

active list of the Navy in the Medical Corps” are substituted for the words “A surgeon, assistant surgeon, or passed assistant surgeon” to conform to present statutory terminology and to describe clearly the class of officers eligible for detail under this subsection. When the source statute was enacted there was no class of officers exactly corresponding to officers of the present Naval Reserve, and retired officers could be called to active duty only in time of war, so that the detailing of an officer not on the active list as assistant to the bureau chief was probably not contemplated. Further, since the assistant or deputy must at times perform the duties of the chief, it is reasonable to assume that he was intended to be in the same category of officers. Later statutes relating to the Assistant Chiefs of the Bureau of Aeronautics and the Bureau of Ships, enacted at a time when there were Reserve officers and when retired officers could be called to duty at any time with their consent, specify that the assistant chiefs shall be officers on the active list.
