

(3) The term “new oil” means any oil which has been refined from crude oil and has not been used, and which may or may not contain additives. Such term does not include used oil or recycled oil.

(4) The term “manufacturer” means any person who re-refines or otherwise processes used oil to remove physical or chemical impurities acquired through use or who blends such re-refined or otherwise processed used oil with new oil or additives.

(5) The term “Commission” means the Federal Trade Commission.

(c) Test procedures for determining substantial equivalency of recycled oil and new oil

As soon as practicable after December 22, 1975, the National Institute of Standards and Technology shall develop test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with new oil for a particular end use. As soon as practicable after development of such test procedures, the National Institute of Standards and Technology shall report such procedures to the Commission.

(d) Promulgation of rules prescribing test procedures and labeling standards

(1)(A) Within 90 days after the date on which the Commission receives the report under subsection (c) of this section, the Commission shall, by rule, prescribe—

(i) test procedures for the determination of substantial equivalency of re-refined or otherwise processed used oil or blend of oil, consisting of such re-refined or otherwise processed used oil and new oil or additives, with new oil distributed for a particular end use; and

(ii) labeling standards applicable to containers of recycled oil in order to carry out the purposes of this section.

(B) Such labeling standards shall permit any container of recycled oil to bear a label indicating any particular end use for which a determination of substantial equivalency has been made pursuant to subparagraph (A)(i).

(2) Not later than the expiration of such 90-day period, the Administrator of the Environmental Protection Agency shall, by rule, prescribe labeling standards applicable to containers of new oil, used oil, and recycled oil relating to the proper disposal of such oils after use. Such standards shall be designed to reduce, to the maximum extent practicable, environmental hazards and wasteful practices associated with the disposal of such oils after use.

(e) Labeling standards

Beginning on the effective date of the standards prescribed pursuant to subsection (d)(1)(A) of this section—

(1) no rule or order of the Commission, other than the rules required to be prescribed pursuant to subsection (d)(1)(A) of this section, and no law, regulation, or order of any State or political subdivision thereof may apply, or remain applicable, to any container of recycled oil, if such law, regulation, rule, or order requires any container of recycled oil, which

container bears a label in accordance with the terms of the rules prescribed under subsection (d)(1)(A) of this section, to bear any label with respect to the comparative characteristics of such recycled oil with new oil which is not identical to that permitted by the rule respecting labeling standards prescribed under subsection (d)(1)(A)(ii) of this section; and

(2) no rule or order of the Commission may require any container of recycled oil to also bear a label containing any term, phrase, or description which connotes less than substantial equivalency of such recycled oil with new oil.

(f) Conformity of acts of Federal officials to Commission rules

After the effective date of the rules required to be prescribed under subsection (d)(1)(A) of this section, all Federal officials shall act within their authority to carry out the purposes of this section, including—

(1) revising procurement policies to encourage procurement of recycled oil for military and nonmilitary Federal uses whenever such recycled oil is available at prices competitive with new oil procured for the same end use; and

(2) educating persons employed by Federal and State governments and private sectors of the economy of the merits of recycled oil, the need for its use in order to reduce the drain on the Nation’s oil reserves, and proper disposal of used oil to avoid waste of such oil and to minimize environmental hazards associated with improper disposal.

(Pub. L. 94-163, title III, §383, Dec. 22, 1975, 89 Stat. 940; Pub. L. 100-418, title V, §5115(c), Aug. 23, 1988, 102 Stat. 1433.)

AMENDMENTS

1988—Subsec. (c). Pub. L. 100-418 substituted “National Institute of Standards and Technology” for “National Bureau of Standards” in two places.

APPLICABILITY OF LABELING STANDARDS

Pub. L. 96-463, §4(c), Oct. 15, 1980, 94 Stat. 2056, provided: “Before the effective date of the labeling standards required to be prescribed under section 383(d)(1)(A) of the Energy Policy and Conservation Act [subsec. (d)(1)(A) of this section], no requirement of any rule or order of the Federal Trade Commission may apply, or remain applicable, to any container of recycled oil (as defined in section 383(b) of such Act [subsec. (b) of this section]) if such requirement provides that the container must bear any label referring to the fact that it has been derived from previously used oil. Nothing in this subsection [this note] shall be construed to affect any labeling requirement applicable to recycled oil under any authority of law to the extent such requirement relates to fitness for intended use or any other performance characteristic of such oil or to any characteristic of such oil other than that referred to in the preceding sentence.”

PART E—ENERGY CONSERVATION PROGRAM FOR SCHOOLS AND HOSPITALS

CODIFICATION

This part was, in the original, designated part G and has been changed to part E for purposes of codification.

