AMENDMENTS

1997—Pub. L. 105-85, div. A, title III, § 371(c)(4), Nov. 18, 1997, 111 Stat. 1705, renumbered item 2491 as 2500.

§ 2500. Definitions

In this chapter:

(1) The term “national technology and industrial base” means the persons and organizations that are engaged in research, development, production, integration, services, or information technology activities conducted within the United States and Canada.

(2) The term “dual-use” with respect to products, services, standards, processes, or acquisition practices, means products, services, standards, processes, or acquisition practices, respectively, that are capable of meeting requirements for military and nonmilitary applications.

(3) The term “dual-use critical technology” means a critical technology that has military applications and nonmilitary applications.

(4) The term “technology and industrial base sector” means a group of public or private persons and organizations that engage in, or are capable of engaging in, similar research, development, production, integration, services, or information technology activities.

(5) The terms “Federal laboratory” and “laboratory” have the meaning given the term “laboratory” in section 12(d)(2) of the Stevenson-Wydler Technology Innovation Act of 1980 (15 U.S.C. 3710a(d)(2)), except that such terms include a federally funded research and development center sponsored by a Federal agency.

(6) The term “critical technology” means a technology that is—

- (A) a national critical technology; or
- (B) a defense critical technology.

(7) The term “national critical technology” means a technology that appears on the list of national critical technologies contained in the most recent biennial report on national critical technologies submitted to Congress by the President pursuant to section 603(d)¹ of the National Science and Technology Policy, Organization, and Priorities Act of 1976 (42 U.S.C. 6683(d)).

(8) The term “defense critical technology” means a technology that is identified under section 2505 of this title as critical for attaining the national security objectives set forth in section 2501(a) of this title.

(9) The term “eligible firm” means a company or other business entity that, as determined by the Secretary of Commerce—

(A) conducts a significant level of its research, development, engineering, manufacturing, integration, services, and information technology activities in the United States; and

(B) is a company or other business entity the majority ownership or control of which is by United States citizens or is a company or other business of a parent company that is incorporated in a country the government of which—

(i) encourages the participation of firms so owned or controlled in research and development consortia to which the government of that country provides funding directly or provides funding indirectly through international organizations or agreements; and

(ii) affords adequate and effective protection for the intellectual property rights of companies incorporated in the United States.

Such term includes a consortium of such companies or other business entities, as determined by the Secretary of Commerce.

(10) The term “manufacturing technology” means techniques and processes designed to improve manufacturing quality, productivity, and practices, including quality control, shop floor management, inventory management, and worker training, as well as manufacturing equipment and software.

(11) The term “Small Business Innovation Research Program” means the program established under the following provisions of section 9 of the Small Business Act (15 U.S.C. 638):

(A) Paragraphs (4) through (7) of subsection (b).

(B) Subsections (e) through (l).

(12) The term “Small Business Technology Transfer Program” means the program established under the following provisions of such section:

(A) Paragraphs (4) through (7) of subsection (b).

(B) Subsections (e) and (n) through (p).

(13) The term “significant equity percentage” means—

¹ See References in Text note below.

(A) a level of contribution and participation sufficient, when compared to the other non-Federal participants in the partnership or other cooperative arrangement involved, to demonstrate a comparable long-term financial commitment to the product or process development involved; and

(B) any other criteria the Secretary may consider necessary to ensure an appropriate equity mix among the participants.

(14) The term “person of a foreign country” has the meaning given such term in section 3502(d) of the Primary Dealers Act of 1988 (22 U.S.C. 5342(d)).

(15) The term “integration” means the process of providing systems engineering and technical direction for a system for the purpose of achieving capabilities that satisfy program requirements.

SHORT TITLE

Pub. L. 102-484, div. D, § 4001, Oct. 23, 1992, 106 Stat. 2658, provided that: “This division [div. D (§§ 4001-4501) of Pub. L. 102-484, see Tables for classification] may be cited as the ‘Defense Conversion, Reinvestment, and Transition Assistance Act of 1992.’”

APPLICATION OF 1993 AMENDMENTS TO EXISTING TECHNOLOGY REINVESTMENT PROJECTS

Amendment by section 1315(f) of Pub. L. 103-160 not to alter financial commitment requirements in effect on the day before Nov. 30, 1993, for non-Federal Government participants in a project funded under section 2511, 2512, 2513, 2523, or 2524 of this title, using funds appropriated for a fiscal year beginning before Oct. 1, 1993, see section 1315(g) of Pub. L. 103-160, set out as a note under section 2511 of this title.

CONGRESSIONAL FINDINGS

Pub. L. 102-484, div. D, title XLI, § 4101, Oct. 23, 1992, 106 Stat. 2658, provided that: “Congress makes the following findings:

“(1) The collapse of communism in Eastern Europe and the dissolution of the Soviet Union have fundamentally changed the military threat that formed the basis for the national security policy of the United States since the end of World War II.

