(4)(A) The Secretary shall conduct a study of the food service operations carried out under the program. Such study shall include, but shall not be limited to—

(i) an evaluation of meal quality as related to costs; and

(ii) a determination whether adjustments in the maximum reimbursement levels for food service operation costs prescribed in paragraph (1) of this subsection should be made, including whether different reimbursement levels should be established for self-prepared meals and vendored meals and which site-related costs, if any, should be considered as part of administrative costs.

(B) The Secretary shall also study the administrative costs of service institutions participating in the program and shall thereafter prescribe maximum allowable levels for administrative payments that reflect the costs of such service institutions, taking into account the number of sites and children served, and such other factors as the Secretary determines appropriate to further the goals of efficient and effective administration of the program.

(C) The Secretary shall report the results of such studies to Congress not later than December 1, 1977.

(c) Payments for meals served during May through September; exceptions for continuous school calendars or non-school sites; National Youth Sports Program

(1) Payments shall be made to service institutions only for meals served during the months of May through September, except in the case of service institutions that operate food service programs for children on school vacation at any time under a continuous school calendar or that provide meal service at non-school sites to children who are not in school for a period during the months of October through April due to a natural disaster, building repair, court order, or similar cause.

(2) Children participating in National Youth Sports Programs operated by higher education institutions shall be eligible to participate in the program under this paragraph on showing residence in areas in which poor economic conditions exist or on the basis of income eligibility statements for children enrolled in the program.

(d) Advance program payments to States for monthly meal service; letters of credit, forwarding to States; determination of amount; valid claims, receipt

Not later than April 15, May 15, and July 1 of each year, the Secretary shall forward to each State a letter of credit (advance program payment) that shall be available to each State for the payment of meals to be served in the month for which the letter of credit is issued. The

amount of the advance program payment shall be an amount which the State demonstrates, to the satisfaction of the Secretary, to be necessary for advance program payments to service institutions in accordance with subsection (e) of this section. The Secretary shall also forward such advance program payments, by the first day of the month prior to the month in which the program will be conducted, to States that operate the program in months other than May through September. The Secretary shall forward any remaining payments due pursuant to subsection (b) of this section not later than sixty days following receipt of valid claims therefor.

(e) Advance program payments to service institutions for monthly meal service; certification of personnel training sessions; minimum days per month operations requirement; payments: computation, limitation; valid claims, receipt; withholding; demand for repayment; subtraction of disputed payments

(1) Not later than June 1, July 15, and August 15 of each year, or, in the case of service institutions that operate under a continuous school calendar, the first day of each month of operation, the State shall forward advance program payments to each service institution. The State shall not release the second month's advance program payment to any service institution (excluding a school) that has not certified that it has held training sessions for its own personnel and the site personnel with regard to program duties and responsibilities. No advance program payment may be made for any month in which the service institution will operate under the program for less than ten days.

(2) The amount of the advance program payment for any month in the case of any service institution shall be an amount equal to (A) the total program payment for meals served by such service institution in the same calendar month of the preceding calendar year, (B) 50 percent of the amount established by the State to be needed by such service institution for meals if such service institution contracts with a food service management company, or (C) 65 percent of the amount established by the State to be needed by such service institution for meals if such service institution prepares its own meals, whichever amount is greatest: *Provided*, That the advance program payment may not exceed the total amount estimated by the State to be needed by such service institution for meals to be served in the month for which such advance program payment is made or \$40,000, whichever is less, except that a State may make a larger advance program payment to such service institution where the State determines that such larger payment is necessary for the operation of the program by such service institution and sufficient administrative and management capability to justify a larger payment is demonstrated. The State shall forward any remaining payment due a service institution not later than seventy-five days following receipt of valid claims. If the State has reason to believe that a service institution will not be able to submit a valid claim for reimbursement covering the period for which an advance program payment has been made, the subsequent month's advance program payment

shall be withheld until such time as the State has received a valid claim. Program payments advanced to service institutions that are not subsequently deducted from a valid claim for reimbursement shall be repaid upon demand by the State. Any prior payment that is under dispute may be subtracted from an advance program payment.

(f) Nutritional standards

(1) Service institutions receiving funds under this section shall serve meals consisting of a combination of foods and meeting minimum nutritional standards prescribed by the Secretary on the basis of tested nutritional research.

(3) Meals described in paragraph (1) shall be served without cost to children attending service institutions approved for operation under this section, except that, in the case of camps, charges may be made for meals served to children other than those who meet the eligibility requirements for free or reduced price meals in accordance with subsection (a)(5) of this section.

(4) To assure meal quality, States shall, with the assistance of the Secretary, prescribe model meal specifications and model food quality standards, and ensure that all service institutions contracting for the preparation of meals with food service management companies include in their contracts menu cycles, local food safety standards, and food quality standards approved by the State.

(5) Such contracts shall require (A) periodic inspections, by an independent agency or the local health department for the locality in which the meals are served, of meals prepared in accordance with the contract in order to determine bacteria levels present in such meals, and (B) conformance with standards set by local health authorities.

(6) Such inspections and any testing resulting therefrom shall be in accordance with the practices employed by such local health authority.

(7) OFFER VERSUS SERVE.—A school food authority participating as a service institution may permit a child to refuse one or more items of a meal that the child does not intend to consume, under rules that the school uses for school meals programs. A refusal of an offered food item shall not affect the amount of payments made under this section to a school for the meal.