§ 6371. Definitions

For the purposes of this part—

(1) The term “building” means any structure the construction of which was completed on or before May 1, 1989, which includes a heating or cooling system, or both.

(2) The term “energy conservation measure” means an installation or modification of an installation in a building which is primarily intended to maintain or reduce energy consumption and reduce energy costs or allow the use of an alternative energy source, including, but not limited to—

(A) insulation of the building structure and systems within the building;

(B) storm windows and doors, multiglazed windows and doors, heat absorbing or heat reflective glazed and coated windows and door systems, additional glazing, reductions in glass area, and other window and door system modifications;

(C) automatic energy control systems and load management systems;

(D) equipment required to operate variable steam, hydraulic, and ventilating systems adjusted by automatic energy control systems;

(E) solar space heating or cooling systems, solar electric generating systems, or any combination thereof;

(F) solar water heating systems;

(G) furnace or utility plant and distribution system modifications including—

(i) replacement burners, furnaces, boilers, or any combination thereof, which substantially increases the energy efficiency of the heating system,

(ii) devices for modifying flue openings which will increase the energy efficiency of the heating system,

(iii) electrical or mechanical furnace ignition systems which replace standing gas pilot lights, and

(iv) utility plant system conversion measures including conversion of existing oil- and gas-fired boiler installations to alternative energy sources, including coal;

(H) caulking and weatherstripping;

(I) replacement or modification of lighting fixtures which replacement or modification increases the energy efficiency of the lighting system without increasing the overall illumination of a facility (unless such increase in illumination is necessary to conform to any applicable State or local building code or, if no such code applies, the increase is considered appropriate by the Secretary);

(J) energy recovery systems;

(K) cogeneration systems which produce steam or forms of energy such as heat, as well as electricity for use primarily within a building or a complex of buildings owned by a school or hospital and which meet such fuel efficiency requirements as the Secretary may by rule prescribe;

(L) such other measures as the Secretary identifies by rule for purposes of this part; and

(M) such other measures as a grant applicant shows will save a substantial amount of energy and as are identified in an energy audit prescribed pursuant to section 6325(e)(2) of this title.

(3) The term “hospital” means a public or non-profit institution which is—

(A) a general hospital, tuberculosis hospital, or any other type of hospital, other than a hospital furnishing primarily domiciliary care; and

(B) duly authorized to provide hospital services under the laws of the State in which it is situated.

(4) The term “hospital facilities” means buildings housing a hospital and related facilities, including laboratories, outpatient departments, nurses’ home and training facilities and central service facilities operated in connection with a hospital, and also includes buildings housing education or training facilities for health professions personnel operated as an integral part of a hospital.

(5) The term “public or nonprofit institution” means an institution owned and operated by—

(A) a State, a political subdivision of a State or an agency or instrumentality of either, or

(B) an organization exempt from income tax under section 501(c)(3) of title 26.

(6) The term “school” means a public or non-profit institution which—

(A) provides, and is legally authorized to provide, elementary education or secondary education, or both, on a day or residential basis;

(B)(i) provides, and is legally authorized to provide a program of education beyond secondary education, on a day or residential basis;

(ii) admits as students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such certificate;

(iii) is accredited by a nationally recognized accrediting agency or association; and

(iv) provides an educational program for which it awards a bachelor’s degree or higher degree or provides not less than a two-year program which is acceptable for full credit toward such a degree at any institution which meets the requirements of clauses (i), (ii), and (iii) and which provides such a program;

(C) provides not less than a one-year program of training to prepare students for gainful employment in a recognized occupation and which meets the provisions of clauses (i), (ii), and (iii) of subparagraph (B); or

(D) is a local educational agency.

(7) The term “local education agency” means a public board of education or other public authority or a nonprofit institution legally constituted within, or otherwise recognized by, a State for either administrative control or direction of, or to perform administrative services for, a group of schools within a State.

(8) The term “school facilities” means buildings housing classrooms, laboratories, dormitories, administrative facilities, athletic facilities, or related facilities operated in connection with a school.

(9) The term “State” means, in addition to the several States of the Union, the District of Columbia, Puerto Rico, Guam, American Samoa, the Northern Mariana Islands, and the Virgin Islands.

(10) The term “State energy agency” means the State agency responsible for developing State energy conservation plans pursuant to

section 6322 of this title, or, if no such agency exists, a State agency designated by the Governor of such State to prepare and submit a State plan under section 6371c of this title.

(11) The term “State school facilities agency” means an existing agency which is broadly representative of public institutions of higher education, nonprofit institutions of higher education, public elementary and secondary schools, nonprofit elementary and secondary schools, public vocational education institutions, nonprofit vocational education institutions, and the interests of handicapped persons, in a State or, if no such agency exists, an agency which is designated by the Governor of such State which conforms to the requirements of this paragraph.

