

section (e)(2), the Secretary shall carry out a covered project in a manner that—

(A) focuses largely on small diameter trees, thinning, strategic fuel breaks, and prescribed fire to modify fire behavior, as measured by the projected reduction of uncharacteristically severe wildfire effects for the forest type (such as adverse soil impacts, tree mortality or other impacts); and

(B) maximizes the retention of large trees, as appropriate for the forest type, to the extent that the trees promote fire-resilient stands.

(2) Wildfire risk

Nothing in this subsection prevents achievement of the purposes described in section 6501(1) of this title.

(g) Monitoring and assessing forest and range-land health

(1) In general

For each Forest Service administrative region and each Bureau of Land Management State Office, the Secretary shall—

(A) monitor the results of a representative sample of the projects authorized under this subchapter for each management unit; and

(B) not later than 5 years after December 3, 2003, and each 5 years thereafter, issue a report that includes—

(i) an evaluation of the progress towards project goals; and

(ii) recommendations for modifications to the projects and management treatments.

(2) Consistency of projects with recommendations

An authorized hazardous fuel reduction project approved following the issuance of a monitoring report shall, to the maximum extent practicable, be consistent with any applicable recommendations in the report.

(3) Similar vegetation types

The results of a monitoring report shall be made available for use (if appropriate) in an authorized hazardous fuels reduction project conducted in a similar vegetation type on land under the jurisdiction of the Secretary.

(4) Monitoring and assessments

Monitoring and assessment shall include a description of the changes in condition class, using the Fire Regime Condition Class Guidebook or successor guidance, specifically comparing end results to—

(A) pretreatment conditions;

(B) historical fire regimes; and

(C) any applicable watershed or landscape goals or objectives in the resource management plan or other relevant direction.

(5) Multiparty monitoring

(A) In general

In an area where significant interest is expressed in multiparty monitoring, the Secretary shall establish a multiparty monitoring, evaluation, and accountability process in order to assess the positive or negative ecological and social effects of authorized

hazardous fuel reduction projects and projects conducted pursuant to section 6554 of this title.

(B) Diverse stakeholders

The Secretary shall include diverse stakeholders (including interested citizens and Indian tribes) in the process required under subparagraph (A).

(C) Funding

Funds to carry out this paragraph may be derived from operations funds for projects described in subparagraph (A).

(6) Collection of monitoring data

The Secretary may collect monitoring data by entering into cooperative agreements or contracts with, or providing grants to, small or micro-businesses, cooperatives, nonprofit organizations, Youth Conservation Corps work crews, or related State, local, and other non-Federal conservation corps.

(7) Tracking

For each administrative unit, the Secretary shall track acres burned, by the degree of severity, by large wildfires (as defined by the Secretary).

(8) Monitoring and maintenance of treated areas

The Secretary shall, to the maximum extent practicable, develop a process for monitoring the need for maintenance of treated areas, over time, in order to preserve the forest health benefits achieved.

(Pub. L. 108-148, title I, §102, Dec. 3, 2003, 117 Stat. 1892.)

§ 6513. Prioritization

(a) In general

In accordance with the Implementation Plan, the Secretary shall develop an annual program of work for Federal land that gives priority to authorized hazardous fuel reduction projects that provide for the protection of at-risk communities or watersheds or that implement community wildfire protection plans.

(b) Collaboration

(1) In general

The Secretary shall consider recommendations under subsection (a) that are made by at-risk communities that have developed community wildfire protection plans.

(2) Exemption

The Federal Advisory Committee Act (5 U.S.C. App.) shall not apply to the planning process and recommendations concerning community wildfire protection plans.

(c) Administration

(1) In general

Federal agency involvement in developing a community wildfire protection plan, or a recommendation made in a community wildfire protection plan, shall not be considered a Federal agency action under the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(2) Compliance

In implementing authorized hazardous fuel reduction projects on Federal land, the Secretary shall, in accordance with section 6514 of this title, comply with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.).

