If any such new project referred to in subsection (a) of this section will create a direct, physical, adverse effect on access to the recreation area immediately downstream of the Summersville Dam during or after project construction, including vehicle parking, related facilities, and river access for whitewater recreation and other recreational use of the recreation area, the department, agency, instrumentality or person constructing such project shall replace and enhance the adversely affected facilities in such manner as may be appropriate to accommodate visitation, as determined by the Secretary.