(12) The term “State hospital facilities agency” means an existing agency which is broadly representative of the public hospitals and the nonprofit hospitals, or, if no such agency exists, an agency designated by the Governor of such State which conforms to the requirements of this paragraph.

(13) The term “energy audit” means a determination of the energy consumption characteristics of a building which—

(A) identifies the type, size, and rate of energy consumption of such building and the major energy using systems of such building;

(B) determines appropriate energy conservation maintenance and operating procedures; and

(C) indicates the need, if any, for the acquisition and installation of energy conservation measures.

(14) The term “preliminary energy audit” means a determination of the energy consumption characteristics of a building, including the size, type, rate of energy consumption and major energy-using systems of such building.

(15) The term “energy conservation project” means—

(A) an undertaking to acquire and to install one or more energy conservation measures in school or hospital facilities and

(B) technical assistance in connection with any such undertaking and technical assistance as described in paragraph (17)(A).

(16) The term “energy conservation project costs” includes only costs incurred in the design, acquisition, construction, and installation of energy conservation measures and technical assistance costs.

(17) The term “technical assistance” means assistance, under rules promulgated by the Secretary, to States, schools, and hospitals—

(A) to conduct specialized studies identifying and specifying energy savings or energy cost savings that are likely to be realized as a result of (i) modification of maintenance and operating procedures in a building, or (ii) the acquisition and installation of one or more specified energy conservation measures in such building, or (iii) both, and

(B) the planning or administration of specific remodeling, renovation, repair, replacement, or insulation projects related to the installation of energy conservation measures in such building.

(18) The term “technical assistance costs” means costs incurred for the use of existing personnel or the temporary employment of other qualified personnel (or both such types of personnel) necessary for providing technical assistance.

(19) The term “energy conservation maintenance and operating procedure” means modification or modifications in the maintenance and operations of a building, and any installations therein, which are designed to reduce energy consumption in such building and which require no significant expenditure of funds.

(20) The term “Secretary” means the Secretary of Energy or his designee.

(21) The term “Governor” means the chief executive officer of a State or his designee.

(Pub. L. 94-163, title III, § 391, as added Pub. L. 95-619, title III, § 302(a), Nov. 9, 1978, 92 Stat. 3239; amended Pub. L. 98-454, title VI, § 601(e), Oct. 5, 1984, 98 Stat. 1736; Pub. L. 99-514, § 2, Oct. 22, 1986, 100 Stat. 2095; Pub. L. 101-440, § 6(b), Oct. 18, 1990, 104 Stat. 1011; Pub. L. 105-388, § 5(a)(9), Nov. 13, 1998, 112 Stat. 3478.)

AMENDMENTS

1998—Par. (2)(B). Pub. L. 105-388 substituted a semicolon for period at end.

1990—Par. (1). Pub. L. 101-440, § 6(b)(1), substituted “May 1, 1989” for “April 20, 1977”.

Par. (2). Pub. L. 101-440, § 6(b)(2), (3), in introductory provision substituted “maintain or reduce energy consumption and reduce energy costs” for “reduce energy consumption” and in subpar. (C) inserted “and load management systems” after “systems”.

Par. (8). Pub. L. 101-440, § 6(b)(4), inserted “administrative facilities,” after “dormitories.”

Par. (17)(A). Pub. L. 101-440, § 6(b)(5), substituted “or energy cost savings” for “and related cost savings”.

1986—Par. (5)(B). Pub. L. 99-514 substituted “Internal Revenue Code of 1986” for “Internal Revenue Code of 1954”, which for purposes of codification was translated as “title 26” thus requiring no change in text.

1984—Par. (9). Pub. L. 98-454 which directed the amendment of subsec. (a) by inserting reference to the Northern Mariana Islands was executed to par. (9) of this section to reflect the probable intent of Congress, because this section does not contain a subsec. (a).

SEPARABILITY

Pub. L. 95-619, title III, § 302(c), Nov. 9, 1978, 92 Stat. 3248, provided that: “If any provision of this title [enacting sections 6371 to 6371j and section 6372 to 6372i of this title, amending sections 300k-2 and 300n-1 of this title, and enacting provisions set out as notes under this section and section 6372 of this title] or the application thereof to any person or circumstances be held invalid, the provisions of other sections of this title and their application to other persons or circumstances shall not be affected thereby.”

