“(2) a description of the strategy or alternative strategies of distribution which could reasonably be used to respond to each situation described under paragraph (1), together with the theory and justification underlying each such strategy.

The description of each strategy under paragraph (2) shall include an explanation of the methods which would likely be used to determine the price and distribution of petroleum products from the Reserve in any such distribution, and an explanation of the disposition of revenues arising from sales of any such petroleum products under the strategy.
