- (1) establish separate quotas for recreational fishing (which, for the purposes of this subsection shall include charter fishing) and commercial fishing that, when reached, result in a prohibition on the retention of fish caught during recreational fishing and commercial fishing, respectively, for the remainder of the fishing year; and
- (2) ensure that such quotas reflect allocations among such sectors and do not reflect any harvests in excess of such allocations.

AMENDMENTS

2007—Subsecs. (a)(1)(D), (e)(1). Pub. L. 109-479 substituted "a limited access privilege" for "an individual fishing quota".

2000—Subsecs. (b), (c)(1). Pub. L. 106-554 substituted "October 1, 2002," for "October 1, 2000,".

§ 1884. Deep sea coral research and technology program

(a) In general

The Secretary, in consultation with appropriate regional fishery management councils and in coordination with other federal agencies and educational institutions, shall, subject to the availability of appropriations, establish a program—

- (1) to identify existing research on, and known locations of, deep sea corals and submit such information to the appropriate Councils;
- (2) to locate and map locations of deep sea corals and submit such information to the Councils:
- (3) to monitor activity in locations where deep sea corals are known or likely to occur, based on best scientific information available, including through underwater or remote sensing technologies and submit such information to the appropriate Councils;
- (4) to conduct research, including cooperative research with fishing industry participants, on deep sea corals and related species, and on survey methods:
- (5) to develop technologies or methods designed to assist fishing industry participants in reducing interactions between fishing gear and deep sea corals; and
- (6) to prioritize program activities in areas where deep sea corals are known to occur, and in areas where scientific modeling or other methods predict deep sea corals are likely to be present.

(b) Reporting

Beginning 1 year after January 12, 2007, the Secretary, in consultation with the Councils, shall submit biennial reports to Congress and the public on steps taken by the Secretary to identify, monitor, and protect deep sea coral areas, including summaries of the results of mapping, research, and data collection performed under the program.

(Pub. L. 94-265, title IV, §408, as added Pub. L. 109-479, title II, §211, Jan. 12, 2007, 120 Stat. 3618.)

§ 1891a. Community-based restoration program for fishery and coastal habitats

(a) In general

The Secretary of Commerce shall establish a community-based fishery and coastal habitat restoration program to implement and support the restoration of fishery and coastal habitats.

(b) Authorized activities

In carrying out the program, the Secretary may—

- (1) provide funding and technical expertise to fishery and coastal communities to assist them in restoring fishery and coastal habitat;
- (2) advance the science and monitoring of coastal habitat restoration;
- (3) transfer restoration technologies to the private sector, the public, and other governmental agencies:
- (4) develop public-private partnerships to accomplish sound coastal restoration projects;