(d) Funding allocation**(1) Federal land****(A) In general**

Subject to subparagraph (B), the Secretary shall use not less than 50 percent of the funds allocated for authorized hazardous fuel reduction projects in the wildland-urban interface.

(B) Applicability and allocation

The funding allocation in subparagraph (A) shall apply at the national level. The Secretary may allocate the proportion of funds differently than is required under subparagraph (A) within individual management units as appropriate, in particular to conduct authorized hazardous fuel reduction projects on land described in section 6512(a)(4) of this title.

(C) Wildland-urban interface

In the case of an authorized hazardous fuel reduction project for which a decision notice is issued during the 1-year period beginning on December 3, 2003, the Secretary shall use existing definitions of the term “wildland-urban interface” rather than the definition of that term provided under section 6511 of this title.

(2) Non-Federal land**(A) In general**

In providing financial assistance under any provision of law for hazardous fuel reduction projects on non-Federal land, the Secretary shall consider recommendations made by at-risk communities that have developed community wildfire protection plans.

(B) Priority

In allocating funding under this paragraph, the Secretary should, to the maximum extent practicable, give priority to communities that have adopted a community wildfire protection plan or have taken proactive measures to encourage willing property owners to reduce fire risk on private property.

(Pub. L. 108-148, title I, §103, Dec. 3, 2003, 117 Stat. 1896.)

REFERENCES IN TEXT

The Federal Advisory Committee Act, referred to in subsec. (b)(2), is Pub. L. 92-463, Oct. 6, 1972, 86 Stat. 770, as amended, which is set out in the Appendix to Title 5, Government Organization and Employees.

The National Environmental Policy Act of 1969, referred to in subsec. (c), is Pub. L. 91-190, Jan. 1, 1970, 83 Stat. 852, as amended, which is classified generally to chapter 55 (§ 4321 et seq.) of Title 42, The Public Health and Welfare. For complete classification of this Act to the Code, see Short Title note set out under section 4321 of Title 42 and Tables.

§ 6514. Environmental analysis**(a) Authorized hazardous fuel reduction projects**

Except as otherwise provided in this subchapter, the Secretary shall conduct authorized hazardous fuel reduction projects in accordance with—

- (1) the National Environmental Policy Act of 1969 [42 U.S.C. 4321 et seq.]; and
- (2) other applicable laws.

(b) Environmental assessment or environmental impact statement

The Secretary shall prepare an environmental assessment or an environmental impact statement pursuant to section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)) for each authorized hazardous fuel reduction project.

(c) Consideration of alternatives**(1) In general**

Except as provided in subsection (d), in the environmental assessment or environmental impact statement prepared under subsection (b), the Secretary shall study, develop, and describe—

- (A) the proposed agency action;
- (B) the alternative of no action; and
- (C) an additional action alternative, if the additional alternative—

(i) is proposed during scoping or the collaborative process under subsection (f); and

(ii) meets the purpose and need of the project, in accordance with regulations promulgated by the Council on Environmental Quality.

(2) Multiple additional alternatives

If more than 1 additional alternative is proposed under paragraph (1)(C), the Secretary shall—

(A) select which additional alternative to consider, which is a choice that is in the sole discretion of the Secretary; and

(B) provide a written record describing the reasons for the selection.

(d) Alternative analysis process for projects in wildland-urban interface**(1) Proposed agency action and 1 action alternative**

For an authorized hazardous fuel reduction project that is proposed to be conducted in the wildland-urban interface, the Secretary is not required to study, develop, or describe more than the proposed agency action and 1 action alternative in the environmental assessment or environmental impact statement prepared pursuant to section 102(2) of the National Environmental Policy Act of 1969 (42 U.S.C. 4332(2)).

(2) Proposed agency action

Notwithstanding paragraph (1), but subject to paragraph (3), if an authorized hazardous fuel reduction project proposed to be conducted in the wildland-urban interface is located no further than 1½ miles from the boundary of an at-risk community, the Secretary is not required to study, develop, or de-