CONGRESSIONAL STATEMENT OF FINDINGS AND PURPOSES

Pub. L. 95-619, title III, § 301, Nov. 9, 1978, 92 Stat. 3238, provided:

“(a) FINDINGS.—The Congress finds that—

“(1) the Nation’s nonrenewable energy resources are being rapidly depleted;

“(2) schools and hospitals are major consumers of energy, and have been especially burdened by rising energy prices and fuel shortages;

“(3) substantial energy conservation can be achieved in schools and hospitals through the implementation of energy conservation maintenance and operating procedures and the installation of energy conservation measures; and

“(4) public and nonprofit schools and hospitals in many instances need financial assistance in order to make the necessary improvements to achieve energy conservation.

“(b) PURPOSE.—It is the purpose of this part [part 1 (§§301-303) of title III of Pub. L. 95-619, enacting sections 6371 to 6371i of this title, amending sections 300k-2 and 300m-1 of this title, and enacting provisions set out as notes under this section] to authorize grants to States and to public and nonprofit schools and hospitals to assist them in identifying and implementing energy conservation maintenance and operating procedures and in evaluating, acquiring, and installing energy conservation measures to reduce the energy use and anticipated energy costs of schools and hospitals.”

§ 6371a. Guidelines

(a) Energy audits

The Secretary shall, by rule, not later than 60 days after November 9, 1978—

(1) prescribe guidelines for the conduct of preliminary energy audits, including a description of the type, number, and distribution of preliminary energy audits of school and hospital facilities that will provide a reasonably accurate evaluation of the energy conservation needs of all such facilities in each State, and

(2) prescribe guidelines for the conduct of energy audits.

(b) State plans for implementation of energy conservation projects in schools and hospitals

The Secretary shall, by rule, not later than 90 days after November 9, 1978, prescribe guidelines for State plans for the implementation of energy conservation projects in schools and hospitals. The guidelines shall include—

(1) a description of the factors which the State energy agency may consider in determining which energy conservation projects will be given priority in making grants pursuant to this part, including such factors as cost, energy consumption, energy savings, and energy conservation goals,

(2) a description of the suggested criteria to be used in establishing a State program to identify persons qualified to implement energy conservation projects, and

(3) a description of the types of energy conservation measures deemed appropriate for each region of the Nation.

(c) Revisions

Guidelines prescribed under this section may be revised from time to time after notice and opportunity for comment.

(d) Determination of severe hardship class for schools and hospitals

The Secretary shall, by rule prescribe criteria for determining schools and hospitals which are in a class of severe hardship. Such criteria shall take into account climate, fuel costs, fuel availability, ability to provide the non-Federal share of the costs, and such other factors that he deems appropriate.

(Pub. L. 94-163, title III, §392, as added Pub. L. 95-619, title III, §302(a), Nov. 9, 1978, 92 Stat. 3242.)

§ 6371b. Preliminary energy audits and energy audits

(a) Application by Governor

The Governor of any State may apply to the Secretary at such time as the Secretary may specify after promulgation of guidelines under section 6371a(a) of this title for grants to conduct preliminary energy audits and energy audits of school facilities and hospital facilities in such State under this part.

(b) Grants for conduct of preliminary energy audits

Upon application under subsection (a) of this section the Secretary may make grants to States for purposes of conducting preliminary energy audits of school facilities and hospital facilities under this part in accordance with the guidelines prescribed under section 6371a(a)(1) of this title. If a State does not conduct preliminary energy audits within two years after November 9, 1978, the Secretary may conduct such audits within such State.

(c) Grants for conduct of energy audits

Upon application under subsection (a) of this section the Secretary may make grants to States for purposes of conducting energy audits of school facilities and hospital facilities under this part in accordance with the guidelines prescribed under section 6371a(a)(2) of this title.

(d) Audits conducted prior to grant of financial assistance

If a State without the use of financial assistance under this section, conducts preliminary energy audits or energy audits which comply with the guidelines prescribed by the Secretary or which are approved by the Secretary the funds allocated for purposes of this section shall be added to the funds available for energy conservation projects for such State and shall be in addition to amounts otherwise available for such purposes.

(e) Restriction on use of funds; grant covering total cost of energy audits

(1) Except as provided in paragraph (2), amounts made available under this section (together with any other amounts made available from other Federal sources) may not be used to pay more than 50 percent of the costs of any preliminary energy audit or any energy audit.

(2) Upon the request of the Governor, the Secretary may make grants to a State for up to 100 percent of the costs of any preliminary energy audits and energy audits, subject to the requirements of section 6371g(a)(3) of this title.

(Pub. L. 94-163, title III, §393, as added Pub. L. 95-619, title III, §302(a), Nov. 9, 1978, 92 Stat. 3242.)

§ 6371c. State plans

(a) Invitation to State energy agency to submit plan; contents

The Secretary shall invite the State energy agency of each State to submit, within 90 days after the effective date of the guidelines prescribed pursuant to section 6371a of this title, or such longer period as the Secretary may, for
