

(g) Alaska Native Fund payments; cessation; reimbursement for advance payments

The payments required by this section shall continue only until a sum of \$500,000,000 has been paid into the Alaska Native Fund less the total of advance payments paid into the Alaska Native Fund pursuant to section 407 of the Trans-Alaska Pipeline Authorization Act. Thereafter, payments which would otherwise go into the Alaska Native Fund will be made to the United States Treasury as reimbursement for the advance payments authorized by section 407 of the Trans-Alaskan Pipeline Authorization Act. The provisions of this section shall no longer apply, and the reservation required in patents under this section shall be of no further force and effect, after a total sum of \$500,000,000 has been paid to the Alaska Native Fund and to the United States Treasury pursuant to this subsection.

(h) Final payment; order of computation

When computing the final payment into the Fund the respective shares of the United States and the State with respect to payments to the Fund required by this section shall be determined pursuant to this subsection and in the following order:

- (1) first, from sources identified under subsections (b) and (c) hereof; and
- (2) then, from sources identified under subsection (d) hereof.

(i) Outer Continental Shelf mineral revenues; provisions of section inapplicable

The provisions of this section do not apply to mineral revenues received from the Outer Continental Shelf.

AMENDMENTS

1973—Subsec. (g). Pub. L. 93-153 inserted provisions covering advance payments into the Alaska Native Fund pursuant to section 407 of the Trans-Alaska Pipeline Authorization Act and the reimbursement of the United States Treasury for payments made.

ADVANCE PAYMENTS TO ALASKA NATIVES UNTIL COMMENCEMENT OF DELIVERIES OF NORTH SLOPE CRUDE OIL TO PIPELINE

Section 407(a) of Pub. L. 93-153 authorized \$5,000,000 to be paid from the United States Treasury to the Alaska Native Fund every six months of each fiscal year beginning with the fiscal year ending June 30, 1976, as ad-

vance payments chargeable against revenues paid under this section until delivery of North Slope crude oil to a pipeline commenced.

§ 1609. Limitation of actions**(a) Complaint, time for filing; jurisdiction; commencement by State official; certainty and finality of vested rights, titles, and interests**

Notwithstanding any other provision of law, any civil action to contest the authority of the United States to legislate on the subject matter or the legality of this chapter shall be barred unless the complaint is filed within one year of December 18, 1971, and no such action shall be entertained unless it is commenced by a duly authorized official of the State. Exclusive jurisdiction over such action is hereby vested in the United States District Court for the District of Alaska. The purpose of this limitation on suits is to insure that, after the expiration of a reasonable period of time, the right, title, and interest of the United States, the Natives, and the State of Alaska will vest with certainty and finality and may be relied upon by all other persons in their relations with the State, the Natives, and the United States.

(b) Land selection; suspension and extension of rights

In the event that the State initiates litigation or voluntarily becomes a party to litigation to contest the authority of the United States to legislate on the subject matter or the legality of this chapter, all rights of land selection granted to the State by the Alaska Statehood Act shall be suspended as to any public lands which are determined by the Secretary to be potentially valuable for mineral development, timber, or other commercial purposes, and no selections shall be made, no tentative approvals shall be granted, and no patents shall be issued for such lands during the pendency of such litigation. In the event of such suspension, the State's right of land selection pursuant to section 6 of the Alaska Statehood Act shall be extended for a period of time equal to the period of time the selection right was suspended.

(2) Within two and one-half years from December 18, 1971, the Secretary shall review all of the villages listed in subsection (b)(1) hereof, and a village shall not be eligible for land benefits under section 1613(a) and (b) of this title, and any withdrawal for such village shall expire, if the Secretary determines that—

(A) less than twenty-five Natives were residents of the village on the 1970 census enumeration date as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance; or

(B) the village is of a modern and urban character, and the majority of the residents are non-Native.

Any Native group made ineligible by this subsection shall be considered under section 1613(h) of this title.

