CODIFICATION

Section was enacted as part of the Coast Guard and Maritime Transportation Act of 2004, and not as part of the Magnuson-Stevens Fishery Conservation and Management Act which comprises this chapter.

§ 1862. North Pacific fisheries conservation

(a) In general

The North Pacific Council may prepare, in consultation with the Secretary, a fisheries research plan for any fishery under the Council’s jurisdiction except a salmon fishery which—

(1) requires that observers be stationed on fishing vessels engaged in the catching, taking, or harvesting of fish and on United States fish processors fishing for or processing species under the jurisdiction of the Council, including the Northern Pacific halibut fishery, for the purpose of collecting data necessary for the conservation, management, and scientific understanding of any fisheries under the Council’s jurisdiction; and

(2) establishes a system, or system,¹ of fees, which may vary by fishery, management area, or observer coverage level, to pay for the cost of implementing the plan.

(b) Standards

(1) Any plan or plan amendment prepared under this section shall be reasonably calculated to—

(A) gather reliable data, by stationing observers on all or a statistically reliable sample of the fishing vessels and United States fish processors included in the plan, necessary for the conservation, management, and scientific understanding of the fisheries covered by the plan;

(B) be fair and equitable to all vessels and processors;

(C) be consistent with applicable provisions of law; and

(D) take into consideration the operating requirements of the fisheries and the safety of observers and fishermen.

(2) Any system of fees established under this section shall—

(A) provide that the total amount of fees collected under this section not exceed the combined cost of (i) stationing observers, or

¹ So in original.
