

viewable by any Federal, State, or other court. Review of a housing strategy by any Federal, State, or other court shall be limited to determining whether the process of development and the content of the strategy are in substantial compliance with the requirements of this Act. During the pendency of any action challenging the adequacy of a housing strategy or the action of the Secretary in approving a strategy, the court shall not have the authority to enjoin activities taken by the jurisdiction to implement an approved housing strategy. Any housing assisted during the pendency of such action shall not be subject to any order of the court resulting from such action.

### § 12709. Energy efficiency standards

#### (a) Establishment

##### (1) In general

The Secretary of Housing and Urban Development and the Secretary of Agriculture shall, not later than September 30, 2006, jointly establish, by rule, energy efficiency standards for—

(A) new construction of public and assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured under the National Housing Act [12 U.S.C. 1701 et seq.];

(B) new construction of single family housing (other than manufactured homes) subject to mortgages insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 [42 U.S.C. 1471 et seq.]; and

(C) rehabilitation and new construction of public and assisted housing funded by HOPE VI revitalization grants under section 1437v of this title.

##### (2) Contents

Such standards shall meet or exceed the requirements of the 2006 International Energy Conservation Code (hereafter in this section referred to as “the 2006 IECC”), or, in the case of multifamily high rises, the requirements of the American Society of Heating, Refrigerating, and Air-Conditioning Engineers Standard 90.1-2004 (hereafter in this section referred to as “ASHRAE Standard 90.1-2004”), and shall be cost-effective with respect to construction and operating costs on a life-cycle cost basis. In developing such standards, the Secretaries shall consult with an advisory task force com-

posed of homebuilders, national, State, and local housing agencies (including public housing agencies), energy agencies, building code organizations and agencies, energy efficiency organizations, utility organizations, low-income housing organizations, and other parties designated by the Secretaries.

#### (b) International Energy Conservation Code

If the Secretaries have not, by September 30, 2006, established energy efficiency standards under subsection (a) of this section, all new construction and rehabilitation of housing specified in such subsection shall meet the requirements of the 2006 IECC, or, in the case of multifamily high rises, the requirements of ASHRAE Standard 90.1-2004.

#### (c) Revisions of the International Energy Conservation Code

If the requirements of the 2006 IECC, or, in the case of multifamily high rises, ASHRAE Standard 90.1-2004, are revised at any time, the Secretaries shall, not later than 1 year after such revision, amend the standards established under subsection (a) of this section to meet or exceed the requirements of such revised code or standard unless the Secretaries determine that compliance with such revised code or standard would not result in a significant increase in energy efficiency or would not be technologically feasible or economically justified.

#### (d) Failure to amend the standards

If the Secretary of Housing and Urban Development and the Secretary of Agriculture have not, within 1 year after the requirements of the 2006 IECC or the ASHRAE Standard 90.1-2004 are revised, amended the standards or made a determination under subsection (c), all new construction and rehabilitation of housing specified in subsection (a) shall meet the requirements of the revised code or standard if—

(1) the Secretary of Housing and Urban Development or the Secretary of Agriculture make a determination that the revised codes do not negatively affect the availability or affordability of new construction of assisted housing and single family and multifamily residential housing (other than manufactured homes) subject to mortgages insured under the National Housing Act (12 U.S.C. 1701 et seq.) or insured, guaranteed, or made by the Secretary of Agriculture under title V of the Housing Act of 1949 (42 U.S.C. 1471 et seq.), respectively; and

(2) the Secretary of Energy has made a determination under section 6833 of this title that the revised code or standard would improve energy efficiency.