(3) Native villages not listed in subsection (b)(1) hereof shall be eligible for land and benefits under this chapter and lands shall be withdrawn pursuant to this section if the Secretary within two and one-half years from December 18, 1971, determines that—

(A) twenty-five or more Natives were residents of an established village on the 1970 census enumeration date as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance; and

§ 1611. Native land selections

(a) Acreage limitation; proximity of selections and size of sections and units; waiver

(1) During a period of three years from December 18, 1971, the Village Corporation for each Native village identified pursuant to section 1610 of this title shall select, in accordance with rules established by the Secretary, all of the township or townships in which any part of the village is located, plus an area that will make the total selection equal to the acreage to which the village is entitled under section 1613 of this title. The selection shall be made from lands withdrawn by section 1610(a) of this title: *Provided*, That no Village Corporation may select more than 69,120 acres from lands withdrawn by section 1610(a)(2) of this title, and not more than 69,120 acres from the National Wildlife Refuge System, and not more than 69,120 acres in a National Forest: *Provided further*, That when a Village Corporation selects the surface estate to lands within the National Wildlife Refuge System or Naval Petroleum Reserve Numbered 4, the Regional Corporation, for that region may select the subsurface estate in an equal acreage from other lands withdrawn in section 1610(a) of this title within the region, if possible.

(2) Selections made under this subsection (a) of this section shall be contiguous and in reasonably compact tracts, except as separated by bodies of water or by lands which are unavailable for selection, and shall be in whole sections and, wherever feasible, in units of not less than 1,280 acres: *Provided*, That the Secretary in his discretion and upon the request of the concerned Village Corporation, may waive the whole section requirement where—

(A)(i) a portion of available public lands of a section is separated from other available public lands in the same section by lands unavailable for selection or by a meanderable body of water;

(ii) such waiver will not result in small isolated parcels of available public land remaining after conveyance of selected lands to Native Corporations; and

(iii) such waiver would result in a better land ownership pattern or improved land or resource management opportunity; or

(B) the remaining available public lands in the section have been selected and will be conveyed to another Native Corporation under this chapter.

(b) Allocation; reallocation considerations

The difference between twenty-two million acres and the total acreage selected by Village Corporations pursuant to subsection (a) of this section shall be allocated by the Secretary among the eleven Regional Corporations (which excludes the Regional Corporation for southeastern Alaska) on the basis of the number of Natives enrolled in each region. Each Regional Corporation shall, not later than October 1, 2005, reallocate such acreage among the Native villages within the region on an equitable basis after considering historic use, subsistence needs, and population. The action of the Secretary or the Corporation shall not be subject to judicial review. Each Village Corporation shall select the acreage allocated to it from the lands withdrawn by section 1610(a) of this title.

(c) Computation

The difference between thirty-eight million acres and the 22 million acres selected by Village Corporations pursuant to subsections (a) and (b) of this section shall be allocated among the eleven Regional Corporations (which excludes the Regional Corporation for southeastern Alaska) as follows:

(1) The number of acres each Regional Corporation is entitled to receive shall be computed (A) by determining on the basis of available data the percentages of all land in Alaska (excluding the southeastern region) that is within each of the eleven regions, (B) by applying that percentage to thirty-eight million acres reduced by the acreage in the southeastern region that is to be selected pursuant to section 1615 of this title, and (C) by deducting from the figure so computed the number of acres within that region selected pursuant to subsections (a) and (b) of this section.

(2) In the event that the total number of acres selected within a region pursuant to subsections (a) and (b) of the section exceeds the percentage of the reduced thirty-eight million acres allotted to that region pursuant to subsection (c)(1)(B) of this section, that region shall not be entitled to receive any lands under this subsection (c). For each region so affected the difference between the acreage calculated pursuant to subsection (c)(1)(B) of this section and the acreage selected pursuant to subsections (a) and (b) of this section shall be deducted from the acreage calculated under subsection (c)(1)(C) of this section for the remaining regions which will select lands under this subsection (c). The reductions shall be apportioned among the remaining regions so that each region's share of the total reduction bears the same proportion to the total reduction as the total land area in that region (as calculated pursuant to subsection (c)(1)(A) of this section¹ bears to the total land area in all
