

ation, maintenance, and replacement of recreation facilities result in an unfair burden, especially in cases where the facilities are old or underdesigned.

(4) Provisions of such Act that limit the Federal share of recreation facility development at water projects completed before 1965 to \$100,000 preclude a responsible Federal share in providing adequate opportunities for safe outdoor recreation.

(5) There should be Federal authority to expand existing recreation facilities to meet public demand, in partnership with non-Federal interests.

(6) Nothing in this part changes the responsibility of the Bureau to meet the purposes for which Federal Reclamation projects were initially authorized and constructed.

(7) It is therefore in the best interest of the people of this Nation to amend the Federal Water Project Recreation Act [16 U.S.C. 4601-12 et seq.] to remove outdated restrictions and authorize the Secretary of the Interior to undertake specific measures for the management of Reclamation lands.
