title to the transportation of merchandise that is transferred, when moving in the foreign trade of the United States, from a barge certified by the owner or operator as designed specifically for carriage on a vessel and carried regularly on a vessel in foreign trade, to another such barge owned or leased by the same owner or operator. However, this subsection does not apply to transportation between the continental United States and noncontiguous States, territories, or possessions to which the coastwise laws apply.

(b) RECIPROCITY REQUIREMENT FOR FOREIGN VESSELS.—This section applies to a vessel of foreign registry only if the Secretary of Homeland Security finds, based on information from the Secretary of State, that the government of the nation of registry extends reciprocal privileges to vessels of the United States.

§ 55108. Platform jackets

(a) DEFINITIONS.—In this section:

(1) COASTWISE QUALIFIED VESSEL.—The term “coastwise qualified vessel” means a vessel that has been issued a certificate of docu-

mentation with a coastwise endorsement under chapter 121 of this title.

(2) PLATFORM JACKET.—The term “platform jacket” refers to a single physical component and includes any type of offshore exploration, development, or production structure or component thereof, including—

(c) PROCEDURES TO MAXIMIZE USE OF COASTWISE QUALIFIED VESSELS.—The Secretary of Transportation shall adopt procedures implementing this section that are reasonably designed to provide timely information so as to maximize the use of coastwise qualified vessels.