“(2) The change in the military threat presents a unique opportunity to restructure and reduce the military requirements of the United States.

“(3) As the United States proceeds with the post-Cold War defense build down, the Nation must recognize and address the impact of reduced defense spending on the military personnel, civilian employees, and defense industry workers who have been the foundation of the national defense policies of the United States.

“(4) The defense build down will have a significant impact on communities as procurements are reduced and military installations are closed and realigned.

“(5) Despite the changes in the military threat, the United States must maintain the capability to respond to regional conflicts that threaten the national interests of the United States, and to reconstitute forces in the event of an extended conflict.

“(6) The skills and capabilities of military personnel, civilian employees of the Department of Defense, defense industry workers, and defense industries represent an invaluable national resource that can contribute to the economic growth of the United States and to the long-term vitality of the national technology and industrial base.

“(7) Prompt and vigorous implementation of defense conversion, reinvestment, and transition assistance programs is essential to ensure that the defense build down is structured in a manner that—

“(A) enhances the long-term ability of the United States to maintain a strong and vibrant national technology and industrial base; and

“(B) promotes economic growth.”

PURPOSES OF TITLE XLII OF PUB. L. 102-484

Pub. L. 102-484, div. D, title XLII, §4201, Oct. 23, 1992, 106 Stat. 2659, provided that: “The purposes of this title [see Tables for classification] are to consolidate, revise, clarify, and reenact policies and requirements, and to enact additional policies and requirements, relating to the national technology and industrial base, defense reinvestment, and defense conversion programs that further national security objectives.”

TRANSITION PROVISION; “DEFENSE CRITICAL TECHNOLOGY” DEFINED

Pub. L. 102-484, div. D, title XLII, §4203(b), Oct. 23, 1992, 106 Stat. 2662, provided that until first national technology and industrial base assessment was submitted to Congress by Secretary of Defense pursuant to former section 2506(e) of this title, the term “defense critical technology” for purposes of this chapter, would have meaning given such term in section 2521 of this title, as in effect on day before Oct. 23, 1992.

AMENDMENTS

2013—Pub. L. 112-239, div. A, title XVI, §1603(a)(2), Jan. 2, 2013, 126 Stat. 2063, substituted “National security strategy for national technology and industrial base” for “National security objectives concerning national technology and industrial base” in item 2501.

2011—Pub. L. 111-383, div. A, title VIII, §896(b)(2), Jan. 7, 2011, 124 Stat. 4316, which directed amendment of table of sections at the beginning of this chapter by adding item 2508 at the end, was executed by adding

item 2508 at the end of the table of sections at the beginning of this subchapter to reflect the probable intent of Congress.

1996—Pub. L. 104-201, div. A, title VIII, §829(g), Sept. 23, 1996, 110 Stat. 2614, added item 2504 and substituted “Department of Defense technology and industrial base policy guidance” for “National technology and industrial base: periodic defense capability plan” in item 2506.

Pub. L. 104-106, div. A, title X, §1081(i)(1), Feb. 10, 1996, 110 Stat. 455, substituted “National security objectives concerning national technology and industrial base” for “Congressional defense policy concerning national technology and industrial base, reinvestment, and conversion” in item 2501.

1993—Pub. L. 103-160, div. A, title XIII, §1312(a)(2), Nov. 30, 1993, 107 Stat. 1786, struck out item 2504 “Center for the Study of Defense Economic Adjustment”.

§ 2501. National security strategy for national technology and industrial base

(a) NATIONAL SECURITY STRATEGY FOR NATIONAL TECHNOLOGY AND INDUSTRIAL BASE.—The Secretary of Defense shall develop a national security strategy for the national technology and industrial base. Such strategy shall be based on a prioritized assessment of risks and challenges to the defense supply chain and shall ensure that the national technology and industrial base is capable of achieving the following national security objectives:

(1) Supplying, equipping, and supporting the force structure of the armed forces that is necessary to achieve—

(A) the objectives set forth in the national security strategy report submitted to Congress by the President pursuant to section 108 of the National Security Act of 1947 (50 U.S.C. 404a);¹

(B) the policy guidance of the Secretary of Defense provided pursuant to section 113(g) of this title; and

(C) the future-years defense program submitted to Congress by the Secretary of Defense pursuant to section 221 of this title.

(2) Sustaining production, maintenance, repair, logistics, and other activities in support of military operations of various durations and intensity.

(3) Maintaining advanced research and development activities to provide the armed forces with systems capable of ensuring technological superiority over potential adversaries.

(4) Reconstituting within a reasonable period the capability to develop, produce, and support supplies and equipment, including technologically advanced systems, in sufficient quantities to prepare fully for a war, national emergency, or mobilization of the armed forces before the commencement of that war, national emergency, or mobilization.

(5) Providing for the development, manufacture, and supply of items and technologies critical to the production and sustainment of advanced military weapon systems within the national technology and industrial base.

(6) Providing for the generation of services capabilities that are not core functions of the armed forces and that are critical to military
