(B) activate and conduct sea trials on each vessel at a frequency that is considered by the Secretary to be necessary;

(C) maintain and adequately crew, as necessary, in an enhanced readiness status those vessels that are scheduled to be activated in 5 or less days;

(D) locate those vessels that are scheduled to be activated near embarkation ports specified for those vessels; and

(E) notwithstanding section 2109 of title 46, United States Code, have each vessel inspected by the Secretary of the department in which the Coast Guard is operating to determine if the vessel meets the safety standards that would apply under part B of subtitle II of that title if the vessel were not a public vessel.

(2) Vessel managers

(A) Eligibility for contract

A person, including a shipyard, is eligible for a contract for the management of a vessel in the Ready Reserve Force if the Secretary determines, at a minimum, that the person has—

(i) experience in the operation of commercial-type vessels or public vessels owned by the United States Government; and

(ii) the management capability necessary to operate, maintain, and activate the vessel at a reasonable price.

(B) Contract requirement

The Secretary of Transportation shall include in each contract for the management of a vessel in the Ready Reserve Force a requirement that each seaman who performs services on any vessel covered by the contract hold the license or merchant mariner's document that would be required under chapter 71 or chapter 73 of title 46, United States Code, for a seaman performing that service while operating the vessel if the vessel were not a public vessel.

(1) Application of limitation

The provisions of section 7310 of title 10, United States Code, shall apply to vessels specified in subsection (b), and to the Secretary of Transportation with respect to those vessels, in the same manner as those provisions apply to vessels specified in subsection (b) of such section, and to the Secretary of the Navy, respectively.

(2) Covered vessels

Vessels specified in this paragraph are vessels maintained by the Secretary of Transpor-

tation in support of the Department of Defense, including any vessel assigned by the Secretary of Transportation to the Ready Reserve Force that is owned by the United States.

(e) Exemption from tank vessel construction standards

Vessels in the National Defense Reserve Fleet are exempt from the provisions of section 3703a of title 46, United States Code.

(f) Use of NDRF vessels for civil contingency operations and promotional and media events

With the concurrence of the Secretary of Defense, the Secretary of Transportation may allow the use of vessels in the National Defense Reserve Fleet (NDRF) for civil contingency operations requested by another Federal agency, and for Maritime Administration promotional and media events relating to demonstration projects and research and development supporting the Administration's mission, if the Secretary of Transportation determines such use is in the best interest of the Government after considering the following factors:

(1) Availability

The availability of NDRF or Ready Reserve Force (RRF) resources and the impact of such use on NDRF and RRF mission support to the defense and homeland security requirements of the Government.

(2) Interference

Whether the such¹ use of vessels will support the mission of the Maritime Administration and not significantly interfere with NDRF vessel maintenance, repair, safety, readiness, and resource availability.

(3) Safety

Whether safety precautions will be taken, including indemnification of liability when applicable.

(4) Cost

Whether any costs incurred by such use will be funded as a reimbursable transaction between Federal agencies, as applicable.
