

(2) in the case of any public building constructed before 1978, commercial building, bridge, or other structure or superstructure, identification of lead-based paint and materials containing lead-based paint, deleading, removal of lead from bridges, and demolition.

For purposes of paragraph (2), the term “deleading” means activities conducted by a person who offers to eliminate lead-based paint or lead-based paint hazards or to plan such activities.

**(c) Renovation and remodeling**

**(1) Guidelines**

In order to reduce the risk of exposure to lead in connection with renovation and remodeling of target housing, public buildings constructed before 1978, and commercial buildings, the Administrator shall, within 18 months after October 28, 1992, promulgate guidelines for the conduct of such renovation and remodeling activities which may create a risk of exposure to dangerous levels of lead. The Administrator shall disseminate such guidelines to persons engaged in such renovation and remodeling through hardware and paint stores, employee organizations, trade groups, State and local agencies, and through other appropriate means.

**(2) Study of certification**

The Administrator shall conduct a study of the extent to which persons engaged in various types of renovation and remodeling activities in target housing, public buildings constructed before 1978, and commercial buildings are exposed to lead in the conduct of such activities or disturb lead and create a lead-based paint hazard on a regular or occasional basis. The Administrator shall complete such study and publish the results thereof within 30 months after October 28, 1992.

**(3) Certification determination**

Within 4 years after October 28, 1992, the Administrator shall revise the regulations under subsection (a) of this section to apply the regulations to renovation or remodeling activities in target housing, public buildings constructed before 1978, and commercial buildings that create lead-based paint hazards. In determining which contractors are engaged in such activities, the Administrator shall utilize the results of the study under paragraph (2) and consult with the representatives of labor organizations, lead-based paint activities contractors, persons engaged in remodeling and renovation, experts in lead health effects, and others. If the Administrator determines that any category of contractors engaged in renovation or remodeling does not require certification, the Administrator shall publish an explanation of the basis for that determination.

(Pub. L. 94-469, title IV, §402, as added Pub. L. 102-550, title X, §1021(a), Oct. 28, 1992, 106 Stat. 3914.)

**§ 2683. Identification of dangerous levels of lead**

Within 18 months after October 28, 1992, the Administrator shall promulgate regulations which shall identify, for purposes of this sub-

chapter and the Residential Lead-Based Paint Hazard Reduction Act of 1992 [42 U.S.C. 4851 et seq.], lead-based paint hazards, lead-contaminated dust, and lead-contaminated soil.

(Pub. L. 94-469, title IV, §403, as added Pub. L. 102-550, title X, §1021(a), Oct. 28, 1992, 106 Stat. 3916.)

REFERENCES IN TEXT

The Residential Lead-Based Paint Hazard Reduction Act of 1992, referred to in text, is title X of Pub. L. 102-550, Oct. 28, 1992, 106 Stat. 3897, which is classified principally to chapter 63A (§4851 et seq.) of Title 42, The Public Health and Welfare. For complete classification of this Act to the Code, see Short Title note set out under section 4851 of Title 42 and Tables.

**§ 2684. Authorized State programs**

**(a) Approval**

Any State which seeks to administer and enforce the standards, regulations, or other requirements established under section 2682 or 2686 of this title, or both, may, after notice and opportunity for public hearing, develop and submit to the Administrator an application, in such form as the Administrator shall require, for authorization of such a State program. Any such State may also certify to the Administrator at the time of submitting such program that the State program meets the requirements of paragraphs (1) and (2) of subsection (b) of this section. Upon submission of such certification, the State program shall be deemed to be authorized under this section, and shall apply in such State in lieu of the corresponding Federal program under section 2682 or 2686 of this title, or both, as the case may be, until such time as the Administrator disapproves the program or withdraws the authorization.

**(b) Approval or disapproval**

Within 180 days following submission of an application under subsection (a) of this section, the Administrator shall approve or disapprove the application. The Administrator may approve the application only if, after notice and after opportunity for public hearing, the Administrator finds that—

(1) the State program is at least as protective of human health and the environment as the Federal program under section 2682 or 2686 of this title, or both, as the case may be, and

(2) such State program provides adequate enforcement.

Upon authorization of a State program under this section, it shall be unlawful for any person to violate or fail or refuse to comply with any requirement of such program.

**(c) Withdrawal of authorization**

If a State is not administering and enforcing a program authorized under this section in compliance with standards, regulations, and other requirements of this subchapter, the Administrator shall so notify the State and, if corrective action is not completed within a reasonable time, not to exceed 180 days, the Administrator shall withdraw authorization of such program and establish a Federal program pursuant to this subchapter.