(g) Regulations, guidelines, applications, and handbooks; publication; startup costs

The Secretary shall publish proposed regulations relating to the implementation of the program by November 1 of each fiscal year, final regulations by January 1 of each fiscal year, and guidelines, applications, and handbooks by February 1 of each fiscal year. In order to improve program planning, the Secretary may provide that service institutions be paid as startup costs not to exceed 20 percent of the administrative funds provided for in the administrative budget

approved by the State under subsection (b)(3) of this section. Any payments made for startup costs shall be subtracted from amounts otherwise payable for administrative costs subsequently made to service institutions under subsection (b)(3) of this section.

(h) Direct disbursement to service institutions by Secretary

Each service institution shall, insofar as practicable, use in its food service under the program foods designated from time to time by the Secretary as being in abundance. The Secretary is authorized to donate to States, for distribution to service institutions, food available under section 1431 of title 7, or purchased under section 612c of title 7 or section 1446a-1 of title 7. Donated foods may be distributed only to service institutions that can use commodities efficiently and effectively, as determined by the Secretary.

(k) Administrative costs of State; payment; adjustment; standards and effective dates, establishment; funds: withholding, inspection

(1) The Secretary shall pay to each State for its administrative costs incurred under this section in any fiscal year an amount equal to (A) 20 percent of the first \$50,000 in funds distributed to that State for the program in the preceding fiscal year; (B) 10 percent of the next \$100,000 distributed to that State for the program in the preceding fiscal year; (C) 5 percent of the next \$250,000 in funds distributed to that State for the program in the preceding fiscal year; and (D) 2½ percent of any remaining funds distributed to that State for the program in the preceding fiscal year: *Provided*, That such amounts may be adjusted by the Secretary to reflect changes in the size of that State's program since the preceding fiscal year.

(2) The Secretary shall establish standards and effective dates for the proper, efficient, and effective administration of the program by the State. If the Secretary finds that the State has failed without good cause to meet any of the Secretary's standards or has failed without good cause to carry out the approved State management and administration plan under subsection (n) of this section, the Secretary may withhold from the State such funds authorized under this subsection as the Secretary determines to be appropriate.

(3) To provide for adequate nutritional and food quality monitoring, and to further the implementation of the program, an additional amount, not to exceed the lesser of actual costs or 1 percent of program funds, shall be made available by the Secretary to States to pay for State or local health department inspections, and to reinspect facilities and deliveries to test meal quality.

(l) Food service management companies; sub-contracts; assignments, conditions and limitations; meal capacity information in bids subject to review; registration; record, availability to States; small and minority-owned businesses for supplies and services; contracts: standard form, bid and contract procedures, bonding requirements and exemption, review by States, collusive bidding safeguards

(1) Service institutions may contract on a competitive basis with food service management companies for the furnishing of meals or management of the entire food service under the program, except that a food service management company entering into a contract with a service institution under this section may not subcontract with a single company for the total meal, with or without milk, or for the assembly of the meal. The Secretary shall prescribe additional conditions and limitations governing assignment of all or any part of a contract entered into by a food service management company under this section. Any food service management company shall, in its bid, provide the service institution information as to its meal capacity.

(2) Each State may provide for the registration of food service management companies.

(3) In accordance with regulations issued by the Secretary, positive efforts shall be made by service institutions to use small businesses and minority-owned businesses as sources of supplies and services. Such efforts shall afford those sources the maximum feasible opportunity to compete for contracts using program funds.

(4) Each State, with the assistance of the Secretary, shall establish a standard form of contract for use by service institutions and food service management companies. The Secretary shall prescribe requirements governing bid and contract procedures for acquisition of the services of food service management companies, including, but not limited to, bonding requirements (which may provide exemptions applicable to contracts of \$100,000 or less), procedures for review of contracts by States, and safeguards to prevent collusive bidding activities between service institutions and food service management companies.

(m) Accounts and records

States and service institutions participating in programs under this section shall keep such accounts and records as may be necessary to enable the Secretary to determine whether there has been compliance with this section and the regulations issued hereunder. Such accounts and records shall be available at any reasonable time for inspection and audit by representatives of the Secretary and shall be preserved for such period of time, not in excess of five years, as the Secretary determines necessary.

(n) Management and administration plan; notification and submittal to Secretary; specific provisions

(o) Violations and penalties

(1) Whoever, in connection with any application, procurement, recordkeeping entry, claim for reimbursement, or other document or statement made in connection with the program, knowingly and willfully falsifies, conceals, or covers up by any trick, scheme, or device a material fact, or makes any false, fictitious, or fraudulent statements or representations, or makes or uses any false writing or document knowing the same to contain any false, fictitious, or fraudulent statement or entry, or whoever, in connection with the program, knowingly makes an opportunity for any person to defraud the United States, or does or omits to do any act with intent to enable any person to defraud the United States, shall be fined not more than \$10,000 or imprisoned not more than five years, or both.

(3) If two or more persons conspire or collude to accomplish any act made unlawful under this subsection, and one or more of such persons do any act to effect the object of the conspiracy or collusion, each shall be fined not more than \$10,000 or imprisoned for not more than five years, or both.

(p) Monitoring of participating private nonprofit organizations

(1) In addition to the normal monitoring of organizations receiving assistance under this section, the Secretary shall establish a system under which the Secretary and the States shall

monitor the compliance of private nonprofit organizations with the requirements of this section and with regulations issued to implement this section.

(2) In the fiscal year 1990 and each succeeding fiscal year, the Secretary may reserve for purposes of carrying out paragraph (1) not more than ½ of 1 percent of amounts appropriated for purposes of carrying out this section.

(q) Termination and disqualification of participating organizations

(1) In general

Each State agency shall follow the procedures established by the Secretary for the termination of participation of institutions under the program.

(2) Fair hearing

The procedures described in paragraph (1) shall include provision for a fair hearing and prompt determination for any service institution aggrieved by any action of the State agency that affects—
