

§ 3313. Grants for reports and plans for coordinated research, enforcement, etc.

The Secretary, in consultation with the Secretary of the Interior, is authorized to establish a program to provide grants to prepare reports and plans provided for in this subchapter and subchapter III of this chapter in order to promote coordinated research, enforcement, enhancement, and management of the salmon and steelhead resources within the Washington and Columbia River conservation areas consistent with the purposes of this chapter. Such grants shall be available for use by the State of Washington, the State of Oregon, appropriate tribal coordinating bodies, or any joint governmental entity established for undertaking research, or providing advice on or mechanisms for coordinating management or enforcement, or preparing the reports and plans described in this subchapter and subchapter III of this chapter.

(Pub. L. 96-561, title I, § 112, Dec. 22, 1980, 94 Stat. 3279.)

§ 3314. Discontinuance of funding

If the Secretary finds that as of the close of the 18th month after secretarial approval of the Commission report under section 3311(e) of this title, the number of parties which have adopted and implemented the Commission's management program in accordance with the provisions of this chapter and the report is insufficient to ensure that the management structure is effective and consistent with the standards and objectives in section 3311(c) of this title, he shall discontinue any further funding under this subchapter or subchapter III of this chapter.

(Pub. L. 96-561, title I, § 113, Dec. 22, 1980, 94 Stat. 3279.)

§ 3315. Authorization of appropriations

There are authorized to be appropriated to the Secretary for the purposes of carrying out the provisions of this subchapter in fiscal years commencing after September 30, 1981, an aggregate amount of \$3,000,000. Funds appropriated pursuant to this section remain available to the Secretary until expended.

SUBCHAPTER III—RESOURCE
ENHANCEMENT

§ 3321. Grants for projects under approved enhancement plans

(a) Authority

The Secretary of the Interior (hereinafter referred to in this subchapter as the "Secretary"), in consultation with the Secretary of Commerce, is authorized to establish a program to provide grants for projects for the enhancement of the salmon and steelhead resources of the Washington conservation area and the Columbia River conservation area.

(b) Plans

Any such project in the Washington conservation area must be in accordance with a compre-

hensive enhancement plan developed and agreed to by the State of Washington and the Washington tribal coordinating body within 18 months after December 22, 1980. Any enhancement project in the Columbia River conservation area must be in accordance with a comprehensive enhancement plan developed and agreed to by the State of Washington, the State of Oregon, and the Columbia River tribal coordinating body within 18 months after December 22, 1980. Such plans must be approved by the Secretary, in consultation with the Secretary of Commerce, as provided in this subchapter. The States shall solicit and consider the comments and views of interested commercial and recreational fishermen, and other interested parties, in developing the comprehensive enhancement plan.

(c) Scope

Each comprehensive enhancement plan, and any revisions, or modifications of such plan, shall describe all enhancement projects in the conservation area, and associated stocking policies (when relevant), including any related research necessary to such enhancement anticipated by the States and the treaty tribes (acting through the appropriate tribal coordinating body) for a period of at least 5 years.

(d) Standards

Each comprehensive enhancement plan shall include such standards, restrictions, or conditions as are necessary, to assure that any project included in the plans contributes to the balanced and integrated development of the salmon and steelhead resources of the area. Such standards shall include, but not be limited to, provisions designed to—

(1) assure that all commercial and recreational fishermen and the treaty tribes shall have a reasonable opportunity to participate in the benefits, considered as a whole, of the salmon and steelhead resources development;

(2) minimize, to the extent practicable, significant adverse interaction between naturally spawning and artificially¹ propagated stocks;

(3) ensure that all projects included within the plan are designed to complement the contribution of sound State, Federal, and tribal enhancement activities;

(4) ensure that all projects included within the plan are economically and biologically sound and supported by adequate scientific research;

(5) assure that all projects included within the plan achieve significant benefits relative to the overall cost of each such project;

(6) consider the effect of enhancement activities as they relate to existing and future international commitments; and

(7) notwithstanding any of the above measures, provide for the harvest of fish by treaty tribes in accordance with treaty rights, unless agreed otherwise by the affected treaty tribes.

(e) Approval

(1) The Secretary, in consultation with the Secretary of Commerce, shall review each comprehensive enhancement plan and approve such plan within 120 days of the date of its receipt, if

¹ So in original. Probably should be "artificially".
