

these reasons, a strong Chief Financial Officer is needed within the Department both to consolidate financial management operations, and to insure that management control systems are comprehensively designed to achieve the mission and execute the strategy of the Department.

“(4) The provisions of law enacted by the Chief Financial Officers Act of 1990 require agency Chief Financial Officers to improve the financial information available to agency managers and the Congress. Those provisions also specify that agency financial management systems must provide for the systematic measurement of performance. In the case of the Department of Homeland Security, therefore, it is vitally important that management control systems be designed with a clear view of a homeland security strategy, including the priorities of the Department in addressing those risks of terrorism deemed most significant based upon a comprehensive assessment of potential threats, vulnerabilities, criticality, and consequences. For this reason, Federal law should be amended to clearly state the responsibilities of the Chief Financial Officer of the Department of Homeland Security to provide management control information, for the benefit of managers within the Department and to help inform the Congress, that permits an assessment of the Department’s performance in executing a homeland security strategy.”

§ 343. Chief Information Officer

(a) In general

The Chief Information Officer shall report to the Secretary, or to another official of the Department, as the Secretary may direct.

(b) Geospatial information functions

(1) Definitions

As used in this subsection:

(A) Geospatial information

The term “geospatial information” means graphical or digital data depicting natural or manmade physical features, phenomena, or boundaries of the earth and any information related thereto, including surveys, maps, charts, remote sensing data, and images.

(B) Geospatial technology

The term “geospatial technology” means any technology utilized by analysts, specialists, surveyors, photogrammetrists, hydrographers, geodesists, cartographers, architects, or engineers for the collection, storage, retrieval, or dissemination of geospatial information, including—

- (i) global satellite surveillance systems;
- (ii) global position systems;
- (iii) geographic information systems;
- (iv) mapping equipment;
- (v) geocoding technology; and
- (vi) remote sensing devices.

(2) Office of Geospatial Management

(A) Establishment

The Office of Geospatial Management is established within the Office of the Chief Information Officer.

(B) Geospatial Information Officer

(i) Appointment

The Office of Geospatial Management shall be administered by the Geospatial Information Officer, who shall be appointed

by the Secretary and serve under the direction of the Chief Information Officer.

(ii) Functions

The Geospatial Information Officer shall assist the Chief Information Officer in carrying out all functions under this section and in coordinating the geospatial information needs of the Department.

(C) Coordination of geospatial information

The Chief Information Officer shall establish and carry out a program to provide for the efficient use of geospatial information, which shall include—

- (i) providing such geospatial information as may be necessary to implement the critical infrastructure protection programs;
- (ii) providing leadership and coordination in meeting the geospatial information requirements of those responsible for planning, prevention, mitigation, assessment and response to emergencies, critical infrastructure protection, and other functions of the Department; and
- (iii) coordinating with users of geospatial information within the Department to assure interoperability and prevent unnecessary duplication.

(D) Responsibilities

In carrying out this subsection, the responsibilities of the Chief Information Officer shall include—

- (i) coordinating the geospatial information needs and activities of the Department;
- (ii) implementing standards, as adopted by the Director of the Office of Management and Budget under the processes established under section 216 of the E-Government Act of 2002 (44 U.S.C. 3501 note), to facilitate the interoperability of geospatial information pertaining to homeland security among all users of such information within—
 - (I) the Department;
 - (II) State and local government; and
 - (III) the private sector;
- (iii) coordinating with the Federal Geographic Data Committee and carrying out the responsibilities of the Department pursuant to Office of Management and Budget Circular A-16 and Executive Order 12906; and
- (iv) making recommendations to the Secretary and the Executive Director of the Office for State and Local Government Coordination and Preparedness on awarding grants to—
 - (I) fund the creation of geospatial data; and
 - (II) execute information sharing agreements regarding geospatial data with State, local, and tribal governments.

(3) Authorization of appropriations

There are authorized to be appropriated such sums as may be necessary to carry out this subsection for each fiscal year.
